

## Students in Higher Education Institutions 2008/09

Contains detailed analysis of the student dataset that HESA collects.

Much of the data is cross tabulated by institution and includes breakdowns by subject of study, level of study, mode of study, age, gender and much more. Data on ethnicity and disability are also included.

Students in Higher Education Institutions also contains tables which provide a comprehensive look at the qualifications obtained by students at all levels of higher education including class of first degree.

Analysis of overseas student numbers including country of domicile is featured alongside other student attributes.

Combined Book & CD  
£55 (plus £6.48 VAT)

Available spring 2010

## Resources of Higher Education Institutions 2008/09

Comprises data concerning academic staff and the finances of UK universities and HE colleges.

New for 2008/09 is the inclusion of HE Business and Community Interaction Survey data.

Staff data tabulations include details on gender, academic employment function, principal source of salary, and much more. Many of the tables are presented by institution. Data on non-academic staff is covered with breakdowns by Standard Occupational Classification group and gender.

Finance data includes general income and expenditure figures with breakdowns by source and category of spend. The tables can be used to examine income from funding council grants, tuition fees & education grants, research grants & contracts and endowment & investment income. Detail on how much universities and HE colleges spend on academic staff costs and the cost of depreciation is also included.

Combined Book & CD  
£55 (plus £6.48 VAT)

Available spring 2010

## Destinations of Leavers from Higher Education Institutions 2008/09

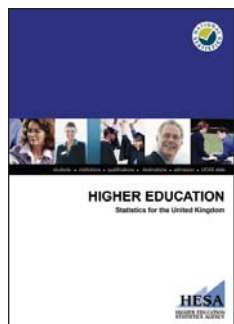

Provides information on the activities of students after leaving a higher education institution (HEI). The data is collected through a survey carried out approximately six months after students leave a HEI. Example information might include the type of work a leaver has entered or what sort of further study they may be engaged in.

Data in the destinations reference volume also includes the type of industry sector and occupation type that leavers enter and geographical distribution. Much of the data is also linked to data from the HESA Student Record allowing analysis of destinations by student attributes such as gender, subject of study and qualification obtained.

Combined Book & CD  
£55 (plus £6.48 VAT)

Available summer 2010

## Higher Education Statistics for the United Kingdom 2008/09

This is published in conjunction with the Government Statistical Service and is a National Statistics product. A wide variety of data is presented from all of HESA's data streams and other organisations. Much of the data is shown at sector level. This product serves as a quick reference guide to high-level data on all aspects of higher education in the UK.

Tables featuring applications and admissions data from the Universities and Colleges Admissions Service (UCAS), data from the Student Loans Company on student support provision and information on participation and graduate rates for 30 countries sourced from the Organisation for Economic Co-operation and Development (OECD) are also included.

Book  
£36

CD  
£39 (plus £6.83 VAT)

Available autumn 2010

## HE Planning Plus 2010

HE Planning Plus contains data relating to students, staff and finance. Data includes expenditure by cost centre and institution, student numbers by subject, level of study, age, academic staff by cost centre and research grants.

This CD is only available for institutional planning and research purposes. Institutions whose data is on the CD qualify for a discounted price.

To order this product, a Planning Plus order form must be completed and Terms and Conditions agreed. See our website [www.hesa.ac.uk/planning\\_plus](http://www.hesa.ac.uk/planning_plus) for details or contact Customer Services for assistance.

Institution CD  
£145 (plus £25.38 VAT)

Standard CD  
£280 (plus £49 VAT)

Available spring 2010

## HE Finance Plus 2008/09

This CD product contains the full finance statistics return for UK higher education institutions.

New for 2008/09 is the inclusion of HE Business and Community Interaction Survey data.

Data includes detailed income and expenditure analysis and balance sheet information. The most recent editions include key financial ratios.

Institutions whose data is on the CD qualify for a discounted price. The CD can only be delivered to the Institution address.

Institution CD  
£145 (plus £25.38VAT)

Standard CD  
£280 (plus £49 VAT)

## How to order

Order online at [www.hesa.ac.uk/publications](http://www.hesa.ac.uk/publications) or contact our Customer Services team:  
T 01242 211155 E [customer.services@hesa.ac.uk](mailto:customer.services@hesa.ac.uk).

If you regularly purchase HESA products and would like the convenience of paying by Standing Order, contact HESA Customers Services to setup.

## VAT rates

Printed products do not attract VAT and CD products attract VAT at the prevailing UK rate. Where products are sold as a combination of a book and a CD, only the CD part of the product is VAT chargeable. If you have any queries please call our Customer Services team.

## File formats

CD products, unless otherwise stated, are presented in HTML format (.htm extension), viewable using most internet browsers. All HTML files conform to W3C<sup>®</sup> specification for HTML version 4.01 Strict. Tables are presented in Microsoft Excel 2003<sup>®</sup> (.xls). Older editions use Excel version 5.

## Reference volume licences

Each Reference Volume CD is supplied with a five user licence for an unlimited period. For further licensing information and requests please contact a member of the Information Provision team on **01242 211133**.

## Release dates

In order to keep you up to date, HESA will endeavour to announce our publication dates in a timely manner;

1. Within 12 months of the proposed release date, we will advise the month of release
2. Four weeks before the planned release date we will confirm the exact date of release.

HESA reserves the right at all times to amend publication dates as necessary and will update the Publications schedule webpage accordingly.

## Information & Analysis Team

What if you can't find what you need in our published tables?

## Information Provision Team

HESA's Information Provision Service can answer specific queries and provide customised tabulations to meet your requirements.

We can supply detailed data tables sourced from the four main data streams currently held: students and qualifiers, destinations of leavers, staff and finance.

Data is available for each academic year from 1994/95. More information about data available can be found at [www.hesa.ac.uk/products/adhoc/](http://www.hesa.ac.uk/products/adhoc/).

## How can the data be supplied?

Data can be provided in a variety of formats. Small data tabulations will usually be supplied in a flat spreadsheet. Larger amounts of data can be supplied as ASCII text files (for import into a variety of software programs) or Microsoft<sup>®</sup> Excel PivotTables<sup>®</sup>.

PivotTables<sup>®</sup> can be used to quickly summarise large amounts of data. You can rotate rows and columns to see different summaries of the source data, filter the data according to your chosen criteria, or display various details for areas of specific interest.

## How do I order data?

To place a request for data you will need to fill in a Data Request Form which you can complete online or by contacting the team directly. We will then prepare a specification and quotation to cover the information you require.

Contact the Information Provision team on **01242 211133** or email us at [information.provision@hesa.ac.uk](mailto:information.provision@hesa.ac.uk)

## Analytical Services

For more in-depth analysis of HESA data, our dedicated **Analytical Services team** are on hand to offer assistance and advice. Email [analytical.services@hesa.ac.uk](mailto:analytical.services@hesa.ac.uk) or if you would prefer to talk to a member of the team call **01242 211115**.

## More information

Find out more information about our range of products, including full contents listings of all publications, by visiting our web site at [www.hesa.ac.uk/publications](http://www.hesa.ac.uk/publications).

To improve access to our data we have made earlier versions of many of our products available to download for free via our website [www.hesa.ac.uk/publications\\_archive](http://www.hesa.ac.uk/publications_archive). These currently include product years 1994/95 to 2002/03.
