

Data collection schedule

The calendar below illustrates the periods of key activity for each of the data streams collected by HESA and demonstrates the spread of activity across the reporting year (01 August- 31 July).

Please note that this calendar does not include any details relating to the different reporting requirements and deadlines for each of the collections. Further more detailed information on the schedules for each collection can be found within the timescales document for the relevant coding manual.

Note all data collections identified are retrospective in relation to the reporting period, apart from the in-year ITT collection.

1 st August 2011	• Start of HESA Reporting Year 2011/12
September 2011	• Student, Staff and Aggregate Offshore record collections 2010/11
October 2011	• ITT TDA census 2011/12
