| Valid Entries and Labels | 1 Entered HE via the SWAP 2 Entered HE via other access programme excluding SWAP   |  |

## **Additional support cost**

| Short Name          | ADDSUPCT  |  |  |
|---------------------|---|--|--|
| Туре                | field   |  |  |
| Description         | This field indicates the level of additional support the provider is claiming for the learner.  |  |  |
| Applicable to       | England   |  |  |
| Coverage            | All instances at institutions in England where <u>Instance.FESTUMK</u> = 1,3 or 4 and <u>Instance.REDUCEDI</u> = 00   |  |  |
| Base Data Type      | xs:nonNegativeInteger   |  |  |
| Field Length        | 6   |  |  |
| Part Of             | Instance  |  |  |
| Minimum Occurrences | 0   |  |  |
| Maximum Occurrences | 1   |  |  |
| Related Fields      | FESTUMK   |  |  |
| Reason Required     | For the management of additional financial support for students with learning difficulties and/or disabilities.   |  |  |
| Notes               | Where no additional support costs have been incurred zero should be returned.   |  |  |
|                     | The additional support costs correspond to the amount of extra resource identified by the institution as required to meet the needs of learners such as those with learning difficulties and/or disabilities per year.  |  |  |
|                     | Additional funding may be claimed where an institution provides additional support to a learner and the extra costs of doing so are above a threshold level.  |  |  |
|                     | Where a learner for whom additional support costs are incurred withdraws, the actual - not projected - support cost should be recorded.   |  |  |
|                     | Additional support is defined as any activity which provides direct support for learning to individual learners, which is over and above that which is normally provided in a standard learning programme which leads to their primary learning goal. The additional support is required to help learners gain access to, progress towards and successfully achieve their learning goals. The need for additional support may arise from a learning difficulty or disability or from literacy, numeracy or language support requirements. |  |  |
| Owner               | LSC   |  |  |
| Version             | 1.0   |  |  |
| Business rules      | 1 Error Instance.ADDSUPCT must exist for institutions in England where Instance.FESTUMK = 1, 3 or 4 and Instance.REDUCEDI = 00. 2 Error Instance.ADDSUPCT must not exist for institutions not in England. 3 Error Instance.ADDSUPCT must not exist for institutions in England where Instance.FESTUMK = 2.  |  |  |

### Amount of tuition fees received/expected for the student

| Short Name          | RECFEE  |  |  |
|---------------------|---|--|--|
| Туре                | field   |  |  |
| Description         | This field records the actual amount of tuition fees the institution expects to receive (or has received) for the student.  |  |  |
| Applicable to       | England   |  |  |
| Coverage            | All instances in England where <u>Instance.FESTUMK</u> = 1, 3 or 4 and where <u>Instance.REDUCEDI</u> = 00  |  |  |
| Base Data Type      | RECFEEType  |  |  |
| Field Length        | 5   |  |  |
| Part Of             | Instance  |  |  |
| Minimum Occurrences | 0   |  |  |
| Maximum Occurrences | 1   |  |  |
| Related Fields      | FESTUMK   |  |  |
| Reason Required     | To determine the extent of remission of fees in the sector.   |  |  |
| Examples            | Where a learning aim has tuition fees of £780 this would appear as 780.   |  |  |
| Notes               | Not applicable to economic cost recovery fees.  |  |  |
|                     | The length of this field is 5 characters, however the move to XML enables data to be returned with or without leading zeros, e.g. 00780 or 780  |  |  |
| Owner               | HESA  |  |  |
| Version             | 1.0   |  |  |
| Business rules      | 1 Error Instance.RECFEE must exist for institutions in England where Instance.FESTUMK = 1, 3 or 4 and Instance.REDUCEDI = 00.  2 Error Instance.RECFEE must not exist for institutions in Northern Ireland or Scotland.  3 Error Instance.RECFEE must not exist for institutions in England and Wales where Instance.FESTUMK = 2. |  |  |

#### **Articulation**

| Short Name          | ARTICLN   |  |  |
|---------------------|---|--|--|
| Туре                | field   |  |  |
| Description         | This field identifies whether a student has been admitted to the current instance with advanced standing; the advanced standing having been awarded on the basis of an HND/HNC qualification and the student has not previously studied at degree or post-graduate level  |  |  |
| Applicable to       | Scotland  |  |  |
| Coverage            | All entrants to institutions in Scotland where <a href="EntryProfile.DOMICILE">EntryProfile.DOMICILE</a> = XF, XG, XH, XI, XK, XL, GG, JE, IM and on courses where <a href="Course.COURSEAIM">Course.COURSEAIM</a> = M22, M26, H00, H11, H16, H18, H22, H23, H24, I00, I11, I16 and <a href="Instance.REDUCEDI">Instance.REDUCEDI</a> = 00 or 04 and <a href="Instance.COMDATE">Instance.COMDATE</a> is after 2007-07-31  |  |  |
| Base Data Type      | ARTICLNCodeType   |  |  |
| Field Length        | 1   |  |  |
| Part Of             | Entry profile   |  |  |
| Minimum Occurrences | 0   |  |  |
| Maximum Occurrences | 1   |  |  |
| Related Fields      | YRLLINST  |  |  |
| Reason Required     | To assess the effectiveness of measures to improve access to degree level study through recruitment to HNC/HND programmes in colleges; the student has to demonstrate that they are moving up, not sideways, i.e. no previous degree level study has taken place.   |  |  |
| Notes               | The information for this field should come from the institutions' admissions office and reflect the reasons why a student has been granted advanced standing i.e. is allowed to start part-way through the course. Usually this will be under formal articulation arrangements for the course, but any entry with advanced standing where the advanced standing was granted because of an HND/HNC qualification (including partial completion) and the student has never studied at degree level should be included.  Where previous qualifications/HE experience is not known some students may have to be asked a direct question along the lines of: "Have you ever started a degree level course before?" those answering yes would not be regarded as articulating for this field. The outcome of any previous study is not relevant to this particular field nor is whether the degree level study was before or after obtaining the HND/HNC. |  |  |
|                     | All first degree students should have one of the codes 1 to 8.  |  |  |
|                     | Code 7 'First degree level student who is/was not articulating in this programme' covers both students coming in with qualifications other than HND/HNC and also those who are coming in with those qualifications but who are excluded on the grounds of having previously started a course at degree level.   |  |  |

## **Bilingual ITT marker**

| Short Name               | ВІТТМ  |  |  |
|--------------------------|--|--|--|
| Туре                     | field  |  |  |
| Description              | This field is a one digit field giving details about whether the ITT course is bilingual.  |  |  |
| Applicable to            | NI Scotland Wales  |  |  |
| Coverage                 | All courses at institutions in Wales, Scotland and Northern Ireland where Course.TTCID = 1 or 2 and Course.REDUCEDC = 00, 01 or 04   |  |  |
| Base Data Type           | BITTMCodeType  |  |  |
| Field Length             | 1  |  |  |
| Part Of                  | Course   |  |  |
| Minimum Occurrences      | 0  |  |  |
| Maximum Occurrences      | 1  |  |  |
| Reason Required          | To indicate whether ITT is bilingual.  |  |  |
| Notes                    | <ul> <li>In this context:</li> <li>Bilingual means English/Welsh for institutions in Wales.</li> <li>Bilingual means English/Gaedhlig for institutions in Scotland.</li> <li>Bilingual means English/Irish for institutions in Northern Ireland.</li> </ul> For further guidance on the completion of this field please refer to HEFCW/SEETLLD/DEL.          |  |  |
| Owner                    | HESA   |  |  |
| Version                  | 1.0  |  |  |
| Business rules           | 1 Error Course.BITTM must exist for institutions in Wales, Northern Ireland or Scotland where Course.TTCID = 1 or 2 and Course.REDUCEDC = 00, 01 or 04.  2 Error Course.BITTM must not exist for institutions in Wales, Northern Ireland or Scotland where Course.TTCID does not = 1 or 2.  3 Error Course.BITTM must not exist for institutions in England. |  |  |
| Valid Entries and Labels | Course does not lead to a formal certificate of bilingual education nor is it designed to enable students to teach bilingually Course does not lead to a formal certificate in bilingual education but is designed to enable students to teach bilingually Course leads to a formal certificate of bilingual education                                       |  |  |

## **Campus identifier**

| Short Name          | CAMPID  |  |
|---------------------|---|--|
| Туре                | field   |  |
| Description         | This field identifies the campus with which a student instance is associated  |  |
| Applicable to       | England NI Scotland Wales   |  |
| Coverage            | All instances   |  |
| Base Data Type      | xs:string   |  |
| Field Length        | 1   |  |
| Part Of             | Instance  |  |
| Minimum Occurrences | 1   |  |
| Maximum Occurrences | 1   |  |
| Reason Required     | To allow breakdown by campus, and hence geographical location of study, for multi-campus institutions.  |  |
| Notes               | <ul> <li>A separate campus identifier should be used if a substantial number of students are studying on a campus at a substantial distance from where the main institution is based, such that it would be regarded as not being in the same city/town. Greater London can be treated as a single location. This is to facilitate analysis of geographic patterns of study.</li> <li>A separate campus identifier should be used when a merger takes place, to identify any merged institutions as separate campuses if they fit the criteria specified.</li> <li>Campus identifiers can only be used where a student can be associated with a single site. It is recognised that because of the flexibility of study patterns adopted by some institutions, it will be impossible to say categorically that some students are assigned to a particular campus.</li> <li>Although this field is compulsory, in the majority of cases, it will default to the generic value A indicating the entire institution or main campus.</li> <li>HEFCE expect separate campus identifiers for any part of the institution funded separately e.g. within 0151 London University (Institutes and activities)</li> <li>An institution that wishes separately to identify campuses may do so by using any alphanumeric character except for A in this field. Only those CAMPID codes submitted to HESA as part of the Campus Information System can be returned in this field.</li> </ul> |  |
| Owner               | HESA  |  |
| Version             | 1.0   |  |

## Change of mode date

| Short Name          | MCDATE  |  |
|---------------------|---|--|
| Туре                | field   |  |
| Description         | This field records the date when a postgraduate student formally moves from an active study mode to 'writing-up' ( <a href="Instance.MODE">Instance.MODE</a> =43 or 44), 'changed to dormant' ( <a href="Instance.MODE">Instance.MODE</a> =51) or the date when such a student returns to an active study mode. |  |
| Applicable to       | England NI  |  |
| Coverage            | All instances at institutions in England and Northern Ireland where Course.COURSEAIM begins D, E, L or M (excluding M22, M26) and Instance.REDUCEDI = 00 and Instance.MODE is not equal to 63 or 64   |  |
| Base Data Type      | DateWithNullStructure9  |  |
| Field Length        | 10  |  |
| Part Of             | Instance  |  |
| Minimum Occurrences | 0   |  |
| Maximum Occurrences | 1   |  |
| Related Fields      | MODE  |  |
| Reason Required     | As dormant and writing-up students are not funded it is necessary to identify the point a which they move to these modes.   |  |
| Notes               | This is only applicable to postgraduate students in institutions in England and Northern Ireland.   |  |
|                     | All date fields in the Student Record must be completed using the <u>ISO8601</u> format of YYYY-MM-DD. The specification of this field falls within the scope of the Aligned Data Definitions and follows the <u>Data Standards in the HESA student record</u> .  |  |
|                     | If the mode has not changed, an empty element should be returned with the ReasonForNull attribute set to 9 (not applicable), i.e:   |  |
|                     | <mcdate reasonfornull="9"></mcdate>   |  |
|                     | Only mode changes within the reporting year need be recorded.   |  |
|                     | Where a student starts and finishes the reporting year with an active mode, this field is not required regardless of any mode changes during the year.  |  |
|                     | Where a student finishes the year with a non-active mode but has had an active mode at some point in the year then the last change from active to non-active mode should be returned, changes between different non-active modes should be ignored.   |  |
|                     | Where a student finishes the year with an active mode the last date they moved from a non-active to active mode should be recorded.   |  |
|                     |   |  |

|                         | Non-active modes for the purpose of this field are defined as dormant, writing up and sabbatical.  Further guidance is available on the completion of this field.   |  |
|-------------------------|---|--|
| Owner                   | HESA  |  |
| Version                 | 1.2   |  |
| Date modified           | 2010-04-30  |  |
| Change management notes | Business rules 1 and 4updated to exclude Course.COURSEAIM = M26 from the coverage of the field.   |  |
| Business rules          | 1 Error Instance.MCDATE must exist for institutions in England or Northern Ireland and Course.COURSEAIM begins D, E, L or M (excluding M22, M26) and Instance.REDUCEDI = 00 and Instance.MODE is not equal to 63 or 64.  2 Error Instance.MCDATE must not be null except when ReasonForNull = 9.  3 Error Where Instance.MCDATE is not null, it must be < Y1-08-01 for institutions in England and Northern Ireland and Course.COURSEAIM begins D, E, L or M (excluding M22, M26) and Instance.MODE = 63 or 64.  5 Error Instance.MCDATE must not exist for institutions in Scotland or Wales.  6 Error Where exists and is not null Instance.MCDATE must be later than Y1-07-31 unless Instance.MODE = 63 or 64. |  |

#### Classification

| Short Name              | CLASS   |  |  |
|-------------------------|---|--|--|
| Туре                    | field   |  |  |
| Description             | This field is used to indicate the qualification class that the student obtained.   |  |  |
| Applicable to           | England NI Scotland Wales   |  |  |
| Coverage                | Compulsory for all qualifications awarded records where ( <u>QualificationsAwarded.QUAL</u> = M22, M26, H00, H11, H16, H18, H22, H23, H24, H50, I00, I11, I16). Also compulsory for those students who have achieved a relevant FE qualification (i.e. where a grade is meaningful) at institutions in England and Wales, that is with QUAL codes beginning, P, Q, R, S and X |  |  |
| Base Data Type          | CLASSCodeType   |  |  |
| Field Length            | 2   |  |  |
| Part Of                 | Qualifications awarded  |  |  |
| Minimum Occurrences     | 0   |  |  |
| Maximum Occurrences     | 1   |  |  |
| Reason Required         | To monitor achievement.   |  |  |
| Notes                   | Only codes 01-11 should be used for students who have achieved an undergraduate degree qualification.   |  |  |
|                         | Enhanced degrees should be coded 07 'Unclassified honours', if not classified.  |  |  |
|                         | HESA aggregates codes 07, 08, 10 and 11 as "unclassified".  |  |  |
|                         | Medical degrees which are not honours programmes should be coded 10 or 11.  |  |  |
|                         | Codes 51-90 are the codes to be used for FE level students at institutions in England and Wales. A grade should be returned for all qualifications where the grade is meaningful. Other codes should not be used for FE level students.   |  |  |
| Owner                   | HESA  |  |  |
| Version                 | 1.2   |  |  |
| Date modified           | 2010-04-30  |  |  |

#### **Closed course**

| Short Name                  | CLSDCRS  |  |  |
|-----------------------------|--|--|--|
| Туре                        | field  |  |  |
| Description                 | This field identifies courses that are restricted to certain groups of people and are not available to any suitably qualified candidate.   |  |  |
| Applicable to               | England  |  |  |
| Coverage                    | All courses at institutions in England where Course.REDUCEDC = 00  |  |  |
| Base Data Type              | CLSDCRSCodeType  |  |  |
| Field Length                | 1  |  |  |
| Part Of                     | Course   |  |  |
| Minimum Occurrences         | 0  |  |  |
| Maximum Occurrences         | 1  |  |  |
| Reason Required             | To allow monitoring of provision that is provided for specific groups  |  |  |
| Notes                       | Closed courses are those courses that are not open to any suitably qualified candid for example where a course is only available to employees of particular companies course is closed.  |  |  |
|                             | A course is defined as closed where the syllabus (and/or examinations) is specifically designed for a certain group of people and the course is not also available to other suitably qualified candidates. A course may be designed for a particular company (with examples and/or timings altered to suit the company). However if the same course is also run for other suitably qualified candidates, not employed by the company, then the course is not closed and should be coded 0 'Not a closed course'. |  |  |
| Owner                       | HESA   |  |  |
| Version                     | 1.0  |  |  |
| Business rules              | 1 Error Course.CLSDCRS must exist for institutions in England where Course.REDUCEDC = 00. 2 Error Course.CLSDCRS must not exist for institutions not in England.   |  |  |
| Valid Entries and<br>Labels | 0 Not a closed course<br>1 Closed course   |  |  |

## **Collaborating organisation**

| Short Name              | COLLORG   |  |  |
|-------------------------|---|--|--|
| Туре                    | field   |  |  |
| Description             | This field identifies a collaborating organisation providing significant input to a course.   |  |  |
| Applicable to           | England   |  |  |
| Coverage                | All courses at institutions in England where Course.REDUCEDC = 00 except where Course.COURSEAIM = D00, D01, D90, L00, L80, L90, L91   |  |  |
| Base Data Type          | COLLORGCodeType   |  |  |
| Field Length            | 4   |  |  |
| Part Of                 | Course  |  |  |
| Minimum Occurrences     | 0   |  |  |
| Maximum Occurrences     | 1   |  |  |
| Reason Required         | To identify partner organisations in collaborative provision.   |  |  |
| Notes                   | HEFCE will be developing new funding routes for collaborative provision and consequently needs information about the types of organisations institutions collaborate with. In future it may be necessary to expand this coding frame to collect detailed information about individual named organisations.  Collaboration with external organisations should only be included where the external organisation has made a significant input to the course that affects the course for all, or nearly all, students on the course. This could include:  • Input to course content/curriculum or assessment • Contribution to the startup or ongoing costs of the course, this may include sponsoring a number of places on the course but would exclude paying the fees for individual students on the course • Provision of work based or project work opportunities • A significant and ongoing contribution of staff time and/or resources to support course delivery  Collaboration does not cover the following activities:  • Franchised provision • Input to course and curriculum design by professional bodies |  |  |
| Owner                   | Language years abroad and exchange programmes.  HESA  |  |  |

## **Completion of year of instance**

| Short Name          | FUNDCOMP   |
|---------------------|--|
| Туре                | field  |
| Description         | This field refers to the year of instance being funded. The field records the student's completion status with respect to that year.   |
| Applicable to       | England NI Wales   |
| Coverage            | All instances at institutions in England, Northern Ireland and Wales where <a href="Instance.REDUCEDI">Instance.REDUCEDI</a> = 00 or 01  |
| Base Data Type      | FUNDCOMPCodeType   |
| Field Length        | 1  |
| Part Of             | Instance   |
| Minimum Occurrences | 0  |
| Maximum Occurrences | 1  |
| Reason Required     | For alignment with funding definitions.  |
| Notes               | Coding should be consistent with funding council early statistics. Refer to relevant funding council for full definitions.   |
|                     | Normally when code 2 is returned, then either <a href="Instance.RSNEND">Instance.RSNEND</a> and <a href="Instance.ENDDATE">Instance.ENDDATE</a> will be completed to end the student instance, or <a href="Instance.NOTACT">Instance.NOTACT</a> will be completed to show the study is suspended. It has become more common for students to fail to complete the current year of instance but continue to study with the institution, this is particularly true of part-time students who drop a module. |
|                     | Code 4 'is as defined in HEFCW HESES, and should be used for students studying full-time on taught courses only.   |
|                     | Code 9 can be used if the HESA reporting year does not contain, in part or in whole, a year of instance which has previously, is, or will be, returned to HESES. However, use of code 9 is an option. Institutions can, if they so wish, use the other codes for all records.  |
|                     | Where a student undertakes a foundation degree and bridging course in the same HESA reporting year <a href="Instance.FUNDCOMP">Instance.FUNDCOMP</a> , should reflect whether the student completed the foundation degree and will therefore usually be returned with a value of 1. Similarly where the student progresses to a degree after completion of the bridging course this field should reflect the completion status of the degree.  |
|                     | Any queries on this field should be addressed to <u>HEFCE</u> . Some additional guidance can be found in <u>HESES</u> .  |
| Owner               | HESA   |
| Version             | 1.0  |
| Business rules      | 1 Error Instance.FUNDCOMP must exist for institutions in England, Wales and Northern Ireland where Instance.REDUCEDI = 00 or 01.   |

|                             | 2 Error<br>3 Error<br>4 Error | Instance.FUNDCOMP must not exist for institutions in Scotland. Instance.FUNDCOMP cannot be coded 3 where Instance.RSNEND is coded 01 - 11, 98 or 99. Where Instance.FUNDCOMP is 4, the institution must be in Wales and Instance.MODE must be 01, 02, 23, 24, 25, 52 or 53 and Course.COURSEAIM must not begin with D, L, P, Q, R, S or X |
|-----------------------------|-------------------------------|---|
| Valid Entries and<br>Labels | 1<br>2<br>3<br>4<br>9         | Completed the current year of programme of study Did not complete the current year of programme of study Year of programme of study not yet completed, but has not failed to complete Partially completed the year of study (HEFCW HESES rules) Not in HESES Population   |

## **Completion status**

| Short Name                  | CSTAT   |  |
|-----------------------------|---|--|
| Туре                        | field   |  |
| Description                 | This field provides an indication of the degree of completion of the learning activities leading to the qualification aim.  |  |
| Applicable to               | England Wales   |  |
| Coverage                    | All instances where <u>Instance.FESTUMK</u> = 1, 3 or 4 and where <u>Instance.REDUCEDI</u> = 00, 01 or 02   |  |
| Base Data Type              | CSTATCodeType   |  |
| Field Length                | 1   |  |
| Part Of                     | Instance  |  |
| Minimum Occurrences         | 0   |  |
| Maximum Occurrences         | 1   |  |
| Related Fields              | FESTUMK   |  |
| Reason Required             | To monitor completion.  |  |
| Notes                       |   |  |
| Owner                       | HESA  |  |
| Version                     | 1.0   |  |
| Business rules              | 1 Error Instance.CSTAT must exist for institutions in England or Wales where Instance.FESTUMK = 1, 3 or 4 and Instance.REDUCEDI = 00, 01 or 02.  2 Error Instance.CSTAT must not exist for institutions in Northern Ireland or Scotland.  3 Error Instance.CSTAT must not exist for institutions in England or Wales where Instance.FESTUMK = 2.  4 Error Instance.CSTAT must be coded 1 where Instance.PROGRESS is coded 9.  |  |
| Valid Entries and<br>Labels | The student is continuing or intending to continue, the learning activities leading to the qualification aim  The student has completed all the learning activities leading to the qualification aim  The student has withdrawn from the learning activities leading to the qualification aim  The student has transferred to a new qualification aim. That is the student has withdrawn from this qualification aim & as a direct result has at the same time started studying for another qualification aim |  |

#### **Cost centre**

| Short Name          | COSTCN  |
|---------------------|---|
| Туре                | field   |
| Description         | This field describes the academic cost centre in which the module is being taught. It is up to institutions to decide whether or not to return details of cost centres which are contributing teaching/learning amounting to less than 5% of the proportion of the module.  |
| Applicable to       | England NI Scotland Wales   |
| Coverage            | All module subject records  |
| Base Data Type      | COSTCNCodeType  |
| Field Length        | 2   |
| Part Of             | Module subject  |
| Minimum Occurrences | 1   |
| Maximum Occurrences | 1   |
| Reason Required     | To calculate the student load split out across the academic cost centres, and split across JACS2 codes.   |
| Notes               | This field forms one third of a triplet of fields with ModuleSubject.MODSBJ and ModuleSubject.MODSBJP   |
|                     | Where two different subjects are taught in the same cost centre, there should be separate occurrences of <a href="Module-ModuleSubject">Module-ModuleSubject</a> for each.  |
|                     | These cost centres should have been agreed with the funding councils as outlined in the Circular Letter 32/2005 <a href="http://www.hefce.ac.uk/pubs/circlets/2005/cl32">http://www.hefce.ac.uk/pubs/circlets/2005/cl32</a> 05.   |
|                     | The cost centre should relate to where resources deployed to teach the student are located. Effectively the cost centre follows the money and will be reconcilable with the institutions finance statistics return. For example, if a member of staff based in the General Engineering cost centre takes a group of engineering students for a mathematics lecture, the cost centre should be General Engineering (16). However, if a member of staff based in the mathematics cost centre takes a group of engineering students for a mathematics lecture, the cost centre should be Mathematics (24). |
|                     | Where a department buys in the services of a member of staff based in a department in a non-academic cost centre, the cost centre to be returned would be that of the buying in department. For example, a member of staff based in the computing service takes a group of engineering students for a lecture and is paid for under a servicing agreement by the engineering department, then the cost centre returned should be General Engineering (16).  |
|                     | The most important consideration in taking decisions about the attribution of students to cost centres should be the correspondence with the HESA Finance record.   |
|                     | Where a part of the module is taught by another reporting institution, expenditure related to this provision must be included against academic cost centres under Head 1  |

|                          | of Table 6 of the Finance Record. It has been agreed that the cost centre on the Student Record should match this allocation, i.e. institutions should code cost centre according to the organising department at their institution. Cost centre 99 is 'not assignable' and should only be used in cases where it is not possible to allocate the activity to an academic cost centre, e.g. where the appropriate cost centre is a non-academic cost centre. For institutions in England, HEFCE make use of cost centres in their funding allocations. HEFCE have stated that provision returned under cost centre 99 will be allocated to the lowest price group for funding.  |

#### Course

| Short Name          | Course   |  |
|---------------------|--|--|
| Туре                | entity   |  |
| Description         | A combination of subject and qualification that defines what a student is aiming for.  |  |
| Applicable to       | England NI Scotland Wales  |  |
| Coverage            | Compulsory for all returns   |  |
| Part Of             | Institution  |  |
| Minimum Occurrences | 1  |  |
| Maximum Occurrences | unbounded  |  |
| Has Parts           | Course identifier (COURSEID) Reduced course return indicator (REDUCEDC) General qualification aim of course (COURSEAIM) Course title (CTITLE) Teacher training course (TTCID) Bilingual ITT marker (BITTM) Teaching qualification sought sector (TQSSEC) Teaching qualification sought subject (TQSSUB) Collaborating organisation (COLLORG) Closed course (CLSDCRS) FE general qualification aim (FEQAIMC) Major source of funding (MSFUND) Regulatory body for health and social care students (REGBODY) NHS bursaries (NHSBURSARY) Subject Knowledge Enhancement units (SKEUNITS) Subject Knowledge Enhancement placement (SKEOS) Course subject  |  |
| Reason Required     | This entity exists to hold fields that describe courses without having to repeat the fields on individual instances.   |  |
| Notes               | Every Instance must be linked to one (and only one) course. Course records can exist without links to any Instances if it is easier for an institution to return all courses rather than just those that are active in the reporting year.  The <a href="Course.COURSEID">Course.COURSEID</a> field is the <a href="primary key">primary key</a> for the course entity. It also exists on the Instance as a <a href="foreign key">foreign key</a> .  Where provision within the institution allows multiple possible qualification outcomes, institutions must return separate course records for each. Even where groups of students aiming for different qualification outcomes are taught in the same classes, each group must be returned on a different course with a different course aim. |  |
| Owner               | Further detailed notes are available in the supporting documents   |  |
| Owner               | HESA   |  |
| Version             | 1.0  |  |

#### **Course identifier**

| Short Name          | COURSEID   |
|---------------------|--|
| Туре                | field  |
| Description         | This field records the institution's own unique internal identifier for the course. The Course identifier is the <u>primary key</u> for the <u>Course</u> entity and exists as a foreign key on <u>Instance</u> .  |
| Applicable to       | England NI Scotland Wales  |
| Coverage            | All courses  |
| Base Data Type      | COURSEIDType   |
| Field Length        | 30   |
| Part Of             | Course   |
| Minimum Occurrences | 1  |
| Maximum Occurrences | 1  |
| Reason Required     | To facilitate linkage with the Instance entity.  |
| Notes               | Course identifiers will be allocated by the institution and should be unique for each course.  |
|                     | The term 'course' in this context relates to the combination of subject and qualification that defines what a student is aiming for and which are described in fields <a href="Course.COURSEAIM">Course.COURSEAIM</a> and <a href="CourseSubject.SBJCA">Course.COURSEAIM</a> and <a course.courseid"="" href="CourseSubject.SBJCA&lt;/a&gt;.&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;&lt;/td&gt;&lt;td&gt;The Course identifier links the course entity and the instance entity for the reporting period . There must be an entry in the course entity with a matching identifier in the instance entity to provide this link, and so give details about the student's study in the current year. Where a student changes course within an instance by changing either course aim (at the same level) or subject, the &lt;a href=">Course.COURSEID</a> should be updated to reflect the course that is applicable at the end of the reporting period. |
|                     | Where the student continues on the same course, the same COURSEID should be kept for all years of the course. It is intended that in the future for some onward uses data from the student record should be aggregated to allow publication at a Course level. For the UNISTATS (TQI) site, for example, information about entrants, continuation, outcomes and destinations will be published together. If the COURSEID is not consistent throughout the course it will not be possible to compile a complete set of statistics as relating to a single course. Course.CTITLE will not allow for this aggregation: it is a text field and not suitable for the necessary validation. HESA has introduced a HIN validation warning when there is a HIN link but COURSEID changes.  |
|                     | Year-on-year linking will continue by the HIN mechanism.   |
|                     | Valid characters   |
|                     | The valid characterset available for this field follows the <u>Data Standards in the HESA student record</u> .   |

- The general policy is to support all Latin-based characters for names, addresses and general text fields, but not non-Latin characters.
- All Unicode code charts for Latin characters are supported. These are Basic Latin (excluding the C0 control characters), Latin-1 (excluding the C1 control characters), Latin Extended A, Latin Extended B and Latin Extended Additional. This set corresponds to Unicode code points U+0020 to U+007F and U+00A0 to U+024F.
- Schemas are built in such a way that an individual project can further restrict the set if required.

The character set chosen will support Welsh and Gaelic languages as well as all European and most other languages using a Latin-based character set.

The Unicode charts that list each of the characters in this range can be found on the <u>Unicode web site</u>. The specific sets that are defined here are shown in the following PDF documents:

- Basic Latin
- Latin-1
- Latin Extended A
- Latin Extended B
- Latin Extended Additional

Files must be encoded with UTF-8 and schema validation will be in place to ensure this. Institutions must specify the encoding used in their XML files in the first line of the file (i.e. <?xml version="1.0" encoding="UTF-8" ?>) and to ensure that their files are actually saved with that encoding. If XML files are edited with some text editors and the encoding is not specified or does not match the actual file encoding, there may be problems when submitting these files for validation.

| Notes               | Course identifiers will be allocated by the institution and should be unique for each course.  |
|                     | The term 'course' in this context relates to the combination of subject and qualification that defines what a student is aiming for and which are described in fields <a href="Course.COURSEAIM">Course.COURSEAIM</a> and <a href="CourseSubject.SBJCA">Course.COURSEAIM</a> and <a href="CourseSubject.SBJCA">Course.Cours</a> |
|                     | The Course identifier links the course entity and the instance entity for the reporting period . There must be an entry in the course entity with a matching identifier in the instance entity to provide this link, and so give details about the student's study in the current year. Where a student changes course within an instance by changing either course aim (at the same level) or subject, the <a href="Course.COURSEID">Course.COURSEID</a> should be updated to reflect the course that is applicable at the end of the reporting period.   |
|                     | Where the student continues on the same course, the same COURSEID should be kept for all years of the course. It is intended that in the future for some onward uses data from the student record should be aggregated to allow publication at a Course level. For the UNISTATS (TQI) site, for example, information about entrants, continuation, outcomes and destinations will be published together. If the COURSEID is not consistent throughout the course it will not be possible to compile a complete set of statistics as relating to a single course. Course.CTITLE will not allow for this aggregation: it is a text field and not suitable for the necessary validation. HESA has introduced a HIN validation warning when there is a HIN link but COURSEID changes.  |
|                     | Year-on-year linking will continue by the HIN mechanism.   |
|                     | Valid characters   |
|                     | The valid characterset available for this field follows the <u>Data Standards in the HESA</u>  |

#### student record.

- The general policy is to support all Latin-based characters for names, addresses and general text fields, but not non-Latin characters.
- All Unicode code charts for Latin characters are supported. These are Basic Latin (excluding the C0 control characters), Latin-1 (excluding the C1 control characters), Latin Extended A, Latin Extended B and Latin Extended Additional. This set corresponds to Unicode code points U+0020 to U+007F and U+00A0 to U+024F.
- Schemas are built in such a way that an individual project can further restrict the set if required.

The character set chosen will support Welsh and Gaelic languages as well as all European and most other languages using a Latin-based character set.

The Unicode charts that list each of the characters in this range can be found on the <u>Unicode web site</u>. The specific sets that are defined here are shown in the following PDF documents:

- Basic Latin
- Latin-1
- Latin Extended A
- Latin Extended B
- Latin Extended Additional

Files must be encoded with UTF-8 and schema validation will be in place to ensure this. Institutions must specify the encoding used in their XML files in the first line of the file (i.e. <?xml version="1.0" encoding="UTF-8" ?>) and to ensure that their files are actually saved with that encoding. If XML files are edited with some text editors and the encoding is not specified or does not match the actual file encoding, there may be problems when submitting these files for validation.

| Change management notes | Coverage updated to add Course.TTCID = E or F in line with business rule 2   |
| Business rules          | 1 Error CourseSubject entity must exist for all courses at institutions in Scotland or Northern Ireland. 2 Error CourseSubject entity must exist for all courses at institutions in England or Wales where (any Instance.FESTUMK = 2 or 3 or Course.FEQAIMC = '66666666' or Course.TTCID = E or F)                 |

## **Course title**

| Short Name          | CTITLE   |
|---------------------|--|
| Туре                | field  |
| Description         | This field will be determined by the institution and in this context relates to the complete programme of study leading to the qualification aim referred to in fields <a href="Course.COURSEAIM">Course.COURSEAIM</a> and <a href="CourseSubject">Course.COURSEAIM</a> and <a href="CourseSubject">Course.Cour</a> |
| Applicable to       | England NI Scotland Wales  |
| Coverage            | All courses  |
| Base Data Type      | TitleType  |
| Field Length        | 255  |
| Part Of             | Course   |
| Minimum Occurrences | 1  |
| Maximum Occurrences | 1  |
| Related Fields      | COURSEAIM<br>CourseSubject   |
| Reason Required     | To facilitate HESA cross-checking with institutions and to identify courses in onward analyses.  |
| Notes               | Although a compulsory field, this field will not be subject to specific checks regarding its validity. The only validation checks will be that the field contains at least one character.  Feedback from users of the TQI site has indicated that they would want to see information at the course level. With the introduction of the course entity it is likely that the funding councils will want to explore this option further. Should users of the HESA data choose to publish course level information it is likely that the course title will form a critical part of this. Therefore institutions need to ensure that the CTITLE field contains course titles that would be meaningful to a wide range of stakeholders including potential students  It is intended that this field can be used by the institution as a cross-check to fields Course.COURSEAIM and CourseSubject.  Valid characters  The valid characterset available for this field follows the Data Standards in the HESA student record.  • The general policy is to support all Latin-based characters for names, addresses and general text fields, but not non-Latin characters.   |
|                     | <ul> <li>and general text fields, but not non-Latin characters.</li> <li>All Unicode code charts for Latin characters are supported. ## **Credit transfer scheme**

| Short Name               | CRDTSCM  |
|--------------------------|--|
| Туре                     | field  |
| Description              | This field denotes the credit point transfer scheme that Module.CRDTPTS, and Module.LEVPTS, apply to.  |
| Applicable to            | England NI Scotland Wales  |
| Coverage                 | All modules  |
| Base Data Type           | CRDTSCMCodeType  |
| Field Length             | 1  |
| Part Of                  | Module   |
| Minimum Occurrences      | 1  |
| Maximum Occurrences      | 1  |
| Reason Required          | To identify and monitor the use of credit transfer schemes and to monitor the actual flow of credits.  |
| Notes                    | Credit accumulation and transfer schemes allow students to collect credit for work already completed, if they decide to terminate their study before achieving a complete award. If and when they resume their studies, not necessarily at the previous institution, they may be able to carry forward the credits from their previous study.  |
|                          | HESA may seek extra information about schemes coded 7 or 8.  |
|                          | Modules which do not have a credit transfer scheme should be coded 9.  |
|                          | Institutions in Wales cannot use code 9 No scheme unless this module links (via StudentOnModule and Instance) to a course where <a href="Course.COURSEAIM">Course.COURSEAIM</a> begins with P, Q, R, S or X.   |
|                          | For institutions in Scotland this field must be coded 2 Scotland (SCOTCAT). The only exception to this rule is students for whom <a href="Course.COURSEAIM">Course.COURSEAIM</a> begins D or L, who can be coded 9 in this field.  |
| Owner                    | HESA   |
| Version                  | 1.0  |
| Business rules           | 1 Error Module.CRDTSCM cannot be coded 9 for institutions in Wales unless this module links (via StudentOnModule and Instance) to a course where Course.COURSEAIM begins with P, Q, R, S or X.  2 Error Module.CRDTSCM cannot be coded 2 for institutions in England, Wales or Northern Ireland.  3 Error Module.CRDTSCM must be coded 2 where Scottish institution unless this module links (via StudentOnModule and Instance) to a course where Course.COURSEAIM begins with D or L, in which case Module.CRDTSCM can be coded 9 or 2. |
| Valid Entries and Labels | 1 England & Northern Ireland (CATS) 2 Scotland (SCOTCAT)   |

|   | CQFW credit framework LSDA credit framework Other scheme Own scheme No scheme |
|---|---|
| , | GNVQ units/OCN credits  |

## **Credit value of module**

| Short Name          | CRDTPTS  |
|---------------------|--|
| Туре                | field  |
| Description         | This field indicates the number of credit points a student gains on successful completion of the module.   |
| Applicable to       | England NI Scotland Wales  |
| Coverage            | All modules  |
| Base Data Type      | xs:nonNegativeInteger  |
| Field Length        | 3  |
| Part Of             | Module   |
| Minimum Occurrences | 1  |
| Maximum Occurrences | 1  |
| Related Fields      | LEVLPTS  |
| Reason Required     | To identify and monitor the use of credit transfer schemes and to monitor the actual flow of credits.  |
| Notes               | Institutions in England and Northern Ireland may use code 999 as a default for all programmes of study, and it is suggested that this default is used for schemes coded 7 or 8 in Module.CRDTSCM.  |
|                     | Institutions in Wales cannot use code 999, unless module is linked only to FE instances in which case 999 is an acceptable default.  |
|                     | Fractional credit points should be rounded to the nearest whole number.  |
|                     | The length of this field is 3 characters, however the move to XML enables data to be returned with or without leading zeros, e.g. 003 or 3.  |
| Owner               | HESA   |
| Version             | 1.0  |
| Business rules      | <ol> <li>Error Module.CRDTPTS must be coded 999 where Module.CRDTSCM = 9.</li> <li>Error Module.CRDTPTS cannot be coded 999 where Welsh institution unless Course.COURSEAIM begins with P, Q, R, S or X.</li> <li>Warning Module.CRDTPTS should be coded 999 where English or Northern Irish institution and Module.CRDTSCM = 7 or 8.</li> <li>Warning Module.CRDPTS should contain a value greater than 0.</li> </ol> |

## Date of birth

| Short Name          | BIRTHDTE   |
|---------------------|--|
| Туре                | field  |
| Description         | This field records the date of birth of the student.   |
| Applicable to       | England NI Scotland Wales  |
| Coverage            | All students   |
| Base Data Type      | DateWithNullStructure1   |
| Field Length        | 10   |
| Part Of             | Student  |
| Minimum Occurrences | 1  |
| Maximum Occurrences | 1  |
| Reason Required     | The date of birth is required to generate the student's age and to provide an additional item of information for record linkage. To permit age-based analysis and also facilitate record linkage across collections.   |
| Notes               | All date fields in the Student Record must be completed using the <a href="ISO8601">ISO8601</a> format of YYYY-MM-DD. The specification of this field falls within the scope of the Aligned Data Definitions and follows the <a href="Data Standards">Data Standards in the HESA student record</a> .  |
|                     | If the date of birth is not known, an empty element should be returned with the ReasonForNull attribute set to 1 (not known), i.e:   |
|                     | <pre><birthdte reasonfornull="1"></birthdte></pre>   |
|                     | HESA monitors the number of unknown birth dates submitted by each institution.   |
|                     | For students entering through UCAS this information will be available from UCAS via the *J transaction.  |
|                     | Where Y0/Y1/Y2 appear in business rules, these refer to the reporting period Y1-Y2 (e.g. for the 2007-08 reporting period, Y0 is 2006, Y1 is 2007 and Y2 is 2008).   |
| Owner               | Information Standards Board - Aligned Data Definitions   |
| Version             | 1.0  |
| Business rules      | 1 Error Where exists Student.BIRTHDTE cannot be before 1906-11-01. 3 Warning Where exists Student.BIRTHDTE should be less than (Y1-20)-08-01 where Course.COURSEAIM = M71 or H71. 4 Warning Where exists Student.BIRTHDTE should be less than (Y1-17)-08-01 where Course.COURSEAIM = H11 or I11. 5 Warning Where exists Student.BIRTHDTE should be greater than (Y1-70)-07-31. 6 Error Where exists Student.BIRTHDTE must be less than (Y1-14)-08-01. 8 Error Student.BIRTHDTE must not be null except when ReasonForNull = 1. 9 Error Student.BIRTHDTE must be null when ReasonForNull = 1. |

# **Department of Health funding body**

| Short Name               | DHFUND   |
|--------------------------|--|
| Туре                     | field  |
| Description              | This field describes the Strategic Health Authority (SHA).   |
| Applicable to            | England  |

## **Destination of outward credit mobile students**

| Short Name              | DESTOCM  |
|-------------------------|--|
| Туре                    | field  |
| Description             | This field identifies the country or countries where an outwards credit mobile student is undertaking a credit-bearing part of their course at one or more institutions overseas.  |
| Applicable to           | England NI Wales   |
| Coverage                | All instances at institutions in England, Wales and Northern Ireland where <a href="Instance.EXCHANGE">Instance.EXCHANGE</a> = 7, B, C, D or E or <a href="Instance.LOCSDY">Instance.LOCSDY</a> = F, G or S and <a href="Instance.REDUCEDI">Instance.REDUCEDI</a> = 00   |
| Base Data Type          | DESTOCMCodeType  |
| Field Length            | 2  |
| Part Of                 | Instance   |
| Minimum Occurrences     | 0  |
| Maximum Occurrences     | 3  |
| Related Fields          | EXCHANGE<br>LOCSDY   |
| Reason Required         | This information is required by BIS to identify details of student migration patterns.   |
| Notes                   | This coding frame is determined by the National Statistics Country Classification 2006 (NSCC), which is based on ISO 3166-1 Codes for the Representation of Names of Countries and their Subdivisions, and the United Nations' Standard Country or Area Codes for Statistical Use. In a small number of cases, the NSCC usage differs from the usage in ISO 3166 on which the NSCC is based. Where that happens, the ISO 3166 usage is given in brackets after the preferred UK usage, to facilitate cross-reference to the international standard. For example for code KP the description is Korea (South). The text in brackets, [Korea, Republic of], is the ISO 3166 description. |
|                         | Information in braces is provided by HESA to clarify usage, and is not derived either from NSCC or ISO 3166 lists of short country names, for example Spain {includes Ceuta, Melilla}.   |
|                         | Up to three occurrences of this field can be included in the data for a reporting period where the student has spent parts of the year in different countries.   |
|                         | EU, XP-XX, ZZ: Obsolete Countries, Regions, Stateless, and Unknown   |
|                         | The regional codes EU and XP to XX may be used if information is known only to this level of accuracy, in preference to using ZZ which should be a last resort. EU should be used in preference to XP if appropriate.  |
| Owner                   | HESA   |
| Version                 | 1.2  |

## Disability

| Short Name          | DISABLE  |
|---------------------|--|
| Туре                | field  |
| Description         | This field records the type of disability that a student has, on the basis of the student's own self-assessment.   |
| Applicable to       | England NI Scotland Wales  |
| Coverage            | All students where any <u>Instance.REDUCEDI</u> = 00, 01, 06 or 07   |
| Base Data Type      | DISABLECodeType  |
| Field Length        | 2  |
| Part Of             | Student  |
| Minimum Occurrences | 0  |
| Maximum Occurrences | 1  |
| Reason Required     | To permit disability-based analysis; for monitoring levels and trends in participation by particular groups of people; to monitor take-up of Disabled Students' Allowance as Disabled Students' Allowance is now not means tested; to permit analysis based on type of disability. |
| Notes               | Code 00 'No known disability' should be returned when the student indicates that they do not have a disability.  |
|                     | Code 10 'Autistic Spectrum Disorder' is to include Asperger Syndrome, as an example of an ASD.   |
|                     | Code 96 'A disability not listed above' may be used where it is known that the student has a disability, but what type is not known.   |
|                     | Code 97 'Information refused' should be used in all cases where the student has explicitly refused to provide disability information.  |
|                     | Code 98 'Information not sought' may be used for continuing students in cases where the institution does not already hold the information.   |
|                     | Code 99 'Not known' includes all cases where the information has been sought but is missing.   |
|                     | If this field is coded 02-96 indicating that the student has a disability, then <a href="Instance.DISALL">Instance.DISALL</a> should be coded 4, 5 or 9.   |
|                     | For students entering through UCAS this information will be available from UCAS via the *J transaction.  |

| Business rules      | 1 Error Instance.DISUPFAC must exist for institutions in England where Instance.FESTUMK = 1, 3 or 4 and Instance.REDUCEDI = 00.  2 Error Instance.DISUPFAC must not exist for institutions not in England.  Instance.DISUPFAC must not exist for institutions in England where Instance.FESTUMK = 2.  |  |

## **Domicile**

| Short Name          | DOMICILE  |
|---------------------|---|
| Туре                | field   |
| Description         | This field holds the country code of the student's permanent or home address prior to entry to the course. It is not necessarily the correspondence address of the student.   |
| Applicable to       | England NI Scotland Wales   |
| Coverage            | All entrants  |
| Base Data Type      | DOMICILECodeType  |
| Field Length        | 2   |
| Part Of             | Entry profile   |
| Minimum Occurrences | 1   |
| Maximum Occurrences | 1   |
| Reason Required     | To distinguish between home and overseas students and to disaggregate students by origin.   |
|                     | To obtain the numbers of students domiciled in particular EC countries and elsewhere abroad, and hence calculate participation rates.   |
|                     | To forecast the demand for student allowances and grants.   |
|                     | To record cross-border flows.   |
| Examples            |   |
| Notes               | For students entering through UCAS this information will be available from UCAS via the *J transaction. UCAS will first use the complete new code list for entrants in 2009. Therefore in 2008/09 institutions can use the more limited codes as provided in the *J, however, institutions can recode if they choose. The details of the coding that will be provided by UCAS can be found in the *J specification.   |
|                     | HESA Guidance   |
|                     | This coding frame is determined by the National Statistics Country Classification 2006 (NSCC), which is based on ISO 3166-1 Codes for the Representation of Names of Countries and their Subdivisions, and the United Nations' Standard Country or Area Codes for Statistical Use. In a small number of cases, the NSCC usage differs from the usage in ISO 3166 on which the NSCC is based. Where that happens, the ISO 3166 usage is given in brackets after the preferred UK usage, to facilitate cross-reference to the international standard. For example for code KP the description is Korea (South). The text in brackets, [Korea, Republic of], is the ISO 3166 description. Information in braces is provided by HESA to clarify usage, and is not derived either from NSCC or ISO 3166 lists of short country names, for example Spain {includes Ceuta, Melilla}. |
|                     | Note: 'no settled inhabitants' means no inhabitants apart from military and scientific  |

personnel, staff of contractors, and seasonal residents. Codes for countries with no settled inhabitants are referred to in the guidance but omitted from the valid entries list, for example, AQ Antarctica.

#### GB, XF, XG, XH, XI, XJ, XK: United Kingdom

For **domicile** the separate country codes XF, XG, XH, XI must be used, and if domicile is known to be United Kingdom but the individual country is not known, XK must be used. The code GB is invalid for domicile. For **nationality** the code GB must be used. The codes XF, XG, XH, XI, XK are invalid for nationality. The code XJ is invalid for both domicile and nationality. Note that the code UK is not in the NSCC list and is invalid for both domicile and nationality.

#### GG, JE, XL: Guernsey and Jersey (Channel Islands)

The Channel Islands are not part of the United Kingdom and not part of the European Union. United Kingdom codes must not be used for either domicile or nationality. The Bailiwicks of Guernsey (which includes the smaller islands of Alderney and Sark) and of Jersey must be treated separately, and the codes GG and JE must be used for both **domicile** and **nationality**. The code XL may be used for either domicile or nationality, but only for student instances from 2007/08 onwards that were already current in 2006/07, to avoid the need for re-coding.

#### IM: Isle of Man

The Isle of Man is not part of the United Kingdom and not part of the European Union. United Kingdom codes must not be used either for domicile or nationality. The code IM must be used for both **domicile** and **nationality**.

#### CY, XA, XB, XC: Cyprus

The following treatment does not imply any recognition that the *de facto* Turkish occupation and control of northern Cyprus is legitimate, but does deal with the practical need to record the source of students. The separate codes Cyprus (European Union) (XA) and Cyprus (non European Union) (XB) must be used for both **domicile** and **nationality**. The code XC may be used for either domicile or nationality, but only for student instances from 2007/08 that were already current in 2006/07, to avoid the need for re-coding, or for new entrants in 2007/08 who entered through UCAS. Note that an appropriate United Kingdom code should be used for both domicile and nationality for students from the British sovereign military areas on Cyprus. The code CY is invalid for both domicile and nationality unless and until there is any change in the political situation, in which case the coding arrangements will be reviewed.

#### FI, AX: Finland and the Aland Islands

The Åland Islands (Ahvenamaa) are an autonomous demilitarised region of Finland, and are part of the European Union subject to some derogations and special provisions. For **domicile** the code FI must be used only for Finland excluding the Åland Islands, and the code AX must be used for the Åland Islands. The passport held by Åland Islanders is an EU-style passport distinguished from the normal Finnish passport by the addition of the word 'Åland' below 'FINLAND', but this does not imply a separate nationality. Accordingly, for **nationality** only the code FI is to be used, and the code AX is invalid.'

#### FO, GL: Faroe Islands and Greenland

The Faroe Islands and Greenland must be treated separately, and the codes FO and GL must be used for both **domicile** and **nationality**. Note that, despite their relationship with Denmark, neither Greenland nor the Faroe Islands are part of the European Union.

#### FR, GF, GP, MQ, RE, YT, PM, PF, WF, BL, MF, TF and NC: French Republic

The French Republic comprises Metropolitan France (France Métropolitain) [including Corsica], the four Overseas Departments (Départements d'Outre-Mer, or D.O.M.) of French Guiana (GF), Guadeloupe (GP), Martinique (MQ), and Réunion (RE), the six Overseas Collectivities (Collectivités d'Outre-Mer, or C.O.M.) of Mayotte (YT), St Pierre & Miquelon (PM), French Polynesia (PF) [also designated as a Pays d'Outre-Mer], and Wallis & Futuna (WF), St Barthélemy (BL), St Martin (French Part) (MF), the Overseas Territory (Territoire d'Outre-Mer, or T.O.M.) of the French Southern Territories (TF), and finally New Caledonia (NC) which has a special status similar to a T.O.M..

Metropolitan France and the four Overseas Departments are all part of the European Union. For **domicile**, the code FR must be used **only** for Metropolitan France, and other codes must be used with their natural meaning, except that there are no settled inhabitants in the French Southern Territories, so code TF is invalid. For **nationality** the code FR must be used throughout, and all the other codes in this group are invalid.

#### IT, VA: Italy and Vatican City (Holy See)

Italy and Vatican City must be treated separately, and the codes IT and VA must be used for both **domicile** and **nationality**.

#### NL, AW, AN: Kingdom of the Netherlands

The Kingdom of the Netherlands comprises the European country of The Netherlands and the Caribbean countries of Aruba (AW) and Netherlands Antilles (AN). For **domicile**, the code NL must be used only for The Netherlands in Europe, and the codes AW and AN must be used with their natural meaning. For **nationality** the code NL must be used throughout, and codes AW and AN are invalid. Netherlands Antilles is to be further subdivided on 1 July 2007, and this may require further codes to be allocated in ISO 3166, but this had not been done as at mid-2009.

#### ES, IC, XD, XE: Spain and the Canary Islands

The Canary Islands are part of Spain, and hence of the European Union, but with some special derogations and provisions particularly relating to customs and fiscal matters. For **domicile**, the code ES must be used for mainland Spain and the code IC must be used for the Canaries. For **nationality**, the code ES must be used for both mainland Spain and the Canaries. The codes XD and XE, although in the NSCC list, are invalid for both domicile and nationality. No separate codes are provided in the NSCC list for the exclaves of Ceuta and Melilla on the coast of north Africa, and for both domicile and nationality purposes they should be regarded as part of mainland Spain.

#### NO, SJ, BV: Norway and Svalbard and Jan Mayen

Svalbard (Spitzbergen) is an inhabited Norwegian territory in the Arctic Ocean. for **domicile** the code SJ must be used for Svalbard, and the code NO must be used only for Norway excluding Svalbard. For **nationality** the code NO must be used throughout, and SJ is invalid. Jan Mayen Island is included with Svalbard under code SJ, but has no settled inhabitants. Bouvet Island (BV) is a Norwegian island in the South Atlantic Ocean, but has no settled inhabitants, so code BV is invalid for both domicile and

nationality.

#### MA, EH; Morocco, Western Sahara

Western Sahara (EH) is a disputed territory occupied and administered by Morocco (MA). The code EH should be used where appropriate for both **domicile** and **nationality**.

#### **PS: Occupied Palestinian Territories**

This code description changed in 2008/09 to reflect the change in the National Statistics Country Classification. It must be used where appropriate for both **domicile** and **nationality**.

US, PR, VI, GU, MP, AS, UM, MH, FM, PW: United States, Puerto Rico, US Virgin Islands, Guam, Northern Mariana Islands, American Samoa, United States Minor Outlying Islands, Marshall Islands, Micronesia, Palau

The Commonwealth of Puerto Rico is an Unincorporated Organized Territory of the United States; its current Commonwealth status grants it a measure of internal self-government, but the US Constitution reserves ultimate governance of the island to the US Congress and President. The Democratic Party 2008 Platform included an undertaking to resolve the permanent status of Puerto Rico by 2012, the principal alternatives being independence, US statehood, or a clarification of the present position. Puerto Ricans have been citizens of the United States since 1917. For **domicile** the code PR must be used. For **nationality** the code US must be used and the code PR is invalid.

The US Virgin Islands (the former Danish West Indies, purchased from Denmark by the United States in 1916) is an Unincorporated Organized Territory of the United States. US Virgin Islanders are citizens of the United States. For **domicile** the code VI must be used. For **nationality** the code US must be used and the code VI is invalid.

Guam (formerly part of the UN Trust Territory of the Pacific) is an Unincorporated Organized Territory of the United States. For **domicile** and **nationality** the code GU must be used.

The Commonwealth of the Northern Mariana Islands (formerly part of the UN Trust Territory of the Pacific) is an Unincorporated Organized Territory of the United States; its Commonwealth status grants it a measure of internal self-government. For **domicile** and **nationality** the code MP must be used.

American Samoa is an Unincorporated Unorganized Territory of the United States. For **domicile** and **nationality** the code AS must be used The United States Minor Outlying Islands comprise Baker Island, Howland Island, Jarvis Island, Johnston Atoll, Kingman Reef, Midway Atoll, Palmyra Atoll and Wake Island in the Pacific, and Navassa Island in the Caribbean. They are Unincorporated (Incorporated in the case of Palmyra Atoll) Unorganized Territories of the United States. They have no settled inhabitants and the code UM is accordingly invalid for both **domicile** and **nationality**.

The Marshall Islands (formerly part of the UN Trust Territory of the Pacific) are a self-governing state in free association with the United States. For **domicile** and **nationality** the code MH must be used.

The Federated States of Micronesia (formerly part of the UN Trust Territory of the

Pacific) are a self-governing state in free association with the United States. For **domicile** and **nationality** the code FM must be used.

Palau (formerly part of the UN Trust Territory of the Pacific) is a self-governing state in free association with the United States. For **domicile** and **nationality** the code PW must be used.

The use of the code US for **domicile** is accordingly limited to the United States only.

#### CN, TW, HK, MO: China, Taiwan, Hong Kong, Macao

China (CN) should be used for both **domicile** and **nationality** where relevant in cases not covered by the following guidance. Taiwan (TW) - The United Kingdom acknowledges the position of the Chinese Government that Taiwan is a province of China and recognises the Chinese Government as the sole legal government of China. The United Kingdom does not recognise Taiwan as a state and does not have diplomatic relations with Taiwan. However, because the United Kingdom accepts passports issued by the Taiwanese Authorities for immigration purposes, it is necessary to use a separate country code TW for Taiwan in both the **domicile** and **nationality** fields. This has no bearing on the United Kingdom's position on Taiwan's status.

Hong Kong (Special Administrative Region of China) (HK) appears separately for historical and immigration reasons as this Special Administrative Region issues different passports from those of the PRC. This code is not regarded as having any implications for issues of nationality, but should continue to be used in both the **domicile** and **nationality** fields.

Macao (Special Administrative Region of China) (MO) appears separately for historical and immigration reasons as this Special Administrative Region issues different passports from those of the PRC. This code is not regarded as having any implications for issues of nationality, but should continue to be used in both the **domicile** and **nationality** fields.

AU, CX, CC, NF, HM: Australia, Christmas Island, Cocos (Keeling) Islands, Norfolk Island, Heard Island and MacDonald Islands.

Christmas Island is a non-self-governing territory of Australia. For **domicile** the code CX must be used. For **nationality** the code AU must be used and the code CX is invalid.

Cocos (Keeling) Islands is a non-self-governing territory of Australia. For **domicile** the code CC must be used. For **nationality** the code AU must be used and the code CC is invalid.

Norfolk Island is a non-self-governing territory of Australia. For **domicile** the code NF must be used. For **nationality** the code AU must be used and the code NF is invalid.

Heard Island and MacDonald Islands are a territory of Australia with no settled inhabitants. The code HM is accordingly invalid for both **domicile** and **nationality** 

The use of the code AU for **domicile** is accordingly limited to Australia only.

NZ, CK, NU, TK: New Zealand, Cook Islands, Niue, and Tokelau

The Cook Islands are a self-governing state in free association with New Zealand; they form part of the Realm of New Zealand and Cook Islanders are New Zealand citizens. Accordingly, for **domicile** the code CK must be used for the Cook Islands, but for **nationality** the code NZ must be used and the code CK is invalid.

Niue is a self-governing state in free association with New Zealand; it forms part of the Realm of New Zealand and Niueans are New Zealand citizens. Accordingly, for **domicile** the code NU must be used for Niue, but for **nationality** the code NZ must be used and the code NU is invalid.

Tokelau is a non-self-governing territory of New Zealand. A proposal for Tokelau to become a self-governing state in free association with New Zealand, on a basis similar to that of the Cook Islands and Niue, narrowly failed to achieve the required two-thirds majority at a second referendum on self-determination in 2007. Following that outcome, further consideration of any change in the status of the territory has been suspended sine die. Accordingly, for **domicile** the code TK must be used, but for **nationality** the code NZ must be used and the code TK is invalid.

The use of the code NZ for **domicile** is accordingly limited to New Zealand only.

#### IO: British Indian Ocean Territory (BIOT)

The Chagos Islands form the principal part of this territory, and these include the island of Diego Garcia which is a leased to the United States of America as a major military base. The indigenous inhabitants of BIOT have been displaced elsewhere, and the territory accordingly has no settled inhabitants at present (on the above definition). Accordingly the code IO is invalid for **domicile**, but may be used as a **nationality** code for displaced indigenous inhabitants. IO will be made valid for domicile if at some point return of the indigenous inhabitants is permitted.

#### AQ: Antarctica

Since there are no settled inhabitants in Antarctica, code AQ is invalid for both domicile and nationality and is omitted from the list. See also code XX. Although there are a number of national territorial claims to parts of Antarctica, these have been in abeyance since the coming into force of the Antarctic Treaty in 1961.

## XM, XN, XO, EU, XP–XX, XY, XZ, AA, ZZ: Obsolete Countries, Regions, Stateless, and Unknown

Codes XM, XN, XO, AA may not be used for **domicile**, for which they are invalid. The regional codes EU and XP to XX may be used if domicile is known only to this level of accuracy, in preference to using ZZ which should be a last resort. EU should be used in preference to XP if appropriate. For **nationality**, codes XM, XN, XO may be used only for students who hold these obsolete nationalities and no other, presumably because they emigrated at a time when the nationalities were current and they have never acquired any other nationality. Codes EU and XP to XX may not be used for nationality, for which they are invalid. Code XX may be used only in relation to Oceania, not Antarctica. Code AA should be used only when a student is known to be stateless, and code ZZ should be used when nationality is not known or when it is impossible from the available documentation to assign a nationality from the above list. Codes XY and XZ although in the NSCC list, are invalid for both domicile and nationality. Note that codes AA, EU and ZZ do not appear on the NSCC list.

QO: Kosovo

|                          | A new code for Kosovo (QO) has been added to the classification in acknowledgement of the UK's recognition of Kosovo as an independent nation. This code is available for use from 2007/08, but institutions are not required to re-code existing students.  |

# Eligibility for disadvantage uplift

| Short Name                  | ELIDISUP   |  |  |
|-----------------------------|--|--|--|
| Туре                        | field  |  |  |
| Description                 | This field records whether the learner is eligible for disadvantage uplift   |  |  |
| Applicable to               | England  |  |  |
| Coverage                    | All instances at institutions in England where <u>Instance.FESTUMK</u> = 1,3 or 4 and <u>Instance.REDUCEDI</u> = 00  |  |  |
| Base Data Type              | ELIDISUPCodeType   |  |  |
| Field Length                | 2  |  |  |
| Part Of                     | Instance   |  |  |
| Minimum Occurrences         | 0  |  |  |
| Maximum Occurrences         | 1  |  |  |
| Related Fields              | FESTUMK  |  |  |
| Reason Required             | To calculate LSC funding and to monitor disadvantage.  |  |  |
| Notes                       | Some learners will qualify for a disadvantage uplift for two or even three reasons. Nearly half of basic skills learners are already eligible for an uplift. In these circumstances, the provider may claim the highest uplift factor.   |  |  |
|                             | Learners benefiting directly from single regeneration budget (SRB) funding will also be eligible for the disadvantage uplift. Where a provider intends to use this reason for claiming disadvantage uplift funds, it should first discuss the matter with its local LSC to establish which SRB project is being used to justify additional funds and how the learners affected are to be identified. |  |  |
| Owner                       | LSC  |  |  |
| Version                     | 1.0  |  |  |

| Valid Entries and<br>Labels | From deprived area (ward based uplift) postcode on LSC's file From deprived area (ward based uplift) postcode not on LSC's file Studying Basic Skills programme Supported by Single Regeneration Budget (SRB) Learner group eligible for disadvantage uplift according to LSC funding guidance Other - further information may be requested Not eligible for disadvantage uplift                     |  |  |

# Eligibility for enhanced funding

| Short Name               | ELIGENFD   |  |  |
|--------------------------|--|--|--|
| Туре                     | field  |  |  |
| Description              | This field records whether or not the student is eligible for enhanced funding.  |  |  |
| Applicable to            | England  |  |  |
| Coverage                 | All instances at institutions in England where <u>Instance.FESTUMK</u> =1,3 or 4 and <u>Instance.REDUCEDI</u> = 00   |  |  |
| Base Data Type           | ELIGENFDCodeType   |  |  |
| Field Length             | 2  |  |  |
| Part Of                  | Instance   |  |  |
| Minimum Occurrences      | 0  |  |  |
| Maximum Occurrences      | 1  |  |  |
| Related Fields           | FESTUMK  |  |  |
| Reason Required          | To calculate LSC funding for the institution and to monitor eligibility for enhanced funding.  |  |  |
| Notes                    | Where code 12 '16-18 Funding entitlement and programme includes key skills' is used the record should include details of the key skills unless the learner is in the second year and completed one or more of the key skills in year one.  |  |  |
| Owner                    | LSC  |  |  |
| Version                  | 1.0  |  |  |
| Business rules           | 1 Error Instance.ELIGENFD must exist for institutions in England where Instance.FESTUMK = 1, 3 or 4 and Instance.REDUCEDI = 00. 2 Error Instance.ELIGENFD must not exist for institutions not in England. 3 Error Instance.ELIGENFD must not exist for institutions in England where Instance.FESTUMK = 2. |  |  |
| Valid Entries and Labels | 12 16-18 Funding entitlement & programme includes key skills 13 16-18 Funding entitlement & the learner's learning difficulties and/or disabilities are such that the QCA key skills qualification is inappropriate Not eligible for enhanced funding  |  |  |

# **Employer role**

| Short Name          | EMPROLE  |  |  |
|---------------------|--|--|--|
| Туре                | field  |  |  |
| Description         | This field records the role of the employer in the learning aim of the learner.  |  |  |
| Applicable to       | England Wales  |  |  |
| Coverage            | All instances at institutions in England where Instance.FESTUMK = 1,3 or 4 and Instance.REDUCEDI = 00 or 02. This field is optional for all students at institutions in Wales.   |  |  |
| Base Data Type      | EMPROLECodeType  |  |  |
| Field Length        | 1  |  |  |
| Part Of             | Instance   |  |  |
| Minimum Occurrences | 0  |  |  |
| Maximum Occurrences | 1  |  |  |
| Related Fields      | FESTUMK  |  |  |
| Reason Required     | To identify the different types of employment-related learning.  |  |  |
|                     | To monitor the role that employers play in the learner's attendance to study learning aims and to calculate funds for dedicated employer provision.  |  |  |
| Notes               | Codes 6 - 8 can be used only by institutions in England.   |  |  |
|                     | For learners at institutions in England, this field should be completed for employed learners who are studying learning aims relevant to their employment. This field is optional for all students at institutions in Wales.   |  |  |
|                     | Where a learner is employed and released by their employer to study a vocational learning aim which is relevant to their employment, code 6 'The LSC learner is employed and released by the employer to study a vocational learning aim relevant to that employment' should be used.  |  |  |
|                     | Where a learner is employed and studying a vocational learning aim relevant to that employment and their employer has not released the learner to attend, code 7 'The LSC learner is employed and studying a vocational learning aim relevant to that employment. The employer has not released the learner to attend' should be used. |  |  |
|                     | Where a learner is attending dedicated employer provision, code 8 'The LSC learner is attending dedicated employer provision' should be used. Dedicated provision refers to learning aims which are delivered for an employer, normally on the employers premises, either by direct or franchised provision.                           |  |  |
|                     | Code 9 'None of the above' should be used for all 16 -19 year old learners following a programme of 450 or more guided learning hours per year, learners studying learning aims unrelated to their employment and the unemployed.  |  |  |
|                     |  |  |  |

|                          | 7   |
|--------------------------|---|
|                          | Where a provider is not aware of the learners employment or is unable to establish a link between the learning aim and the learners employment, code 9 'None of the above' should be used.  |
|                          | Codes 1 - 5 can be used only by institutions in Wales.  |
|                          | This employer role should be as at the beginning of the learning aim. Do not amend this field if the learners employment status changes during the programme.   |
| Owner                    | LSC/DCELLS in WAG   |
| Version                  | 1.0   |
| Business rules           | 1 Error Instance.EMPROLE must exist for institutions in England where Instance.FESTUMK = 1, 3 or 4 and Instance.REDUCEDI = 00 or 02.  2 Error Instance.EMPROLE codes 1 - 5 must be for an institution in Wales.  3 Error Instance.EMPROLE codes 6 - 8 must be for an institution in England.  4 Error Instance.EMPROLE must not exist for institutions in Northern Ireland or Scotland.  5 Error Instance.EMPROLE must not exist for institutions in England or Wales where Instance.FESTUMK = 2.   |
| Valid Entries and Labels | The DCELLS learner is employed & is on a WBL programme The DCELLS learner is not on a WBL programme, but is employed & released by the employer to study on a vocational programme relevant to that employment The DCELLS learner is not on a WBL programme but is employed & studying on a vocational programme relevant to that employment. The employer has not released the learner to attend but is providing other support (eg payment of fees) The DCELLS learner is not on a WBL programme, but is attending dedicated employer provision The DCELLS learner is not employed, but is on a WBL programme The LSC learner is employed & released by the employer to study a vocational learning aim relevant to that employment The LSC learner is employed & studying a vocational learning aim relevant to that employment. The employer has not released the learner to attend The LSC learner is attending dedicated employer provision None of the above |

## **End date of instance**

| Short Name          | ENDDATE  |  |
|---------------------|--|--|
| Туре                | field  |  |
| Description         | This field records the date the student left the student instance detailed in this return.   |  |
| Applicable to       | England NI Scotland Wales  |  |
| Coverage            | All instances  |  |
| Base Data Type      | DateWithNullStructure9   |  |
| Field Length        | 10   |  |
| Part Of             | Instance   |  |
| Minimum Occurrences | 1  |  |
| Maximum Occurrences | 1  |  |
| Related Fields      | RSNEND   |  |
| Reason Required     | To determine whether to include a student in any particular population definition.   |  |
| Notes               | All date fields in the Student Record must be completed using the <a href="ISO8601">ISO8601</a> format of YYYY-MM-DD. The specification of this field falls within the scope of the Aligned Data Definitions and follows the <a href="Data Standards">Data Standards in the HESA student record</a> .  |  |
|                     | If the instance has not ended, an empty element should be returned with the ReasonForNull attribute set to 9 (not applicable), i.e:  |  |
|                     | <pre><enddate reasonfornull="9"></enddate></pre>   |  |
|                     | A date is not required in cases where a student transfers from one course to another within the same student instance. Guidance on when a new student instance is required is given in <a href="Instance.NUMHUS">Instance.NUMHUS</a> . Normally where a student progresses from one course directly onto another at the same level (e.g. HND to Degree, MPhil to PhD) a new student instance is not required and hence this field would not be completed |  |
|                     | An entry in this field means that an entry in <a href="Instance.RSNEND">Instance.RSNEND</a> will also be expected.   |  |
|                     | Sometimes there will be a delay in knowing whether or not a student has left a course. Where the precise date of the student leaving is not known, the date of the end of the month, term or semester in which the student last attended should be given.  |  |
|                     | Where Y0/Y1/Y2 appear in business rules, these refer to the reporting period Y1-Y2 (e.g. for the 2007-08 reporting period, Y0 is 2006, Y1 is 2007 and Y2 is 2008).   |  |
|                     | Taught students  |  |
|                     | For the purpose of HESA returns, completing an instance is defined as being the point at which the taught or structured part of the instance, including any formal writing-up period, is completed, ie. once the student is no longer actively following the course, and not any later stage such as, for example, final confirmation of award. This may mean  |  |

that <u>Instance.RSNEND</u> is completed using code 98 'Completion of course - result unknown'.

### Resit Exams and/or Results from Late Exam Boards

Students who complete their instance by 31 July but who have resit examinations to take and/or whose final confirmation of award by exam boards may be after this date should be returned to HESA as leavers, with an end date in the reporting period ending 31 July. If their results are known before the Student Record data collection closes, these results should be included in the return. Records for such students will be included in the POPDLHE (assuming that they meet all other criteria). However, if the results are not known before the Student Record data collection closes, a record should be submitted with an end date in the reporting period ending 31 July completed and code 98 'Completion of course - result unknown' in <a href="Instance.RSNEND">Instance.RSNEND</a>. Once known, these results should be returned in the next reporting period by submitting a record with the appropriate dormant code in <a href="Instance.MODE">Instance.MODE</a>. The date returned in Instance.ENDDATE must be the original end date and not be up-dated. Records returned in this way will not be included in the POPDLHE.

Institutions may wish to decommit their return late in the data collection period in order to include results from late exam or re-sit boards.

This same guidance applies to **ITT TDA** students where the award of QTS may be delayed.

ITT TDA students may finish their course in June/July of the HESA reporting year. This date should be date recorded in Instance.ENDDATE. However the institution may not know whether the student has been awarded QTS until later. If award information is known before the HESA data collection closes at the end of November, then this should be included in QUAL and OUTCOME. TDA have confirmed that trainees who obtain a successful award up until 1 November, and are shown as such in the main HESA return, will be counted in the profiles publication. Award dates after 31 October should be included in the following HESA data collection. In neither case should ENDDATE be up-dated.

It is expected that students coded other than 1 or 4 in OUTCOME who are subsequently awarded QTS should have this recorded in <a href="QualificationsAwarded.QUAL">QualificationsAwarded.QUAL</a> and <a href="QualificationsAwarded.OUTCOME">QualificationsAwarded.OUTCOME</a> in a subsequent return to HESA as an award from dormant status.

### **Research students**

For research students the award should be recorded when the institution's Senate, or other body or person empowered, formally approves the award. For such students this field should be completed with the same date.

### **Dormant students**

This field should reflect the date the student was last active on the instance and should not be updated.

### FE learners at institutions in Wales

The guidance below applies at institutions in Wales where <u>Instance.FESTUMK</u> = 1 or 3.

|                         | ,  |  |
|-------------------------|--|--|
|                         | Learners should generally be regarded as leaving prior to completion if they have not attended classes/activities for a continuous period of four weeks or more, unless there is auditable evidence that they intend to rejoin the learning activity without increasing the overall length of the learning activity. The end date for a learner leaving prior to completion should be the last day of attendance plus four weeks.  |  |
| Owner                   | Information Standards Board - Aligned Data Definitions   |  |
| Version                 | 1.2  |  |
| Date modified           | 2010-06-30   |  |
| Change management notes | Business rule 11 added. New guidance added for FE learners at institutions in Wales.   |  |
| Business rules          | 1 Error Instance.ENDDATE must not be null where Instance.RSNEND exists. 2 Error Instance.ENDDATE must not be null where Instance.CSTAT = 2, 3 or 4. 3 Error Instance.ENDDATE must be null where Instance.CSTAT = 1. 4 Error Where exists Instance.ENDDATE must be less than Y2-08-01. 5 Error If Instance.MODE is not equal to 63 or 64, then Instance.ENDDATE (where exists) must be greater than Y1-07-31. 6 Error If Instance.MODE = 63 or 64, then Instance.ENDDATE (where exists) must be greater than (Y2-6)-07-31. 7 Error Instance.ENDDATE (where exists) must be greater than or equal to Instance.COMDATE (where exists) unless (Instance.MODE = 63 or 64 and Instance.ENDDATE = Y0-08-01). 9 Error Instance.ENDDATE must be null with ReasonForNull=9 where Instance.RSNEND does not exist and Instance.REDUCEDI = 00, 01, 02, 04, 06 or 07. 10 Error Instance.ENDDATE must not be null except when ReasonForNull=9. 11 Error Instance.ENDDATE must not be null where Instance.MODE = 63 or 64 and Course.TTCID = E or F. |  |

# **Entry profile**

| Short Name          | EntryProfile   |  |  |
|---------------------|--|--|--|
| Туре                | entity   |  |  |
| Description         | This describes a student's academic and personal history as at the beginning of the Instance.  |  |  |
| Applicable to       | England NI Scotland Wales  |  |  |
| Coverage            | Compulsory for instances where <u>Instance.COMDATE</u> is in the current reporting year or where the Instance has not been previously reported. Optional in cases where previously supplied EntryProfile data needs to be corrected.   |  |  |
| Part Of             | Instance   |  |  |
| Minimum Occurrences | 0  |  |  |
| Maximum Occurrences | 1  |  |  |
| Has Parts           | Domicile (DOMICILE) Postcode (POSTCODE) Highest qualification on entry (QUALENT2) UCAS Application Number (UCASAPPID) Parental education (PARED) Dependents on entry (NIDEPEND) Marital status (MARSTAT) Religion (RELIGION) Socio-economic classification (SEC) Occupation code (SOC2000) Year left last institution (YRLLINST) Last institution attended (PREVINST) Articulation (ARTICLN) Access programmes (ACCESS) New entrant to higher education (NEWENT) PGCE subject of undergraduate degree (PGCESBJ) PGCE class of undergraduate degree (PGCECLSS) Welsh Baccalaureate Advanced Diploma (WELBACC) Qualifications on entry   |  |  |
| Reason Required     | This entity is defined to hold those fields that describe the situation at the beginning of the instance.  |  |  |
| Notes               | An Entry Profile is required for all entrants, that is instances with a <a href="Instance.combate">Instance.combate</a> in the current reporting year or instances not previously reported to HESA.  The Entry Profile and Qualification on Entry entities are only compulsory when a new instance is created. HESA will rely on HIN linkage to link data from these entities to the Instance in subsequent years and institutions should not routinely return Entry Profile data for continuing instances. Since the Entry Profile contains fields that describe information at the beginning of the Instance, the information should not change in subsequent years, unless to correct identified errors or to provide previously unknown data. If an Entry Profile is returned for a continuing instances it must be complete i.e. all required fields must be completed and no previously returned data replaced by default or unknown values.  There is further guidance available <a href="here">here</a> on Entry Profile Processing. |  |  |

| Owner                   | HESA  |  |
|-------------------------|---|--|
| Version                 | 1.1   |  |
| Date modified           | 2010-02-15  |  |
| Change management notes | Coverage updated to remove Instance.REDUCEDI restriction  |  |
| Business rules          | 1 Error EntryProfile entity must exist where corresponding Instance.COMDATE is in the current reporting year. |  |

# **Ethnicity**

| Short Name          | ETHNIC   |  |  |
|---------------------|--|--|--|
| Туре                | field  |  |  |
| Description         | This field records a student's ethnicity.  |  |  |
| Applicable to       | England NI Scotland Wales  |  |  |
| Coverage            | All students where <a href="EntryProfile.DOMICILE">EntryProfile.DOMICILE</a> in the current submission as well as those previously submitted =XF, XG, XH, XI, XK, XL, GG, JE, IM and <a href="Instance.REDUCEDI">Instance.REDUCEDI</a> = 00, 01, 06 or 07  |  |  |
| Base Data Type      | ETHNICCodeType   |  |  |
| Field Length        | 2  |  |  |
| Part Of             | Student  |  |  |
| Minimum Occurrences | 0  |  |  |
| Maximum Occurrences | 1  |  |  |
| Reason Required     | To permit ethnicity-based analysis.  |  |  |
|                     | The adoption of a national classification allows for comparability of sector data with that from other areas of the economy.   |  |  |
| Notes               | It is HESA's intention to adopt national classifications where they exist and are appropriate. The use of Census 2001 ethnicity coding in the Student Record is an example of this practice.   |  |  |
|                     | The coding frame is that recommended by ONS for UK-wide data collection. However, there is one specific additional category: code 14 'Irish Traveller', which must be used when appropriate by institutions in Northern Ireland. This code should not be used by institutions not in Northern Ireland. |  |  |
|                     | In addition, institutions in Scotland and Northern Ireland do not need to code the detail for those from mixed ethnic backgrounds. Institutions in Scotland and Northern Ireland can code all such students as 49 'Other Mixed background'.  |  |  |
|                     | For students entering through UCAS this information will be available from UCAS via the *J transaction with the exception of code 14.  |  |  |
|                     | Code 98 'Information refused' includes all cases where the information has been actively sought but is still missing.  |  |  |
|                     | This field is required for UK-domiciled students. Please note that this requirement is triggered if any HIN-linked instance for a student has an Entry Profile that indicates UK domicile, even if there are other, more recent, instances where the domicile at entry is non-UK.                      |  |  |

# **Expected length of study**

| Short Name          | SPLENGTH  |  |
|---------------------|---|--|
| Туре                | field   |  |
| Description         | This field is used to indicate the normal elapsed time in the units indicated by <a href="Instance.UNITLGTH">Instance.UNITLGTH</a> from the commencement of study, (the first learning/teaching week) to completion of the instance. This will normally include time for examinations. It does not purport to indicate the amount of study time, learning time or contact time. |  |
| Applicable to       | England NI Scotland Wales   |  |
| Coverage            | All instances where <u>Instance.REDUCEDI</u> = 00, 01 or 02   |  |
| Base Data Type      | PositiveIntegerWithNullStructure2   |  |
| Field Length        | 2   |  |
| Part Of             | Instance  |  |
| Minimum Occurrences | 0   |  |
| Maximum Occurrences | 1   |  |
| Related Fields      | UNITLGTH  |  |
| Reason Required     | To monitor patterns of study.   |  |
| Examples            | An instance lasting for two and a half years would be coded 30 months.  |  |
| Notes               | This should be the length applicable to the instance as a whole even if particular students may have different lengths of study, e.g. because of direct entry into the second year.   |  |
|                     | Where there are both part-time and full-time students following a programme of study, the expected length of study should be the normal length applicable for the mode of study of the student.   |  |
|                     | Cases where there is not a defined normal length for the programme of study, or where the programme of study is self-paced with an indefinite length, should have an empty element returned with the ReasonForNull attribute set to 9 (not applicable), i.e:  |  |
|                     | <splength reasonfornull="9"></splength>   |  |
|                     | Validation will ensure that if this field is an empty string then Instance.UNITLGTH must be coded 9.  |  |
|                     | Length of study includes holiday time.  |  |
|                     | For postgraduate research students, any extra writing-up period must be ignored. For example, a full-time PhD would typically be coded 3 years.   |  |
|                     | Foundation years  |  |
|                     | Foundation years  |  |

It is not expected that the length of study be adjusted for individual students. However, where there are different options that students can take, for example, foundation years and sandwich placements, it is expected that the length reflects the options taken. For example, where a student undertakes an integrated foundation year it is normally expected that the length be recorded as one year longer than if the student had just taken a stand-alone degree. Sandwich courses Where the option of a sandwich course is available but it is not taken up by a student then Instance.SPLENGTH should be revised at the point where the student makes a decision not to take-up the sandwich option, normally by the end of their second year, to reflect the expected length excluding the sandwich year. For example students coded 4 in Instance.SPLENGTH and 1 in Instance.UNITLGTH in the first year should be recoded 3 in Instance.SPLENGTH at the end of the second year if they are not expected to take the sandwich option. This re-coding is required to ensure that the correct cohort of student is identified in the National Student Survey (NSS) target list. The length of this field is 2 characters, however the move to XML enables data to be returned with or without leading zeros, e.g. 03 or 3. **HESA** Owner Version 1.0 **Business rules** 1 Error Instance.SPLENGTH must exist where Instance.REDUCEDI = 00, 01 or 2 Error Where exists Instance.SPLENGTH must not be coded 99 by institutions in England where Instance.FESTUMK is coded 1 or 3. Where exists Instance.SPLENGTH cannot be greater than 09 where 3 Error Instance.MODE = 01, 02, 23, 24 or 25 and Instance.UNITLGTH =1. Where exists Instance.SPLENGTH cannot be greater than 72 where 4 Error Instance.MODE = 01, 02, 23, 24 or 25 and Instance.UNITLGTH = 2. Instance.SPLENGTH must not be null except when ReasonForNull = 9. 5 Error Instance.SPLENGTH must be null when ReasonForNull = 9. Error

# Family name

| Short Name          | SURNAME   |  |
|---------------------|---|--|
| Туре                | field   |  |
| Description         | This field is the student's family name.  |  |
| Applicable to       | England NI Scotland Wales   |  |
| Coverage            | All students where any <u>Instance.REDUCEDI</u> = 00, 01 or 04  |  |
| Base Data Type      | NameType  |  |
| Field Length        | 100   |  |
| Part Of             | Student   |  |
| Minimum Occurrences | 0   |  |
| Maximum Occurrences | 1   |  |
| Reason Required     | To facilitate HESA checking data with institutions and for Statutory Customers to link student records collected by HESA for statistical purposes.  |  |
| Notes               | In cases where the student does not split their name between family and forenames, the whole name should be entered in <a href="Student.SURNAME">Student.FNAMES</a> should be returned as an empty element with the ReasonForNull attribute set to 9 (not applicable), i.e.:  |  |
|                     | <pre><fnames reasonfornull="9"></fnames></pre>  |  |
|                     | For students entering through UCAS this information will be available from UCAS via the *J transaction.   |  |
|                     | The field length has been set to 100 characters to align this field with the ISB Aligned Data Definitions.  |  |
|                     | Valid characters  |  |
|                     | The question of valid characters is significant in this field since many names include characters with accents and other diacritics that are not supported by the standard ASCII characterset. The valid characterset available for this field follows the <a href="Data">Data</a> Standards in the HESA student record.  |  |
|                     | <ul> <li>The general policy is to support all Latin-based characters for names, addresses and general text fields, but not non-Latin characters.</li> <li>All Unicode code charts for Latin characters are supported. These are Basic Latin (excluding the C0 control characters), Latin-1 (excluding the C1 control characters), Latin Extended A, Latin Extended B and Latin Extended Additional. This set corresponds to Unicode code points U+0020 to U+007F and U+00A0 to U+024F.</li> <li>Schemas are built in such a way that an individual project can further restrict the set if required.</li> </ul> |  |
|                     | The character set chosen will support Welsh and Gaelic languages as well as all European and most other languages using a Latin-based character set.  |  |

The Unicode charts that list each of the characters in this range can be found on the Unicode web site. The specific sets that are defined here are shown in the following PDF documents: • Basic Latin • Latin-1 · Latin Extended A Latin Extended B Latin Extended Additional Files must be encoded with UTF-8 and schema validation will be in place to ensure this. Institutions must specify the encoding used in their XML files in the first line of the file (i.e. <?xml version="1.0" encoding="UTF-8" ?>) and to ensure that their files are actually saved with that encoding. If XML files are edited with some text editors and the encoding is not specified or does not match the actual file encoding, there may be problems when submitting these files for validation. Owner Information Standards Board - Aligned Data Definitions Version 1.1 Date modified 2010-02-15 File encoding advice updated to require that files are encoded with UTF-8. # FE general qualification aim

| Short Name          | FEQAIMC   |  |  |
|---------------------|---|--|--|
| Туре                | field   |  |  |
| Description         | This field describes the learning aim as listed on the Learning Aims Database (LAD).  |  |  |
| Applicable to       | England Wales   |  |  |
| Coverage            | All courses where for any linked instance <u>Instance.FESTUMK</u> = 1, 3 or 4   |  |  |
| Base Data Type      | LearningAimReferenceType  |  |  |
| Field Length        | 8   |  |  |
| Part Of             | Course  |  |  |
| Minimum Occurrences | 0   |  |  |
| Maximum Occurrences | 1   |  |  |
| Related Fields      | FESTUMK   |  |  |
| Reason Required     | To allow monitoring of FE students by qualification aim.  |  |  |
| Notes               | For internally validated courses not funded by LSC or Welsh Assembly Government DCELLS, institutions can use the ILR non-specific code of '66666666' to identify these courses in this field.  Where there are any HE level students on an instance linked to this course and funded by LSC or Welsh Assembly Government DCELLS, (code 3 'The student is an LSC/Welsh Assembly Government DCELLS funded learner studying at HE level' in Instance.FESTUMK) then Course.COURSEAIM, Course.FEQAIMC, and Course subject must all be completed. |  |  |
|                     |   |  |  |
|                     | If (after a discussion with Welsh Assembly Government DCELLS) a generic code or '666666666' is used within this field then Welsh Assembly Government DCELLS requires institutions to also complete Course subject in order to give detail of the subject area of the qualification.   |  |  |
| Owner               | LSC/WAG-DCELLS  |  |  |
| Version             | 1.0   |  |  |
| Business rules      | 1 Error Course.FEQAIMC must exist for institutions in England or Wales where any Instance.FESTUMK = 1,3 or 4. 4 Error Course.FEQAIMC must not exist for institutions in Northern Ireland or Scotland. 5 Warning Course.FEQAIMC should not be coded '66666666' where Course.MSFUND = 05 or 06.   |  |  |

## FE student marker

| Short Name              | FESTUMK   |  |  |
|-------------------------|---|--|--|
| Туре                    | field   |  |  |
| Description             | This field identifies students at HE institutions who are studying at FE level or are funded by LSC or WAG-DCELLS   |  |  |
| Applicable to           | England Wales   |  |  |
| Coverage                | All Instances at institutions in England and Wales  |  |  |
| Base Data Type          | FESTUMKCodeType   |  |  |
| Field Length            | 1   |  |  |
| Part Of                 | Instance  |  |  |
| Minimum Occurrences     | 0   |  |  |
| Maximum Occurrences     | 1   |  |  |
| Reason Required         | To distinguish between FE and HE level of study, and between FE and HE funding, so as to allow separation of HE and FE work and funding in HEIs.  |  |  |
| Notes                   | For England and Wales, an LSC/DCELLS student is defined as a student following a course leading to a general qualification aim at FE level and any other student following a course funded by LSC or WAG-DCELLS (and which may be at FE or HE level). Students coded 1, 3 or 4 will be regarded as FE funding council students. Students coded 2 will be assumed to be HE level students, with no LSC/DCELLS funding. |  |  |
|                         | Code 3 'The student is an LSC/DCELLS funded student studying at HE level'   |  |  |
|                         | The funding councils have advised that LSC and WAG-DCELLS do not ordinarily fund students studying at HE level within HEIs. It is therefore recommended that any institution who believes they have students in this category contact HESA before coding.   |  |  |
|                         | Access to HE courses are regarded as FE level courses.  |  |  |
|                         | 'Foundation years that are not integrated into an HE level course are generally considered to be FE level'.   |  |  |
| Owner                   | HESA  |  |  |
| Version                 | 1.1   |  |  |
| Date modified           | 2010-04-30  |  |  |
| Change management notes | Business rule 1 updated to exclude Instance.REDUCEDI = 06 or 07.  |  |  |

|                             | 5 Error          | begins D, E, L, M, H, I, J or C. Instance.FESTUMK must not exist for institutions in Northern Ireland or Scotland.  |
|-----------------------------|------------------|---|
| Valid Entries and<br>Labels | 1<br>2<br>3<br>4 | The student is an LSC/DCELLS FE funded learner studying at FE level The student is not an LSC/DCELLS FE funded learner nor is the learner studying at FE level The student is an LSC/DCELLS FE funded learner studying at HE level The student is not an LSC/DCELLS FE funded learner but is studying at FE level |

# Fee eligibility

| Short Name          | FEEELIG  |  |  |
|---------------------|--|--|--|
| Туре                | field  |  |  |
| Description         | This field is to distinguish those students who are eligible to pay home fees from those who are not, in cases where there are separate levels of fees for 'home' students and for others.   |  |  |
| Applicable to       | England NI Scotland Wales  |  |  |
| Coverage            | All instances where <u>Instance.REDUCEDI</u> = 00 or 01  |  |  |
| Base Data Type      | FEEELIGCodeType  |  |  |
| Field Length        | 1  |  |  |
| Part Of             | Instance   |  |  |
| Minimum Occurrences | 0  |  |  |
| Maximum Occurrences | 1  |  |  |
| Reason Required     | To allow financial calculations to take account of the fee difference between home/EU and overseas students and of other fee offsets.  |  |  |
|                     | To resolve otherwise indeterminate home/overseas cases.  |  |  |
| Notes               | Channel Islands and Isle of Man domiciled students should be coded as code 2 'Not eligible to pay home fees'.  |  |  |
|                     | Code 3 'Eligibility to pay home fees not assessed' may be used for all courses or programmes of study for which the concept of 'home fees' does not apply. Typical examples would be students on most part-time or FE level or full cost-recovery courses. |  |  |
|                     | Code 3 'Eligibility to pay home fees not assessed' may be used for incoming exchange students.   |  |  |
|                     | The allocation of a student to a particular fee eligibility category should be consistent with the treatment in the HESES/Early Statistics return.   |  |  |

### **Forenames**

| Short Name          | FNAMES  |  |
|---------------------|---|--|
| Туре                | field   |  |
| Description         | This field records the forenames of the student.  |  |
| Applicable to       | England NI Scotland Wales   |  |
| Coverage            | All students where any <u>Instance.REDUCEDI</u> = 00, 01 or 04  |  |
| Base Data Type      | NameWithNullStructure   |  |
| Field Length        | 100   |  |
| Part Of             | Student   |  |
| Minimum Occurrences | 0   |  |
| Maximum Occurrences | 1   |  |
| Reason Required     | To facilitate HESA checking data with institutions and for Statutory Customers to link student records collected by HESA for statistical purposes.  |  |
| Notes               | In cases where the student does not split their name between family and forenames, the whole name should be entered in <a href="Student.SURNAME">Student.SURNAME</a> and an empty element should be returned with the ReasonForNull attribute set to 9 (not applicable), i.e:   |  |
|                     | <pre><fnames reasonfornull="9"></fnames></pre>  |  |
|                     | For students entering through UCAS this information will be available from UCAS via the *J transaction.   |  |
|                     | The field length has been set to 100 characters to align this field with the ISB Aligned Data Definitions.  |  |
|                     | Valid characters  |  |
|                     | The question of valid characters is significant in this field since many names include characters with accents and other diacritics that are not supported by the standard ASCII characterset. The valid characterset available for this field follows the <a href="Datastandards">Datastandards in the HESA student record</a> .   |  |
|                     | <ul> <li>The general policy is to support all Latin-based characters for names, addresses and general text fields, but not non-Latin characters.</li> <li>All Unicode code charts for Latin characters are supported. These are Basic Latin (excluding the C0 control characters), Latin-1 (excluding the C1 control characters), Latin Extended A, Latin Extended B and Latin Extended Additional. This set corresponds to Unicode code points U+0020 to U+007F and U+00A0 to U+024F.</li> <li>Schemas are built in such a way that an individual project can further restrict the set if required.</li> </ul> |  |
|                     | The character set chosen will support Welsh and Gaelic languages as well as all European and most other languages using a Latin-based character set.  |  |

The Unicode charts that list each of the characters in this range can be found on the Unicode web site. The specific sets that are defined here are shown in the following PDF documents: Basic Latin Latin-1 · Latin Extended A Latin Extended B Latin Extended Additional Files must be encoded with UTF-8 and schema validation will be in place to ensure this. Institutions must specify the encoding used in their XML files in the first line of the file (i.e. <?xml version="1.0" encoding="UTF-8" ?>) and to ensure that their files are actually saved with that encoding. If XML files are edited with some text editors and the encoding is not specified or does not match the actual file encoding, there may be problems when submitting these files for validation. Owner Information Standards Board - Aligned Data Definitions Version 1.1 Date modified 2010-02-15 File encoding advice updated to require that files are encoded with UTF-8. Field length Change management increased from 35 to 100 notes Business rules 1 Error Student.FNAMES must exist where any Instance.REDUCEDI = 00, 01 or 2 Error Student.FNAMES must not be null except when ReasonForNull = 9. 3 Error Student.FNAMES must be null when ReasonForNull = 9. 4 Error Student.FNAMES must not exist where Student.SURNAME does not exist.

# Foundation degree to degree bridging course

| Short Name          | BRIDGE   |          |  |
|---------------------|--|----------|--|
| Туре                | field  |          |  |
| Description         | This field identifies instances where any part of the instance involves a foundation degree to degree bridging course  |          |  |
| Applicable to       | England NI Scotlar   | nd Wales |  |
| Coverage            | All instances where Course.COURSEA   |          | EDI = 00 unless institution in Wales and Q, R, S or X  |
| Base Data Type      | BRIDGECodeType   |          |  |
| Field Length        | 1  |          |  |
| Part Of             | Instance   |          |  |
| Minimum Occurrences | 0  |          |  |
| Maximum Occurrences | 1  |          |  |
| Reason Required     | To identify students who undertook bridging courses.   |          |  |
| Examples            | A student completes a foundation degree in June 2008 and then undertakes a bridging course from July to September and then joins the final year of a degree which they complete in June 2009.                                    |          |  |
|                     | Field  | 2007/08  | 2008/09  |
|                     | COURSEAIM  | J10      | H00  |
|                     | STULOAD  | 100.0    | 130.0  |
|                     | TYPEYR   | 1        | 1  |
|                     | BRIDGE   | 0        | 1  |
|                     | Example for institutions in Wales  A student completes a foundation degree in June 2008 and then undertakes a bridging course from July to September and then joins the final year of a degree which they complete in June 2009. |          |  |
|                     |  |          |  |
|                     | Field  | 2007/08  | 2008/09  |
|                     | COURSEAIM  | J10      | H00  |
|                     | STULOAD  | 110.0    | 120.0  |
|                     | TYPEYR   | 2        | 1  |
|                     | BRIDGE   | 1        | 0  |
| Notes               |  |          | courses are taken after completing a foundation inal year of an honours degree. They are short |

courses which are not an integral part of the course they are bridging from, although progression from a successful completion of the bridging course to the final year of an honours degree is assured.

Where a student's studies include, within the same instance, a foundation degree to degree bridging course this bridging course element will be shown by code 1 'Foundation degree to degree bridging course' in <a href="Instance.BRIDGE">Instance.BRIDGE</a> and an increased FTE in <a href="Instance.STULOAD">Instance.STULOAD</a>.

Where a student studies only a bridging course within the HESA reporting year Course.COURSEAIM should be returned with a value of H90.

Where a student undertakes a foundation degree and bridging course in the same HESA reporting year <a href="Instance.FUNDCOMP">Instance.FUNDCOMP</a>, should reflect whether the student completed the foundation degree and will therefore usually be returned with a value of 1. Similarly where the student progresses to a degree after completion of the bridging course <a href="Instance.FUNDCOMP">Instance.FUNDCOMP</a> should reflect the completion status of the degree.

### **Guidance from HEFCE**

Where the bridging course spans HESA reporting years, HEFCE advise that the FTE must all be returned in the second HESA reporting year; this differs from the method used for other non-standard course academic years. Institutions should also indicate in <a href="Instance.BRIDGE">Instance.BRIDGE</a> that the student has studied a foundation degree to degree bridging course only in the year in which the FTE is increased. It may be that the inclusion of a foundation degree to degree bridging course means that the year of instance becomes non-standard ie. no longer contained within the HESA reporting year. However, where the year would otherwise have been recorded as a standard academic year the year should still be recorded as such.

### **Guidance from HEFCW**

Where the bridging course spans HESA reporting years, HEFCW advise that the FTE must be split between the years, as for other courses. Institutions should also indicate in <a href="Instance.BRIDGE">Institutions should also indicate in Instance.BRIDGE</a> that the student has studied a foundation degree to degree bridging course, in the year in which the bridging course started.

| Base Data Type              | FROUTARRCodeType  |  |  |
| Field Length                | 2   |  |  |
| Part Of                     | Instance  |  |  |
| Minimum Occurrences         | 0   |  |  |
| Maximum Occurrences         | 1   |  |  |
| Related Fields              | FESTUMK   |  |  |
| Reason Required             | To monitor the nature of franchised out provision and to support planning.  |  |  |
| Notes                       | Information about learners who are studying on provision delivered by the provider on behalf of another provider, that is franchised in to the provider, should be supplied in aggregate using an LSC form.   |  |  |
|                             | If the learner is studying for this learning aim on provision franchised out for part of the learning aim this should only be recorded in the field where the other provider delivers more than 50% of the guided learning hours for the learning aim.  Code 27 should be used where franchised provision is community based and normally with non-profit making bodies and would therefore be eligible to be funded at the full rate without a discount, as described at b in paragraph 18 of FEFC circular 99/09. |  |  |
|                             |   |  |  |
|                             | The LSC requests additional information on organisations with which providers have franchising arrangements. This information should be returned to the LSC using the register of franchise and other partners. A sample file can be found on the LSC website and should be sent with each ILR return.  |  |  |
|                             | If a student is coded 01 - 80 in this field then Module.TINST must be coded 4001 - 4004.  |  |  |
| Owner                       | HESA  |  |  |
| Version                     | 1.0   |  |  |
| Business rules              | 1 Error Instance.FROUTARR must exist for institutions in England where Instance.FESTUMK = 1, 3 or 4 and Instance.REDUCEDI = 00. 2 Error Instance.FROUTARR must not exist for institutions not in England. 3 Error Instance.FROUTARR must not exist for institutions in England where Instance.FESTUMK = 2.  |  |  |

## FTE in year A

| Short Name          | LOADYRA   |  |
|---------------------|---|--|
| Туре                | field   |  |
| Description         | This field together with <a href="Instance.LOADYRB">Instance.LOADYRB</a> describes the split of student FTE (as reported in <a href="Instance.STULOAD">Instance.STULOAD</a> ) between years of instance, in cases where two years of instance are contained within a reporting period.  |  |
|                     | This field contains the amount of FTE in <a href="Instance.STULOAD">Instance.STULOAD</a> attributable to the year continuing from the previous reporting period. The value can be recorded to one decimal place and must be between 0 and 300.  |  |
| Applicable to       | England NI  |  |
| Coverage            | Compulsory where <u>Institution.INSTAPP</u> = 1 and <u>Instance.TYPEYR</u> = 2, 3, 4 or 5 and <u>Course.COURSEAIM</u> does not begin D, L, P, Q, R, S or X.   |  |
| Base Data Type      | FTEType   |  |
| Field Length        | 5   |  |
| Part Of             | Instance  |  |
| Minimum Occurrences | 0   |  |
| Maximum Occurrences | 1   |  |
| Related Fields      | LOADYRB<br>STULOAD<br>MODYR   |  |
| Reason Required     | To allow detailed allocation of FTE to years of instance where an institution has opted to provide this information.  |  |
| Notes               | This field allows the allocation of student load to years of instance where these span HESA reporting years. Completion of these fields will allow HEFCE to remove the approximations that are currently included in their re-creation of the HESES returns which counts FTE against years of instance rather than HESA reporting years. This will affect mainly students who are on courses of more than one years duration where any of the following are true: |  |
|                     | (a) the intensity of the course varies over time  |  |
|                     | (b) the student drops out or takes a break in study   |  |
|                     | (c) the mix of cost centres in which the student is active varies over the duration of the course   |  |
|                     | (d) activity is not spread evenly throughout the HESA reporting year  |  |
|                     | An example of how years may overlap the HESA reporting year is given below:   |  |
|                     | The FTE in student year A is reported in this field, and the load in student year B in <a href="Instance.LOADYRB">Instance.LOADYRB</a> .  |  |

|                | The follow  | The following example illustrates how these fields should be coded.                              |                       |                       |  |
|----------------|---|--|-----------------------|-----------------------|--|
|                | For a studin Year 1   | For a student studying an MSc part-time delivered over two years starting on 1 January in Year 1 |                       |                       |  |
|                |   | Instance.LOADYR  | A <u>Instance.LOA</u> | DYRB Instance.STULOAD |  |
|                | Year 1  | 0  | 42.5                  | 42.5                  |  |
|                | Year 2  | 7.5  | 42.5                  | 50.0                  |  |
|                | Year 3  | 7.5  | 0                     | 7.5                   |  |
|                | Thus in Year 2 HEFCE is able to determine that the FTE for the student's year A was <a href="Instance.LOADYRB">Instance.LOADYRB</a> in Year 1 and LOADYRA in Year 2.  |  |                       |                       |  |
|                | This field should contain 0 where a student is starting an instance that will have years that span reporting periods.   |  |                       |                       |  |
| Owner          | HESA  |  |                       |                       |  |
| Version        | 1.0   |  |                       |                       |  |
| Business rules | 1 Error Instance.LOADYRA must exist where Institution.INSTAPP is coded 1 and Instance.TYPEYR = 2, 3, 4 or 5 and Course.COURSEAIM does not begin D, L, P, Q, R, S, X.  2 Error Instance.LOADYRA must not exist where Institution.INSTAPP is coded 0. Instance.LOADYRA must not exist for institutions in Scotland and Wales. |  |                       |                       |  |

## FTE in year B

| Short Name          | LOADYRB   |  |
|---------------------|---|--|
| Туре                | field   |  |
| Description         | This field together with Instance.LOADYRA describes the split of student FTE (as reported in <a href="Instance.STULOAD">Instance.STULOAD</a> ) between years of instance, in cases where two years of instance are contained within a reporting period.   |  |
|                     | This field contains the amount of FTE in <a href="Instance.STULOAD">Instance.STULOAD</a> attributable to the year continuing into the next reporting period. The value can be recorded to one decimal place and must be between 0 and 300.  |  |
| Applicable to       | England NI  |  |
| Coverage            | Compulsory where <u>Institution.INSTAPP</u> = 1 and <u>Instance.TYPEYR</u> = 2, 3, 4 or 5 and <u>Course.COURSEAIM</u> does not begin D, L, P, Q, R, S or X.   |  |
| Base Data Type      | FTEType   |  |
| Field Length        | 5   |  |
| Part Of             | Instance  |  |
| Minimum Occurrences | 0   |  |
| Maximum Occurrences | 1   |  |
| Related Fields      | LOADYRA<br>STULOAD<br>MODYR   |  |
| Reason Required     | To allow detailed allocation of FTE to years of instance where an institution has opted to provide this information.  |  |
| Notes               | This field allows the allocation of student load to years of instance where these span HESA reporting years. Completion of these fields will allow HEFCE to remove the approximations that are currently included in their re-creation of the HESES returns which counts FTE against years of instance rather than HESA reporting years. This will affect mainly students who are on courses of more than one years duration where any of the following are true: |  |
|                     | (a) the intensity of the course varies over time  |  |
|                     | (b) the student drops out or takes a break in study   |  |
|                     | (c) the mix of cost centres in which the student is active varies over the duration of the course   |  |
|                     | (d) activity is not spread evenly throughout the HESA reporting year  |  |
|                     | An example of how years may overlap the HESA reporting year is given below:   |  |
|                     | The FTE in student year A is reported in <a href="Instance.LOADYRA">Instance.LOADYRA</a> , and the load in student year B in this field.  |  |

|                | The follow   | The following example illustrates how these fields should be coded.                              |              |                       |  |
|----------------|--|--|--------------|-----------------------|--|
|                | For a studin Year 1  | For a student studying an MSc part-time delivered over two years starting on 1 January in Year 1 |              |                       |  |
|                |  | Instance.LOADYRA   | Instance.LOA | OYRB Instance.STULOAD |  |
|                | Year 1   | 0  | 42.5         | 42.5                  |  |
|                | Year 2   | 7.5  | 42.5         | 50.0                  |  |
|                | Year 3   | 7.5  | 0            | 7.5                   |  |
|                | Thus in Year 2 HEFCE is able to determine that the FTE for the student's year A was LOADYRB in Year 1 and Instance.LOADYRA in Year 2.  |  |              |                       |  |
|                | This field should contain 0 where a student is finishing an instance that spanned reporting periods.   |  |              |                       |  |
| Owner          | HESA   |  |              |                       |  |
| Version        | 1.0  |  |              |                       |  |
| Business rules | 1 Error Instance.LOADYRB must exist where Institution.INSTAPP is coded 1 and Instance.TYPEYR = 2, 3, 4 or 5 and Course.COURSEAIM does not begin D, L, P, Q, R, S, X.  2 Error Instance.LOADYRB must not exist where Institution.INSTAPP is coded 0.  3 Error Instance.LOADYRB must not exist for institutions in Scotland and Wales. |  |              |                       |  |

## **FTE** method

| Short Name                  | FTEMETHOD   |  |  |
|-----------------------------|---|--|--|
| Туре                        | field   |  |  |
| Description                 | This field indicates the method used to return Student FTE  |  |  |
| Applicable to               | Scotland  |  |  |
| Coverage                    | All instances at institutions in Scotland where <u>Instance.REDUCEDI</u> = 00, 01 or 03   |  |  |
| Base Data Type              | FTEMETHODCodeType   |  |  |
| Field Length                | 1   |  |  |
| Part Of                     | Instance  |  |  |

## **Fundability code**

| Short Name          | FUNDCODE   |  |  |
|---------------------|--|--|--|
| Туре                | field  |  |  |
| Description         | This field indicates whether the student is counted as 'fundable', ie. 'eligible for funding' for the course by the appropriate funding council/body. The definition therefore may vary between England, Scotland, Northern Ireland and Wales, in line with their funding methods.   |  |  |
| Applicable to       | England NI Scotland Wales  |  |  |
| Coverage            | All instances where <u>Instance.REDUCEDI</u> = 00 or 01  |  |  |
| Base Data Type      | FUNDCODECodeType   |  |  |
| Field Length        | 1  |  |  |
| Part Of             | Instance   |  |  |
| Minimum Occurrences | 0  |  |  |
| Maximum Occurrences | 1  |  |  |
| Reason Required     | To assess accuracy of early returns (Early Statistics), and to identify health and social care students and teacher training students.   |  |  |
| Examples            | A non-EU overseas student is an example of a particular student who is not eligible for funding, even if the course that they are following has funding for student places.  |  |  |
|                     | This should be consistent with the HESES and Early Statistics Returns.   |  |  |
| Notes               | This field must be coded at the individual student instance level.   |  |  |
|                     | Fundable means eligible for funding by the appropriate funding council/body, as defined by that council/body.  |  |  |
|                     | This field should be consistent with the year's early student statistics returns to the funding councils.  |  |  |
|                     | Eligible students on courses funded by LSC or WAG-DCELLS should be coded 1 'Fundable by funding council'.  |  |  |
|                     | HEFCE funding rules for fundable postgraduate students require students to be actively supervised by a member of academic staff. This guidance applies to English HEIs (including all of the OU) and NI Universities. The current definition for PGR students is:  |  |  |
|                     | All HEFCE-fundable postgraduate research students should be home and EC postgraduate students registered at the reporting institution for a research-based higher degree. The students should be actively supervised by an academic member of staff employed by a higher education institution in England. Students who spend most of their programme of study outside the UK should not be treated as fundable, except where: |  |  |
|                     | There is a clear academic reason for studying abroad rather than in the UK, for  |  |  |

- example, where the student's research is tied to a specific archaeological site.
- 2. The student is temporarily and unavoidably abroad and remains liable to UK tax on their earnings, or is a dependant of such a person. This includes members of HM Forces and their dependants.

Please refer any queries about whether or not students on a particular course or students of a particular type are eligible for funding to the appropriate funding council/body rather than to HESA.

To be consistent with the year's early statistics, this field applies to 'eligible for core funding' (in the HESES returns for England, Wales and Northern Ireland) or to 'eligible for funding' (in SFC's 'Early Statistics' return). It has been confirmed by the funding councils that it is possible for students coded 01-04 (funding councils) in <a href="Course.MSFUND">Course.MSFUND</a> to be returned as 2 'Not fundable by funding council'. An example of where this is applicable is courses funded through special funding initiatives.

The guidance for coding non-fundable students on funded courses should be to code to the appropriate funding council in <a href="Course.MSFUND">Course.MSFUND</a> and code as 2 'Not fundable by funding council' in this field.

Code 3 'Not eligible for funding (as defined for the SFC 'Early Statistics') but is a Continuing Professional Development course (as defined by SFC)' is for use by institutions in Scotland only. Where code 3 is applicable it should be used in preference to code 2 'Not fundable by funding council'.

Code 7 'Fundable by Training and Development Agency for Schools' is not available for institutions in Wales.

Institutions funded by SFC should note that a particular funding cell may have 100 'fundable' students, but the funding council may provide funding for only 80 student places in that cell. Provided that they satisfy the conditions for being counted in the 'Early Statistics' figures, all 100 students should be identified as eligible for funding: one cannot say which of them were 'fees only' students, as the funding relates to the cell as a whole.

For institutions in England, where the major source of funding for the course is HEFCE, but there is another EU public source funding a certain number of places then this number of places must be shown as non-fundable in this field. In most cases, it is expected that it will be clear from payment of tuition fees which individual student places are being funded from another source and so are not fundable by HEFCE. For the small number of cases where this is not so, institutions shall have the discretion as to which individual students to return as fundable, and which as not fundable, provided that the total student numbers conform to the split between fundable and non-fundable places.

## Owner HESA Version 1.1 Date modified 2010-04-30

# Business rule 4 updated to include M26. Business rule 7 updated to add Course.TTCID = E and replace Course.TTCID codes A, B and C with code F. Business rule 8 updated to remove Instance.ITTPHSC = 49. Business rule 9 updated to add Course.TTCID = E and replace Course.TTCID codes A, B and C with code F. Business rule 19 updated to remove exclusion of Course.COURSEAIM = J30. Business rule 18 deleted. Business rule 21 added. Guidance on HEFCE funding of postgraduate research students amended and explanded.

Change management

notes

| Business rules           | 1 Error   | Instance.FUNDCODE must be coded 1 where Instance.FESTUMK = 1 or 3.   |

## Gender

| Short Name               | GENDER   |  |  |
|--------------------------|--|--|--|
| Туре                     | field  |  |  |
| Description              | This field identifies the gender of the student. The definition of gender is intended to be classification of (biological) sex   |  |  |
| Applicable to            | England NI Scotland Wales  |  |  |
| Coverage                 | All students   |  |  |
| Base Data Type           | GENDERCodeType   |  |  |
| Field Length             | 1  |  |  |
| Part Of                  | Student  |  |  |
| Minimum Occurrences      | 1  |  |  |
| Maximum Occurrences      | 1  |  |  |
| Reason Required          | To permit gender-based analysis and also to facilitate record linkage across collections.  |  |  |
| Notes                    | The specification of this field falls within the scope of the Aligned Data Definitions and follows the <u>Data Standards in the HESA student record</u> .  |  |  |
|                          | Code 9 'Indeterminate' means unable to be classified as either male or female. It should not be used as a substitute or proxy for 'Not known'. The term 'indeterminate gender' is intended to identify those who are 'intersex' and is not related in any way to trans-gender. |  |  |
|                          | For students entering through UCAS this information will be available from UCAS via the *J transaction.  |  |  |
| Owner                    | Information Standards Board - Aligned Data Definitions   |  |  |
| Version                  | 1.0  |  |  |
| Valid Entries and Labels | 1 Male<br>2 Female<br>9 Indeterminate  |  |  |

## **General qualification aim of course**

| Short Name          | COURSEAIM   |                 |  |  |
|---------------------|---|-----------------|--|--|
| Туре                | field   |                 |  |  |
| Description         | This field describes the general qualification aim of the course and is intended to record the qualification that will be attained as a result of successful completion of studies.   |                 |  |  |
| Applicable to       | England NI Scotland Wales   |                 |  |  |
| Coverage            | All courses   |                 |  |  |
| Base Data Type      | COURSEAIMCodeType   |                 |  |  |
| Field Length        | 3   |                 |  |  |
| Part Of             | Course  |                 |  |  |
| Minimum Occurrences | 1   |                 |  |  |
| Maximum Occurrences | 1   |                 |  |  |
| Reason Required     | To allow analysis of the student population by level of study.  |                 |  |  |
| Examples            | With a course leading to an HND, where some of the students may subsequently carry on to take a degree, the current general qualification aim of HND should be recorded.  |                 |  |  |
| Notes               | Course aim describes the qualification that will be attained as a result of successful completion of the course.  |                 |  |  |
|                     | Overall framework and alignment with existing frameworks.   |                 |  |  |
|                     | The most relevant are the UK frameworks. For England, Wales and NI the HE qualifications framework identifies five levels (C/4, I/5, H/6, M/7, D/8) and these are aligned with the NVQ levels 4 to 8. The Scottish Credit and Qualifications Framework (SCQF), which is not HE-specific, is aligned with this except that the lower boundary of Scottish Level 7 is apparently slightly lower than the lower boundary of Level C / NVQ 4 (this is the lower cutoff for what may be regarded as HE in England and Wales, but, significantly, Scottish Advanced Highers fall into Level 7), and Level I /NVQ 5 is split into two levels in Scotland, Level 8 and 9. |                 |  |  |
|                     | The ISCED framework is used for international reporting, and four levels within it are relevant, Levels 4, 5B, 5A and 6. The Bologna framework for European HE harmonisation is still in process of development, but the current state may be summarised as recognising four levels: short-cycle, first-cycle, second-cycle, and third cycle.   |                 |  |  |
|                     |   | IVQ<br>IE ISCED |  |  |

|   |   |   | D        | N1/A   |                           |

| Χ | -   | - | -  | - |

† Note that the QAA level descriptors in the Framework for Higher Education Qualifications in England, Wales and Northern Ireland (FHEQ) have changed in the 2008 version compared with the 2001 version. Full details are available from the QAA document 264 08/08. Although the 2008 FHEQ qualification descriptor for level 6 states that this can be used as a reference for ordinary bachelor's degrees, for HESA purposes first degrees with honours should be coded at level H, and first degrees without honours should be coded at level I.

There is a summary of qualification levels in the UK and Ireland available from the QAA.

This coding frame is designed to support the alignment of course qualifications with the frameworks, with the first letter indicating the level. Codes of similar type at different levels have the same two-digit suffix.

Please note that although the first letter of the code identifies a framework level, institutions in England will identify the funding level appropriate to a student following a course using <a href="Instance.FUNDLEV">Instance.FUNDLEV</a>. This may be different to the level identified in this coding frame.

The codes for visiting students can be used as alternatives to institutional credit codes, particularly for informal credit. Students are specifically identified as exchange students in <a href="Instance.EXCHANGE">Instance.EXCHANGE</a>.

Additional guidance on specific codes:

D00 Doctorate degree obtained primarily through advanced supervised research written up as a thesis/dissertation.

This would typically require three years of supervised work or the equivalent (typical title PhD, DPhil).

D01 New Route PhD.

The <u>NewRoutePhD</u> is an integrated programme of postgraduate training which combines research with a structured programme of advanced training in discipline specific and generic skills.

E00 Doctorate degree NOT obtained primarily through advanced supervised research written up as a thesis/dissertation.

Use this code for 'professional' Doctorates with major coursework and professional practice components, for example DBA, EdD.

L00 Master's degree obtained primarily through advanced supervised research written up as a thesis/dissertation.

This would typically require two years of supervised work or the equivalent (for example MPhil, possibly MSc, MA, MLitt but excluding a taught Master's as usually understood).

L99 Advanced supervised research at Levels D or L with an unspecified qualification aim.

Use this code for beginning research students not yet specifically registered for either a Master's or Doctorate degree.

M00 Master's degree obtained typically by a combination of coursework and thesis/dissertation, and NOT primarily through advanced supervised research written up as a thesis/dissertation.

Use this code for taught Master's degrees (typical title MSc or MA). Post-experience Master's degrees should be coded below

M01 Taught Master's degree designed specifically as a training in research methods and intended as a preparation for advanced supervised research.

Use this code only for MRes degrees and similar.

#### M02 Masters in Teaching and Learning

The <u>Masters in Teaching and Learning (MTL)</u> is a new professional qualification for teachers

#### M10 Post-experience taught Master's degree

(MEd, for example). 'Post-experience' implies a period of at least two years' relevant work experience as a pre-requisite for entry to the programme leading to the qualification. Do not use this category simply because a qualification is being taken post-experience.

#### M11 Master of Business Administration.

Use this code rather than M10 for post-experience MBA.

M22 Integrated undergraduate/postgraduate taught Master's degree on the enhanced/extended pattern.

Use this code for MEng and similar. Such masters degrees comprise an integrated programme of study spanning several years. While the final outcomes of the qualifications meet the expectations for level M in full, these integrated qualifications have an additional period of study at lower levels (typically level H). Use code M22 only where code M26 is not applicable.

M26 Integrated undergraduate/postgraduate taught Master's degree on the enhanced/extended pattern leading towards eligibility to practice with a Health or Social Care or Veterinary statutory regulatory body

This code can be used for degrees in medicine, dentistry and veterinary science comprising an integrated programme of study and professional practice.

M50 Postgraduate Bachelor's degree at level M obtained typically by a combination of coursework and thesis/dissertation, and NOT primarily through advanced supervised research written up as a thesis/dissertation.

Use this code for degrees such as BPhil, BMus if at Level M.

M70 Professional taught qualification at Level M other than a Master's degree.

Use M71, M72, M76, M78 in preference if applicable.

M71 Postgraduate Certificate in Education or Professional Graduate Diploma in Education.

See H71 for Professional Graduate Certificate in Education. See <a href="http://www.gaa.ac.uk/academicinfrastructure/FHEQ/PGCEstatement.asp">http://www.gaa.ac.uk/academicinfrastructure/FHEQ/PGCEstatement.asp</a>

M76 Post-registration health and social care qualification at level M.

This code includes Continuing Professional Development (CPD).

H00 First degree with honours.

This could be MA in Scotland.

H11 First degree with honours leading to QTS/registration with a GTC.

This code should only be used for BEd if it is at level H.

H61 Graduate Diploma/Certificate at Level H.

Use this code where a previous qualification at Level H is a pre-requisite for course entry; use H50 in preference if applicable.

H70 Professional qualification at Level H other than a first degree with honours.

Use H71, H72, H76, H88 in preference if applicable.

H71 Professional Graduate Certificate in Education.

See code M71 for Postgraduate Certificate in Education. See <a href="http://www.gaa.ac.uk/academicinfrastructure/FHEQ/PGCEstatement.asp">http://www.gaa.ac.uk/academicinfrastructure/FHEQ/PGCEstatement.asp</a>

H76 Post-registration health and social care qualification at Level H other than a first degree with honours.

This code includes Continuing Professional Development (CPD).

H81 Other qualification at Level H but where a previous qualification at Level H is a pre-requisite for course entry.

Use H50, H71, H72, H76 in preference if applicable.

I11 Ordinary (non-honours) first degree leading to QTS/registration with a GTC.

Code BEd here unless it is at level H.

I70 Professional qualification at Level I other than an ordinary (non-honours) first degree.

Use I76 in preference if applicable.

I76 Post-registration health and social care qualification at Level I other than an ordinary (non-honours) first degree.

This code includes Continuing Professional Development (CPD).

J76 Post-registration health and social care qualification at level J.

This code includes Continuing Professional Development (CPD).

**Health and Social Care courses** 

Courses which lead to a qualification to teach nursing, midwifery or health visiting courses should be coded 2 in Course.TTCID.

Post-Registration health and social care codes ('\_\_76') should be returned for post-registration health and social care students taking continuing professional updating modules. Post-registration health and social care students studying for other qualifications should be coded to the appropriate code for that qualification. For example, a post-registration health and social care student studying for a first degree should be coded 'H00' for First degree, rather than H76. Validation rules have been relaxed to allow regulatory body information to be returned for these post-registration

students.

H16 'First degree leading towards obtaining eligibility to register to practice with a Health or Social Care or Veterinary statutory regulatory body' will be used in combination with the subject code or codes to identify those degrees which lead to eligibility to register to practice with a Health or Social Care or Veterinary statutory regulatory body.

#### Social work courses

HESA has been advised by the Department of Health that courses leading to eligibility to register to practice with a social care statutory regulatory body will not necessarily be coded with a '\_16' code in this field. Institutions offering courses leading to eligibility to register to practice with a social care statutory regulatory body should return regulatory body information in <a href="Course.REGBODY">Course.REGBODY</a> and <a href="Instance.DHREGREF">Instance.DHREGREF</a> irrespective of the code used in this field.

#### **Architecture courses**

Codes are specifically set up for courses leading to registration with the Architects Registration Board. Use code H18 for Part 1 (even if your institutional assessment of the course is that it is at another level, such as level I). For parts 2 and 3, use the appropriate code to indicate the level of course as assessed by the institution (H88 or M88 for part 2, H78 or M78 for part 3).

#### Non-accredited and non-approved qualifications

QCA is nearing completion of its process of accrediting external awarding bodies (i.e. awarding bodies other than HEIs). It is important that qualifications made by external awarding bodies are distinguished between those with and those without QCA recognition.

Once completed, the HEFCE will only fund courses leading to qualifications made by external awarding bodies if they have received the appropriate QCA accreditation, or if the continued funding has been approved as part of transition arrangements. Codes for professional qualifications ('\_70') should only be used for qualifications that have been accredited by QCA. Students who are on courses that are not QCA accredited should be indicated by code '99' in <a href="Instance.FUNDLEV">Instance.FUNDLEV</a>.

For Welsh institutions to be eligible for funding, it is expected that qualifications made by external awarding bodies will be included (or awaiting inclusion) in the QCA framework.

#### Access courses

A recognised Access to HE course is one validated by an Authorised Validating Agency that has been licensed for the purpose by the Quality Assurance Agency for Higher Education (QAA), under the terms of the QAA Recognition Scheme for Access to Higher Education in England, Wales and Northern Ireland. Relevant Access courses are recorded on the Access to HE Courses Database. QAA does not licence any AVAs in Scotland.

#### Welsh for Adults

There is no generic code for Welsh for Adults courses, these are coded at five levels

plus a separate code for Specialist/Arbennig courses. The definition of a Specialist/Arbennig course is: a taster, revision or residential course; a Saturday school; a coffee club, and any other short course that is organised in addition to the main programme of Welsh for Adults courses.

#### Subject Knowledge Enhancement (SKE) and Student Associates Scheme (SAS)

Students on SKE and SAS schemes must be coded H99, and these instances will be excluded from the HESA standard populations.

#### Research-based higher degrees

A research-based higher degree is a postgraduate programme comprising a research component (including a requirement to produce original work) that is larger than any accompanying taught component when measured by student effort. The arrangements for assuring and maintaining the academic standards, and enhancing the quality, of these programmes should be fully compliant with section one of the Quality Assurance Agency for Higher Education's code of practice for the assurance of academic quality and standards in higher education (postgraduate research programmes).

Some specialist doctoral degrees, such as Doctor of Education (EdD) and Doctor of Clinical Psychology (DClinPsychol), may include a research component but also include significant taught components and supervised practice. These degrees do not generally require the student to produce the same amount of original research as a PhD. Students registered for a specialist doctoral degree should only be included as research students if they satisfy our other criteria.

Only those courses that met this definition should use codes D00, D01, D90, L00, L80, L90, L99.

#### Other guidance

The General qualification aim of course should be consistent with funding council HESES/Early Statistics.

Higher bachelors degrees at undergraduate level should be coded H50.

M22 includes Finniston degrees and other 'undergraduate masters' degrees, e.g. MEng. Such courses should be coded M22 throughout.

An intercalated first degree (H24) is where students on a first degree, usually in medicine, dentistry or veterinary medicine, interrupt their studies to complete a one-year course of advanced studies in a related topic, usually to Honours standard. On completion of the intercalated year, the student resumes studies on their original course.

J10 and J16, Foundation Degrees, are intended to cover those programmes which HEIs are running as Foundation Degrees which are consistent with the 'Statement of Design Principles' for Foundation Degrees issued by UUK and SCOP.

Postgraduate professional qualifications are those which, regardless of their level, normally require the possession of a first degree for admission. Undergraduate professional diplomas and certificates should be coded to the appropriate '\_70' code.

Where a student is following a programme of study leading potentially to two or more qualifications concurrently, and that combination is not specified under valid entries, please return the qualification code that is highest in level. For HE level students funded by the LSC or WAG-DCELLS (coded 3 in Instance.FESTUMK) both this field and Course.FEQAIMC must be completed in full. For FE level students in England and Wales (codes 1 or 4 in Instance.FESTUMK) both this field and Course, FEQAIMC must be completed in full. However, codes P80, Q80 or R80 for Other qualification below HE level' may be returned as a default in this field provided a valid learning aims database reference is given Course.FEQAIMC for all FE level courses except for courses at institutions in Wales or Welsh for Adults courses which should be coded X41 - X46. Certificate in Further Education should be coded M80 if at postgraduate level or H80 if at undergraduate level. If a foundation course or year is integrated into another qualification e.g. a first degree, code H00 'First degree' should be returned in this field. Post/Higher Doctorates should not be included in the return. The HESA record for a Foundation Degree bridging course should indicate this Instance.BRIDGE. The FTE recorded in Instance.STULOAD should be increased to reflect the additional FTE of the bridging course. Where the bridging course spans two academic years, the first of these academic years should be returned as 'non-standard' in Instance.TYPEYR. Where a student is only active for the bridging course during the academic year, this field should be completed with the code for the appropriate level of credit (i.e. when a student withdraws during or following completion of the course, or where they transfer in from another institution prior to commencing the course). In comparing HESA data to HESES, HEFCE will use the above information to generate two countable years for such students. Students entering with enhanced first degrees, that is qualifications that would be coded H22/M22 in the COURSEAIM field, should be recorded as having a higher degree (01) in the QUALENT2 field. **HESA** Owner Version 1.4 Date modified 2010-08-30 Business rule 9 updated to include instance where Course.COURSEAIM is M00, M10, Change management M50, M80, H00, H50, H61 or C20 notes **Business rules** 1 Error Course.COURSEAIM cannot be coded H16, I16, M16, M26 or M86 where the first 2 characters of CourseSubject.SBJCA are 'D1' and Institution.UKPRN not = 10006842, 10007154, 10007779, 10007786, 10007788, 10007790 or 10007794. 2 Error Course.COURSEAIM cannot be coded H16, I16, M16, M26 or M86 where the first character of CourseSubject.SBJCA is 'A' and Institution.UKPRN not = 10000886, 10003270, 10003645, 10005343, 10006840, 10006842, 10007143, 10007149, 10007154, 10007157, 10007158, 10007163, 10007167, 10007767, 10007774, 10007775, 10007782, 10007783, 10007784, 10007785, 10007786, 10007788, 10007789, 10007790,

## **Guided learning hours**

| Short Name          | GLHRS  |  |  |
|---------------------|--|--|--|
| Туре                | field  |  |  |
| Description         | The actual number of guided learning hours for the whole qualification aim to the nearest whole hour   |  |  |
| Applicable to       | England Wales  |  |  |
| Coverage            | All instances where <u>Instance.FESTUMK</u> = 1, 3 or 4 and where <u>Instance.REDUCEDI</u> = 00 or 02  |  |  |
| Base Data Type      | xs:positiveInteger   |  |  |
| Field Length        | 5  |  |  |
| Part Of             | Instance   |  |  |
| Minimum Occurrences | 0  |  |  |
| Maximum Occurrences | 1  |  |  |
| Related Fields      | FESTUMK  |  |  |
| Reason Required     | To determine use of guided learning hours.   |  |  |
| Notes               | Guided learning hours are defined as all times when a member of staff is present to give specific guidance towards the qualification aim being studied. This includes lectures, tutorials and supervised study in, for example, libraries, open learning centres and learning workshops. It also includes time spent by staff assessing students' achievements, for example in the assessment of competence for NVQs. It does not include hours where supervision or assistance is of a general nature and is not specific to the study of the students.  The length of this field is 5 characters, however the move to XML enables data to be returned with or without leading zeros, e.g. 00005 or 5 |  |  |

## **HESA** unique student identifier

| Short Name          | HUSID  |  |  |  |  |  |  |
|---------------------|--|--|--|--|--|--|--|
| Туре                | field  |  |  |  |  |  |  |
| Description         | This field records the student identifier which is to be unique to each student. It is intended that the identifier is to be transferred with the student to each institution of higher education he or she may attend. The objective is that the use of this number will facilitate the accurate tracking of students throughout their experience within the sector for which HESA collects data.   |  |  |  |  |  |  |
| Applicable to       | England NI Scotland Wales  |  |  |  |  |  |  |
| Coverage            | All students   |  |  |  |  |  |  |
| Base Data Type      | HUSIDType  |  |  |  |  |  |  |
| Field Length        | 13   |  |  |  |  |  |  |
| Part Of             | Student  |  |  |  |  |  |  |
| Minimum Occurrences | 1  |  |  |  |  |  |  |
| Maximum Occurrences | 1  |  |  |  |  |  |  |
| Reason Required     | The most significant key into the set of records for file management and record linkage.   |  |  |  |  |  |  |
| Examples            | An entrant to Leeds Metropolitan University in 2007 might have a HUSID of 0710641234565  |  |  |  |  |  |  |
|                     | A student who entered through UCAS in 1997 might have a HUSID of 0000971234566   |  |  |  |  |  |  |
| Notes               | Students included on a previous year's return must retain the previously used HUSID.   |  |  |  |  |  |  |
|                     | Previously, students entering higher education through UCAS have had their HUSID automatically derived from their UCAS application number. Development of the new UCAS Application Identifier means that it is no longer possible to generate a unique HUSID in this manner. Therefore all students having a HUSID allocated from 2007/08 onwards should now have a HUSID allocated using the same algorithm, irrespective of how they came to enter HE. The algorithm to use is the one previously used for students that did not enter through UCAS. |  |  |  |  |  |  |
|                     | Students entering a course of study should be asked whether they have a previous HESA unique student identifier, and if so this identifier should be used. This will commonly be the situation for new postgraduates moving on from undergraduate study. If students are unable to recall their student identifier, the <a href="HUSID look-up service">HUSID look-up service</a> should be used to determine any previously allocated HUSID.  |  |  |  |  |  |  |
|                     | Students on the Student Associates Scheme ( <u>Course.TTCID</u> = 'E') who are undertaking their SAS placement at a different institution to their main studies must retain the HUSID from the institution where the main studies take place.  |  |  |  |  |  |  |
|                     | Students whose details have previously been returned to HESA by the reporting institution MUST keep the same unique student identifier in future returns. For students whose details have previously been returned to HESA by another institution, the same unique student identifier should be used if this is known. This is to facilitate the   |  |  |  |  |  |  |

possibility of backward tracking within previous data sets. Where the previous number is not known, or there is any doubt about its accuracy, institutions are NOT expected to seek student identifiers from previous institutions but should use the <a href="https://example.com/husbard/hus

For direct entrants, once a number has been allocated it should never be re-used, even in the case of students who leave the institution without completing their studies.

Students who move from one institution to another should keep their original student identifier. Where the previous HE student identifier is in direct entry format, the number must NOT be changed to reflect the current institution's identifier. This is to ensure that the student identifier remains unique and to allow tracking of the student through the use of the same unique student identifier.

Linkage between different years of a student instance will be through the HIN. The HIN is a combination of three main identifier fields, the <a href="Student.HUSID">Student.HUSID</a> (person), <a href="Institution.UKPRN">Institution.UKPRN</a> (institution) and <a href="Instance.NUMHUS">Instance.NUMHUS</a> (instance), which uniquely identify a student on a course leading to a course aim. Further guidance on the importance of maintaining the HIN link across years can be found <a href="here">here</a>.

A national framework for post-compulsory education student identifiers is being developed as a part of the <u>Managing Information Across Partners (MIAP)</u> programme. It is envisaged that the HESA student identifier will be replaced in due course.

The structure of the HESA student identifier is created as follows:

First 2 digits: Year of entry into institution (last 2 digits of year)

Next 4 digits: HESA Institution identifier + 1000

Next 6 digits: 6 digit reference number internally allocated by

institution.

Last digit: Check digit.

Although the Student Record now utilises the <u>Institution.UKPRN</u> as an institution identifier, institutions should continue to use the old <u>HESA identifier</u> code for this calculation since the structure of the new identifier is not compatible with this algorithm.

#### **Calculation of Check Digit**

The check digit is calculated using the first 12 digits and provides a means of detecting errors of transcription. To calculate the check digit, each of the first 12 digits is multiplied by a weight which depends on its position in the number, and the resulting products added. The check digit is then obtained by subtracting the final digit of the resulting sum from ten.

If the final digit of the sum of the products is 0, the check digit would be the final digit after the subtraction i.e. 10 - 0 = 10, check digit is 0.

The weights used are:

Position 1 2 3 4 5 6 7 8 9 10 11 12 Weight 1 3 7 9 1 3 7 9 1 3 7 9

For example, in October 2007 a student enters Leeds Metropolitan University is

|                | allocated the internal number 123456. The check digit calculation for the student's reference number, 071064123456, would be calculated as: |           |                          |                                       |   |                                       |   |                        |       |                       |                       |                |   |
|----------------|---|-----------|--------------------------|---------------------------------------|---|---------------------------------------|---|------------------------|-------|-----------------------|-----------------------|----------------|---|
|                | Number  | 0         | 7                        | 1                                     | 0                                       | 6                                     | 4   | 1                      | 2     | 3                     | 4                     | 5              | 6   |
|                | Weight  | 1         | 3                        | 7                                     | 9                                       | 1                                     | 3   | 7                      | 9     | 1                     | 3                     | 7              | 9   |

## Highest qualification on entry

| _                   |  |  |  |  |  |
|---------------------|--|--|--|--|--|
| Short Name          | QUALENT2   |  |  |  |  |
| Туре                | field  |  |  |  |  |
| Description         | This field indicates the highest qualification that a student holds on entry, not necessarily that applicable for entry to the course.   |  |  |  |  |
| Applicable to       | England NI Scotland Wales  |  |  |  |  |
| Coverage            | All entrants where Instance.REDUCEDI = 00, 01 or 04  |  |  |  |  |
| Base Data Type      | QUALENT2CodeType   |  |  |  |  |
| Field Length        | 2  |  |  |  |  |
| Part Of             | Entry profile  |  |  |  |  |
| Minimum Occurrences | 0  |  |  |  |  |
| Maximum Occurrences | 1  |  |  |  |  |
| Reason Required     | This field, together with information in QualificationsOnEntry gives information about a student's qualifications on entry to a course. It is also used to identify students with tariff-bearing qualifications.   |  |  |  |  |
| Notes               | For students entering through UCAS this information will be available from UCAS via the *J transaction.  |  |  |  |  |
|                     | Code 99 'Not known' should not be used as a standard default. Institutions are expected to seek and code 'Highest qualification on entry'.   |  |  |  |  |
|                     | Should a student have more than one of the qualifications listed, it is for the institution to decide which is the 'highest'. In cases where it is unclear which qualification is the 'highest', enter the code which is closest to '01'.  |  |  |  |  |
|                     | Codes 37 GNVQ/GSVQ level 3 and 38 NVQ/SVQ level 3 may be used where a student holds both level 3 qualifications and GCE 'A' Level/SCE 'Higher' qualifications, if it is the institution's judgement that these the GNVQ/GSVQ/NVQ/SVQ qualifications are 'highest'. Such students will not normally be included in tariff calculations. |  |  |  |  |
|                     | Code 31 Foundation Degree covers those programmes which HEIs are running as Foundation Degrees which are consistent with the 'Statement of Design Principles' for Foundation Degrees issued by UUK and SCOP.   |  |  |  |  |
|                     | GNVQ qualifications are being phased out, but are included as these may be the students highest qualification on entry.  |  |  |  |  |
|                     | Code 41 is designed to capture ONC and OND level qualifications, including those awarded by BTEC.  |  |  |  |  |
|                     | Code 39 may be used for BTEC Nationals, which are Level 3 qualifications, equivalent to A levels on the National Qualifications Framework.   |  |  |  |  |
|                     | Further guidance for codes   |  |  |  |  |

|                             | T   |  |  |  |  |  |  |  |  |
|-----------------------------|---|--|--|--|--|--|--|--|--|
|                             | 44 Access course validated by QAA   |  |  |  |  |  |  |  |  |
|                             | 45 Access course not validated by QAA   |  |  |  |  |  |  |  |  |
|                             | A recognised Access to HE course is one validated by an Authorised Validating Agency that has been licensed for the purpose by the Quality Assurance Agency for Higher Education (QAA), under the terms of the QAA Recognition Scheme for Access to Higher Education in England, Wales and Northern Ireland. Relevant Access courses are recorded on the <a href="Access to HE Courses Database">Access to HE Courses Database</a> . QAA does not licence any AVAs in Scotland.   |  |  |  |  |  |  |  |  |
|                             | Access courses at institutions in Scotland can only be coded 45 'Access course not validated'.  |  |  |  |  |  |  |  |  |
|                             | HEFCE use qualification on entry data to inform funding. Since 2005-06 funding students with unknown entry qualifications have received zero weighting in the widening participation and improving retention funding streams. In particular, where students have entered via UCAS with qualifications that are made available by UCAS for inclusion on the HESA student record which are not returned by institutions HEFCE expect them to receive a zero weight.   |  |  |  |  |  |  |  |  |
|                             | Students entering with enhanced first degrees, that is qualifications that would be coded H22/M22 in the COURSEAIM field, should be recorded as having a higher degree (01) in the QUALENT2 field.  |  |  |  |  |  |  |  |  |
|                             | Instance.QUALENT2 records a student's highest qualification on entry to the instance, it should NOT be updated to reflect qualifications gained during the instance. Institutions in England will need to consider qualifications gained by students during the instance to establish ELQ status but should not subsequently update Instance.QUALENT2. Any potential change to the fundability status as a result of ELQ should be reflected year-on-year within the <a href="Instance.FUNDCODE">Instance.FUNDCODE</a> field. |  |  |  |  |  |  |  |  |
| Owner                       | HESA  |  |  |  |  |  |  |  |  |
| Version                     | 1.1   |  |  |  |  |  |  |  |  |

# Implied rate of council partial funding

| Short Name          | IMPRATE   |  |
|---------------------|---|--|
| Туре                | field   |  |
| Description         | This field records the implied rate of Learning and Skills Council (LSC) partial funding.   |  |
| Applicable to       | England   |  |
| Coverage            | All students at institutions in England where <u>Instance.FESTUMK</u> = 1,3 or 4 and where <u>Course.MSFUND</u> = 86, 87, 88, AA, AB, AC or AD and <u>Instance.REDUCEDI</u> = 00  |  |
| Base Data Type      | xs:nonNegativeInteger   |  |
| Field Length        | 3   |  |
| Part Of             | Instance  |  |
| Minimum Occurrences | 0   |  |
| Maximum Occurrences | 1   |  |
| Related Fields      | FESTUMK<br>MSFUND   |  |
| Reason Required     | To calculate LSC funding for the institution.   |  |
| Notes               | The implied rate of LSC FE funding must be entered in this field for ESF funded provision that is not LSC ESF co-financed. The implied rate of LSC FE funding is the inverse of the ESF intervention rate, that is:   |  |
|                     | Implied rate of LSC FE funding = 100 - ESF intervention rate  |  |
|                     | For example if the ESF intervention rate is 45% the implied rate of LSC FE funding is 55%. The valid entry would be 055.  |  |
|                     | Where no ESF funding is indicated, this field should return 000.  |  |
|                     | The length of this field is 3 characters, however the move to XML enables data to be returned with or without leading zeros, e.g. 003 or 3.   |  |
| Owner               | LSC   |  |
| Version             | 1.0   |  |
| Business rules      | 1 Error Instance.IMPRATE must exist for institutions in England where Instance.FESTUMK = 1,3 or 4 and Course.MSFUND = 86, 87, 88, AA, AB, AC or AD and Instance.REDUCEDI = 00.  2 Error Instance.IMPRATE must not exist for institutions not in England.  Instance.IMPRATE must not exist for institutions in England where Instance.FESTUMK = 2. |  |

# **Indicator for HEFCE funding approximations**

| T =                 | T   |
|---------------------|---|
| Short Name          | INSTAPP   |
| Туре                | field   |
| Description         | This field describes whether an institution is opting to complete the fields <a href="Instance.LOADYRA">Instance.LOADYRA</a> , <a href="Instance.LOADYRB">Instance.LOADYRB</a> and <a href="Instance.LOADYRB">StudentOnModule.MODYR</a> that will allow HEFCE to remove the approximations that are currently included in their re-creation of the HESES return which counts FTE against years of instance rather than HESA reporting years.  |
| Applicable to       | England NI  |
| Coverage            | Institutions in England and Northern Ireland  |
| Base Data Type      | INSTAPPCodeType   |
| Field Length        | 1   |
| Part Of             | Institution   |
| Minimum Occurrences | 0   |
| Maximum Occurrences | 1   |
| Related Fields      | LOADYRA<br>LOADYRB<br>MODYR<br>STULOAD  |
| Reason Required     | To allow institutions to provide information to be used in HEFCE HESES recreation algorithms.   |
| Notes               | Institutions can opt to provide additional information in the Student Record which HEFCE will then use to count FTE against years of instance in place of the approximations used in the HESES recreation algorithms.   |
|                     | If institutions do opt to provide this information, then the fields <a href="Instance.LOADYRA">Instance.LOADYRA</a> , <a href="Instance.LODYRB">Instance.LODYRB</a> and <a href="StudentOnModule.MODYR">StudentOnModule.MODYR</a> must be completed for all student instances in the record. Institutions would indicate this by completing this field with code 1 'Institution choosing to provide additional information in records and not rely on HEFCE approximations for HESES recreation'. |
|                     | If institutions are content to continue using the HEFCE algorithms, then this field will be completed with Code 0 'Institution relying on HEFCE algorithms for HESES recreation'  |
|                     | HEFCE advises that provision of the additional information is only likely to make a significant difference for institutions with high numbers of student instances with non-standard academic years and where these numbers are changing substantially year on year or the intensity of study or cost centre mix changes over the duration of the programme.  |
| Owner               | HESA  |
| Version             | 1.0   |
| Business rules      | 1 Error Institution.INSTAPP must exist for institutions in England. 2 Error Institution.INSTAPP must not exist for institutions in Scotland and Wales. 3 Error Institution.INSTAPP must exist for institutions in Northern Ireland where  |

## Initiatives

| Short Name          | INITIATIVES   |
|---------------------|---|
| Туре                | field   |
| Description         | This field identifies students who are part of a specific scheme that is to be monitored independently. Valid entries will change from year to year to reflect current schemes.   |
| Applicable to       | England   |
| Coverage            | Instances at institutions in England that are part of a named scheme  |
| Base Data Type      | INITIATIVESCodeType   |
| Field Length        | 1   |
| Part Of             | Instance  |
| Minimum Occurrences | 0   |
| Maximum Occurrences | 2   |
| Reason Required     | From time to time funders introduce initiatives (for example Lifelong Learning Networks (LLNs) and Employer Engagement Co-funded Students) where, for a limited period, there is a requirement to track students who are recruited under the particular initiative.   |
|                     | In order to achieve this monitoring potential, a general purpose field will be added to the record, to which valid entries will be added to identify individual schemes as required.  |
| Notes               | This field should be returned twice where a student instance falls under both schemes.  |
|                     | This field collects information with respect to student instances that are part of a scheme. Where a student transfers course within the same instance, Instance.INITIATIVES should continue to identify the scheme.  |
|                     | The field should not be used for students who might previously have undertaken an initiative as part of a different instance or at another institution.   |
|                     | Lifelong Learning Networks (LLNs)   |
|                     | Lifelong Learning Networks (LLNs) focus on progression into and through vocational education. They aim to create new learning opportunities; forge agreement across institutions on how qualifications are valued; and produce publicity to help people understand how they can progress through the system. Networks will clarify existing progression opportunities and engage in collaborative curriculum development in order to meet the needs of the vocational learner. Further information is available from <a href="https://linearchy.com/">The Lifelong Learning Networks National Forum</a> . |
|                     | Employer Engagement Co-funded Students  |
|                     | Co-funded ASNs are additional student numbers (ASNs) allocated at a lower rate of funding than 'full funded' ASNs, normally at between 50-75 per cent of a full-time equivalent (FTE) student. HEFCE would expect the HEI or FEC to secure from an employer the remaining percentage. For example, an HEI wishing to deliver an HE Certificate (120 credits) to 30 learners may be allocated 15 FTEs by HEFCE and be  |

|                             | expected to secure the equivalent of 15 FTEs of funding from employers. Further information is available from <u>HEFCE</u> .  |
|-----------------------------|---|
|                             | Flexible Learning Pathfinder  |
|                             | The Government's 2003 White Paper 'The Future of Higher Education' highlighted the need for 'more flexibility in courses, to meet the needs of a more diverse student body', and proposed the piloting and evaluation of two-year honours degrees. In response to this, HEFCE have funded eight higher education institutions since 2005 through our Strategic Development Fund to pilot models of flexible HE provision.   |
|                             | Undergraduate Internships   |
|                             | Code 6 is used to identify instances participating in the <u>HEFCE undergraduate</u> internship programme.  |
|                             | Where it is known at the time of making the return it is known that a student will not undertake an internship then they should not be coded as 6 even if they had originally intended to take one.   |
| Owner                       | HEFCE   |
| Version                     | 1.4   |
| Date modified               | 2010-08-30  |
| Change management notes     | Guidance added on field usage 'This field collects information with respect to student instances that are part of a scheme. Where a student transfers course within the same instance, Instance.INITIATIVES should continue to identify the scheme. The field should not be used for students who might previously have undertaken an initiative as part of a different instance or at another institution.'  |
| Business rules              | 1 Error       Instance.INITIATIVES must not exist for institutions in Northern Ireland, Scotland or Wales.         2 Error       Where Instance.INITIATIVES is coded 3, 4 or 5 Institution.UKPRN must be 10000291, 10003861, 10006299, 10007138, 10007145, 10007150, 10007801 or 10007851.         3 Error       Where Instance.INITIATIVES is coded 6 Institution.UKPRN must be 10000961, 10001143, 10001726, 10001883, 10003956, 10003957, 10004180, 10005790, 10006842, 10007143, 10007147, 10007149, 10007151, 10007156, 10007158, 10007159, 10007161, 10007163, 10007164, 10007759, 10007768, 10007779, 10007785, 10007786, 10007802, 10007816 or 10007842.         4 Error       Where Instance.INITIATIVES is coded 6 Course.COURSEAIM must begin with H, I, J or C or equal M22 or M26. |
| Valid Entries and<br>Labels | Lifelong Learning Networks Employer engagement co-funded students Flexible Learning Pathfinder - two-year accelerated honours degree Flexible Learning Pathfinder - four-year accelerated part-time honours degree Flexible Learning Pathfinder - other Undergraduate Internship  |

### Instance

| Short Name          | Instance   |
|---------------------|--|
| Туре                | entity   |
| Description         | This records a coherent engagement with the institution aiming towards the award of a qualification(s) or credit.  |
| Applicable to       | England NI Scotland Wales  |
| Coverage            | All students   |
| Part Of             | Student  |
| Minimum Occurrences | 1  |
| Maximum Occurrences | unbounded  |
| Has Parts           | Student instance identifier (NUMHUS) Reduced instance return indicator (REDUCEDI) Course identifier (COURSEID) Campus identifier (CAMPID) Institutions own campus identifier (INSTCAMP) Research council student (RCSTDNT) Research council student identifier (RCSTDID) Start date of instance (COMDATE) Mode of study (MODE) Change of mode date (MCDATE) Student instance FTE (STULOAD) FTE method (FTEMETHOD) FTE in year A (LOADYRA) FTE in year B (LOADYRA) FTE in year B (LOADYRB) Expected length of study (SPLENGTH) Units of length (UNITLGTH) End date of instance (ENDDATE) Reason for ending instance (RSNEND) Good standing marker (PROGRESS) Fee eligibility (FEEELIG) Special fee indicator (SPECFEE) Major source of tuition fees (MSTUFEE) Level applicable to funding council HESES (FUNDLEV) Fundability code (FUNDCODE) Year of student on this instance (YEARSTU) Year of course (YEARPRG) Length of current year of instance (YEARLGTH) Type of instance year (TYPEYR) Completion of year of instance (FUNDCOMP) Location of study (LOCSDY) SLDD-discrete provision (ST13) Exchange programmes (EXCHANGE) ITT schemes (ITTSCHMS) PhD submission date (PHDSUB) Franchised out arrangements (FROUTARR) Franchised out arrangements (FROUTARR) Franchise partner (FRANPART) Disabled Student Allowance (DISALL) FE student marker (FESTUMK) Teacher Reference Number (TREFNO) Completion of status (CSTAT) Destination of outward credit mobile students (DESTOCM) Amount of tuition fees received/expected for the student (RECFEE) Reason for partial or full non-payment of tuition fees (NONPAY) Guided learning hours (GLHRS) |

|                 | Suspension of active studies (NOTACT) Destination (DESTIN) Regulatory body reference number (DHREGREF) NHS employer (NHSEMP) Eligibility for enhanced funding (ELIGENFD) Additional support cost (ADDSUPCT) Learning difficulty (LEARNDIF) Implied rate of council partial funding (IMPRATE) Government initiatives (GOVINIT) Number of units completed (NUMUNITS) Number of units to achieve full qualification (NOUNTACH) Eligibility for disadvantage uplift (ELIDISUP) Disadvantage uplift factor (DISUPFAC) Employer role (EMPROLE) Qualified Teacher Status (QTS) Entry profile Qualifications awarded Student on module RAE Data ITT phase/scope (ITTPHSC) Foundation degree to degree bridging course (BRIDGE) Department of Health funding body (DHFUND) Institution's own instance identifier (OWNINST) Initiatives (INITIATIVES) Number of Student Associates Scheme (SAS) days completed (SASDAYS) Student Associates Scheme (SAS) placement (SASSCHL) Subject Knowledge Enhancement institution (SKEITT) |
|-----------------|---|
| Reason Required | The instance is the central concept in the specification of the HESA Student Record.  |
| Notes           | A student undertakes a course; the course being a combination of subject and qualification that define what the student is aiming for e.g. BSc degree in English Literature. A student on a course is referred to as an instance. Since it is possible for a student to undertake more than one course during the reporting year, there may be more than one instance for a student in an institution's return.  An instance is tracked over time using HIN linking. An instance can be linked to different accuracy records in different years but these source records must all be at the same level.   |
|                 | course records in different years but these course records must all be at the same level (i.e. undergraduate or postgraduate).  |
| Owner           | HESA  |
| Version         | 1.0   |

## Institution

| Short Name          | Institution   |
|---------------------|---|
| Туре                | entity  |
| Description         | This describes the reporting institution  |
| Applicable to       | England NI Scotland Wales   |
| Coverage            | Every submission must include a single Institution element  |
| Part Of             |   |
| Minimum Occurrences | 1   |
| Maximum Occurrences | 1   |
| Has Parts           | Course Module UK Provider Reference Number (UKPRN) Record type indicator (RECID) Indicator for HEFCE funding approximations (INSTAPP) Student |
| Reason Required     | The institution entity contains the student elements and provides a home for any institution-wide attributes.                                 |
| Notes               |   |
| Owner               | HESA  |
| Version             | 1.0   |

# Institutions own campus identifier

| Short Name          | INSTCAMP  |
|---------------------|---|
| Туре                | field   |
| Description         | This field contains the institution's own campus identifier.  |
| Applicable to       | England NI Scotland Wales   |
| Coverage            | Compulsory for institutions in Wales where <a href="Course.COURSEAIM">Course.COURSEAIM</a> is coded X41 to X46. Optional for all other instances  |
| Base Data Type      | INSTCAMPType  |
| Field Length        | 8   |
| Part Of             | Instance  |
| Minimum Occurrences | 0   |
| Maximum Occurrences | 1   |
| Reason Required     | For institutional use, to prevent inappropriate use of CAMPID. Also used to record location of venue for Welsh for Adults instances   |
| Notes               | This field will collect the institution's own campus identifier to enable institutions to identify groups of students, such as nurses or continuing education students, for their own purposes, since these may not be mutually exclusive to the strengthened requirement for <a href="Instance.CAMPID">Instance.CAMPID</a> to show distinct physical site only.  |
|                     | For instances linked to Welsh For Adults courses, this field must contain the postcode of the venue the course is being studied at. Where the venue changes within the duration of the course, then use the postcode of where the majority of the course takes place. There is further guidance on valid postcode formats at: <a href="http://www.govtalk.gov.uk/gdsc/html/frames/PostCode-2-1-Release.htm">http://www.govtalk.gov.uk/gdsc/html/frames/PostCode-2-1-Release.htm</a> . The business rule structure validation is slightly less strict than that described in UK Government Data Standards Catalogue, as not all parsers will support the full GDSC definition. All postcodes are validated against valid postcodes at exception. |
| Owner               | HESA  |
| Version             | 1.0   |
| Business rules      | 1 Error Instance.INSTCAMP must exist and contain a valid full postcode structure or a valid outward postcode structure for institutions in Wales where Course.COURSEAIM is coded X41 to X46.  |

## Institution's own identifier for student

| Short Name          | OWNSTU  |
|---------------------|---|
| Туре                | field   |
| Description         | This field records the institution's own internal identifier for the student.   |
| Applicable to       | England NI Scotland Wales   |
| Coverage            | All students (optional)   |
| Base Data Type      | OWNSTUType  |
| Field Length        | 20  |
| Part Of             | Student   |
| Minimum Occurrences | 0   |
| Maximum Occurrences | 1   |
| Reason Required     | To facilitate HESA checking data with institutions, for example, validation reports, etc.   |
| Notes               | Valid characters  |
|                     | The valid characterset available for this field follows the Data Standards in the HESA student record.  • The general policy is to support all Latin-based characters for names, addresses and general text fields, but not non-Latin characters.  • All Unicode code charts for Latin characters are supported. These are Basic Latin (excluding the C0 control characters), Latin-1 (excluding the C1 control characters), Latin Extended A, Latin Extended B and Latin Extended Additional. This set corresponds to Unicode code points U+0020 to U+007F and U+00A0 to U+024F.  • Schemas are built in such a way that an individual project can further restrict the set if required.  The character set chosen will support Welsh and Gaelic languages as well as all European and most other languages using a Latin-based character set.  The Unicode charts that list each of the characters in this range can be found on the Unicode web site. The specific sets that are defined here are shown in the following PDF documents:  • Basic Latin • Latin-1 • Latin Extended A • Latin Extended B • Latin Extended Additional  Files must be encoded with UTF-8 and schema validation will be in place to ensure this. Institutions must specify the encoding used in their XML files in the first line of the file (i.e. xml version="1.0" encoding="UTF-8"?") and to ensure that their files are actually saved with that encoding. If XML files are edited with some text editors and the encoding is not specified or does not match the actual file encoding, there may be</td |

## Institution's own instance identifier

| Short Name          | OWNINST   |  |
|---------------------|---|--|
| Туре                | field   |  |
| Description         | This field records the institution's own internal identifier for the instance.  |  |
| Applicable to       | England NI Scotland Wales   |  |
| Coverage            | All instances (optional)  |  |
| Base Data Type      | OWNINSTType   |  |
| Field Length        | 30  |  |
| Part Of             | Instance  |  |
| Minimum Occurrences | 0   |  |
| Maximum Occurrences | 1   |  |
| Reason Required     | To facilitate HESA checking data with institutions, for example, validation reports, etc.   |  |
| Notes               | Valid characters  |  |
|                     | The valid characterset available for this field follows the Data Standards in the HESA student record.  • The general policy is to support all Latin-based characters for names, addresses and general text fields, but not non-Latin characters. • All Unicode code charts for Latin characters are supported. These are Basic Latin (excluding the C0 control characters), Latin-1 (excluding the C1 control characters), Latin Extended A, Latin Extended B and Latin Extended Additional. This set corresponds to Unicode code points U+0020 to U+007F and U+00A0 to U+024F. • Schemas are built in such a way that an individual project can further restrict the set if required.  The character set chosen will support Welsh and Gaelic languages as well as all European and most other languages using a Latin-based character set.  The Unicode charts that list each of the characters in this range can be found on the Unicode web site. The specific sets that are defined here are shown in the following PDF documents:  • Basic Latin • Latin-1 • Latin Extended A • Latin Extended A • Latin Extended B • Latin Extended Additional  Files must be encoded with UTF-8 and schema validation will be in place to ensure this. Institutions must specify the encoding used in their XML files in the first line of the file (i.e. xml version="1.0" encoding="UTF-8" ? ) and to ensure that their files are actually saved with that encoding. If XML files are edited with some text editors and the encoding is not specified or does not match the actual file encoding, there may be |  |

# ITT phase/scope

| Short Name          | ITTPHSC   |  |  |
|---------------------|---|--|--|
| Туре                | field   |  |  |
| Description         | This field describes in more detail the student's initial teacher training aim.   |  |  |
| Applicable to       | England Wales   |  |  |
| Coverage            | All courses at institutions in England and Wales where Course.TTCID = 1, 2, 8, E or F and Course.REDUCEDC = 00, 01, 04, 06 or 07  |  |  |
| Base Data Type      | ITTPHSCCodeType   |  |  |
| Field Length        | 2   |  |  |
| Part Of             | Instance  |  |  |
| Minimum Occurrences | 0   |  |  |
| Maximum Occurrences | 1   |  |  |
| Related Fields      | TTCID<br>SBJCA<br>ITTSUBJECT  |  |  |
| Reason Required     | To provide details of training, distinguishing primary and secondary levels, etc.   |  |  |
| Notes               | Codes 15 to 26 can only be used where Instance.COMDATE is before 01 August 2002.  |  |  |
|                     | Codes 53 to 57 can be used by institutions in Wales.  |  |  |
|                     | Institutions in England can only use codes 51 to 57 where the <u>Instance.COMDATE</u> is after 31 July 2002 and before 1 August 2007.                                       |  |  |
|                     | Codes 61 to 65 can only be used by institutions in Wales.   |  |  |
|                     | Codes 71 to 82 can only be used by institutions in England where Instance.COMDATE is after 31 July 2007.  |  |  |
|                     | Code 72 Ages 3 - 8 Primary can only be used by students with a <a href="Instance.COMDATE">Instance.COMDATE</a> between 31 July 2007 and 1 August 2010.                      |  |  |
|                     | Code 83 can only be used for 14-19 Diploma students where <a href="Instance.COMDATE">Instance.COMDATE</a> is after 31 July 2009.  |  |  |
|                     | For other initial teacher training courses not leading to Qualified Teacher Status, codes 31 and 49 should be used.   |  |  |
|                     | For institutions in England code 31 'Further education' should be used only for:  |  |  |
|                     | any initial teacher training qualification (Stage 1, 2 or 3) for the learning and skills sector in England with current endorsement from Standards Verification UK or FENTO |  |  |

|                             | and/or  any integrated subject based qualification for Skills for Life teachers in the learning and skills sector in England with current approval and endorsement from Standards Verification UK or FENTO.  Since January 2004, Lifelong Learning UK (LLUK) has taken over the work of the former national training organisation, Further Education National Training Organisation (FENTO). Standards Verification UK (SVUK), a wholly owned subsidiary of LLUK will continue the verification of initial teacher training, formerly undertaken by FENTO.  |  |

| 9 | Not undertaken any TDA pre-ITT scheme |
|---|---------------------------------------|

## Last institution attended

| Short Name          | PREVINST  |  |  |
|---------------------|---|--|--|
| Туре                | field   |  |  |
| Description         | This field describes previous institution attended by the student.  |  |  |
| Applicable to       | England NI Scotland Wales   |  |  |
| Coverage            | All entrants where EntryProfile.DOMICILE = XF, XG, XH, XI, XK, XL, GG, JE or IM and Course.COURSEAIM = M22, M26, H00, H11, H16, H18, H22, H23, I00, I11, I16, J10, J16, J20, J26, J30, C20, C30 and Instance.REDUCEDI = 00 or 04  |  |  |
| Base Data Type      | PrevInstType  |  |  |
| Field Length        | 8   |  |  |
| Part Of             | Entry profile   |  |  |
| Minimum Occurrences | 0   |  |  |
| Maximum Occurrences | 1   |  |  |
| Related Fields      | YRLLINST  |  |  |
| Reason Required     | To monitor school, etc, background of students and to assist the tracking of students through their experience of higher education.   |  |  |
| Notes               | This field seeks to categorise types of expected code, and uses the first character to indicate from which code set the institute identifier belongs. Thus, H will signify either an HEI or an FEC, D signifies a government school number, and U a UCAS school number. The remaining characters in the field are used to insert the actual institution identifier.   |  |  |
|                     | For students entering through UCAS this information will be available from UCAS via the *J transaction.   |  |  |
|                     | UCAS will make available an HEI, FEC or government number, if they have one, or in the absence of same, default to the five digit UCAS number, but the letter prefixing the code will differentiate between type of institution.  UCAS holds the school/FE/HE or other institution from which the UCAS application was received. HESA recognises that this will give a small percentage statistical error in the data for this field. |  |  |
|                     |   |  |  |
|                     | For non-UCAS entrants institutions may use the generic codes and not provide details of individual named institutions. The generic codes are:   |  |  |
|                     | 4901 UK state school  |  |  |
|                     | 4911 UK independent school  |  |  |
|                     | 4921 UK FE college  |  |  |
|                     | 4931 Any non-UK institution   |  |  |
|                     | 4941 UK HEI   |  |  |
|                     | If the previous institution is not known and none of the other generic codes are suitable,  |  |  |

|                         | code as H9999, U99999, U00000, D9999999 or D0000000, 9999 or 0000.   |  |  |
|-------------------------|--|--|--|
| Owner                   | HESA   |  |  |
| Version                 | 1.2  |  |  |
| Date modified           | 2010-04-30   |  |  |
| Change management notes | Business rule 1 updated to add Course.COURSEAIM = M26 and Instance.REDUCEDI = 04 to the coverage of the field.   |  |  |
| Business rules          | 1 Error EntryProfile.PREVINST must exist where EntryProfile.DOMICILE = XF, XG, XH, XI, XK, XL, GG, JE or IM and Course.COURSEAIM = M22, M26, H00, H11, H16, H18, H22, H23, I00, I11, I16, J10, J16, J20, J26, J30, C20 or C30 and corresponding Instance.REDUCEDI = 00 or 04.  2 Error Where EntryProfile.PREVINST begins 'H' and is followed by 4 numbers it must be coded H9999 or begin H0. |  |  |

# Learning difficulty

| Short Name                  | LEARNDIF   |  |  |
|-----------------------------|--|--|--|
| Туре                        | field  |  |  |
| Description                 | This field records whether the learner considers themselves to have a learning difficulty.   |  |  |
| Applicable to               | England  |  |  |
| Coverage                    | All instances at institutions in England where <u>Instance.FESTUMK</u> = 1,3 or 4 and <u>Instance.REDUCEDI</u> = 00  |  |  |
| Base Data Type              | LEARNDIFCodeType   |  |  |
| Field Length                | 2  |  |  |

| Valid Entries and<br>Labels | 01 Moderate learning difficulty 02 Severe learning difficulty 10 Dyslexia 11 Dyscalculia 19 Other specific learning difficulty 90 Multiple learning difficulties 97 Other 98 No learning difficulty 99 Not known / information not provided  |  |  |

# Length of current year of instance

| Short Name          | YEARLGTH  |  |  |
|---------------------|---|--|--|
| Туре                | field   |  |  |
| Description         | This field is used to indicate the normal number of weeks (excluding holidays and placements) from the commencement of study, the first teaching week, to the completion within the current year of the course. It does not purport to indicate the amount of study time or contact time. The field should reflect the length of the whole of the current year of the course and not just the part which is in the current reporting period 1 August - 31 July. |  |  |
| Applicable to       | Scotland Wales  |  |  |
| Coverage            | All instances at institutions in Wales and Scotland where <u>Instance.REDUCEDI</u> = 00 unless institution in Wales and <u>Course.COURSEAIM</u> begins with P, Q, R, S or X.  |  |  |
| Base Data Type      | PositiveIntegerWithNullStructure2   |  |  |
| Field Length        | 2   |  |  |
| Part Of             | Instance  |  |  |
| Minimum Occurrences | 0   |  |  |
| Maximum Occurrences | 1   |  |  |
| Reason Required     | To assist Statutory Customers to monitor programme patterns.  |  |  |
| Notes               | The value should exclude holidays and placements.   |  |  |
|                     | Years of course out on placement should have an empty element returned with the ReasonForNull attribute set to 9 (not applicable), i.e:   |  |  |
|                     | <yearlgth reasonfornull="9"></yearlgth>   |  |  |
|                     | This approach can also be followed by institutions in Scotland, in cases where there is not a defined normal length for the year of the course.   |  |  |
|                     | The length of this field is 2 characters, however the move to XML enables data to be returned with or without leading zeros, e.g. 03 or 3.  |  |  |
| Owner               | HESA  |  |  |
| Version             | 1.0   |  |  |
| Business rules      | 1 Error Instance.YEARLGTH must exist for institutions in Wales and Scotland where Instance.REDUCEDI = 00 unless institution in Wales and Course.COURSEAIM begins with P, Q, R, S or X.  2 Error Instance.YEARLGTH must be NULL and ReasonForNull = 9 where Instance.LOCSDY = D or F.  3 Error Instance.YEARLGTH must not exist for institutions in England or Northern Ireland.   |  |  |

# Level applicable to funding council HESES

|-------------------------|---|--|--|
| Туре                    | field   |  |  |
| Description             | This field is an indicator of the level of the instance, expressed in terms of HEFCE HESES definitions.   |  |  |
| Applicable to           | England NI  |  |  |
| Coverage                | All instances at institutions in England and Northern Ireland where Instance.REDUCEDI = 00 or 01  |  |  |
| Base Data Type          | FUNDLEVCodeType   |  |  |
| Field Length            | 2   |  |  |
| Part Of                 | Instance  |  |  |
| Minimum Occurrences     | 0   |  |  |
| Maximum Occurrences     | 1   |  |  |
| Reason Required         | To support reconciliation of Early Statistics and HESA.   |  |  |
| Notes                   | Coding should be consistent with the allocation of the student in the HEFCE HESES return. Refer to HEFCE for full definitions.  |  |  |
|                         | Long refers to any course with instance year of over 45 weeks.  |  |  |
|                         | Not in the HESES population. This value can be used if the HESA reporting year does not contain, in part or in whole, a year of instance which has previously, is, or will be, returned to HESES. However, use of code 99 is an option. Institutions can, if they so wish, use the other codes for all records.   |  |  |

# **Location of study**

| Short Name          | LOCSDY   |  |
|---------------------|--|--|
| Туре                | field  |  |
| Description         | This field describes the location at which the student is studying.  |  |
| Applicable to       | England NI Scotland Wales  |  |
| Coverage            | All instances where <u>Instance.REDUCEDI</u> = 00 or 01  |  |
| Base Data Type      | LOCSDYCodeType   |  |
| Field Length        | 1  |  |
| Part Of             | Instance   |  |
| Minimum Occurrences | 0  |  |
| Maximum Occurrences | 1  |  |
| Related Fields      | STULOAD<br>CAMPID<br>ModuleSubject   |  |
| Reason Required     | To track student migration, placements, etc., and to support population definitions.   |  |
| Notes               | Location of study - The studies described should relate to the FTE reported in field Instance.STULOAD which in turn are described in detail in fields ModuleSubject.COSTCN, ModuleSubject.MODSBJ and ModuleSubject.MODSBJP.  Codes A - C and H - R can be used only for FE students at institutions in England and Wales.  Code E, 'On industrial placement for a proportion of the year' should be used where the student undertakes a full-time placement lasting for at least 10 weeks. Where a student undertakes a placement on a part-time basis this should only be included if, when summed, it is equivalent to 10 weeks full-time work.  Where both code E 'On industrial placement for a proportion of the year' and code G 'On study year abroad for a proportion of the year' apply in the same academic year, code E 'On industrial placement for a proportion of the year' should be used in preference to code G 'On study year abroad for a proportion of the year'.  Link between coverage of the Student Record and the Aggregate Offshore Record |  |
|                     | Certain students are primarily studying overseas but are returned in the Student Record because the student has spent or will spend more than a block of 8 consecutive weeks studying in the UK. See <a href="Coverage of the Record">Coverage of the Record</a> for further details. For years where the student spends the whole year at the reporting institution, use code 'X'. For years where the student spends part or all of the year abroad, use code 'S'. If it is known at the beginning of the course that a student will spend eight weeks or more in the UK as part of their programme then they should be included on the Student Record throughout.  Information about students studying for the whole of their programme of study outside of the UK, and those not funded for study by distance learning overseas should be returned on the <a href="Aggregate Offshore Record">Aggregate Offshore Record</a> and not included in the Student Record.  |  |

|                          | There is no requirement to send an individualised student record for any student   |  |
|--------------------------|--|--|
|                          | studying for the whole of their programme of study outside of the UK and those not funded for study by distance learning overseas.   |  |
|                          | However, there are a small number of distance learning students studying outside the UK who are funded - e.g. Crown servants overseas and the Services. For these students a full record is needed, and is collected through the individualised Student Record. Such students should be coded 9 'Distance Learning - Non-UK based student (funded only)' in this field.  |  |

# **Major source of funding**

| Short Name          | MSFUND  |
|---------------------|---|
| Туре                | field   |
| Description         | This field indicates the primary source of funding for the course. This field is not necessarily the main source of finance as it excludes the tuition fee element. In the majority of cases, the source of funding will be the appropriate funding council. The predominant source of funding should be selected where there is more than one source.  |
| Applicable to       | England NI Scotland Wales   |
| Coverage            | All courses where <u>Course.REDUCEDC</u> = 00, 01, 02 or 04   |
| Base Data Type      | MSFUNDCodeType  |
| Field Length        | 2   |
| Part Of             | Course  |
| Minimum Occurrences | 0   |
| Maximum Occurrences | 1   |
| Reason Required     | To allow monitoring of actual student funding sources against funding.  |
| Notes               | The funding councils and DELNI fund places for students or credits associated with students, most home and EC students being 'fundable' (eligible for funding).   |
|                     | The guidance for coding non-fundable students on funded courses should be to code to the appropriate funding council in this field and code as 2 'Not fundable by funding council' in <a href="Instance.FUNDCODE">Instance.FUNDCODE</a> .   |
|                     | Institutions funded by SFC should note that their funding from the Council is provided for a total number of student places, and cannot necessarily be related to particular students or to particular courses. For example, if funding is provided for 80 student places, and there are 100 students whose places are eligible for funding in that funding cell, one cannot identify 20 particular people as being 'fees only' students. Nor could one identify some of the courses which are eligible for funding in that cell as being 'fully-funded' and the rest 'partially funded' or 'unfunded': the funding is for the cell as a whole, not for any specific part of it. All students on courses which are eligible for funding in the funding cell would be returned with SFC shown as the major source of funding, code 03 'SFC'. |
|                     | Nurses and Midwives at institutions funded by SFC who are on courses directly funded through contracts with the Health Authorities should be coded 31 'Departments of Health/NHS/Social Care'. These are primarily courses formerly taught by the Nursing Colleges. Most other Medical, Dentistry, Nursing and Midwifery courses and courses for professions associated with medicine at SFC funded institutions, will be funded through SFC and students should usually be coded 03 'SFC'.   |
|                     | Code 34 'Other HM government departments' includes local government and non-departmental public bodies (NDPBs) including the British Council and the Royal Society.   |
|                     | Codes 71 'Joint between two sources including a funding council' and 72 'Joint between two bodies excluding a funding council' should be interpreted as equal 50:50 funding   |

|                         | 1                            |  |
|-------------------------|------------------------------|--|
|                         |                              | bobodies. In cases where the split is not exactly 50:50, the guidance is to basis of the largest source.   |
|                         | institutions in              | 2-64, 73-79, 83, 85-89, AA, AB, AC, AD can be used only for students at a England and Wales who are following programmes of study at FE level, s code 1 or 4 in Instance.FESTUMK   |
|                         | preference to LSC/DCELL      | 2-64, 73-79, 83, 85-89, AA, AB, AC, AD are the codes to be used in o other codes for FE level students in England and Wales. 'Joint with S' in codes 73-79 indicates a source of funding in addition to a S and applies whether LSC/DCELLS or the other body is the major source                               |
|                         |                              | B 'European Social Fund' apply to FE level students only. For any students European Social Fund should be coded as 46 'EU commission (EC)'.  |
|                         | recovery' co<br>be covered l | nded entirely by student tuition fees' will include some (but not all) 'cost urses, for example, cost recovery courses provided for particular firms might by code 42 'UK private industry/commerce'. Code 91 may also cover a few udents (in cells for which the institution receives no funding at present). |

# **Major source of tuition fees**

| Short Name          | MSTUFEE   |
|---------------------|---|
| Туре                | field   |
| Description         | This field indicates the major source of tuition fees for the student where this is known. The predominant source should be selected where there is more than one source of award or financial backing. The field relates to the current year of study.   |
| Applicable to       | England NI Scotland Wales   |
| Coverage            | All instances where <u>Instance.REDUCEDI</u> = 00, 01 or 02   |
| Base Data Type      | MSTUFEECodeType   |
| Field Length        | 2   |
| Part Of             | Instance  |
| Minimum Occurrences | 0   |
| Maximum Occurrences | 1   |
| Reason Required     | To allow financial calculations to be made and for the monitoring of numbers of students receiving awards.  |
| Notes               | Code 01 should be used for cases where the student pays the full fees upfront with no SLC/SAAS funding.   |
|                     | Codes 02, 03 or 04 cover cases where the SLC/SAAS fund full fees through a grant, or SLC/SAAS fund full fees through a fee loan, or SLC/SAAS fund full fees through a mixture of SLC/SAAS grant and SLC/SAAS fee loan.  |
|                     | Codes 52, 53 or 54 cover cases with a mixture of SLC/SAAS funding and student contribution (including cases where (i) the SLC/SAAS pays part fees and the student pays part fees, (ii) where the SLC/SAAS pays nil fees and the student pays part fees upfront and receives a fee loan for the remainder or (iii) the SLC/SAAS pays part fees, the student pays part fees and receives a part fee loan for the remainder.)  |
|                     | Code 01: No award or financial backing, pay own fees. Students who are financially assessed by an LA/SAAS/DELNI/NI Education and Library Boards/SLC to pay the full fee themselves (i.e. no public support for fees) should be included here. This code should only be used where there is no award, fee loan or financial backing at all. Where there is some award, fee loan or financial backing, even if this is the minor source compared with the contribution of the student, then the coding should reflect the source of the award, fee loan or financial backing.   |
|                     | Codes 02-04 includes those students whose fee is met in full by the body shown - through a grant and/or through a fee loan. In the case of payments by the SLC, students should be recorded against the body which made the financial assessment: code 02 for students from England and Wales and for EU students studying in England and Wales, code 03 for students from Scotland and for EU students studying in Scotland or code 04 for students from Northern Ireland and EU students studying in Northern Ireland. Where the financial assessment has resulted in the fee being partly paid by the public body shown in codes 02-04 and partly by the student or their families, the student should be included in either codes 52, 53 or 54 regardless of which contribution is the greater. |

Code 02 includes students aged under 19 who pay registration fees only. Code 02 excludes LA acting as employer.

Students in exempt years from liability to pay fees should be coded 02, 03 or 04 as appropriate.

Code 05 'Institutional waiver of support costs' includes University Scholarships or awards of current institution.

Code 07 'Fee waiver under government unemployment students scheme' is to cover the proposal that part-time students who are in employment at the start of a course but who become unemployed during it may have their fees waived - possibly subject to means testing. Institutions will be able to reclaim from funding councils.

Code 09 covers cases where fee remission is granted to employees of small and medium sized businesses who are studying part-time towards an HE qualification as part of a recognised Graduate Apprenticeship.

Code 25 should be used when the charity paying the fees is listed as a member of Association of Medical Research Charities

Code 31 'Departments of Health/NHS/Social Care'. Any student whose fees are directly paid by NAW should be included in code 34 'Other HM government departments/public bodies'.

Code 41 'EU Commission (EC)' applies specifically to the EU Commission. In codes 42-48 'overseas' means 'non-UK'.

Code 42 'Overseas student award from HM government/British Council' includes the Association of Commonwealth Universities.

Code 49 identifies Overseas Research Student Award Scheme, and these awards are not included in Code 42.

Code 81, 'Student's Employer' should be used in preference to other codes if it is known that the major source of tuition fees is the student's employer. Codes such as 61, 'UK industry/commerce' and 34, 'Other HM government departments/public bodies' therefore apply where these are the sponsor of the student rather than their employer.

Incoming Erasmus, Tempus and other exchange students should be coded 98 'No fees'.

The code closest to 05 should be returned if there is a 50/50 split on the source of tuition fees, with the exception of students funded 50/50 by a Research Council and another body, in which case the Research Council code should be returned.

# **Mode of study**

| Type  Description   | field   |
|---------------------|---|
| Description         |   |
|                     | This field indicates the method by which a student is being taught their course.  |
| Applicable to       | England NI Scotland Wales   |
| Coverage            | All instances   |
| Base Data Type      | MODECodeType  |
| Field Length        | 2   |
| Part Of             | Instance  |
| Minimum Occurrences | 1   |
| Maximum Occurrences | 1   |
| Related Fields      | MCDATE LOCSDY STULOAD NOTACT SPLENGTH UNITLGTH  |
| Reason Required     | To allow standard populations to be defined and financial calculations to be made   |
| Notes               | Where a student has changed their mode of study within the reporting period, the record should show the current or latest position.  With reference to code 01, the funding councils have agreed that a common definition of full-time is that course years must involve a minimum of 24 weeks study (note that this definition does not apply to full-time final year students in institutions in Wales). Each funding council may also have further additional conditions. HESA will apply the 24 week rule to its definition of full-time in publications i.e. full-time will be all those students coded 01 in this field, together with all those students coded 02 and whose expected length of study (fields Instance.SPLENGTH and Instance.UNITLGTH) is over 24 weeks.  With reference to codes 23 and 24, these programmes are covered by the definition of sandwich under the award regulations as set out by the funding council. Years of instance must involve a minimum of 24 weeks study/placement. HESA's definition of sandwich students will be all those students coded 23 or 24 in this field, together with all those students coded 25 and whose expected length of study (fields Instance.SPLENGTH and Instance.UNITLGTH) is over 24 weeks.  Code 23, Thick sandwich students are those for which an industrial (or other) placement causes a continuous absence from full-time study of at least one academic year. A record must be returned for every student enrolled on a sandwich course irrespective of whether they are in attendance at the institution or engaged in industrial training. Students should be coded as sandwich for every year of the course and not just those in which industrial experience takes place. The students who are actually out on placement can be identified via Instance.LOCSDY. |

Students who meet the definition of sandwich should be coded as either 23 or 24 (and not codes 52 or 53) irrespective of whether the year is spent abroad or is optional/compulsory.

Students who are actively writing-up are not considered to be dormant by HESA. A record is required for such students, with this field coded as 43 or 44 'Writing-up'. 'Writing-up' is generally associated with research students. Students on taught masters courses should not typically have their mode of study changed to 'writing-up', at least within the registration period, e.g. students on a one year taught masters course should be shown as full-time mode for both the taught and the dissertation phases of the course. Any change to show mode as writing-up would be expected only after the completion of the 12 month registration period.

Code 51 should be used for students on sabbatical years e.g. holding Student Union office.

Codes 52 and 53 should only be used for study related years out which count towards the course aim. Language years out that are not classed as thick sandwich programmes should be coded 53 in the year the student is abroad.

Years out for any other reason should be coded 63 or 64, Dormant.

Codes 65, 66, 68 and 69 are available to institutions in England and Wales only. Code 67 is available for institutions in Wales only.

Codes 73 and 74 are available to postgraduate students (i.e. <a href="Course.COURSEAIM">Course.COURSEAIM</a> begins D, E, L or M (excluding M22)) at institutions in England only. Postgraduate students who become dormant part way through the reporting year will need a full HESA record reflecting their current status as code 73 or 74. <a href="Instance.MCDATE">Instance.MCDATE</a> will record the date when the postgraduate student formally moves from an active study mode to 'dormant'. <a href="Instance.STULOAD">Instance.STULOAD</a> should be reduced to reflect the fact that the student was not active for the whole reporting period.

All other who become dormant part way through the reporting year (that is, all students at institutions in Wales, Northern Ireland and Scotland and Undergraduate and FE students at institutions in England) will need a full HESA record in the July data collection reflecting their status whilst active (i.e. the position that applied just before they became dormant). This field should record their mode of study whilst active (and not code 63 or 64 'Dormant' which should only be used for students who are dormant for the whole reporting period). <a href="Instance.STULOAD">Instance.STULOAD</a> should potentially be reduced to reflect the fact that the student was not active for the whole reporting period. A student who was actively studying at sometime during the reporting period but who has now suspended studies, will have an active mode of study and will be identified through Instance.NOTACT.

Any students with a mode of study 63 or 64 'Dormant' will be excluded from the HESA standard registration population used for analysis purposes. A record is not required for such students except in the case where awards have been made to students from dormant status. Institutions with awards made in a reporting period to students not active in the reporting period should include a record for these students in the reporting period July data collection, showing mode of study 63 or 64 'dormant'. This may either be via a full record (all fields will be validated and Student FTE must be ) or through a reduced record for dormant students (only the specified fields will be validated and Student FTE will be assumed to be 0) - see dormant students reduced record.

Codes 63 and 64 for dormant can be used only if the student was not actively studying

at anytime during the reporting period.

Where a student has changed their mode of study within the reporting year, the record should show the current or latest position. However students involved in re-sits after the completion of the taught or structured part of their course should not have their mode of study up-dated. For example a full-time student who finishes the courses in June but has to take resits in September should not be re-coded; whilst they were active on the course they were a full-time student.

The use of the specific full-time codes 12 to 14 is compulsory for all students at institutions in England or Wales who are following programmes of study at FE level or funded by LSC or WAG-DCELLS.

Code 31, 'Part-time' is assumed to include all the specific types of part-time study detailed in codes 32 to 35. The use of the specific part-time codes 32 to 35 (not the generic part-time code 31) is compulsory for all students at institutions in England or Wales who are following programmes of study at FE level or funded by LSC or WAG-DCELLS. In all other cases whether institutions in England, Wales or Northern Ireland use the generic or the specific part-time codes is optional.

Institutions in Scotland should use part-time codes 38 or 39.

Codes 12 -14 and 32 - 37 can only be used by institutions in England and Wales.

When using the specific part-time codes, if there is uncertainty about whether a student is released from employment, code as 34, 'Part-time, not-released from employment'.

Code 32, Block release students are those who attend full-time for a period less than 24 weeks per academic/financial year and where study,

- is broken by a period of industrial training or employment and
- may be additional to study on one or two days a week during another part of the session.

FE students at institutions in England and Wales only may be coded 36. All other distance learning students should be coded according to their individual mode/pattern of study, e.g. full-time or part-time.

FE students at institutions in England and Wales only may be coded 37.

Part-time courses/programmes of study which involve a mixture of day and evening attendance should be recorded under whichever of codes 32-34 is most appropriate, e.g. a day release course which also involves evening attendance should be coded 33. 'Twilight only' courses should be counted as 'evening only' and coded 35.

Where Y0/Y1/Y2 appear in business rules, these refer to the reporting period Y1-Y2 (e.g. for the 2007-08 reporting period, Y0 is 2006, Y1 is 2007 and Y2 is 2008).

# Module

| Short Name          | Module  |
|---------------------|---|
| Туре                | entity  |
| Description         | A discrete unit of learning and/or research   |
| Applicable to       | England NI Scotland Wales   |
| Coverage            | Compulsory for all returns  |
| Part Of             | Institution   |
| Minimum Occurrences | 1   |
| Maximum Occurrences | unbounded   |
| Has Parts           | Module identifier (MODID) Module title (MTITLE) Module taught in a Celtic language (MODLANG) Percentage of module taught in Celtic language (LANGPCNT) Module FTE (FTE) Percentage not taught by this institution (PCOLAB) Credit transfer scheme (CRDTSCM) Credit value of module (CRDTPTS) Level of credit points (LEVLPTS) Other institution providing teaching (TINST) Module subject   |
| Reason Required     | This entity exists to hold information about modules/units of activity that students undertake.   |
| Notes               | Although the term 'Module' is used to describe this entity, the definition covers any discrete unit of learning and/or research. The aim of collecting this information is to provide a greater level of detail about the student's activity than can be ascertained from the course-level information. Specifically, this includes the detail of subjects studied during the year, credit scheme information and cost centre information that is used in conjunction with the FTE value shown in <a href="Instance.STULOAD">Instance.STULOAD</a> .  In cases where students are studying within academic structures that are not 'modular', the module could be defined as a single unit to cover a year's worth of activity on a course.  It is recommended that in cases where a module is used in both HE and FE instances, institutions return two separate module records because different validation needs to be applied. |
| Owner               | HESA  |
| Version             | 1.0   |

# **Module Countable**

| Short Name               | MODCOUNT   |  |
|--------------------------|--|--|
| Туре                     | field  |  |
| Description              | This field records whether the module is countable in the academic year under HEFCW HESES/EYM rules.   |  |
| Applicable to            | Wales  |  |
| Coverage                 | All StudentOnModule records at institutions in Wales that link to instances (and then to courses) at HE level  |  |
| Base Data Type           | MODCOUNTCodeType   |  |
| Field Length             | 1  |  |
| Part Of                  | Student on module  |  |
| Minimum Occurrences      | 0  |  |
| Maximum Occurrences      | 1  |  |
| Reason Required          | For funding allocation   |  |
| Notes                    | A module undertaken by a student should be coded as countable unless it fits the HESES/EYM rules not to be counted. This will be where:  |  |
|                          | - modules are optional or elective   |  |
|                          | - modules have been counted in the past. For example, where a student is repeating a module that was completed in a previous year and has progressed to a subsequent year of the course, the module would not be countable.  |  |
|                          | The purpose in collecting this information is to ensure that no more than the maximum number of credit values per student on a course, as set out in HESES/EYM, is counted in the determination of the number of credit values for funding purposes. Full guidance can be found in Annex H of HESES/EYM.           |  |
|                          | If institutions have difficulty in identifying modules which should not be counted, then they should contact HEFCW. This is likely to be where it is not possible to determine if modules have already been counted, for example, due to module identifiers changing or modules being taken some time in the past. |  |
| Owner                    | HESA   |  |
| Version                  | 1.0  |  |
| Business rules           | 1 Error StudentOnModule.MODCOUNT must exist for institutions in Wales unless Course.COURSEAIM begins with P, Q, R, S or X. 2 Error StudentOnModule.MODCOUNT must not exist for institutions in England, Scotland and Northern Ireland.   |  |
| Valid Entries and Labels | 1 Module not countable<br>2 Module is countable  |  |

# **Module FTE**

| Short Name          | FTE  |
|---------------------|--|
| Туре                | field  |
| Description         | This field indicates the proportion of a full-time equivalent year attributed to the module. It shows the proportion of an instance year's full-time study for this qualification aim that the module would represent.   |
|                     | A year's full-time study for this qualification aim is a programme of study year (instance year), regardless of how this fits with institution's academic sessions or HESA reporting periods.  |
|                     | Students on instance years which overlap HESA reporting years (e.g. many PGT students) should be attached to the same module in both HESA reporting years, with a full Module.FTE in both reporting years. This is not overcounting, as Module.FTE applies to the instance year of study. <a href="Instance.STULOAD">Instance.STULOAD</a> will show the proportion taken in each reporting year.   |
|                     | The value in Module.FTE can be recorded to one decimal place and must be between 0 and 300.  |
| Applicable to       | England NI Scotland Wales  |
| Coverage            | All modules  |
| Base Data Type      | FTEType  |
| Field Length        | 5  |
| Part Of             | Module   |
| Minimum Occurrences | 1  |
| Maximum Occurrences | 1  |
| Related Fields      | STULOAD  |
| Reason Required     | To support student load calculations; used in splitting student load across cost centres and hence in England and NI allocating FTE to price groups for funding purposes.  |
| Notes               | This field, together with <a href="Instance.STULOAD">Instance.STULOAD</a> endeavours to capture more sensitive information than has previously been available about students whose study pattern cannot be categorised as typically full-time, i.e. equivalent in total to 1 FTE per year. It provides a numerical measure of the contents of <a href="Instance.MODE">Instance.MODE</a> . It does not seek to record the teaching load, nor the contact time associated with a student or the course, nor the learning hours, since each of these quantities is subject to variation between institutions, and cannot be related to a national norm. No weighting should be given, therefore, to take account of the resourcing requirements of different modules. |
|                     | For institutions operating a credit points system, the proportion of FTE can be calculated from the number of credit points that may be obtained from the module compared with the number of credit points obtainable for that year of the course. Proportion of FTE can also be calculated by reference to a conventional full-time student following the qualification aim. For example, if it is the institution's normal requirement that a student should complete 12 (equally-weighted) modules for a degree which would typically take 3 years for a normal full-time student, then each module would have proportion of FTE calculated as 25% (25). For degrees requiring 12 (equally-weighted) modules over 4   |

full-time years, each module would have an FTE calculated as 33% (33). This could serve as a benchmark for calculating the FTE of non-standard modules, or modules falling within other programmes of study. For professional courses, the advice of the professional awarding body can be sought. Otherwise institutions are asked to make an academic judgement in relating the module to another module of a similar level, and similar academic subject category, which can be related to a 'standard' full-time course.

HESA accepts that the full-time equivalence will not be exact in all cases, but the aim is to give a better approximation than the use of arbitrary conversion factors. It is recognised that the actual student FTE associated with a course may not simply be the aggregation of all modules followed by that student, and it is not expected that there will always be a precise correspondence between the aggregate proportion of FTE fields and <a href="Instance.STULOAD">Instance.STULOAD</a>. Further guidance on FTE reporting is available <a href="here">here</a>.

In cases where a module is available in two or more qualification aims, with different course requirements, separate module entities are required to be returned.

For example:

Module: Introduction to biogenetics (40 credits)

MODID: PGMIntrobiogenetics

Masters degree course module worth 40 credits of a 180 credit course

MODFTE: 22

In this instance the module's weighting accounts for 22% of the course year.

MODID: PGCIntrobiogenetics

Post Graduate Certificate course module worth 40 credits of a 120 credit course

MODFTE: 33

In this instance the module's weighting accounts for 33% of the course year.

Although the students on these courses may be attending the same lectures, because the outcome weighting of the module differs between qualification aims, separate module entities are required.

The length of this field is 5 characters, however the move to XML enables data to be returned with or without leading zeros or the decimal place, e.g. 005.0 or 5.0 or 5

| Owner          | HESA  |  |
|----------------|---|--|
| Version        | 1.0   |  |
| Business rules | 1 Warning Module.FTE should contain a value greater than 0. |  |

# **Module identifier**

| Short Name          | MODID   |  |
|---------------------|---|--|
| Туре                | field   |  |
| Description         | This field is the <u>primary key</u> for the <u>Module</u> entity and exists as a <u>foreign key</u> on <u>StudentOnModule</u> .  |  |
| Applicable to       | England NI Scotland Wales   |  |
| Coverage            | All modules   |  |
| Base Data Type      | MODIDType   |  |
| Field Length        | 30  |  |
| Part Of             | Module  |  |
| Minimum Occurrences | 1   |  |
| Maximum Occurrences | 1   |  |
| Reason Required     | To facilitate linkage with the Instance entity.   |  |
| Notes               | Any MODID returned on the StudentOnModule element must exist on the Module entity. Modules that have not been taken up in the reporting year can be included on the Module entity if this is easier.  |  |
|                     | Valid characters  |  |
|                     | The valid characterset available for this field follows the <u>Data Standards in the HESA student record</u> .  |  |
|                     | <ul> <li>The general policy is to support all Latin-based characters for names, addresses and general text fields, but not non-Latin characters.</li> <li>All Unicode code charts for Latin characters are supported. These are Basic Latin (excluding the C0 control characters), Latin-1 (excluding the C1 control characters), Latin Extended A, Latin Extended B and Latin Extended Additional. This set corresponds to Unicode code points U+0020 to U+007F and U+00A0 to U+024F.</li> <li>Schemas are built in such a way that an individual project can further restrict the set if required.</li> </ul> |  |
|                     | The character set chosen will support Welsh and Gaelic languages as well as all European and most other languages using a Latin-based character set.  |  |
|                     | The Unicode charts that list each of the characters in this range can be found on the Unicode web site. The specific sets that are defined here are shown in the following PDF documents:   |  |
|                     | <ul> <li>Basic Latin</li> <li>Latin-1</li> <li>Latin Extended A</li> <li>Latin Extended B</li> <li>Latin Extended Additional</li> </ul>   |  |

|         | Files must be encoded with UTF-8 and schema validation will be in place to ensure this. Institutions must specify the encoding used in their XML files in the first line of the file (i.e. xml version="1.0" encoding="UTF-8" ? ) and to ensure that their files are actually saved with that encoding. If XML files are edited with some text editors and the encoding is not specified or does not match the actual file encoding, there may be problems when submitting these files for validation. |

# **Module identifier**

| Short Name          | MODID   |  |
|---------------------|---|--|
| Type                | field   |  |
| Description         | This field is the <u>primary key</u> for the <u>Module</u> entity and exists as a <u>foreign key</u> on <u>StudentOnModule</u> .  |  |
| Applicable to       | England NI Scotland Wales   |  |
| Coverage            | All student on module records   |  |
| Base Data Type      | MODIDType   |  |
| Field Length        | 30  |  |
| Part Of             | Student on module   |  |
| Minimum Occurrences | 1   |  |
| Maximum Occurrences | 1   |  |
| Reason Required     | To facilitate linkage with the Instance entity.   |  |
| Notes               | Any MODID returned on the StudentOnModule element must exist on the Module entity. Modules that have not been taken up in the reporting year can be included on the Module entity if this is easier.  |  |
|                     | Valid characters  |  |
|                     | The valid characterset available for this field follows the <u>Data Standards in the HESA student record</u> .  |  |
|                     | <ul> <li>The general policy is to support all Latin-based characters for names, addresses and general text fields, but not non-Latin characters.</li> <li>All Unicode code charts for Latin characters are supported. These are Basic Latin (excluding the C0 control characters), Latin-1 (excluding the C1 control characters), Latin Extended A, Latin Extended B and Latin Extended Additional. This set corresponds to Unicode code points U+0020 to U+007F and U+00A0 to U+024F.</li> <li>Schemas are built in such a way that an individual project can further restrict the set if required.</li> </ul> |  |
|                     | The character set chosen will support Welsh and Gaelic languages as well as all European and most other languages using a Latin-based character set.  |  |
|                     | The Unicode charts that list each of the characters in this range can be found on the Unicode web site. The specific sets that are defined here are shown in the following PDF documents:   |  |
|                     | <ul> <li>Basic Latin</li> <li>Latin-1</li> <li>Latin Extended A</li> <li>Latin Extended B</li> <li>Latin Extended Additional</li> </ul>   |  |

|                         | Files must be encoded with UTF-8 and schema validation will be in place to ensure this. Institutions must specify the encoding used in their XML files in the first line of the file (i.e. xml version="1.0" encoding="UTF-8" ? ) and to ensure that their files are actually saved with that encoding. If XML files are edited with some text editors and the encoding is not specified or does not match the actual file encoding, there may be problems when submitting these files for validation. |  |
|-------------------------|--|--|
| Owner                   | HESA   |  |
| Version                 | 1.2  |  |
| Date modified           | 2010-06-30   |  |
| Change management notes | Business rule 2 upgraded to error. Business rule 3 added.  |  |
| Business rules          | 1 Error StudentOnModule.MODID must exist on Module.MODID 2 Error No more than 2 occurrences of identical StudentOnModule.MODID must exist for a single instance. 3 Warning There are 2 occurrences of identical StudentOnModule.MODID for a single instance. An instance should not be linked to the same module more than once in cases where a student is simply re-sitting examinations or assessment.  |  |

## **Module outcome**

| Short Name          | MODOUT   |
|---------------------|--|
| Туре                | field  |
| Description         | This field records if the student completed the module and if so whether they gained credit or not. There should be a Module Outcome field for each module taken by the student.   |
| Applicable to       | England NI Scotland Wales  |
| Coverage            | All student on module records  |
| Base Data Type      | MODOUTCodeType   |
| Field Length        | 1  |
| Part Of             | Student on module  |
| Minimum Occurrences | 1  |
| Maximum Occurrences | 1  |
| Related Fields      | MODSTAT  |
| Reason Required     | To allow monitoring of completion and achievement.   |
| Notes               | Code 3 'Partial completion' is as defined in HEFCW HESES, and should be used for modules associated with full-time taught courses only.  |
|                     | Code 4 'Student did not complete module' includes cases where the student withdrew from the module or transferred from this module to another. Institutions are advised to used codes A and B in preference to code 4 where applicable. This data may inform the development of performance indicators.  |
|                     | Code 5 'Module taken on a not-for-credit basis' should be used for a student who takes optional modules on a not for credit basis in addition to compulsory modules for their course, or for modules which do not have any form of assessment.   |
|                     | Code 6 'Module Outcome not yet known' should be used for cases where, for example, a student was ill and has been allowed to defer.  |
|                     | Code 6 'Module Outcome not yet known' should be used for modules continuing into the next reporting year. <u>StudentOnModule.MODSTAT</u> code 3 or 6 will show that the reason that these module outcomes is not yet known is because the module is continuing into the next reporting year.   |
|                     | Code 7 'Not coded' is an acceptable default code for use in this field unless otherwise indicated by the institution's funding council. Institutions in Wales must not use code 7. Institutions in England are encouraged to complete module information on the Student Record, to enable HEFCE to take this information into account in the future distribution of funding. HEFCE plan to include in funding from 2009/10 onwards additional FTE for students who are non-completers in terms of their original study intentions but who nevertheless have completed individual modules. For students who complete according to the current HESES rules there should be no funding implications in using code 7 in this field. However for students who do not complete HEFCE expect to count only modules with outcomes coded 1 or 2 in this field in funding additional FTE for partial |

completion.

Code 9 'Module previously returned in error' should be used to close off a module previously attached to a student but which the student never actually started. This code should be used in cases where a student changed/drops a module before it starts, possibly due to a change of course or course requirements.

Completion should be as defined by the relevant funding council. For institutions in England this includes the requirement that the student either took the final module assessment or passed it.

### **English and NI HEIs:**

Additional guidance for: resit exams; late submission of assessments and/or results from late exam boards; students who conclude their module studies by 31 July but who have resit/first sit examinations to take, assessments to submit and/or whose final confirmation of award by exam boards may be after 31 July:

If the Module Outcome is known before the Student Record data collection closes, these outcomes should where possible be included in the return reflecting both whether the student was a completion in funding terms and whether credit was awarded.

In cases where the academic outcomes are not known one of the following codes should be used:

Code B 'Student did not complete module – deferral'. This code should be used where the student did not complete the module according to HEFCE funding rules but may subsequently be awarded credit for it in a later year.

Code 6 'Module outcome not yet known'. This code should be used where neither the completion in HEFCE funding terms nor the academic outcome are known.

Where the award of credit is known in the next year it should be returned by submitting a record with code 4 'Taken in a previous reporting year (outcome only)' in <a href="StudentOnModule.MODSTAT">StudentOnModule.MODSTAT</a>.

#### Welsh HEIs:

The requirement to return late module outcomes is compulsory for institutions in Wales. However until the wider adoption of the part-time performance indicator, the completion of late module outcomes will be optional for other institutions.

## **Module status**

| Short Name                  | MODSTAT  |  |
|-----------------------------|--|--|
| Туре                        | field  |  |
| Description                 | This field records detail of whether modules span HESA reporting years.  |  |
| Applicable to               | England NI Scotland Wales  |  |
| Coverage                    | All student on module records  |  |
| Base Data Type              | MODSTATCodeType  |  |
| Field Length                | 1  |  |
| Part Of                     | Student on module  |  |
| Minimum Occurrences         | 1  |  |
| Maximum Occurrences         | 1  |  |
| Related Fields              | MODOUT   |  |
| Reason Required             | Collection of this data will allow more accurate allocation of modules to reporting years for monitoring of completion and achievement, and of funding.  |  |
| Notes                       | Code 5 'Not coded' is an acceptable default code for use in this field unless otherwise indicated by the institution's funding council. Institutions in Wales must not use code 5. Institutions in England are encouraged to complete module information on the Student Record, to enable HEFCE to take this information into account in the future distribution of funding. |  |
|                             | Code 6 should normally only be used where students have modules which genuinely span 3 reporting years. This is likely to be relatively rare, and will most likely be relevant to Postgraduate research students where a single module is being used to represent a programme of study.  |  |
| Owner                       | HESA   |  |
| Version                     | 1.0  |  |
| Business rules              | StudentOnModule.MODSTAT cannot be coded 5 where institution is in Wales.   |  |
| Valid Entries and<br>Labels | Continuing from previous reporting year Contained within reporting year Continuing into next reporting year Taken in a previous reporting year (outcome only) Not coded Continuing from previous reporting year and into next reporting year   |  |

# **Module subject**

| Short Name          | ModuleSubject   |
|---------------------|---|
| Туре                | entity  |
| Description         | Subject descriptor for the Module   |
| Applicable to       | England NI Scotland Wales   |
| Coverage            | All modules   |
| Part Of             | Module  |
| Minimum Occurrences | 1   |
| Maximum Occurrences | 16  |
| Has Parts           | Subject of module (MODSBJ) Cost centre (COSTCN) Subject / cost centre percentage (MODSBJP)  |
| Reason Required     | This repeating element exists to allow a module to hold up to sixteen sets of cost centre and subject information.  |
| Notes               | Institutions may code up to 16 occurrences of module subject. It is up to institutions to decide whether or not to return details of cost centres which are contributing teaching/learning amounting to less than 5% of the proportion of the module.   |
|                     | An entry is required for each subject area of study of the module regardless of whether this subject area of study is taught by the reporting institution or not.   |
|                     | Where 2 different subjects are taught in the same cost centre, there should be separate entries for each.   |
|                     | A breakdown at instance level will be acceptable for students out on placement or exchange out.   |
|                     | Where the sum of percentages does not equal 100% (e.g. because of the exclusion of cost centres contributing less than 5% of the teaching/learning) then the percentage of the subjects returned should be pro-rated so that the total becomes 100%. However, there will be a tolerance of totals between 98% and 102%. |

| Version             | 1.0   |

# Module taught in a Celtic language

| Short Name                  | MODLANG  |  |
|-----------------------------|--|--|
| Туре                        | field  |  |
| Description                 | This field is used to indicate that the module that is taught, at least in part, through the medium of a Celtic language.  |  |
| Applicable to               | NI Scotland Wales  |  |
| Coverage                    | All modules at institutions in Wales, Scotland and Northern Ireland  |  |
| Base Data Type              | MODLANGCodeType  |  |
| Field Length                | 1  |  |
| Part Of                     | Module   |  |
| Minimum Occurrences         | 0  |  |
| Maximum Occurrences         | 1  |  |
| Related Fields              | LANGPCNT   |  |
| Reason Required             | To monitor pattern of provision in a Celtic language.  |  |
| Notes                       | Modules taught partly in English (or another language) and partly in a Celtic language should be coded 1 Welsh, 2 Gaidhlig or 3 Irish appropriately. Field Module.LANGPCNT will show the proportion of the module that is taught in the Celtic language. |  |
|                             | Code 9 'Not available through the medium of Welsh, Gaidhlig or Irish' indicates that no part of the module is taught through the medium of a Celtic language   |  |
|                             | For institutions in Wales, when using code 1, this field should indicate where the module is delivered wholly or partly through the medium of Welsh.   |  |
|                             | For further guidance on the completion of this field, and in particular with reference to activities which constitute learning through the medium of a Celtic language, please refer to the institution's funding council.                               |  |
| Owner                       | HESA   |  |

# **Module title**

| Short Name          | MTITLE  |  |
|---------------------|---|--|
| Туре                | field   |  |
| Description         | This field is determined by the institution and, in this context, relates to the specific module which in turn can be a component in many courses.  |  |
| Applicable to       | England NI Scotland Wales   |  |
| Coverage            | All modules   |  |
| Base Data Type      | MTitleType  |  |
| Field Length        | 80  |  |
| Part Of             | Module  |  |
| Minimum Occurrences | 1   |  |
| Maximum Occurrences | 1   |  |
| Reason Required     | To facilitate HESA cross-checking with institutions.  |  |
| Notes               | Although a compulsory field, this field will not be subject to specific checks regarding its validity. The only validation checks will be that the field contains at least one character.   |  |
|                     | Users of HESA data will occasionally consult this field in order to gain a better understanding of the subjects/activity contained in the module. Therefore institutions are encouraged to make these data meaningful where this does not significantly add to the burden of collection   |  |
|                     | Valid characters  |  |
|                     | The valid characterset available for this field follows the <u>Data Standards in the HESA student record</u> .  |  |
|                     | <ul> <li>The general policy is to support all Latin-based characters for names, addresses and general text fields, but not non-Latin characters.</li> <li>All Unicode code charts for Latin characters are supported. These are Basic Latin (excluding the C0 control characters), Latin-1 (excluding the C1 control characters), Latin Extended A, Latin Extended B and Latin Extended Additional. This set corresponds to Unicode code points U+0020 to U+007F and U+00A0 to U+024F.</li> <li>Schemas are built in such a way that an individual project can further restrict the set if required.</li> </ul> |  |
|                     | The character set chosen will support Welsh and Gaelic languages as well as all European and most other languages using a Latin-based character set.  |  |
|                     | The Unicode charts that list each of the characters in this range can be found on the Unicode web site. The specific sets that are defined here are shown in the following PDF documents:   |  |
|                     | Basic Latin   |  |

|                         | <ul> <li>Latin-1</li> <li>Latin Extended A</li> <li>Latin Extended B</li> <li>Latin Extended Additional</li> </ul>   |
|-------------------------|--|
|                         | Files must be encoded with UTF-8 and schema validation will be in place to ensure this. Institutions must specify the encoding used in their XML files in the first line of the file (i.e. xml version="1.0" encoding="UTF-8" ? ) and to ensure that their files are actually saved with that encoding. If XML files are edited with some text editors and the encoding is not specified or does not match the actual file encoding, there may be problems when submitting these files for validation. |

# **National identity**

| Short Name                  | NATIOND  |  |  |
|-----------------------------|--|--|--|
| Туре                        | field  |  |  |
| Description                 | This field records the national identity of the student. National identity is different from both ethnicity and nationality and could be based on many things including, for example, culture, language or ancestry/family history. National identity reflects how an individual chooses to classify himself or herself. |  |  |
| Applicable to               | Wales  |  |  |
| Coverage                    | All students at institutions in Wales where <a href="EntryProfile.DOMICILE">EntryProfile.DOMICILE</a> = XI and any <a href="Instance.REDUCEDI">Instance.REDUCEDI</a> = 00 or 02  |  |  |
| Base Data Type              | NATIONDCodeType  |  |  |
| Field Length                | 1  |  |  |
| Part Of                     | Student  |  |  |
| Minimum Occurrences         | 0  |  |  |
| Maximum Occurrences         | 2  |  |  |
| Reason Required             | To monitor the impact of policies and practices on students of Welsh or other UK background.   |  |  |
|                             | To compare sector data with that from other areas of the economy.  |  |  |
| Notes                       | The coding structure reflects that used in other national surveys and so allows comparative statistics to be derived both within and outside the sector.   |  |  |
|                             | A student can identify himself or herself as having up to two national identities.   |  |  |
|                             | Code 'U' Unknown should be used where a student has either not been asked or has failed to respond to a request for information about his or her national identity.  |  |  |
|                             | Code 'R' Information refused should be used when the student has explicitly refused to provide the information.  |  |  |

| Maximum Occurrences | 1   |  |  |
| Reason Required     | To enable the UK contribution to the higher education of nationals of other countries to be determined; used by Statutory Customers and others with a legitimate interest to analyse this contribution.   |  |  |
|                     | To meet EC and OECD requests for information.   |  |  |
| Notes               | For students entering through UCAS this information will be available from UCAS via the *J transaction. UCAS will first use the complete new code list for entrants in 2009. Therefore in 2007/08 (and 2008/09) institutions can use the more limited codes as provided in the *J, however, institutions can recode if they choose. The details of the coding that will be provided by UCAS can be found in the *J specification.   |  |  |
|                     | Where a student has dual nationality including British, they should be coded as United Kingdom (GB). If a dual nationality, not including British, but including non-UK EU country then use relevant EU country code. If neither British or non-UK EU country then code as either nationality.  |  |  |
|                     | HESA Guidance   |  |  |
|                     | This coding frame is determined by the National Statistics Country Classification 2006 (NSCC), which is based on ISO 3166-1 Codes for the Representation of Names of Countries and their Subdivisions, and the United Nations' Standard Country or Area Codes for Statistical Use. In a small number of cases, the NSCC usage differs from the usage in ISO 3166 on which the NSCC is based. Where that happens, the ISO 3166 usage is given in brackets after the preferred UK usage, to facilitate cross-reference to the international standard. For example for code KP the description is Korea (South). The text in brackets, [Korea, Republic of], is the ISO 3166 description. Information in braces is provided by HESA to clarify usage, and is not derived either from NSCC or ISO 3166 lists of short country names, for example Spain {includes Ceuta, Melilla}. |  |  |
|                     | Note: 'no settled inhabitants' means no inhabitants apart from military and scientific personnel, staff of contractors, and seasonal residents. Codes for countries with no   |  |  |

settled inhabitants are referred to in the guidance but omitted from the list, for example, AQ Antarctica.

### GB, XF, XG, XH, XI, XJ, XK: United Kingdom

For **domicile** the separate country codes XF, XG, XH, XI must be used, and if domicile is known to be United Kingdom but the individual country is not known, XK must be used. The code GB is invalid for domicile. For **nationality** the code GB must be used. The codes XF, XG, XH, XI, XK are invalid for nationality. The code XJ is invalid for both domicile and nationality. Note that the code UK is not on the NSCC list and is invalid for both domicile and nationality.

## GG, JE, XL: Guernsey and Jersey (Channel Islands)

The Channel Islands are not part of the United Kingdom and not part of the European Union. United Kingdom codes must not be used for either domicile or nationality. The Bailiwicks of Guernsey (which includes the smaller islands of Alderney and Sark) and of Jersey must be treated separately, and the codes GG and JE must be used for both **domicile** and **nationality**. The code XL may be used for either domicile or nationality, but only for student instances from 2007/08 onwards that were already current in 2006/07, to avoid the need for re-coding.

#### IM: Isle of Man

The Isle of Man is not part of the United Kingdom and not part of the European Union. United Kingdom codes must not be used either for domicile or nationality. The code IM must be used for both **domicile** and **nationality**.

#### CY, XA, XB, XC: Cyprus

The following treatment does not imply any recognition that the *de facto* Turkish occupation and control of northern Cyprus is legitimate, but does deal with the practical need to record the source of students. The separate codes Cyprus (European Union) (XA) and Cyprus (non European Union) (XB) must be used for both **domicile** and **nationality**. The code XC may be used for either domicile or nationality, but only for student instances from 2007/08 that were already current in 2006/07, to avoid the need for re-coding, or for new entrants in 2007/08 who entered through UCAS. Note that an appropriate United Kingdom code should be used for both domicile and nationality for students from the British sovereign military areas on Cyprus. The code CY is invalid for both domicile and nationality unless and until there is any change in the political situation, in which case the coding arrangements will be reviewed.

#### FI. AX: Finland and the Aland Islands

The Åland Islands (Ahvenamaa) are an autonomous demilitarised region of Finland, and are part of the European Union subject to some derogations and special provisions. For **domicile** the code FI must be used only for Finland excluding the Åland Islands, and the code AX must be used for the Åland Islands. The passport held by Åland Islanders is an EU-style passport distinguished from the normal Finnish passport by the addition of the word 'Åland' below 'FINLAND', but this does not imply a separate nationality. Accordingly, for **nationality** only the code FI is to be used, and the code AX is invalid.'

## FO, GL: Faroe Islands and Greenland

The Faroe Islands and Greenland must be treated separately, and the codes FO and GL must be used for both **domicile** and **nationality**. Note that, despite their relationship with Denmark, neither Greenland nor the Faroe Islands are part of the European Union.

#### FR, GF, GP, MQ, RE, YT, PM, PF, WF, BL, MF, TF and NC: French Republic

The French Republic comprises Metropolitan France (France Métropolitain) [including Corsica], the four Overseas Departments (Départements d'Outre-Mer, or D.O.M.) of French Guiana (GF), Guadeloupe (GP), Martinique (MQ), and Réunion (RE), the six Overseas Collectivities (Collectivités d'Outre-Mer, or C.O.M.) of Mayotte (YT), St Pierre & Miquelon (PM), French Polynesia (PF) [also designated as a Pays d'Outre-Mer], and Wallis & Futuna (WF), St Barthélemy (BL), St Martin (French Part) (MF), the Overseas Territory (Territoire d'Outre-Mer, or T.O.M.) of the French Southern Territories (TF), and finally New Caledonia (NC) which has a special status similar to a T.O.M..

Metropolitan France and the four Overseas Departments are all part of the European Union. For **domicile**, the code FR must be used **only** for Metropolitan France, and other codes must be used with their natural meaning, except that there are no settled inhabitants in the French Southern Territories, so code TF is invalid. For **nationality** the code FR must be used throughout, and all the other codes in this group are invalid.

## IT, VA: Italy and Vatican City (Holy See)

Italy and Vatican City must be treated separately, and the codes IT and VA must be used for both **domicile** and **nationality**.

### NL, AW, AN: Kingdom of the Netherlands

The Kingdom of the Netherlands comprises the European country of The Netherlands and the Caribbean countries of Aruba (AW) and Netherlands Antilles (AN). For **domicile**, the code NL must be used only for The Netherlands in Europe, and the codes AW and AN must be used with their natural meaning. For **nationality** the code NL must be used throughout, and codes AW and AN are invalid. Netherlands Antilles is to be further subdivided on 1 July 2007, and this may require further codes to be allocated in ISO 3166, but this had not been done as at mid-2009.

#### ES, IC, XD, XE: Spain and the Canary Islands

The Canary Islands are part of Spain, and hence of the European Union, but with some special derogations and provisions particularly relating to customs and fiscal matters. For **domicile**, the code ES must be used for mainland Spain and the code IC must be used for the Canaries. For **nationality**, the code ES must be used for both mainland Spain and the Canaries. The codes XD and XE, although in the NSCC list, are invalid for both domicile and nationality. No separate codes are provided in the NSCC list for the exclaves of Ceuta and Melilla on the coast of north Africa, and for both domicile and nationality purposes they should be regarded as part of mainland Spain.

#### NO, SJ, BV: Norway and Svalbard and Jan Mayen

Svalbard (Spitzbergen) is an inhabited Norwegian territory in the Arctic Ocean. for **domicile** the code SJ must be used for Svalbard, and the code NO must be used only for Norway excluding Svalbard. For **nationality** the code NO must be used throughout, and SJ is invalid. Jan Mayen Island is included with Svalbard under code SJ, but has no settled inhabitants. Bouvet Island (BV) is a Norwegian island in the South Atlantic Ocean, but has no settled inhabitants, so code BV is invalid for both domicile and

nationality.

### MA, EH; Morocco, Western Sahara

Western Sahara (EH) is a disputed territory occupied and administered by Morocco (MA). The code EH should be used where appropriate for both **domicile** and **nationality**.

### **PS: Occupied Palestinian Territories**

This code description changed in 2008/09 to reflect the change in the National Statistics Country Classification. It must be used where appropriate for both **domicile** and **nationality**.

US, PR, VI, GU, MP, AS, UM, MH, FM, PW: United States, Puerto Rico, US Virgin Islands, Guam, Northern Mariana Islands, American Samoa, United States Minor Outlying Islands, Marshall Islands, Micronesia, Palau

The Commonwealth of Puerto Rico is an Unincorporated Organized Territory of the United States; its current Commonwealth status grants it a measure of internal self-government, but the US Constitution reserves ultimate governance of the island to the US Congress and President. The Democratic Party 2008 Platform included an undertaking to resolve the permanent status of Puerto Rico by 2012, the principal alternatives being independence, US statehood, or a clarification of the present position. Puerto Ricans have been citizens of the United States since 1917. For **domicile** the code PR must be used. For **nationality** the code US must be used and the code PR is invalid.

The US Virgin Islands (the former Danish West Indies, purchased from Denmark by the United States in 1916) is an Unincorporated Organized Territory of the United States. US Virgin Islanders are citizens of the United States. For **domicile** the code VI must be used. For **nationality** the code US must be used and the code VI is invalid.

Guam (formerly part of the UN Trust Territory of the Pacific) is an Unincorporated Organized Territory of the United States. For **domicile** and **nationality** the code GU must be used.

The Commonwealth of the Northern Mariana Islands (formerly part of the UN Trust Territory of the Pacific) is an Unincorporated Organized Territory of the United States; its Commonwealth status grants it a measure of internal self-government. For **domicile** and **nationality** the code MP must be used.

American Samoa is an Unincorporated Unorganized Territory of the United States. For **domicile** and **nationality** the code AS must be used The United States Minor Outlying Islands comprise Baker Island, Howland Island, Jarvis Island, Johnston Atoll, Kingman Reef, Midway Atoll, Palmyra Atoll and Wake Island in the Pacific, and Navassa Island in the Caribbean. They are Unincorporated (Incorporated in the case of Palmyra Atoll) Unorganized Territories of the United States. They have no settled inhabitants and the code UM is accordingly invalid for both **domicile** and **nationality**.

The Marshall Islands (formerly part of the UN Trust Territory of the Pacific) are a self-governing state in free association with the United States. For **domicile** and **nationality** the code MH must be used.

The Federated States of Micronesia (formerly part of the UN Trust Territory of the

Pacific) are a self-governing state in free association with the United States. For **domicile** and **nationality** the code FM must be used.

Palau (formerly part of the UN Trust Territory of the Pacific) is a self-governing state in free association with the United States. For **domicile** and **nationality** the code PW must be used.

The use of the code US for **domicile** is accordingly limited to the United States only.

## CN, TW, HK, MO: China, Taiwan, Hong Kong, Macao

China (CN) should be used for both **domicile** and **nationality** where relevant in cases not covered by the following guidance. Taiwan (TW) - The United Kingdom acknowledges the position of the Chinese Government that Taiwan is a province of China and recognises the Chinese Government as the sole legal government of China. The United Kingdom does not recognise Taiwan as a state and does not have diplomatic relations with Taiwan. However, because the United Kingdom accepts passports issued by the Taiwanese Authorities for immigration purposes, it is necessary to use a separate country code TW for Taiwan in both the **domicile** and **nationality** fields. This has no bearing on the United Kingdom's position on Taiwan's status.

Hong Kong (Special Administrative Region of China) (HK) appears separately for historical and immigration reasons as this Special Administrative Region issues different passports from those of the PRC. This code is not regarded as having any implications for issues of nationality, but should continue to be used in both the **domicile** and **nationality** fields.

Macao (Special Administrative Region of China) (MO) appears separately for historical and immigration reasons as this Special Administrative Region issues different passports from those of the PRC. This code is not regarded as having any implications for issues of nationality, but should continue to be used in both the **domicile** and **nationality** fields.

AU, CX, CC, NF, HM: Australia, Christmas Island, Cocos (Keeling) Islands, Norfolk Island, Heard Island and MacDonald Islands.

Christmas Island is a non-self-governing territory of Australia. For **domicile** the code CX must be used. For **nationality** the code AU must be used and the code CX is invalid.

Cocos (Keeling) Islands is a non-self-governing territory of Australia. For **domicile** the code CC must be used. For **nationality** the code AU must be used and the code CC is invalid

Norfolk Island is a non-self-governing territory of Australia. For **domicile** the code NF must be used. For **nationality** the code AU must be used and the code NF is invalid.

Heard Island and MacDonald Islands are a territory of Australia with no settled inhabitants. The code HM is accordingly invalid for both **domicile** and **nationality** 

The use of the code AU for **domicile** is accordingly limited to Australia only.

NZ, CK, NU, TK: New Zealand, Cook Islands, Niue, and Tokelau

The Cook Islands are a self-governing state in free association with New Zealand; they form part of the Realm of New Zealand and Cook Islanders are New Zealand citizens. Accordingly, for **domicile** the code CK must be used for the Cook Islands, but for **nationality** the code NZ must be used and the code CK is invalid.

Niue is a self-governing state in free association with New Zealand; it forms part of the Realm of New Zealand and Niueans are New Zealand citizens. Accordingly, for **domicile** the code NU must be used for Niue, but for **nationality** the code NZ must be used and the code NU is invalid.

Tokelau is a non-self-governing territory of New Zealand. A proposal for Tokelau to become a self-governing state in free association with New Zealand, on a basis similar to that of the Cook Islands and Niue, narrowly failed to achieve the required two-thirds majority at a second referendum on self-determination in 2007. Following that outcome, further consideration of any change in the status of the territory has been suspended sine die. Accordingly, for **domicile** the code TK must be used, but for **nationality** the code NZ must be used and the code TK is invalid.

The use of the code NZ for **domicile** is accordingly limited to New Zealand only.

## IO: British Indian Ocean Territory (BIOT)

The Chagos Islands form the principal part of this territory, and these include the island of Diego Garcia which is a leased to the United States of America as a major military base. The indigenous inhabitants of BIOT have been displaced elsewhere, and the territory accordingly has no settled inhabitants at present (on the above definition). Accordingly the code IO is invalid for **domicile**, but may be used as a **nationality** code for displaced indigenous inhabitants. IO will be made valid for domicile if at some point return of the indigenous inhabitants is permitted.

### AQ: Antarctica

Since there are no settled inhabitants in Antarctica, code AQ is invalid for both domicile and nationality and is omitted from the list. See also code XX. Although there are a number of national territorial claims to parts of Antarctica, these have been in abeyance since the coming into force of the Antarctic Treaty in 1961.

# XM, XN, XO, EU, XP–XX, XY, XZ, AA, ZZ: Obsolete Countries, Regions, Stateless, and Unknown

Codes XM, XN, XO, AA may not be used for **domicile**, for which they are invalid. The regional codes EU and XP to XX may be used if domicile is known only to this level of accuracy, in preference to using ZZ which should be a last resort. EU should be used in preference to XP if appropriate. For **nationality**, codes XM, XN, XO may be used only for students who hold these obsolete nationalities and no other, presumably because they emigrated at a time when the nationalities were current and they have never acquired any other nationality. Codes EU and XP to XX may not be used for nationality, for which they are invalid. Code SXX may be used only in relation to Oceania, not Antarctica. Code AA should be used only when a student is known to be stateless, and code ZZ should be used when nationality is not known or when it is impossible from the available documentation to assign a nationality from the above list. Codes XY and XZ although in the NSCC list, are invalid for both domicile and nationality. Note that codes AA, EU and ZZ do not appear on the NSCC list.

QO: Kosovo

|                          | A new code for Kosovo (QO) has been added to the classification in ackno<br>of the UK's recognition of Kosovo as an independent nation. This code is a<br>use from 2007/08, but institutions are not required to re-code existing stude   | vailable for     |  |

# New entrant to higher education

| Short Name          | NEWENT  |  |
|---------------------|---|--|
| Туре                | field   |  |
| Description         | This field indicates if a student has previously studied at HE level in the UK for six months or more.  |  |
| Applicable to       | England NI Scotland Wales   |  |
| Coverage            | All entrants to courses where <a href="Course.COURSEAIM">Course.COURSEAIM</a> begins D, E, L, M, H, I, J or C and <a href="Instance.REDUCEDI">Instance.REDUCEDI</a> = 00 or 04  |  |
| Base Data Type      | NEWENTCodeType  |  |
| Field Length        | 1   |  |
| Part Of             | Entry profile   |  |
| Minimum Occurrences | 0   |  |
| Maximum Occurrences | 1   |  |
| Reason Required     | To analyse patterns of entry into HE, including the Higher Education Initial Participation Rate (HEIPR) calculation made by BIS   |  |
| Notes               | Institutions should request new entrant to HE information directly from students during the enrolment/registration process, and not infer it from information in the QualificationsOnEntry entity fields. BIS are keen to encourage capture of this information directly rather than by inference, and so have offered the following further guidance to reinforce this requirement.  |  |
|                     | Institutions should ask students a direct question along the lines of: 'Have you ever started a higher education course (i.e. above A level or equivalent) in the UK before, and if so did you attend this course for 6 months or more?' Institutions should ensure that the question stresses that this question refers to activity undertaken in HE prior to the commencement of their current instance of study to prevent the field being erroneously updated by continuing students when they update registration details in subsequent years. |  |
|                     | The outcome of any previous HE study is not relevant to this particular field. This field is very important to BIS because it is used to identify "initial entrants" and it helps to inform the monitoring of progress towards the Government's HE participation targets.   |  |
|                     | What is important is whether or not the student is new to HE level courses, not whether the student is new to the HE institution sector. For example, a student who has already taken an HNC or HND at a UK FE college is not a new entrant to HE. HE, for the purposes of this field, is defined as those programmes of study for which the level of instruction is above that of courses leading to GCE 'A' levels, SCE 'Highers' and the Certificate of Sixth Year Studies, ONC and OND.   |  |
|                     | Code A includes all students who have previously studied a course at HE level for a minimum of six months either at the reporting institution or at another UK institution.   |  |
|                     | Code A should be used for all students who have previously studied at higher education level for a minimum of six months, at a UK institution, whether or not the course resulted in success.   |  |

|                          | A student who started an HE course but subsequently left within six months should be coded B.   |
|--------------------------|---|
|                          | Overseas students who have previously studied at HE level but not in the UK should be coded B.  |
|                          | Where a student transfers from one course to another, this field should NOT be updated where the same <a href="Instance.NUMHUS">Instance.NUMHUS</a> is kept.  |
|                          | Code C should not be used as a standard default but only in cases where the information has been sought but is still unknown.   |
| Owner                    | HESA  |
| Version                  | 1.1   |
| Date modified            | 2010-04-30  |
| Change management notes  | Business rule 1 updated to add Instance.REDUCEDI = 04 to the coverage of the field. Business rules 2 and 3 updated to move EntryProfile.QUALENT2 = 25 and 29 from error to warning. Additional guidance added: 'Institutions should ensure that the question stresses that this question refers to activity undertaken in HE prior to the commencement of their current instance of study to prevent the field being erroneously updated by continuing students when they update registration details in subsequent years.' |
| Business rules           | 1 Error EntryProfile.NEWENT must exist where Course.COURSEAIM begins D, E, L, M, H, I, J or C and corresponding Instance.REDUCEDI = 00 or 04 and Instance.COMDATE after 31 July 2007.  2 Error EntryProfile.NEWENT cannot be coded B or C if EntryProfile.QUALENT2 is 01, 03, 04, 10 or 11.  3 Warning EntryProfile.NEWENT should not be coded B or C if EntryProfile.QUALENT2 is 02, 05, 16, 23, 24, 25, 28, 29, 30, 15, 21, 22 or 27.   |
| Valid Entries and Labels | A This student has had prior HE experience in the UK lasting six months or more B This student has not had prior HE experience in the UK lasting six months or more C It is not known whether this student has had prior HE experience in the UK lasting six months or more   |

### **NHS** bursaries

| Short Name              | NHSBURSARY   |  |  |
|-------------------------|--|--|--|
| Туре                    | field  |  |  |
| Description             | This field indicates whether students on the course are eligible for NHS Bursaries.  |  |  |
| Applicable to           | England Wales  |  |  |
| Coverage                | All courses at institutions in England and Wales   |  |  |
| Base Data Type          | NHSBURSARYCodeType   |  |  |
| Field Length            | 1  |  |  |
| Part Of                 | Course   |  |  |
| Minimum Occurrences     | 0  |  |  |
| Maximum Occurrences     | 1  |  |  |
| Reason Required         | In order to support funding calculations and also to flag exemptions from the ELQ policy, HEFCE need to be able to identify courses that attract NHS Bursaries. WAG and the National Leadership and Innovation Agency for Healthcare (NLIAH) also have an interest in this information.  |  |  |
| Notes                   | Code 2 should be used for those medical and dental courses for which bursaries are available only for the later years of the course.   |  |  |
|                         | Social Work bursaries administered by the NHS as an NHS bursary should be recorded in NHSBURSARY. Social work bursaries administered by the NHS Business Services Authority are only applicable for <a href="Course.REGBODY">Course.REGBODY</a> = 08 courses. In addition, to be eligible for a social work bursary the student must be enrolled on a GSCC approved social work degree course leading to eligibility to practice and not a post qualifying course. |  |  |
|                         | Further information is available from the NHS Business Services Authority, the Department of Health and the National Leadership and Innovation Agency for Healthcare (NLIAH).  |  |  |
| Owner                   | HEFCE/WAG-DCELLS   |  |  |
| Version                 | 1.2  |  |  |
| Date modified           | 2010-08-30   |  |  |
| Change management notes | New guidance added: 'Social Work bursaries administered by the NHS as an NHS bursary should be recorded in NHSBURSARY. Social work bursaries administered by the NHS Business Services Authority are only applicable for REGBODY = 08 courses. In addition, to be eligible for a social work bursary the student must be enrolled on a GSCC approved social work degree course leading to eligibility to practice and not a post qualifying course.'               |  |  |
| Business rules          | 1 Error Course.NHSBURSARY must exist for all courses at institutions in England and Wales where Course.REDUCEDC = 00. 2 Error Course.NHSBURSARY must not exist for institutions in Northern Ireland or Scotland. 3 Warning Course.NHSBURSARY should not be coded 1 or 2 where the first character of CourseSubject.SBJCA is not A or B, or the first 2 characters of CourseSubject.SBJCA are not L5.   |  |  |

|                             | 4 Warning   | Course.NHSBURSARY is coded 0 where all occurrences of CourseSubject have the first character of CourseSubject.SBJCA equal to A or B, or the first 2 characters of CourseSubject.SBJCA are equal to L5. |
|-----------------------------|-------------|--|
| Valid Entries and<br>Labels | 0<br>1<br>2 | Course not eligible for NHS bursaries<br>Entire course eligible for NHS bursaries<br>Part of the course eligible for NHS bursaries   |

## **NHS** employer

| Short Name               | NHSEMP  |  |  |
|--------------------------|---|--|--|
| Туре                     | field   |  |  |
| Description              | This field identifies a student's NHS Employer (NHS Trusts and Primary Care Trusts).  |  |  |
| Applicable to            | England   |  |  |
| Coverage                 | All instances at institutions in England where Course.COURSEAIM = M76, H76, I76 or J76 and Instance.REDUCEDI = 00 or 01   |  |  |
| Base Data Type           | NHSEMPCodeType  |  |  |
| Field Length             | 5   |  |  |
| Part Of                  | Instance  |  |  |
| Minimum Occurrences      | 0   |  |  |
| Maximum Occurrences      | 1   |  |  |
| Reason Required          | To identify NHS employer.   |  |  |
| Notes                    | Code 001 should be used when the student is not an NHS Employee.  Whilst the employer code list (NHS Trusts and Primary Care Trusts) may appear rather long, it is expected that for any single institution, only a small subset of codes will need to be used.   |  |  |
|                          | As the list of NHS trusts is updated frequently, we recommend institutions use the DH Web site to access codes for trusts not included in the valid entry list  |  |  |
| Owner                    | Department of Health  |  |  |
| Version                  | 1.1   |  |  |
| Date modified            | 2010-01-15  |  |  |
| Change management notes  | Codes RYQ and RYR added   |  |  |
| Business rules           | 1 Error Instance.NHSEMP must exist for institutions in England where Course.COURSEAIM = M76, H76, I76 or J76 and Instance.REDUCEDI = 00 or 01.  3 Error Instance.NHSEMP must not exist for institutions not in England.   |  |  |

## Number of Student Associates Scheme (SAS) days completed

| Short Name              | SASDAYS   |  |  |
|-------------------------|---|--|--|
| Туре                    | field   |  |  |
| Description             | This field records the number of Student Associates Scheme (SAS) days completed   |  |  |
| Applicable to           | England   |  |  |
| Coverage                | Instances at institutions in England where <u>Course.REDUCEDC</u> = 06 or <u>Course.TTCID</u> = E Student Associates Scheme (SAS)   |  |  |
| Base Data Type          | xs:integer  |  |  |
| Field Length            | 2   |  |  |
| Part Of                 | Instance  |  |  |
| Minimum Occurrences     | 0   |  |  |
| Maximum Occurrences     | 1   |  |  |
| Reason Required         | TDA requirement to monitor students undertaking Student Associates Schemes  |  |  |
| Notes                   |   |  |  |
| Owner                   | TDA   |  |  |
| Version                 | 1.3   |  |  |
| Date modified           | 2010-08-30  |  |  |
| Change management notes | Coverage amended to refer to COURSE.REDUCEDC, to reflect business rule  |  |  |
| Business rules          | 1 Error Instance.SASDAYS must exist for institutions in England where Course.REDUCEDC=06 or Course.TTCID = E. 2 Error Instance.SASDAYS must not exist for institutions in Northern Ireland, Scotland or Wales. 3 Warning Instance.SASDAYS should be coded in the range 1 - 15. 4 Error Instance.SASDAYS must not exist for institutions in England where Course.TTCID not equal to E. |  |  |

## Number of units completed

| Short Name              | NUMUNITS   |  |  |
|-------------------------|--|--|--|
| Туре                    | field  |  |  |
| Description             | This field records the number of units completed and achieved from a full qualification or learning aim.   |  |  |
| Applicable to           | England Wales  |  |  |
| Coverage                | All instances at institutions in England and Wales where <u>Instance.FESTUMK</u> = 1,3 or 4 and <u>Instance.REDUCEDI</u> = 00  |  |  |
| Base Data Type          | xs:nonNegativeInteger  |  |  |
| Field Length            | 2  |  |  |
| Part Of                 | Instance   |  |  |
| Minimum Occurrences     | 0  |  |  |
| Maximum Occurrences     | 1  |  |  |
| Related Fields          | FESTUMK  |  |  |
| Reason Required         | To calculate LSC funding for partially completed learning aims.  |  |  |
| Notes                   | This field and Instance.NOUNTACH will be used to identify the proportion of units achieved by the learner when partially achieving.  |  |  |
|                         | The length of this field is 2 characters, however the move to XML enables data to be returned with or without leading zeros, e.g. 03 or 3.   |  |  |
|                         | For applicable instances at institutions in Wales:   |  |  |
|                         | For learning aims consisting of credits (eg. OCN) or unitisation (eg NVQs):  |  |  |
|                         | <ul> <li>enter number of credits/units achieved</li> <li>if instance is continuing (<u>Instance.CSTAT</u> = 1) and no credits/units yet acheived enter value of zero</li> <li>if instance has completed (<u>Instance.CSTAT</u> = 2) and result is not yet known enter value of 98</li> </ul> |  |  |
|                         | For learning aims not consisting of credits/units enter default value 99.  |  |  |
| Owner                   | LSC  |  |  |
| Version                 | 1.1  |  |  |
| Date modified           | 2010-06-30   |  |  |
| Change management notes | New guidance added for institutions in Wales   |  |  |
| Business rules          | 1 Error Instance.NUMUNITS must exist for institutions in England or Wales where Instance.FESTUMK = 1, 3 or 4 and Instance.REDUCEDI = 00. 2 Error Instance.NUMUNITS must not exist for institutions in Northern Ireland or  |  |  |

|  | 3 Error | Scotland. Instance.NUMUNITS must not exist for institutions in England or Wales where Instance.FESTUMK = 2. |

# Occupation code

| Short Name              | SOC2000   |  |  |
|-------------------------|---|--|--|
| Туре                    | field   |  |  |
| Description             | This field holds the 4-digit SOC2000 occupation code for the student if aged 21 or over at the start of their course, or parental occupation code if the student is under 21.   |  |  |
| Applicable to           | England NI Scotland Wales   |  |  |
| Coverage                | All entrants where <a href="EntryProfile.UCASAPPID">EntryProfile.UCASAPPID</a> exists and <a href="Course.COURSEAIM">Course.COURSEAIM</a> begins with H, I, J or C or is M22, M26 and <a href="EntryProfile.DOMICILE">EntryProfile.DOMICILE</a> = XF, XG, XH, XI, XK, XL, GG, JE or IM  |  |  |
| Base Data Type          | SOC2000CodeType   |  |  |
| Field Length            | 4   |  |  |
| Part Of                 | Entry profile   |  |  |
| Minimum Occurrences     | 0   |  |  |
| Maximum Occurrences     | 1   |  |  |
| Related Fields          | SEC   |  |  |
| Reason Required         | To monitor social background of students in a standard way.   |  |  |
| Notes                   | A <u>full coding frame for SOC2000</u> can been obtained from <u>The Office for National Statistics</u> UCAS codes 0000 (Not stated), 0001 (Information refused), 0007 (Retired), 0008  |  |  |
|                         | (Unemployed) and 0009 (Not known) will be accepted as valid entries.  For students entering through UCAS this information will be available from UCAS via   |  |  |
|                         | Institutions are encouraged to provide this information for other full-time undergraduates in order to provide more complete statistical information for the sector.  |  |  |
|                         | The student should be asked for parental occupation or, if 21 or over, for their own occupation. For example, "If you are under 21, please give the occupation of your parent, step-parent or guardian who earns the most. If he or she is retired or unemployed, give their most recent occupation. If you are 21 or over, please give your own occupation." |  |  |
| Owner                   | Office for National Statistics  |  |  |
| Version                 | 1.2   |  |  |
| Date modified           | 2010-04-30  |  |  |
| Change management notes | Business rule 1 updated to add Course.COURSEAIM = M26 to the coverage of the field.   |  |  |
| Business rules          | 1 Error EntryProfile.SOC2000 must exist where EntryProfile.UCASAPPID exists and Course.COURSEAIM begins H, I, J or C or is M22 or M26 and EntryProfile.DOMICILE = XF, XG, XH, XI, XK, XL, GG, JE or IM.   |  |  |

# Other institution providing teaching

| Short Name          | TINST  |
|---------------------|--|
| Туре                | field  |
| Description         | This field identifies collaborating institutions with a UK Provider Reference Number (UKPRN) from the UK Register of Learning Providers or a generic code.   |
| Applicable to       | England NI Scotland Wales  |
| Coverage            | All module where Module.PCOLAB is greater than zero  |
| Base Data Type      | TINSTCodeType  |
| Field Length        | 8  |
| Part Of             | Module   |
| Minimum Occurrences | 0  |
| Maximum Occurrences | 1  |
| Related Fields      | PCOLAB   |
| Reason Required     | To monitor patterns of collaborative study.  |
| Notes               | In cases where there is more than one other institution providing teaching, the institution with the most input should be reported.  |
|                     | The Valid entry codes have been created for HEIs and certain FECs using the <u>UK</u> Register of Learning Providers. Where Other institution providing teaching does not appear in the Valid entries list please code:  |
|                     | Generic codes:   |
|                     | <ul> <li>4001 Other UK institution</li> <li>4002 Other Non-UK institution</li> <li>4003 Other public body in the UK</li> <li>4004 Other private body in the UK</li> </ul>  |
|                     | Code 4001 should be used only exceptionally for a UK HEI or FEC that has not been included under the valid entries, but which would be expected to be included in such a list in future years.   |
|                     | Code 4002 should be used for any body (educational or other) based outside the UK.   |
|                     | If the institution is providing teaching at the workplace then no entry is required in this field. Where the institution is buying in teaching from another body, which could be the students employer, these cases will be identified by the codes 4003 and 4004. |
|                     | If a student is coded 01 - 80 in <u>Instance.FROUTARR</u> then this field must be coded 4001 - 4004.   |
| Owner               | UKRLP/HESA   |

| Version                  | 1.4   |
|--------------------------|---|
| Date modified            | 2010-08-30  |
| Change management notes  | New valid entry added: 10004740 The Northern College of Acupuncture. Updated institution name for 10005389 from "Ravensbourne College of Design and Communication" to "Ravensbourne".   |
| Business rules           | 1 Error Module.TINST must exist where Module.PCOLAB is greater than 0. 3 Error Module.TINST must not exist where Module.PCOLAB is 0. 4 Error Module.TINST must not be coded 4001 for institutions in England. 5 Warning Module.TINST should not be coded 4003 or 4004 for institutions in England.  |
| Valid Entries and Labels | 4001         Other UK institution           4002         Other Non-UK institution           4004         Other private body in the UK           100001055         Aberdeen College           100000050         Accington and Witney College           100000000         Access to Music Ltd           1000014         Adam Smith College, Fife           10000256         Altan (Academy of Live and Recorded Arts)           10000256         Alton College           10000163         Anglo-European College of Chiropractic           10009165         Anglo-European College of Chiropractic           10009166         Anglo-European College of Chiropractic           10009167         Anniestand College           100004168         Anniestand College           100004169         Anniestand College           100004161         Anniestand College           100004162         Arsa Educational Schools           10000417         Arst Educational Schools           10000418         Asham Bryan College           10000419         Asham Bryan College           10000410         Assa T and D Limited           10000517         Barfinand Buchan College of Further Education           10000528         Barring College           10000530 |

## **Outcome of ITT instance**

| Short Name          | ОИТСОМЕ   |
|---------------------|---|
| Туре                | field   |
| Description         | This field describes the course outcome for an initial teacher training student.  |
| Applicable to       | England Wales   |
| Coverage            | All qualification awarded records at institutions in England and Wales where Course.TTCID = 1 or 8  |
| Base Data Type      | OUTCOMECodeType   |
| Field Length        | 1   |
| Part Of             | Qualifications awarded  |
| Minimum Occurrences | 0   |
| Maximum Occurrences | 1   |
| Reason Required     | For TDA and HEFCW to monitor the outcome of ITT courses.  |
| Notes               | In codes 6, 7, 8, A and B 'Other standards met/not met' refers to the academic standards of the institution's ITT course, including the teaching practice element, which are monitored by the institution. 'Skills test' refers to the national skills tests in numeracy, literacy and information and communications technology (ICT) which are assessed externally via TDA.   |
|                     | Students who fail their teaching practice should be coded 7 or 8.   |
|                     | Either of codes A and B should be used when the skills test has not yet been taken.   |
|                     | Codes 6 - 8 and A - B are available only to institutions in England.  |
|                     | Code C 'QTS withheld' should be used by institutions in Wales only where QTS is withheld, including those cases where students are awarded a degree or other qualification but not QTS and where students fail their teaching practice. It is expected that students coded as C who are subsequently awarded QTS should have this recorded in a subsequent return to HESA as an award from dormant status.  |
|                     | Resit Exams and/or Results from Late Exam Boards: Students who complete their instance by 31 July but who have resit examinations to take and/or whose final confirmation of award by exam boards may be after this date should be returned to HESA as leavers, with a dateleft in the reporting period ending that 31 July. If their results are known before the Student Record data collection closes, these results should be included in the return. Records for such students will be included in the POPDLHE (assuming that they meet all other criteria). However, if the results are not known before the Student Record data collection closes, a record should be submitted with a dateleft in the reporting period ending that 31 July completed and code 98 'Completion of course - result unknown' in RSNEND. Once known, these results should be returned in the next reporting period by submitting a record with the appropriate dormant code in Instance.MODE. The date returned in Instance.ENDDATE must be the original dateleft and not be up-dated. Records returned in this way will not be included in the POPDLHE. |

|                             | T  |  |  |
|-----------------------------|--|--|--|
|                             | Institutions may wish to decommit their return late in the data collection period in order to include results from late exam or re-sit boards.   |  |  |
|                             | This same guidance applies to <b>ITT TDA</b> students where the award of QTS may be delayed.   |  |  |
|                             | ITT TDA students may finish their course in June/July of the HESA reporting year. This date should be date recorded in ENDDATE. However the institution may not know whether the student has been awarded QTS until later. If award information is known before the HESA data collection closes at the end of November, then this should be included in QUAL and OUTCOME. TDA have confirmed that trainees who obtain a successful award up until 1 November, and are shown as such in the main HESA return, will be counted in the profiles publication. Award dates after 31 October should be included in the following HESA data collection. In neither case should ENDDATE be up-dated. |  |  |
|                             | It is expected that students coded other than 1 in OUTCOME who are subsequently awarded QTS should have this recorded in <a href="QualificationsAwarded.QUAL">QualificationsAwarded.QUAL</a> and <a href="QualificationsAwarded.OUTCOME">QualificationsAwarded.OUTCOME</a> in a subsequent return to HESA as an award from dormant status. In this case, the QUAL code may reflect award of QTS only, i.e. code I71.   |  |  |
| Owner                       | HESA   |  |  |
| Version                     | 1.0  |  |  |
| Business rules              | 1 Error QualificationsAwarded.OUTCOME codes 6 - 8, A and B must be for an institution in England. 2 Error QualificationsAwarded.OUTCOME code C must be for an institution in Wales. 3 Error QualificationsAwarded.OUTCOME must exist for institutions in England or Wales where Course.TTCID = 1 or 8. 4 Error QualificationsAwarded.OUTCOME must not exist for institutions in Northern Ireland or Scotland. 5 Error QualificationsAwarded.OUTCOME must not exist for institutions in England or Wales where Course.TTCID = 0.  |  |  |
| Valid Entries and<br>Labels | Awarded QTS QTS withheld (other standards met but skills test standard not met) QTS withheld (other standards not met but skills test standard met) QTS withheld (other standards, including skills test standard, not met) A QTS withheld (other standards met, skills test not yet taken) B QTS withheld (other standards not met, skills test not yet taken) C QTS withheld   |  |  |

## **Parental education**

| Short Name          | PARED   |
|---------------------|---|
| Туре                | field   |
| Description         | This field records information about whether an entrant's parents have higher education qualifications.   |
| Applicable to       | England NI Scotland Wales   |
| Coverage            | All entrants to institutions in England and Scotland where <a href="EntryProfile.DOMICILE">EntryProfile.DOMICILE</a> = XF, XG, XH, XI, XK, XL, GG, JE or IM and <a href="Course.COURSEAIM">Course.COURSEAIM</a> = M22, M26, H00, H11, H16, H18, H22, H23, I00, I11, I16, J10, J16, J20, J26, J30, C20, C30 and <a href="Instance.REDUCEDI">Instance.REDUCEDI</a> = 00 or 04 and <a href="Instance.COMDATE">Instance.COMDATE</a> is after 2007-07-31.  |
|                     | All entrants to institutions in Wales and Northern Ireland where <a href="EntryProfile.DOMICILE">EntryProfile.DOMICILE</a> = XF, XG, XH, XI, XK, XL, GG, JE or IM and <a href="Course.COURSEAIM">Course.COURSEAIM</a> = M22, M26, H00, H11, H16, H18, H22, H23, I00, I11, I16, J10, J16, J20, J26, J30, C20 or C30 and <a href="Instance.COMDATE">Instance.COMDATE</a> is after 2008-07-31 and <a href="Instance.REDUCEDI">Instance.REDUCEDI</a> = 00 or 04 and <a href="EntryProfile.UCASAPPID">EntryProfile.UCASAPPID</a> exists. |
| Base Data Type      | PAREDCodeType   |
| Field Length        | 1   |
| Part Of             | Entry profile   |
| Minimum Occurrences | 0   |
| Maximum Occurrences | 1   |
| Reason Required     | This data will allow monitoring of another aspect of widening participation and may be used for the production of performance indicators.   |
| Notes               | Institutions should ask the following question of all entrants for whom this information is required:   |
|                     | The following question is about your parents' level of education. This includes natural parents, adoptive parents, step-parents or guardians who have brought you up.   |
|                     | Do any of your parents (as defined above) have any higher education qualifications, such as a degree, diploma or certificate of higher education?   |
|                     | <ul> <li>Yes</li> <li>No</li> <li>Don't know</li> <li>Information refused</li> </ul>  |
|                     | Provision of this information does not constitute the disclosure of third party personal information as defined in the Data Protection Act 1998. This is because the question does not relate to a specific person.   |
|                     | From 2008/09 onwards this question will be asked on the UCAS application form and the data for UCAS entrants provided to institutions by UCAS. As a consequence coverage of the field has been extended in 2008/09 to include UCAS entrants to institutions in Wales and Northern Ireland. Institutions in England and Scotland will still  |

|                          | need to collect this information directly from relevant non-UCAS entrants.   |   |  |

# Percentage not taught by this institution

| Short Name              | PCOLAB  |  |  |
|-------------------------|---|--|--|
| Туре                    | field   |  |  |
| Description             | This field indicates the percentage of the module in this reporting period for which other arrangements for teaching have been made, e.g. taught collaboratively between two institutions. The percentage represented by this field denotes the proportion not taught by the returning institution. |  |  |
| Applicable to           | England NI Scotland Wales   |  |  |
| Coverage                | All modules   |  |  |
| Base Data Type          | PercentType   |  |  |
| Field Length            | 5   |  |  |
| Part Of                 | Module  |  |  |
| Minimum Occurrences     | 1   |  |  |
| Maximum Occurrences     | 1   |  |  |
| Related Fields          | TINST   |  |  |
| Reason Required         | To monitor patterns of collaborative study.   |  |  |
| Notes                   | Proportion not taught by this institution should relate to the FTE reported in Module.FTE.  |  |  |
|                         | If this field is anything but zero, indicating that some part of the course is taught elsewhere then Module.TINST must be completed.  |  |  |
|                         | This field relates to the proportion not taught by the reporting institution's staff, and not the location at which the teaching takes place.   |  |  |
|                         | It is expected that students out on placement or exchange will be shown as zero in this field.  |  |  |
|                         | Zero is an acceptable default value for institutions in Wales for modules that are linked only to FE instances.   |  |  |
|                         | The length of this field is 5 characters, however the move to XML enables data to be returned with or without leading zeros or the decimal place, e.g. 005.0 or 5.0 or 5  |  |  |
| Owner                   | HESA  |  |  |
| Version                 | 1.1   |  |  |
| Change management notes | Values added: 10000080 Access to Music Ltd, 10008430 Platform One (IOW) Limited, 10003331 Regent's College, 10007365 Weald and Downland Open Air Museum Limited   |  |  |
| Business rules          | 1 Error Module.PCOLAB must be greater than 0 where Module.TINST exists.   |  |  |

## Percentage of module taught in Celtic language

| Short Name          | LANGPCNT  |  |  |
|---------------------|---|--|--|
| Туре                | field   |  |  |
| Description         | This field is used to indicate the percentage of the module that is taught through the medium of a Celtic language. It can contain a value between 0 and 100 and can be recorded to one decimal place.  |  |  |
| Applicable to       | NI Scotland Wales   |  |  |
| Coverage            | All modules at institutions in Wales, Scotland and Northern Ireland   |  |  |
| Base Data Type      | PercentType   |  |  |
| Field Length        | 5   |  |  |
| Part Of             | Module  |  |  |
| Minimum Occurrences | 0   |  |  |
| Maximum Occurrences | 1   |  |  |
| Related Fields      | MODLANG   |  |  |
| Reason Required     | To monitor pattern of provision in a Celtic language.   |  |  |
| Notes               | Celtic languages are Welsh, Gaidhlig and Irish.  A 0 entry in this field indicates that the module is taught entirely in English (or another non-Celtic language).  |  |  |
|                     |   |  |  |
|                     | For institutions in Wales, the percentage should be based on all delivery that is through the medium of Welsh. Where students on the same module take different proportions through the medium of Welsh, it is acceptable to use an average percentage for the module as a whole. |  |  |
|                     | For further guidance on the completion of this field, and in particular with reference to activities which constitute learning through the medium of a Celtic language, please refer to the institution's funding council.  |  |  |
| Owner               | HESA  |  |  |
| Version             | 1.0   |  |  |
| Business rules      | 1 Error Module.LANGPCNT must exist for institutions in Scotland, Wales or Northern Ireland. 2 Error Module.LANGPCNT must be greater than 0 where Module.MODLANG = 1, 2 or 3. 3 Error Module.LANGPCNT must not exist for institutions in England.                                  |  |  |

# **PGCE** class of undergraduate degree

|                          | T   |  |  |
|--------------------------|---|--|--|
| Short Name               | PGCECLSS  |  |  |
| Туре                     | field   |  |  |
| Description              | This field is used to indicate the qualification class of the student's undergraduate degree.   |  |  |
| Applicable to            | England NI Scotland Wales   |  |  |
| Coverage                 | All entrants where <u>Course.COURSEAIM</u> = M71 or H71 and <u>Instance.REDUCEDI</u> = 00 or 04   |  |  |
| Base Data Type           | PGCECLSSCodeType  |  |  |
| Field Length             | 2   |  |  |
| Part Of                  | Entry profile   |  |  |
| Minimum Occurrences      | 0   |  |  |
| Maximum Occurrences      | 1   |  |  |
| Related Fields           | PGCESBJ   |  |  |
| Reason Required          | To provide data on the qualifications of teachers.  |  |  |
| Notes                    | Code 99 should be used for 'Not known' and code 98 should be used for 'Not applicable'.   |  |  |
|                          | Not applicable includes those students who do not have a UK undergraduate degree. This may be the case, for example, with students studying for PGCE (FE).  |  |  |
| Owner                    | HESA  |  |  |
| Version                  | 1.1   |  |  |
| Date modified            | 2010-04-30  |  |  |
| Change management notes  | Business rule 1 updated to add Instance.REDUCEDI = 04 to the coverage of the field  |  |  |
| Business rules           | 1 Error EntryProfile.PGCECLSS must exist where Course.COURSEAIM = M71 or H71 and corresponding Instance.REDUCEDI = 00 or 04.  |  |  |

# **PGCE** subject of undergraduate degree

| Short Name              | PGCESBJ  |  |  |
|-------------------------|--|--|--|
| Туре                    | field  |  |  |
| Description             | This field holds the subject(s) of the student's undergraduate degree.   |  |  |
| Applicable to           | England NI Scotland Wales  |  |  |
| Coverage                | All entrants where Course.COURSEAIM =M71 or H71 and Instance.REDUCEDI = 00 or 04   |  |  |
| Base Data Type          | PGCESBJCodeType  |  |  |
| Field Length            | 4  |  |  |
| Part Of                 | Entry profile  |  |  |
| Minimum Occurrences     | 0  |  |  |
| Maximum Occurrences     | 3  |  |  |
| Related Fields          | COURSEAIM  |  |  |
| Reason Required         | To provide data on the qualifications of teachers  |  |  |
| Examples                | R110 - French language   |  |  |
| Notes                   | Code 9999 is to be used for 'Not known' and code 9998 is to be used for 'Not applicable'.  |  |  |
|                         | Not applicable includes those students who do not have a UK undergraduate degree. This may be the case, for example, with students studying for PGCE (FE).   |  |  |
|                         | Codes G000 and G900 are not valid entries in this field.   |  |  |
|                         | Joint honours degrees must be returned with up to three occurrences if this field. The generic codes that consist of a subject group and letter (and Y000) can be used in this field to describe a truly interdisciplinary programme.  |  |  |
|                         | The TDA have advised that their preference is for institutions to code subjects at 3-digit JACS2 level, e.g. R110 and F160 - French language and Organic chemistry. The balance between two subjects cannot be separately indicated, and so it will have to be assumed to be equal |  |  |

### PhD submission date

| Short Name              | PHDSUB   |  |  |
|-------------------------|--|--|--|
| Туре                    | field  |  |  |
| Description             | This field holds the date of first submission of thesis.   |  |  |
| Applicable to           | England NI Scotland Wales  |  |  |
| Coverage                | All instances where <u>Instance.RCSTDNT</u> is not 99 and <u>Course.COURSEAIM</u> = D00, D01 and <u>Instance.REDUCEDI</u> = 00 or 04. Optional for all other instances where <u>Course.COURSEAIM</u> = D00, D01 and <u>Instance.REDUCEDI</u> = 00 or 04  |  |  |
| Base Data Type          | DateWithNullStructure9   |  |  |
| Field Length            | 10   |  |  |
| Part Of                 | Instance   |  |  |
| Minimum Occurrences     | 0  |  |  |
| Maximum Occurrences     | 1  |  |  |
| Related Fields          | RCSTDNT<br>RCSTDID   |  |  |
| Reason Required         | To assess time taken by students to submit.  |  |  |
| Notes                   | All date fields in the Student Record must be completed using the <a href="ISO8601">ISO8601</a> format of YYYY-MM-DD. The specification of this field falls within the scope of the Aligned Data Definitions and follows the <a href="Data Standards">Data Standards</a> in the HESA student record.  If the thesis has not been submitted an empty element should be returned with the ReasonForNull attribute set to 9 (not applicable), i.e: <pre><phdsub reasonfornull="9">&lt;</phdsub></pre> This date should not be updated if a thesis is resubmitted.  Where Y0/Y1/Y2 appear in business rules, these refer to the reporting period Y1-Y2 (e.g. for the 2007-08 reporting period, Y0 is 2006, Y1 is 2007 and Y2 is 2008). |  |  |
| Owner                   | HESA   |  |  |
| Version                 | 1.3  |  |  |
| Date modified           | 2010-08-30   |  |  |
| Change management notes | Business rule 9 added  |  |  |
| Business rules          | 1 Error Instance.PHDSUB must exist where Instance.RCSTDNT is not 99 and Course.COURSEAIM = D00 or D01 and Instance.REDUCEDI = 00 or 04.  2 Error Where Instance.PHDSUB exists then Course.COURSEAIM must = D00 or D01.  3 Error Instance.PHDSUB must not be null except when ReasonForNull = 9.  4 Error Instance.PHDSUB must be null when ReasonForNull = 9.  5 Error Instance.PHDSUB must not be greater than Y2-07-31.  6 Warning Where Instance.PHDSUB exists it should not be earlier than (Y1-2)-08-01   |  |  |

|  | 8 | Warning<br>Error<br>Warning | when Instance.MODE is not 63 or 64.  Where Instance.PHDSUB exists it should not be earlier than (Instance.COMDATE + 24 months) Instance.PHDSUB must not be earlier than Instance.COMDATE. Instance.PHDSUB should not be null with ReasonForNull = 9 when Instance.RCSTDNT is not 99 and Instance.REDUCEDI = 00 or 04, and at |
|--|---|-----------------------------|--|
|  |   |                             | least one corresponding QualificationsAwarded.QUAL = D00 or D01.   |

### **Postcode**

| Short Name          | POSTCODE   |  |  |
|---------------------|--|--|--|
| Туре                | field  |  |  |
| Description         | This field identifies the postcode of the student's permanent or home address prior to entry to the course. It is not necessarily the correspondence address of the student.   |  |  |
| Applicable to       | England NI Scotland Wales  |  |  |
| Coverage            | All entrants where EntryProfile.DOMICILE = XF, XG, XH, XI, XK, XL, GG, JE or IM and Instance.REDUCEDI = 00, 01, 04, 06 or 07   |  |  |
| Base Data Type      | PostCodeWithNullStructure  |  |  |
| Field Length        | 8  |  |  |
| Part Of             | Entry profile  |  |  |
| Minimum Occurrences | 0  |  |  |
| Maximum Occurrences | 1  |  |  |
| Related Fields      | DOMICILE   |  |  |
| Reason Required     | To monitor student population by source location, especially in the widening participation context.  |  |  |
| Examples            | A typical postcode such as GL50 3DA would be coded with a blank in the fifth character position. A postcode such as B1 6SR would have a blank in position 3. The part of the postcode before the space is known as the outward part of the postcode and can be 2, 3 or 4 characters long. The part of the postcode after the space is known as the inward part of the postcode and is a fixed length of 3 characters. The space between the outward and inward parts of the postcode must always be shown as part of the postcode. |  |  |
|                     | There is further guidance on valid postcode formats at:  http://www.govtalk.gov.uk/gdsc/html/frames/PostCode-2-1-Release.htm. The business rule structure validation is slightly less strict than that described in UK Government Data Standards Catalogue, as not all parsers will support the full GDSC definition. All postcodes are validated against valid postcodes at exception.  |  |  |
| Notes               | UK domiciled, for the purposes of this field, means domiciled in England, Wales, Scotland, Northern Ireland, Channel Islands or Isle of Man.   |  |  |
|                     | In the event that the full postcode is not known, institutions must return at least the outward part. The first part of the postcode (the outward part) is essential for allowing HESA to do geographic analysis.  |  |  |
|                     | For students entering through UCAS this information will be available from UCAS via the *J transaction   |  |  |
|                     | Information about postcodes and postcodes for known addresses can be obtained from Postcodes Online at: <a href="https://www.royalmail.com">www.royalmail.com</a> .  |  |  |

|                         | Country of domicile is collected in <a href="EntryProfile.DOMICILE">EntryProfile.DOMICILE</a> .   |  |  |  |
|-------------------------|---|--|--|--|
|                         | If no valid postcode (full or outward only) can be ascertained an empty element should be returned with the ReasonForNull attribute set to 1 (not known), i.e:  |  |  |  |
|                         | <postcode reasonfornull="1"></postcode>   |  |  |  |
|                         | British Forces Post Office (BFPO) postcodes   |  |  |  |
|                         | Where BFPO codes relate to UK locations, institutions will need to locate the Royal Mail equivalent postcode for the base. If this is not known, then an empty element must be returned with the ReasonForNull attribute set to 1 (not known), i.e:   |  |  |  |
|                         | <pre><postcode reasonfornull="1"></postcode></pre>  |  |  |  |
|                         | Note that for funding allocations HEFCE, HEFCW and WAG-DCELLS can only use data that includes both the outward and inward parts of the postcode.  |  |  |  |
|                         | There is further guidance on valid postcode formats at: <a href="http://www.govtalk.gov.uk/gdsc/html/frames/PostCode-2-1-Release.htm">http://www.govtalk.gov.uk/gdsc/html/frames/PostCode-2-1-Release.htm</a> . The business rule structure validation will be slightly less strict than that described in UK Government Data Standards Catalogue, as not all parsers will support the full GDSC definition. All postcodes are validated against valid postcodes at exception.  |  |  |  |
| Owner                   | BS7666  |  |  |  |
| Version                 | 1.3   |  |  |  |
| Date modified           | 2010-06-30  |  |  |  |
| Change management notes | Business rule 5 reinstated  |  |  |  |
| Business rules          | 1 Error EntryProfile.POSTCODE must exist where EntryProfile.DOMICILE = XF, XG, XH, XI, XK, XL, GG, JE or IM and corresponding Instance.REDUCEDI = 00, 01, 04, 06 or 07.  2 Error EntryProfile.POSTCODE must not be null except when ReasonForNull = 1.  3 Error EntryProfile.POSTCODE must be null when ReasonForNull = 1.  4 Error EntryProfile.POSTCODE must not exist where EntryProfile.DOMICILE is not in (XF, XG, XH, XI, XK, XL, GG, JE or IM).  5 Error Where exists EntryProfile.POSTCODE must contain: a valid full postcode structure or a valid outward postcode structure. |  |  |  |

### **Qualification awarded**

| Short Name          | QUAL  |  |
|---------------------|---|--|
| Туре                | field   |  |
| Description         | This field records the qualification awarded.   |  |
| Applicable to       | England NI Scotland Wales   |  |
| Coverage            | All qualification awarded records   |  |
| Base Data Type      | QUALCodeType  |  |
| Field Length        | 3   |  |
| Part Of             | Qualifications awarded  |  |
| Minimum Occurrences | 1   |  |
| Maximum Occurrences | 1   |  |
| Related Fields      | COURSEAIM   |  |
| Reason Required     | To allow analysis of qualifications awarded   |  |
| Notes               | For some students whose course qualification aim may be, for example, first degree but who terminate their studies after a successful second year, occasionally a different qualification such as an HND or DipHE may be awarded. It is the awarded qualification which must be coded here.   |  |
|                     | This field records the qualification obtained by the student during the reporting year. If a student is awarded more than one qualification during the reporting year then the <a href="QualificationsAwarded">QualificationsAwarded</a> element should be repeated. A qualification obtained is not assumed from <a href="Instance.RSNEND">Instance.RSNEND</a> and <a href="Instance.ENDDATE">Instance.ENDDATE</a>   |  |
|                     | Some professional awarding bodies do not currently release results information to institutions. Where this is the case, institutions should leave this field blank and complete field <a href="Instance.RSNEND">Instance.RSNEND</a> with code 98 'Completion of course - result unknown'.   |  |
|                     | Interim Awards: In most cases qualifications are obtained at the end of a course. Therefore typically where there is a <a href="QualificationsAwarded">QualificationsAwarded</a> a reason for leaving and a date left would be expected. It is recognised, however, that there are a few courses where interim qualifications are actually awarded and so these fields may not be completed. Institutions that award interim qualifications for students who are continuing on a course can return this information to HESA in the reporting year in which the interim qualification is awarded if they wish, in which case <a href="Instance.ENDDATE">Instance.ENDDATE</a> should not be completed in order to indicate that these students are continuing on the course. However records returned in this way will not be included in the POPDLHE. Alternatively institutions can return interim qualifications when the student completes the course by completing the <a href="QualificationsAwarded">QualificationsAwarded</a> fields and indicating the date the student completed the course in <a href="Instance.ENDDATE">Instance.ENDDATE</a> . Records returned in this way will be included in the POPDLHE (assuming that all other criteria are met). |  |
|                     | Resit exams and/or results from late exam boards: Students who complete their instance by 31 July but who have resit examinations to take and/or whose final confirmation of award by exam boards may be after this date should be returned to HESA as leavers, with a dateleft in the reporting period ending that 31 July. If their results are known before the Student Record data collection closes, these results   |  |

should be included in the return. Records for such students will be included in the POPDLHE (assuming that they meet all other criteria). However, if the results are not known before the Student Record data collection closes, a record should be submitted with a dateleft in the reporting period ending that 31 July completed and code 98 'Completion of course - result unknown' in RSNEND. Once known, these results should be returned in the next reporting period by submitting a record with the appropriate dormant code in Instance.MODE. The date returned in Instance.ENDDATE must be the original dateleft and not be up-dated. Records returned in this way will not be included in the POPDLHE. Institutions may wish to decommit their return late in the data collection period in order to include results from late exam or re-sit boards. This same guidance applies to ITT TDA students where the award of QTS may be delayed. ITT TDA students may finish their course in June/July of the HESA reporting year. This date should be date recorded in ENDDATE. However the institution may not know whether the student has been awarded QTS until later. If award information is known before the HESA data collection closes at the end of November, then this should be included in QUAL and OUTCOME. TDA have confirmed that trainees who obtain a successful award up until 1 November, and are shown as such in the main HESA return, will be counted in the profiles publication. Award dates after 31 October should be included in the following HESA data collection. In neither case should ENDDATE be up-dated. It is expected that students coded other than 1 or 4 in OUTCOME who are subsequently awarded QTS should have this recorded in QualificationsAwarded.QUAL and QualificationsAwarded.OUTCOME in a subsequent return to HESA as an award from dormant status. **HESA** Owner 1.3 Version Date modified 2010-06-30 Business rule 2 updated to add Institution.UKPRN = 10007154 to list of veterinary Change management schools notes **Business rules** QualificationsAwarded.QUAL cannot be coded H16, I16, M16, M26 or M86 2 Error where the first two characters of CourseSubject.SBJCA = D1 or D2 and Institution.UKPRN does not equal 10007154, 10007786, 10007788, 10006842, 10007779, 10007790 or 10007794. # **Qualification grade**

| Short Name              | QUALGRADE   |  |  |
|-------------------------|---|--|--|
| Туре                    | field   |  |  |
| Description             | This field collects the grade of qualification obtained on entry to the instance  |  |  |
| Applicable to           | England NI Scotland Wales   |  |  |
| Coverage                | All Qualification on entry records  |  |  |
| Base Data Type          | QUALGRADECodeType   |  |  |
| Field Length            | 11  |  |  |
| Part Of                 | Qualifications on entry   |  |  |
| Minimum Occurrences     | 0   |  |  |
| Maximum Occurrences     | 1   |  |  |
| Reason Required         | To allow detailed analysis of qualifications on entry and consequent progression.   |  |  |
| Notes                   | The awarding bodies have given their consent, via the Joint Council for Qualifications (JCQ), for some of the results data that they forward to UCAS to be shared with HEIs for admission purposes, to also be used in preparing the Student Record from 2007/08. The detail of the agreement is still to be finalised.   |  |  |
|                         | This data will be made available to institutions by UCAS (through the *J transaction). The HESA record will work to the existing UCAS coding frame.   |  |  |
|                         | Grades may be valid with a number of qualifications, so the list below is a list of all grades valid in this field. The meaning of each grade can vary depending on which qualification it is associated with.  |  |  |
|                         | Further explanation of which grades belong to which qualification is available from the UCAS website.   |  |  |
|                         | Institutions are encouraged to provide this information for other full-time undergraduate students, in order to contribute more complete statistical information for the sector   |  |  |
| Owner                   | UCAS  |  |  |
| Version                 | 1.2   |  |  |
| Date modified           | 2010-06-30  |  |  |
| Change management notes | Business rule 51 amended to add *, A* to the list of valid grades for the Extended Project awards and upgraded severity from Warning to Error. Business rules 57 - 72 added. Valid entry * added.   |  |  |
| Business rules          | <ol> <li>Warning Where exists QualificationsOnEntry.QUALGRADE should be 'Band 1' or 'Band 2' where QualificationsOnEntry.QUALTYPE is SS.</li> <li>Error Where exists QualificationsOnEntry.QUALGRADE must be D, M, U, Q, X, 'Distinction', 'Merit' where QualificationsOnEntry.QUALTYPE is AE.</li> <li>Warning Where exists QualificationsOnEntry.QUALGRADE should be P, Q, U, F, X or 'Pass' where QualificationsOnEntry.QUALTYPE is K2, K3, K4.</li> <li>Warning Where exists QualificationsOnEntry.QUALTYPE is K2, K3, K4.</li> <li>Warning Where exists QualificationsOnEntry.QUALTYPE is K2, K3, K4.</li> <li>Warning Where exists QualificationsOnEntry.QUALGRADE should be a*, A*, A, A1, A2, B, B3, B4, C, C5, C6, D7, F, X, U, Q where</li> </ol> |  |  |

# **Qualification sitting**

| Short Name               | QUALSIT   |  |  |  |
|--------------------------|---|--|--|--|
| Туре                     | field   |  |  |  |
| Description              | This field identifies which exam sitting the qualification on entry to the instance was obtained.   |  |  |  |
| Applicable to            | England NI Scotland Wales   |  |  |  |
| Coverage                 | All Qualification on entry records  |  |  |  |
| Base Data Type           | QUALSITCodeType   |  |  |  |
| Field Length             | 1   |  |  |  |
| Part Of                  | Qualifications on entry   |  |  |  |
| Minimum Occurrences      | 0   |  |  |  |
| Maximum Occurrences      | 1   |  |  |  |
| Reason Required          | To allow detailed analysis of qualifications on entry and consequent progression.   |  |  |  |
| Notes                    | The awarding bodies have given their consent, via the Joint Council for Qualifications (JCQ), for some of the results data that they forward to UCAS to be shared with HEIs for admission purposes, to also be used in preparing the Student Record from 2007/08.  This data will be made available to institutions by UCAS (through the *J transaction). |  |  |  |
|                          | The HESA record will work to the existing UCAS coding frame.  Institutions are encouraged to provide this information for other full-time undergraduate   |  |  |  |
|                          | students, in order to contribute more complete statistical information for the sector   |  |  |  |

# **Qualification type**

| Short Name                  | QUALTYPE   |  |  |
|-----------------------------|--|--|--|
| Туре                        | field  |  |  |
| Description                 | This field identifies the type of qualification obtained on entry to the instance, for example 'A' Level, Higher.  |  |  |
| Applicable to               | England NI Scotland Wales  |  |  |
| Coverage                    | All Qualification on entry records   |  |  |
| Base Data Type              | QUALTYPECodeType   |  |  |
| Field Length                | 2  |  |  |
| Part Of                     | Qualifications on entry  |  |  |
| Minimum Occurrences         | 1  |  |  |
| Maximum Occurrences         | 1  |  |  |
| Reason Required             | To allow detailed analysis of qualifications on entry and consequent progression   |  |  |
| Notes                       | The awarding bodies have given their consent, via the Joint Council for Qualifications (JCQ), for some of the results data that they forward to UCAS to be shared with HEIs for admission purposes, to also be used in preparing the Student Record from 2007/08 onwards.  |  |  |
|                             | This data will be made available to institutions by UCAS (through the *J transaction). The HESA record will work to the existing UCAS coding frame.  |  |  |
|                             | From 2008/09, the UCAS coding frame only is used for qualifications that are available from UCAS.  |  |  |
|                             | Note that H1, H2 and H3 A level qualifications are Singapore Higher qualifications awarded by University of Cambridge International Examinations (CIE)  Institutions are encouraged to provide this information for other full-time undergraduate students, in order to contribute more complete statistical information for the sector. In order for institutions to be able to add information about qualifications that are included in the UCAS Tariff, but for which UCAS do not provide electronic results information, additional codes have been added to the end of the list. |  |  |

## **Qualification year**

| Short Name              | QUALYEAR  |
|-------------------------|---|
| Туре                    | field   |
| Description             | This field records the year in which qualification on entry to the instance was obtained.   |
| Applicable to           | England NI Scotland Wales   |
| Coverage                | All Qualification on entry records  |
| Base Data Type          | YearType  |
| Field Length            | 4   |
| Part Of                 | Qualifications on entry   |
| Minimum Occurrences     | 0   |
| Maximum Occurrences     | 1   |
| Reason Required         | To allow detailed analysis of qualifications on entry and consequent progression.   |
| Notes                   | The awarding bodies have given their consent, via the Joint Council for Qualifications (JCQ), for some of the results data that they forward to UCAS to be shared with HEIs for admission purposes, to also be used in preparing the Student Record from 2007/08.  This data will be made available to institutions by UCAS (through the *J transaction). The HESA record will work to the existing UCAS coding frame.  Institutions are encouraged to provide this information for other full-time undergraduate students, in order to contribute more complete statistical information for the sector   |

|          |            | Instance.COMDATE year.  |
|          | 27 Error   | Where Student.BIRTHDTE is not null QualificationsOnEntry.QUALYEAR   |
|          |            | should be greater than (Student.BIRTHDTE + 13) year.                |
|          | 28 Warning | For institutions in England, Northern Ireland and Wales, where      |
|          |            | Student.BIRTHDTE is not null and QualificationsOnEntry.QUALTYPE is  |
|          |            | not coded SS, QualificationsOnEntry.QUALYEAR should be greater than |
|          |            | (Student.BIRTHDTE + 15) year  |
| <u> </u> |            |   |

### **Qualifications awarded**

| Short Name              | QualificationsAwarded  |  |
|-------------------------|--|--|
| Туре                    | entity   |  |
| Description             | Qualification or credit obtained during – or at the end of – an instance   |  |
| Applicable to           | England NI Scotland Wales  |  |
| Coverage                | Compulsory for all instances where <u>Instance.ENDDATE</u> is not null and <u>Instance.RSNEND</u> = 01 and <u>Instance.REDUCEDI</u> = 00, 01 or 04 unless <u>Course.COURSEAIM</u> ends with 99. (Optional for all other instances.)  |  |
| Part Of                 | Instance   |  |
| Minimum Occurrences     | 0  |  |
| Maximum Occurrences     | 2  |  |
| Related Fields          | ENDDATE<br>RSNEND  |  |
| Has Parts               | Qualification awarded (QUAL) Classification (CLASS) Outcome of ITT instance (OUTCOME) Teaching qualification gained sector (TQGSEC) Teaching qualification gained subject (TQGSUB)   |  |
| Reason Required         | This entity is defined to hold information about the qualifications awarded and to allow multiple awards to be recorded in the hierarchical data structure.  |  |
| Notes                   | Qualifications should be returned in the reporting year in which they are awarded. Return of one or more qualifications does not indicate the end of an instance.  |  |
| Owner                   | HESA   |  |
| Version                 | 1.1  |  |
| Date modified           | 2010-02-15   |  |
| Change management notes | Coverage updated to match business rule, with addition of 'unless Course.COURSEAIM ends with 99. '   |  |
| Business rules          | 1 Error QualificationsAwarded entity must exist where Instance.ENDDATE is not null and Instance.RSNEND = 01 and Instance.REDUCEDI = 00, 01 or 04, unless Course.COURSEAIM ends with 99.  3 Error QualificationsAwarded entity must only occur once where Instance.FESTUMK is coded 1 or 4. |  |

### **Qualifications on entry**

| Short Name          | QualificationsOnEntry   |
|---------------------|---|
| Туре                | entity  |
| Description         | Detail of the qualifications held by the student when the instance begins   |
| Applicable to       | England NI Scotland Wales   |
| Coverage            | All entrants where EntryProfile.UCASAPPID exists and this data has been provided by UCAS  |
| Part Of             | Entry profile   |
| Minimum Occurrences | 0   |
| Maximum Occurrences | unbounded   |
| Has Parts           | Qualification type (QUALTYPE) Qualification subject (QUALSBJ) Qualification grade (QUALGRADE) Qualification year (QUALYEAR) Qualification sitting (QUALSIT)   |
| Reason Required     | This entity exists to hold information about the individual qualifications a student holds when they begin an instance.   |
| Notes               | The awarding bodies have given their consent, via the Joint Council for Qualifications (JCQ), for some of the results data that they forward to UCAS to be shared with HEIs for admission purposes, to also be used in preparing the Student Record from 2007/08. The detail of the agreement is still to be finalised. |
|                     | This information is only required for UCAS entrants {full-time undergraduate students} with tariff-bearing qualifications.  |
|                     | Institutions are however encouraged to provide the same information for other {non-UCAS} full-time undergraduate students, in order to contribute more complete statistical information for the sector.   |
|                     | If returning qualification on entry data for a continuing student in order to add to or correct data returned in a previous year, then the complete set of qualifications should be returned not just the updated ones.   |
|                     | The existence of this entity cannot be tested by validation rules. However, submissions will be compared with the data supplied to HESA by UCAS for quality assurance purposes.   |
| Owner               | HESA  |
| Version             | 1.0   |
| Business rules      | Warning There are more than 30 occurrences of QualificationsOnEntry for an instance.  |

### **Qualified Teacher Status**

| Short Name                  | QTS  |
|-----------------------------|--|
| Туре                        | field  |
| Description                 | This field indicates whether a student on an INSET teacher training course holds Qualified teacher status (QTS) or not.  |
| Applicable to               | England NI   |
| Coverage                    | All instances at institutions in England or Northern Ireland where <u>Course.TTCID</u> = 5 and <u>Instance.REDUCEDI</u> = 00, 01 or 04   |
| Base Data Type              | QTSCodeType  |
| Field Length                | 1  |
| Part Of                     | Instance   |
| Minimum Occurrences         | 0  |
| Maximum Occurrences         | 1  |
| Related Fields              | TTCID  |
| Reason Required             | To distinguish INSET provision that HEFCE is responsible for (students not holding QTA) and provision that TDA are responsible for (students holding QTS).   |
| Notes                       | TDA and HEFCE have given a working definition of an INSET course as:  An INSET/In-service course is one for which the primary (but not necessarily the only) purpose is to improve the effectiveness of teachers, lecturers or trainers. In considering whether this is the purpose of particular course, institutions may wish to consider the content of the course and course literature, including prospectuses and any other marketing material.  |
| Owner                       | HESA   |
| Version                     | 1.0  |
| Business rules              | 1 Error Instance.QTS must exist for institutions in England and Northern Ireland where Course.TTCID = 5 and Instance.REDUCEDI = 00, 01 or 04.  2 Error Instance.QTS cannot be coded 4 where (EntryProfile.QUALENT2 exists and is coded 03 or 10).  3 Error Instance.QTS cannot be coded 3 where (EntryProfile.QUALENT2 exists and is coded 04, 37 - 98).  4 Error Instance.QTS must not exist for institutions in Scotland or Wales.  5 Error Instance.QTS must not exist for institutions in England and Northern Ireland where Course.TTCID not = 5. |
| Valid Entries and<br>Labels | Student holding QTS on an in-service/education of teachers (INSET) course  Student not holding QTS on an in-service/education of teachers (INSET) course   |

### **RAE Data**

| Short Name          | RAEData   |
|---------------------|---|
| Туре                | entity  |
| Description         | A set of fields that describe the RAE unit of assessment relating to an Instance  |
| Applicable to       | England NI Scotland Wales   |
| Coverage            | All instances where Course.COURSEAIM =L00, L80, L90 or L99 or begins with D and Instance.REDUCEDI = 00  |
| Part Of             | Instance  |
| Minimum Occurrences | 0   |
| Maximum Occurrences | 3   |
| Has Parts           | RAE unit of assessment (UOA2008) Unit of assessment percentage (UOAPCNT)  |
| Reason Required     | This repeating element exists to allow an instance to be linked to more than one RAE unit of assessment.  |
| Notes               | The sum of RAEData.UOAPCNT must equal 100 for each instance in which it occurs.   |
| Owner               | HESA  |
| Version             | 1.0   |
| Business rules      | 1 Error RAEData entity must exist where Course.COURSEAIM = L00, L80, L90 or L99 or begins with D and corresponding Instance.REDUCEDI = 00.  RAEData entity must not exist unless (Course.COURSEAIM = L00, L80, L90 or L99 or Course.COURSEAIM begins with D). |

### **RAE** unit of assessment

| Short Name                  | UOA2008  |
|-----------------------------|--|
| Туре                        | field  |
| Description                 | This field should record the Unit of Assessment (UOA) to which the student's supervisor was returned in the 2008 Research Assessment Exercise (RAE2008).   |
| Applicable to               | England NI Scotland Wales  |
| Coverage                    | All RAEData records  |
| Base Data Type              | UOA2008CodeType  |
| Field Length                | 2  |
| Part Of                     | RAE Data   |
| Minimum Occurrences         | 1  |
| Maximum Occurrences         | 1  |
| Related Fields              | UOAPCNT  |
| Reason Required             | Collection of this information will allow better monitoring of funding allocations by units of assessment.   |
| Notes                       | Where a student's supervisor has been allocated to a Unit of Assessment for the 2008 RAE, then the student should be allocated to the same UOA.  |
|                             | Where the supervisor has not been explicitly allocated to a UOA because  |
|                             | <ul> <li>the student instance started after the 2008 RAE, or</li> <li>the student's supervisor was not employed by the reporting institution at the time of the most recent RAE, or</li> <li>the student's supervisor was not allocated to a Unit of Assessment</li> </ul> |
|                             | then the student should be assigned to the Unit of Assessment which is closest in academic content to their subject of study. (The Unit of Assessment chosen should be from the list of subjects defined by the most recent RAE, not any future RAE.)                      |
|                             | Where a student was supervised by more than one member of staff and/or these supervisors are returned in more than one UOA, the student may be returned split either according to the agreed division of responsibility, or in proportion to the number of supervisors.    |
|                             | This field occurs as a pair with <u>RAEData.UOAPCNT</u> with a maximum of 3 pairs permitted.   |
| Owner                       | HEFCE  |

## Reason for ending instance

| Short Name          | RSNEND   |
|---------------------|--|
| Туре                | field  |
| Description         | This field is used to indicate for what reason the student left the student instance detailed in this return.  |
| Applicable to       | England NI Scotland Wales  |
| Coverage            | All instances where <u>Instance.ENDDATE</u> is completed and where <u>Instance.REDUCEDI</u> = 00, 01, 02, 04, 06 or 07   |
| Base Data Type      | RSNENDCodeType   |
| Field Length        | 2  |
| Part Of             | Instance   |
| Minimum Occurrences | 0  |
| Maximum Occurrences | 1  |
| Related Fields      | ENDDATE  |
| Reason Required     | To monitor transfer/progression/completion.  |
| Notes               | Institutions should only complete this field where they are completing a student instance, guidance on when a new student instance is required is given in <a href="Instance.NUMHUS">Instance.NUMHUS</a> . Normally where a student progresses from one course directly onto another at the same level (e.g. HND to Degree, MPhil to PhD) a new student instance is not required and hence this field would not be completed although the <a href="QualificationsAwarded">QualificationsAwarded</a> fields may be.         |
|                     | If a student gains a qualification after completing a course, but not the qualification they were aiming for, then they should be coded 01 'Successful completion of course'.  |
|                     | Code 02 'Academic failure/left in bad standing/not permitted to progress' is considered to be different from simply dropping out, code 07, which may be more closely related to personal reasons. Code 02 is intended to be for a fail at any stage. It is the code to be used for those students who fail assessment at, for example, the end of the first or second year of a three-year course and therefore leave the course, as well as for those students who have unsuccessfully completed their qualification aim. |
|                     | Code 08 'Written off after lapse of time': it is at the institutions discretion whether to write-off an inactive student after a period of time.   |
|                     | Code 09 'Exclusion' is the breaking of institutional rules, either behavioural or financial.   |
|                     | Code 98 'Completion of course - result unknown' implies that there will be further returns for the student - through a dormant record for example - to report results and reason for leaving.  |
|                     | In onwards analysis Statutory Customers and HESA may group codes 03, 04, 06, 07, 08, 09, 10 and 11 into a single category of 'Other'.  |

|                          | An entry in this field means that an entry in Instance.ENDDATE will also be expected.  |
|--------------------------|--|

### Regulatory body for health and social care students

| Short Name              | REGBODY   |  |  |
|-------------------------|---|--|--|
| Туре                    | field   |  |  |
| Description             | This field identifies the regulatory body for medical, dental, health and social care, and veterinary students.   |  |  |
| Applicable to           | England NI Scotland Wales   |  |  |
| Coverage                | All courses where <u>Course.COURSEAIM</u> = M16, M26, M76, M86, H16, H76, I16, I76, J26, J76 and <u>Course.REDUCEDC</u> = 00 or 01  |  |  |
| Base Data Type          | REGBODYCodeType   |  |  |
| Field Length            | 2   |  |  |
| Part Of                 | Course  |  |  |
| Minimum Occurrences     | 0   |  |  |
| Maximum Occurrences     | 1   |  |  |
| Reason Required         | To establish relevant regulatory body for medical, dental, health and social care, and veterinary students.   |  |  |
| Notes                   | This field can be completed for students with <a href="Course.COURSEAIM">Course.COURSEAIM</a> M22, where applicable.  |  |  |
|                         | HESA will (subject to contract) be providing student data to General Social Care Council (GSCC) for 2009/10 onwards and will rely on coding in Course.REGBODY in order to identify correctly the appropriate student records. Course.REGBODY must therefore be coded 08 only for courses that have been approved by GSCC. HESA will be receiving information from GSCC which will allow this coding to be checked during data collection.   |  |  |
| Owner                   | HESA  |  |  |
| Version                 | 1.3   |  |  |
| Date modified           | 2010-08-30  |  |  |
| Change management notes | Business Rule 2 added   |  |  |
| Business rules          | 1 Error Course.REGBODY must exist where Course.COURSEAIM = M16, M26, M76, M86, H16, H76, I16, I76, J26 or J76 and Course.REDUCEDC = 00 or 01.   |  |  |
|                         | 2 Warning Course.REGBODY should only be coded 08 when Institution.UKPRN = 10000291, 10000824, 10000886, 10000961, 10000975, 10001143, 10001282, 10001726, 10001883, 10002718, 10003614, 10003678, 10003861, 10003956, 10003957, 10004048, 10004078, 10004180, 10004351, 10004797, 10004930, 10005553, 10005790, 10006022, 10006299, 10006566, 10006840, 10007137, 10007138, 10007139, 10007140, 10007141, 10007143, 10007144, 10007145, 10007146, 10007147, 10007148, 10007149, 10007150, 10007151, 10007152, 10007154, 10007155, 10007156, 10007157, 10007158, 10007159, 10007161, 10007163, 10007164, 10007166, 10007767, 10007767, 10007795, 10007796, 10007798, 10007780, 10007806, |  |  |

## Regulatory body reference number

| Short Name              | DHREGREF  |  |  |
|-------------------------|---|--|--|
| Туре                    | field   |  |  |
| Description             | This field holds the regulatory body reference number allocated to a student.   |  |  |
| Applicable to           | England NI Scotland Wales   |  |  |
| Coverage                | All instances where <u>Course.COURSEAIM</u> =M16, M26, M76, M86, H16, H76, I16, I76, J26, J76 and <u>Course.REGBODY</u> = 06 or 07 and <u>Instance.REDUCEDI</u> = 00 or 01  |  |  |
| Base Data Type          | xs:string   |  |  |
| Field Length            | 8   |  |  |
| Part Of                 | Instance  |  |  |
| Minimum Occurrences     | 0   |  |  |
| Maximum Occurrences     | 1   |  |  |
| Related Fields          | REGBODY   |  |  |
| Reason Required         | To identify existing members of professional regulatory bodies on medical, dental, health and social care, and veterinary courses.  |  |  |
| Notes                   | If the student already has a registration number awarded by a regulatory body, then the number should be recorded.  |  |  |
|                         | This field should record the regulatory body registration numbers issued to new students entering courses leading to eligibility to register for the first time where available. All other new students will require the default code '99999999'.   |  |  |
|                         | This field will be used to collect any registration number awarded by a regulatory body. The field is compulsory if <a href="Course.COURSEAIM">Course.COURSEAIM</a> is coded M16, M26, M76, M86, H16, H76, I16, I76, J26 or J76 and <a href="Course.REGBODY">Course.REGBODY</a> is coded 06 'The Nursing and Midwifery Council (NMC)' or 07 'Health Professions Council (HPC)'. |  |  |
|                         | The default code of 99999999 should be used where Course.COURSEAIM is coded M16, M86, H16, I16, or J26 and a number does not already exist for the student.   |  |  |
| Owner                   | The regulatory bodies for medical/dental, health and social care, and veterinary sciences   |  |  |
| Version                 | 1.2   |  |  |
| Date modified           | 2010-04-30  |  |  |
| Change management notes | Business rule 1 updated to add Course.COURSEAIM = M26 to the coverage of the field.   |  |  |
| Business rules          | 1 Error Instance.DHREGREF must exist where Course.COURSEAIM = M16, M26, M76, M86, H16, H76, I16, I76, J26 or J76 and Course.REGBODY = 06 or 07 and Instance.REDUCEDI = 00 or 01.  |  |  |

## Religion

### **Research council student**

| Short Name          | RCSTDNT  |  |
|---------------------|--|--|
| Туре                | field  |  |
| Description         | This field indicates whether a student has at any point during this instance been funded in whole or part by a Research Council.   |  |
| Applicable to       | England NI Scotland Wales  |  |
| Coverage            | All instances where Course.COURSEAIM begins D, E, L or M (except M22, M26) and Instance.REDUCEDI = 00 or 04  |  |
| Base Data Type      | RCSTDNTCodeType  |  |
| Field Length        | 2  |  |
| Part Of             | Instance   |  |
| Minimum Occurrences | 0  |  |
| Maximum Occurrences | 1  |  |
| Related Fields      | RCSTDID  |  |
| Reason Required     | To allow identification of Research Council funded students for linking to RC data.  |  |
| Notes               | Once this field has been recorded as anything other than 99, it should not be changed to 99 for this instance. This field covers all RC studentship schemes.   |  |
|                     | All Research Council funded students must be coded to the appropriate Research Council irrespective of whether they are named in the award or are allocated a studentship from Research Council funding made available to the institution. |  |
|                     | Although a student may not be in receipt of a full award via a Research Council funding mechanism or scheme, the appropriate Research Council coding 01-09 below is required in all cases.   |  |
|                     | EPSRC/MRC students can receive funding via a Doctoral Training Account, on a variety of funding patterns. See below for funding patterns as at October 2006.   |  |
|                     | <ul> <li>Fees only basis</li> <li>Full award (stipend and fees @ UK rate)</li> <li>50/50 (stipend and fees) e.g. RC/ industrial partner or split between two RCs.</li> </ul>   |  |
|                     | Students holding Dorothy Hodgkin postgraduate awards should be coded according to the Research Council providing the funding, 01-09 below and <u>Student.NATION</u> must be completed.   |  |
|                     | Research students at institutions in Northern Ireland who are funded by DELNI should be coded 99, Not a Research Council student in this field.  |  |
|                     | Where a student is jointly funded by more than one Research Council, the lead council should be recorded in this field.  |  |

| Owner                       | HESA   |   |  |
|-----------------------------|--|---|--|
| Version                     | 1.3  |   |  |
| Date modified               | 2010-06-30   |   |  |
| Change management notes     | New guidance added: 'Where a student is jointly funded by more than one Research Council, the lead council should be recorded in this field' |   |  |
| Business rules              | 1 Error  | Instance.RCSTDNT must exist where Course.COURSEAIM begins D, E, L or M (excluding M22, M26) and Instance.REDUCEDI = 00 or 04.   |  |
| Valid Entries and<br>Labels | 01<br>02<br>03<br>04<br>05<br>07<br>08<br>09<br>99   | Biotechnology & Biological Sciences Research Council (BBSRC) Medical Research Council (MRC) Natural Environmental Research Council (NERC) Engineering & Physical Sciences Research Council (EPSRC) Economic & Social Research Council (ESRC) Arts & Humanities Research Council (AHRC) Science & Technology Facilities Council (STFC) Research Council - not specified Not a Research Council student |  |

### Research council student identifier

| Short Name          | RCSTDID  |  |  |
|---------------------|--|--|--|
| Туре                | field  |  |  |
| Description         | This field contains the Personal identifier (PID) generated by the Research Councils for students whom they fund.  |  |  |
| Applicable to       | England NI Scotland Wales  |  |  |
| Coverage            | Optional for all instances where <u>Instance.RCSTDNT</u> does not equal 99 and <u>Instance.REDUCEDI</u> = 00 or 04   |  |  |
| Base Data Type      | RCSTDIDType  |  |  |
| Field Length        | 7  |  |  |
| Part Of             | Instance   |  |  |
| Minimum Occurrences | 0  |  |  |
| Maximum Occurrences | 1  |  |  |
| Related Fields      | RCSTDNT  |  |  |
| Reason Required     | To allow linking of HESA data to that held by the Research Councils.   |  |  |
| Notes               | This field records the Personal identifier issued by the Je-S (Joint electronic System) used since December 2004 to capture student and researcher details by EPSRC (for all student schemes) and MRC (for DTG students). Identifiers can be obtained from the Je-S Student\Researcher details screens on the Je-S Portal.   |  |  |
|                     | Only personal identifiers in the format XnnnnnC, where X is an alpha character, n is numeric and C is an alpha check digit, should be returned.  |  |  |
|                     | There is a joint Research Council project that is due to complete during 2007 (on current plans) on a phased implementation basis for the remaining Research Councils. PIDs will therefore become available for new Research Council (RC) PhD students as the project progresses – NERC will implementing the project initially with the capture of MSc students. The provision of PIDS for former RC students will be dependant on the migration of data into a common data source. |  |  |
| Owner               | The Research Councils  |  |  |
| Version             | 1.0  |  |  |

### **Scottish Candidate Number**

| Short Name          | SCN  |
|---------------------|--|
| Туре                | field  |
| Description         | This field records the Scottish Candidate Number (formerly SCOTVEC number) which is allocated to pupils at school and in FE colleges who undertake Scottish Qualifications Authority (formerly SCOTVEC or SEB Scottish Examination Board) courses. Many Scottish students will therefore have a Scottish Candidate Number, and coverage should increase over the next few years to cover almost all Scottish entrants. The Scottish Candidate Number should be completed for all students who have one.  |
| Applicable to       | England NI Scotland Wales  |
| Coverage            | All students where <a href="EntryProfile.DOMICILE">EntryProfile.DOMICILE</a> = XH and <a href="EntryProfile.UCASAPPID">EntryProfile.DOMICILE</a> = XH and <a href="EntryProfile.DOMICILE">EntryProfile.DOMICILE</a> = XH and <a href="EntryProfile.DOMICILE">Course.COURSEAIM</a> begins H, I, J, C, P, Q, R or S  |
| Base Data Type      | SCNWithNullStructure   |
| Field Length        | 9  |
| Part Of             | Student  |
| Minimum Occurrences | 0  |
| Maximum Occurrences | 1  |
| Reason Required     | Allows linkage between HESA records and earlier records of achievement on pre-HE Scottish courses. Such linkages can provide additional information about the flows between school, further education and higher education.  |
| Notes               | The Scottish Candidate Number consists of eight decimal data digits followed by a decimal check digit. The first two data digits are the final two digits of the year of issue (so 2004/05 is 05); note that this implies the occurrence of leading zeroes on numbers issued during the current decade, which must be retained. The next six digits are arbitrary, and are unique within the year but are not guaranteed to be unique across years. The final digit is a check digit calculated according to a modulus 11 algorithm using the weights 3 2 7 6 5 4 3 2. |
|                     | <ul> <li>Each digit is multiplied by its weight factor and the results totalled</li> <li>The total is divided by 11</li> <li>Take the remainder from this division and subtract it from 11</li> <li>The result of the subtraction is the check digit</li> </ul>  |
|                     | If the remainder from the division is 1 and result of the subtraction is therefore 10 the number is incorrect. If there is no remainder from the division, the check digit will be 0.  |
|                     | All UCAS entrants domiciled in Scotland require a Scottish Candidate Number irrespective of whether they are studying in Scotland or elsewhere in the United Kingdom. A Scottish Candidate Number is not applicable to non-Scottish domiciled entrants studying at institutions in Scotland. UCAS collects the Scottish candidate number for all Scottish domiciled new entrants. Institutions in Scotland will need to collect this information for direct entrants of Scottish domicile.   |
|                     | For students entering through UCAS this information will be available from UCAS via the *J transaction.  |

|                | If the Scottish Candidate Number is not known, an empty element should be returned with the ReasonForNull attribute set to 1 (not known), i.e: <scn reasonfornull="1"></scn>  |
|----------------|---|
|                | A Scottish Candidate Number is not required for those students entering postgraduate courses.   |
| Owner          | Scottish Qualifications Authority   |
| Version        | 1.0   |
| Business rules | 1 Error 2 Error Student.SCN must pass the checksum test as shown in the coding manual. 2 Error Student.SCN must exist where Instance.REDUCEDI = 00, 01, 02 or 04 and (EntryProfile.DOMICILE exists and is coded XH) and EntryProfile.UCASAPPID exists and Course.COURSEAIM begins H, I, J, C, P, Q, R or S. 3 Error Student.SCN must exist for institutions in Scotland where Instance.REDUCEDI = 00 and (EntryProfile.DOMICILE exists and is coded XH) and Course.COURSEAIM begins H, I, J, C, P, Q, R or S. 4 Error 5 Error Student.SCN must not be null except when ReasonForNull = 1. 5 Error |

### Socio-economic classification

| Short Name              | SEC  |
|-------------------------|--|
| Туре                    | field  |
| Description             | This field collects the socio-economic classification of students participating in HE if 21 or over at the start of their course or parental classification if under 21  |
| Applicable to           | England NI Scotland Wales  |
| Coverage                | All entrants where <a href="EntryProfile.UCASAPPID">EntryProfile.UCASAPPID</a> exists where <a href="Course.COURSEAIM">Course.COURSEAIM</a> begins with H, I, J or C or is M22, M26 and <a href="EntryProfile.DOMICILE">EntryProfile.DOMICILE</a> = XF, XG, XH, XI, XK, XL, GG, JE or IM   |
| Base Data Type          | SECCodeType  |
| Field Length            | 1  |
| Part Of                 | Entry profile  |
| Minimum Occurrences     | 0  |
| Maximum Occurrences     | 1  |
| Related Fields          | SOC2000  |
| Reason Required         | To monitor social background of students in a standard way.  |
| Notes                   | This collects the socio-economic background of students aged 21 and over at the start of their course, or for students under 21 the socio-economic background of their parent, step-parent or guardian who earns the most. It is based on occupation, and if the parent or guardian is retired or unemployed, this is based on their most recent occupation. |
|                         | Code 9 'Not classified' includes the 3 categories:   |
|                         | <ul> <li>students</li> <li>occupations not stated or inadequately described</li> <li>not classifiable for other reasons.</li> </ul>  |
|                         | For students entering through UCAS this information will be available from UCAS via the *J transaction.  |
|                         | Institutions are encouraged to provide this information for other full-time undergraduates in order to provide more complete statistical information for the sector.   |
|                         | A full coding frame for SEC can been obtained from The Office for National Statistics.   |
| Owner                   | Office for National Statistics   |
| Version                 | 1.3  |
| Date modified           | 2010-06-30   |
| Change management notes | Link added to Office of National Statistics NS-SEC guidance  |
| Business rules          | 1 Error EntryProfile.SEC must exist where EntryProfile.UCASAPPID exists and  |

|                          | Course.COURSEAIM begins H, I, J or C or is M22, M26 and EntryProfile.DOMICILE = XF, XG, XH, XI, XK, XL, GG, JE or IM.   |
|--------------------------|---|
| Valid Entries and Labels | <ul> <li>Higher managerial &amp; professional occupations</li> <li>Lower managerial &amp; professional occupations</li> <li>Intermediate occupations</li> <li>Small employers &amp; own account workers</li> <li>Lower supervisory &amp; technical occupations</li> <li>Semi-routine occupations</li> <li>Routine occupations</li> <li>Never worked &amp; long-term unemployed</li> <li>Not classified</li> </ul> |

## **Special fee indicator**

| Short Name          | SPECFEE  |
|---------------------|--|
| Туре                | field  |
| Description         | This field records where a special or 'non-standard' fee is due - in line with the student support regulations.  |
| Applicable to       | England NI Scotland Wales  |
| Coverage            | All instances where <u>Instance.REDUCEDI</u> = 00 unless institution in Wales and <u>Course.COURSEAIM</u> begins with P, Q, R, S or X.   |
| Base Data Type      | SPECFEECodeType  |
| Field Length        | 1  |
| Part Of             | Instance   |
| Minimum Occurrences | 0  |
| Maximum Occurrences | 1  |
| Reason Required     | To allow financial calculations to take account of fee offsets.  |
| Notes               | Code 0 'Standard/prescribed fee' refers to the prescribed fee for students who entered before 2006/07 or the standard variable fee charged by the institution for those who entered in or after 2006/07. This code must be used for students subject to the regulated full fee.  |
|                     | Special or 'non-standard' fees - in line with the student support regulations, the codes for use with regulated half fees are  |
|                     | Code 1 'Sandwich placement'. For sandwich placements these are an academic year: (i) during which any periods of full-time study are in aggregate less than 10 weeks; or (ii) if in respect of that academic year and any previous academic years of the course the aggregate of any one or more periods of attendance which are not periods of full-time study at the institution (disregarding intervening vacations) exceeds 30 weeks.  |
|                     | Code 2 'Language Year abroad and not full-year outgoing ERASMUS'. For language year abroad these are an academic year: (i) during which any periods of full-time study at the institution in the United Kingdom are in aggregate less than 10 weeks; or (ii) if in respect of that academic year and any previous academic years of the course the aggregate of any one or more periods of attendance which are not periods of full-time study at the institution in the United Kingdom (disregarding intervening vacations) exceeds 30 weeks. |
|                     | Code 2 should be used for students studying a year abroad in any subject who pay regulated half fees.  |
|                     | Code 4 'Final year of full-time course lasting less than 15 weeks' and Code 5 'Final year of a full-time lasting more than 14 weeks but less than 24 weeks' apply to final year students only and should only be used where <a href="Instance.MODE">Instance.MODE</a> is coded 02.   |
|                     | Code 6 'Part-time Initial Teacher Training' includes first degrees leading to QTS, PGCEs, CertEds and DTLLS.   |

|                             | Code 3 'Full year outgoing ERASMUS' is for regulated zero fees.  |
|-----------------------------|--|
|                             | Postgraduate students who are subject to regulated fees should be coded as 0-6 depending on the fees. The only postgraduate students to be recorded as subject to regulated fees are those:  |
|                             | a. On a full-time or part-time PGCE. Such students should be recorded as subject to the regulated full or regulated half fees, respectively.   |
|                             | b. On a full-time course in preparation for a professional examination at postgraduate level, for which a first degree is not a normal requirement for entry. This applies to students on a course leading successively to Parts 1 and 2 of the Royal Institute of British Architects examination, for whom undergraduate-level fees are payable. Such students should be recorded as subject to regulated full fees.  |
|                             | All other postgraduate students should be coded 09 Other fee.  |
|                             | Part-time students where the institution has discretion over the fee charged should be coded 09 Other fee.   |
|                             | Institutions are not required to adjust this field to account for individual waived fees.  |
| Owner                       | HESA   |
| Version                     | 1.2  |
| Date modified               | 2010-06-30   |
| Change management notes     | New paragraph of guidance added 'Code 2 should be used for students studying a year abroad in any subject who pay regulated half fees'.  |
| Business rules              | 1 Error Instance.SPECFEE must exist where Instance.REDUCEDI = 00 unless institution in Wales and Course.COURSEAIM begins with P, Q, R, S or X.  9 Error For institutions in England, Northern Ireland and Wales if Instance.SPECFEE = 4 or 5 then Instance.ENDDATE must not be blank.  10 Error Instance.SPECFEE must be coded 9 where Course.COURSEAIM = D00, D01 or D90.  11 Warning For institutions in Scotland if Instance.SPECFEE = 4 or 5 then Instance.ENDDATE should not be blank.  12 Error For institutions in England, Instance.SPECFEE must be coded 6 or 9 where Instance.MODE = 31 and Course.TTCID = 1 or 8. |
| Valid Entries and<br>Labels | O Standard/Prescribed fee 1 Sandwich placement 2 Language year abroad & not full-year outgoing ERASMUS 3 Full-year outgoing ERASMUS 4 Final year of full-time course lasting less than 15 weeks 5 Final year of a full-time course lasting more than 14 weeks but less than 24 weeks 6 Part-time Initial Teacher Training 9 Other fee  |

### Start date of instance

| Short Name          | COMDATE  |
|---------------------|--|
| Туре                | field  |
| Description         | This field indicates the date of the student's initial commencement of studies for this student instance and may relate to a date prior to the current academic/financial year. Exchange-in students should have the date they commenced their studies at the reporting institution. |
| Applicable to       | England NI Scotland Wales  |
| Coverage            | All instances  |
| Base Data Type      | xs:date  |
| Field Length        | 10   |
| Part Of             | Instance   |
| Minimum Occurrences | 0  |
| Maximum Occurrences | 1  |
| Reason Required     | To determine whether to include a student in any particular population definition; to calculate the duration of a student's education  |
| Examples            | A student obtains a first degree and then enrols for a one year Masters course.  These are two distinct courses at different levels (undergraduate/postgraduate) and therefore would have two Student instance numbers. In this case:  |
|                     | <ul> <li>Instance.COMDATE is up-dated to commencement date of Masters</li> <li>Instance.YEARPRG = 1</li> <li>Instance.YEARSTU = 1</li> <li>EntryProfile.QUALENT2 is up-dated to degree</li> <li>Instance.NUMHUS has a new number allocated.</li> </ul>                               |
|                     | 2. A student transfers after two years from an HND course to the second year of a degree course (with or without being awarded the HND). This may be represented in two different ways, depending on how it is viewed by the institution.  |
|                     | If within the institution this is regarded as a seamless continuation of studies, then it is the same student instance and the same <a href="Instance.NUMHUS">Instance.YEARSTU</a> increments by one year. In this case:   |
|                     | <ul> <li>Instance.COMDATE is not up-dated</li> <li>Instance.YEARPRG = 2</li> <li>Instance.YEARSTU = 3</li> <li>EntryProfile.QUALENT2 is not up-dated</li> <li>Instance.NUMHUS is not up-dated.</li> </ul>  |
|                     | However, if within the institution this is regarded as two student instances, then a new <a href="Instance.NUMHUS">Instance.NUMHUS</a> is allocated and <a href="Instance.YEARSTU">Instance.YEARSTU</a> re-sets to 01. In this case:   |
|                     | <ul> <li>Instance.COMDATE is up-dated to commencement date of degree</li> <li>Instance.YEARPRG = 2</li> </ul>  |

 Instance.YEARSTU = 1 • EntryProfile.QUALENT2 is up-dated to HND if appropriate • Instance.NUMHUS has a new number allocated. When an institution does not have a clear preference between the two methods of reporting the progression to degree via study for an HND, it is recommended that the first method, using a single student instance, is used. This general guidance would also apply to other similar cases. Notes If a student transfers from one HEI to another, the date they entered the current HEI for this qualification aim should be returned in this field. All date fields in the Student Record must be completed using the ISO8601 format of YYYY-MM-DD. The specification of this field falls within the scope of the Aligned Data Definitions and follows the <u>Data Standards in the HESA student record</u>. Relationship with **Instance.NUMHUS** and **Instance.YEARSTU**: For a single student instance, the same Student instance number is kept. Instance.YEARSTU would be expected to increment each year. However there would be no up-dating of <u>Instance.COMDATE</u> nor of other fields in the <u>Entry profile</u> - an exception being, if, for example, an error had been found in the information provided in the previous year). With the commencement of a new student instance, a new Instance.NUMHUS would be allocated. Instance.YEARSTU would be expected to be 01. Instance.COMDATE should all be up-dated and a new Entry profile should be submitted. Where a student transfers from one course to another, the date should not be updated if the same Instance.NUMHUS is kept. For example, changes of subject without change of general qualification aim will not usually reset date of commencement of instance. Neither should the field be re-set where a student registers for an 'intermediate' qualification aim with the clear intention (acknowledged by both student and institution) that, subject to satisfactory performance, s/he will progress seamlessly (and usually without being awarded the intermediate qualification) onto a 'higher' qualification aim. For example, if a student registers first for an MPhil then switches to a PhD, and this is regarded as normal progression in the institution, such that the same Student instance number is kept, the Instance.COMDATE should not be reset. Where Y0/Y1/Y2 appear in business rules, these refer to the reporting period Y1-Y2 (e.g. for the 2007-08 reporting period, Y0 is 2006, Y1 is 2007 and Y2 is 2008). Owner Information Standards Board - Aligned Data Definitions 1.1 Version Date modified 2010-04-30 Business rule 1 updated to remove reference to Instance.REDUCEDI from the coverage Change management of the field. notes Business rules 1 Error Instance.COMDATE must exist. Instance.COMDATE must not be less than 1971-02-01. 2 Error 4 Error Instance.COMDATE must be less than Y2-08-01.

#### Student

| Short Name          | Student   |
|---------------------|---|
| Туре                | entity  |
| Description         | This describes a person undertaking a course, i.e. a student  |
| Applicable to       | England NI Scotland Wales   |
| Coverage            | All institutions  |
| Part Of             | Institution   |
| Minimum Occurrences | 1   |
| Maximum Occurrences | unbounded   |
| Has Parts           | HESA unique student identifier (HUSID) Unique Learner Number (ULN) UCAS Personal Identifier (UCASPERID) Scottish Candidate Number (SCN) Institution's own identifier for student (OWNSTU) Date of birth (BIRTHDTE) Family name (SURNAME) Forenames (FNAMES) Family name on 16th birthday (SNAME16) Gender (GENDER) Nationality (NATION) Ethnicity (ETHNIC) Disability (DISABLE) Dependants in reporting year (SDEPEND) Welsh speaker indicator (WELSSP) National identity (NATIOND) Term-time accommodation (TTACCOM) Term-time postcode (TTPCODE) Instance |
| Reason Required     | This entity exists to hold elements that describe the student and to hold the instances relating to the student.  |
| Notes               | A student can only be included once on this entity. Student.HUSID is the primary key for this entity.  Although many of the fields in this entity will not change from one year to the next, institutions must return all required fields in each year.   |

# **Student Associates Scheme (SAS) placement**

| Short Name              | SASSCHL   |
|-------------------------|---|
| Туре                    | field   |
| Description             | This field records the establishment Unique Reference Numbers (URNs) for the school at which the student undertakes their Student Associates Scheme (SAS) placement   |
| Applicable to           | England   |
| Coverage                | Instances at institutions in England where Instance.REDUCEDI = 06 or Course.TTCID = E Student Associates Scheme (SAS)   |
| Base Data Type          | SASSCHLType   |
| Field Length            | 6   |
| Part Of                 | Instance  |
| Minimum Occurrences     | 0   |
| Maximum Occurrences     | 1   |
| Reason Required         | TDA requirement to monitor students undertaking Student Associates Schemes  |
| Notes                   | The establishment Unique Reference Numbers (URNs) can be found at <a href="http://www.edubase.gov.uk">http://www.edubase.gov.uk</a>   |
|                         | Where the establishment is not listed on Edubase, and only in these circumstances, the default code XXXXXX must be used   |
| Owner                   | TDA   |
| Version                 | 1.3   |
| Date modified           | 2010-08-30  |
| Change management notes | Coverage amended to refer to COURSE.REDUCEDC, to reflect business rule  |
| Business rules          | 1 Error Instance.SASSCHL must exist for institutions in England where Course.REDUCEDC=06 or Course.TTCID = E. 2 Error Instance.SASSCHL must not exist for institutions in Northern Ireland, Scotland or Wales. 3 Error Instance.SASSCHL must not exist for institutions in England where Course.TTCID not equal to E. |

## **Student instance FTE**

| Short Name          | STULOAD  |  |
|---------------------|--|--|
| Туре                | field  |  |
| Description         | This field holds the student FTE, representing the institution's best academic judgement of the full-time equivalence of the student (for this instance) during the reporting year 1 August - 31 July. The value can be recorded to one decimal place and must be between 0 and 300.   |  |
| Applicable to       | England NI Scotland Wales  |  |
| Coverage            | All instances where <u>Instance.REDUCEDI</u> = 00, 01, 02 or 03  |  |
| Base Data Type      | FTEType  |  |
| Field Length        | 5  |  |
| Part Of             | Instance   |  |
| Minimum Occurrences | 0  |  |
| Maximum Occurrences | 1  |  |
| Reason Required     | To allow analysis by FTE, representing student load, rather than by headcount or apportioned numbers; particularly significant for analysing PT load.  |  |
| Examples            | Example A student studying the equivalent of a three year course over five years would be returned as 60.  |  |
|                     | A student studying 30 credits in the current year, in the case where 120 credits is the norm for a full-time student, would be returned as 25.   |  |
| Notes               | Full-time, full year students would normally be returned as 100 and part-time students returned as a proportion of an equivalent full-time course. Comparisons and weightings of different full-time, full year courses are not expected. The proportion of part-time study can be estimated on either a 'time' or a 'credit' basis. The FTE should not be weighted to take account of any resourcing implications of different courses. |  |
|                     | All students following a course would initially be assumed to have the same FTE. An adjustment may need to be made at individual student level if a student did not actually follow the whole course academic year, e.g. because they left half way through. This individual student adjustment need only be at a very broad-brush level.  |  |
|                     | The calculation of FTE therefore becomes a function of proportion (that the course represents of a full-time benchmark course) x time (amount of the course that the student followed in the HESA reporting year).   |  |
|                     | It is recognised that this cannot be exact in all cases and a strict pro-rata model is not expected. The aim is to give a better approximation than the use of arbitrary conversion factors.   |  |
|                     | In the case of years of programme which span two HESA reporting years (for example an MSc student with a 01 October - 30 September year) institutions in Scotland can return the FTE using either the pro-rata (50:50), 100:0 or 0:100 method as indicated in <a href="Instance.FTEMETHOD">Instance.FTEMETHOD</a> . However for institutions in England, Wales and Northern  |  |

|                         | Ireland the Student FTE should be split across the two HESA reporting years. This does not have to be an exact pro-rata split: a reasonable approximation is sufficient (for example the institution might assume that 85% of the FTE related to the period October - July and 15% to the period August - September).  |  |  |
|-------------------------|--|--|--|
|                         | Institutions in England, Wales or Northern Ireland who before 2007/08 did not return student load using the pro-rata (50:50) method should return the record as if they had always used this method. HEFCE have indicated that the same guidance will apply to HESES return.   |  |  |
|                         | Further detailed notes are available in the supporting documents.  |  |  |
|                         | For students coded 'S - Studying abroad and included in the Student record as student has spent or will spend more than 8 weeks in the UK' in Instance.LOCSDY, Instance.STULOAD must reflect only that part of the course undertaken in the UK.  |  |  |
|                         | The length of this field is 5 characters, however the move to XML enables data to be returned with or without leading zeros or the decimal place, e.g. 005.0 or 5.0 or 5   |  |  |
| Owner                   | HESA   |  |  |
| Version                 | 1.2  |  |  |
| Date modified           | 2010-06-30   |  |  |
| Change management notes | Business rule 3 updated to exclude instances where Instance.LOCSDY = S. Business rule 7 updated to exclude instances where Instance.LOCSDY = S or instance is an incoming exchange student.  |  |  |
| Business rules          | 1 Error Instance.STULOAD must exist where Instance.REDUCEDI = 00, 01, 02 or 03.  2 Error Instance.STULOAD must be 0 where Instance.MODE = 63 or 64.  For institutions in Scotland, Instance.STULOAD must not be 0 where Instance.MODE = 01, 02, 23, 24, 25, 31, 52 or 53 and Instance.TYPEYR = 1, unless Instance.LOCSDY = S.  4 Warning Instance.STULOAD should not be 0 where Course.COURSEAIM begins D or L and Instance.MODE = 01 or 02 and Instance.YEARSTU = 01, 02 or 03.  5 Warning Where Instance.REDUCEDI = 00 or 01, Instance.STULOAD +100.0 is less than sum of Module.FTE for the student instance: check modules linked to this instance.  6 Error Where Instance.REDUCEDI = 00 or 01, Instance.STULOAD must not be greater than 0 where sum of Module.FTE for the student instance is 0.  For institutions in England, Northern Ireland and Wales, Instance.STULOAD must not be 0 where Instance.MODE = 01, 02, 23, 24, 25, 31, 43, 44, 52, 53, 73 or 74, unless Instance.LOCSDY = S or Instance.EXCHANGE is coded 2, 4, 8, 9 or A. |  |  |

## Student instance identifier

| Short Name          | NUMHUS   |  |  |
|---------------------|--|--|--|
| Туре                | field  |  |  |
| Description         | This field complements the <u>HUSID</u> field to identify the separate courses that individuals take. <u>HUSID</u> + <u>Institution identifier</u> + NUMHUS together form a unique identifier known as HIN. An identification of the basic unit of 'a coherent engagement with the institution aiming towards the award of a qualification(s) or credit' which is described in the <u>HIN guidance</u> section of this documentation.  |  |  |
| Applicable to       | England NI Scotland Wales  |  |  |
| Coverage            | All instances  |  |  |
| Base Data Type      | NUMHUSType   |  |  |
| Field Length        | 20   |  |  |
| Part Of             | Instance   |  |  |
| Minimum Occurrences | 1  |  |  |
| Maximum Occurrences | 1  |  |  |
| Reason Required     | To distinguish - and between years, link - episodes of study by the same student at the same institution; a vital tool (through the generation of HIN) to support year-on-year linkage, for example to link entities in the HESA record and for Teaching Quality Information (TQI); used in the Higher Education Initial Participation Rate (HEIPR) calculation by BIS.  |  |  |
| Examples            | Detailed examples of HIN linking can be found in the HIN guidance document.  |  |  |
| Notes               | Field length 20 is to allow institutions to use an instance identifier already held internally. Where a instance identifier held internally is used, institutions must continue to use this number even when transfers or natural progressions occur. As a consequence of this institutions may find it easier to number student instances sequentially starting from 1 or A etc. A new instance number format can only be introduced for instances that have not been returned to HESA. This will be the case for new entrants and for continuing students commencing courses that have not previously been returned to HESA. |  |  |
|                     | Further guidance on the importance of maintaining the HIN link across years can be found in the HIN guidance document.   |  |  |
|                     | Valid characters   |  |  |
|                     | The valid characterset available for this field follows the <u>Data Standards in the HESA student record</u> .   |  |  |
|                     | <ul> <li>The general policy is to support all Latin-based characters for names, addresses and general text fields, but not non-Latin characters.</li> <li>All Unicode code charts for Latin characters are supported. These are Basic Latin (excluding the C0 control characters), Latin-1 (excluding the C1 control characters), Latin Extended A, Latin Extended B and Latin Extended Additional. This set corresponds to Unicode code points U+0020 to U+007F and U+00A0 to U+024F.</li> </ul>  |  |  |

• Schemas are built in such a way that an individual project can further restrict the set if required. The character set chosen will support Welsh and Gaelic languages as well as all European and most other languages using a Latin-based character set. The Unicode charts that list each of the characters in this range can be found on the Unicode web site. The specific sets that are defined here are shown in the following PDF documents: • Basic Latin • Latin-1 Latin Extended A • Latin Extended B Latin Extended Additional Files must be encoded with UTF-8 and schema validation will be in place to ensure this. Institutions must specify the encoding used in their XML files in the first line of the file (i.e. <?xml version="1.0" encoding="UTF-8" ?>) and to ensure that their files are actually saved with that encoding. If XML files are edited with some text editors and the encoding is not specified or does not match the actual file encoding, there may be problems when submitting these files for validation. Further guidance Further guidance is available from HEFCE on the reporting of multiple instances for students studying for credit. **HESA** Owner

File encoding advice updated to require that files are encoded with UTF-8

## Student on module

| Short Name              | StudentOnModule  |  |  |
|-------------------------|--|--|--|
| Туре                    | entity   |  |  |
| Description             | The link between the instance and the relevant modules for the reporting period  |  |  |
| Applicable to           | England NI Scotland Wales  |  |  |
| Coverage                | Compulsory where <u>Instance.STULOAD</u> is greater than 0 and <u>Instance.REDUCEDI</u> =00 or 01. Optional where <u>Instance.STULOAD</u> = 0 and <u>Instance.REDUCEDI</u> = 00 or 01  |  |  |
| Part Of                 | Instance   |  |  |
| Minimum Occurrences     | 0  |  |  |
| Maximum Occurrences     | 128  |  |  |
| Has Parts               | Module identifier (MODID) Module status (MODSTAT) Module outcome (MODOUT) Module year (MODYR) Module Countable (MODCOUNT)  |  |  |
| Reason Required         | This entity exists to allow one instance to be linked to many modules and one module to be linked to many instances.   |  |  |
| Notes                   | A student instance can be linked to the same module more than once in a reporting period if the student undertakes the module more than once. An instance should not be linked to the same module more than once in cases where a student is simply re-sitting examinations or assessment.   |  |  |
| Owner                   | HESA   |  |  |
| Version                 | 1.1  |  |  |
| Date modified           | 2010-04-30   |  |  |
| Change management notes | Business rule 2 added. Guidance added 'A student instance can be linked to the same module more than once in a reporting period if the student undertakes the module more than once. An instance should not be linked to the same module more than once in cases where a student is simply re-sitting examinations or assessment.' |  |  |
| Business rules          | 1 Error StudentOnModule entity must exist where Instance.STULOAD is greater than 0 and Instance.REDUCEDI = 00 or 01. 2 Error There must be at least one occurrence of StudentOnModule entity with StudentOnModule.MODSTAT not equal to 4 where Instance.STULOAD is greater than 0 and Instance.REDUCEDI = 00 or 01.                |  |  |

# Subject / cost centre percentage

| Short Name          | MODSBJP  |  |  |
|---------------------|--|--|--|
| Туре                | field  |  |  |
| Description         | This field indicates the percentage of the module that the associated subject and cost centre combination make up. It should be a value between 0 and 100 and can be recorded up to one decimal place. |  |  |
| Applicable to       | England NI Scotland Wales  |  |  |
| Coverage            | All module subject records   |  |  |
| Base Data Type      | PercentType  |  |  |
| Field Length        | 5  |  |  |
| Part Of             | Module subject   |  |  |
| Minimum Occurrences | 1  |  |  |
| Maximum Occurrences | 1  |  |  |
| Related Fields      | MODSBJ   |  |  |
| Reason Required     | To calculate the student load split out across up to sixteen academic cost centres, ar split across JACS2 codes.   |  |  |
| Notes               | This should add to 100% across all occurrences of a module.  |  |  |
|                     | The length of this field is 5 characters, however the move to XML enables data to be returned with or without leading zeros or the decimal place, e.g. 005.0 or 5.0 or 5                               |  |  |

# Subject of course

| Short Name   | SBJCA  |   |  |
|--|--|---|--|
| Туре   | field  |   |  |
| Description  | This field describes the subject or subjects appropriate to the current course.  |   |  |
| Applicable to  | England NI Scotland Wal  | es  |  |
| Coverage   | All course subject records   |   |  |
| Base Data Type   | SBJCACodeType  |   |  |
| Field Length   | 4  |   |  |
| Part Of  | Course subject   |   |  |
| Minimum Occurrences  | 1  |   |  |
| Maximum Occurrences  | 1  |   |  |
| Related Fields   | SBJPCNT<br>ITTSUBJECT  |   |  |
| Reason Required  | To allow analysis and monitoring of the student population by subject of study.  |   |  |
| Notes  | The Joint Academic Coding System (JACS2) provides for all subjects to be coded according to a common, truly hierarchical, four-character subject code. JACS2 will be used substantially in subject representation across the sector, including for provision of quality assurance information.  As a result of the joint UCAS/HESA Subject Code Harmonisation Project, it is intended that at the subject or module level all subjects should be classified within the JACS2 hierarchical academic subject structure. The funding councils' advice is to consider the most detailed coding that can be used without unduly raising the burden, since there is an increasing interest in niche provision which often cannot be captured at the JACS2 principal subject level. For example, a progressively more detailed coding of 'microbiology' could be: |   |  |
|  | C500 Microbiology  | The scientific study of micro-organisms encompassing major components of genetics and molecular biology. Includes bacteriology, virology, cell structure and function, and may include some immunology. |  |
|  | C520 Medical and veterinary microbiology   |   |  |
|  | C521 Medical<br>microbiology   | The study of the interactions between micro-organisms and their human hosts.  |  |
|  | C522 Veterinary microbiology  The study of the interactions between micro-organiand their animal hosts.  |   |  |
| From 2009/10 institutions are required to make appropriate use of the full 4-coding in all subject areas. This is needed to future-proof work on strategical and vulnerable subjects, so that as the landscape changes, it will be possible the past performance of newly important subjects. This requirement applies Courses and Modules. There will be some courses and modules where it repropriate to code at principal subject level, but others where a more detail should be used. So for example, a general Biology course would continue to as C100, but a specific course/module in Biodiversity would be coded C181. generic Religious Studies course would be V600, but a specific Islamic Studies. |  |   |  |

would be V622.

The generic codes that consist of a subject group and letter (and Y000) can be used in this field to describe a truly interdisciplinary programme.

Codes G000 and G900 are not valid entries in this field.

For students entering through UCAS this information will be available from UCAS via the \*J transaction.

Where students are coded using codes in the B group or C8 or L5 groups and are DH funded (<u>Course.MSFUND</u> = 31) the Department of Health requires that students be coded to the full four digits of JACS2, where these exist, or to three digits otherwise.

Where courses are taken by students funded by Research Councils, (Code <a href="Instance.RCSTDNT">Instance.RCSTDNT</a> of 01 to 09) then this field must be coded to JACS2 Principal subject level, that is, using the first two characters of the code (the second digit cannot be 0, so generic codes cannot be used for such courses).

For institutions in England and Northern Ireland, codes A3, A4 and C840 can only be used for postgraduate taught students if

- The course bears very high costs comparable to the clinical unit of resource, or
- A substantial proportion of the staff teaching time contributed to the course is provided by medically or dentally qualified university funded clinical academic staff, who hold honorary contracts with the NHS. This includes general practitioners.
- The course is normally taught in a clinical environment.

For institutions in England and Northern Ireland, codes A3, A4 and C840 can only be used for research students if focus of their research is in a clinical environment and the lead supervisor should be a clinical academic.

Codes A200 and A400 must only be used for pre-clinical and clinical dentists: other courses must use either A900 (Others in medicine & dentistry) or B750 Dental nursing.

#### Medical, Dental and Veterinary students:

#### Institutions in England, Wales and NI:

For undergraduate medical and dental courses where students move from pre-clinical to clinical subjects in later years of the course, this should normally be recorded as one course for all years of the instance. CourseSubject.SBJCA should in this case be coded as joint clinical/pre-clinical ie both A100 and A300 or both A200 and A400. It may, in some cases, be appropriate to code this as two separate courses where there is a clear separation between the two parts of the course.

### Institutions in Scotland:

For undergraduate medical and veterinary courses where students move from pre-clinical to clinical subjects in later years of the course, this must be recorded as separate courses for the pre-clinical and clinical years of the instance.

### General guidance on HE and FE coverage

This field must be completed for HE level students funded by the LSC or DCELLS (<u>Instance.FESTUMK</u> = 3).

For FE level students in England and Wales (<u>Instance.FESTUMK</u> = 1 or 4) for whom Course.FEQAIMC is completed, CourseSubject entity must not be returned.

However, if a generic code is used within <u>Course.FEQAIMC</u> then the LSC requires institutions to also complete this field in order to give detail of the subject area of the qualification.

### For initial teacher training students in England and Wales

The TDA needs to be able to link ITT students in England to the intake target from which the TDA has allocated numbers. In addition, only a subset of JACS2 codes are appropriate for ITT programmes. The TDA wants to ensure that only appropriate subjects are recorded. There is a similar requirement from HEFCW for ITT students in Wales. At institutions in England and Wales students identified as being initial teacher training students (Course.TTCID = 1 or 8) must be coded using this subset of JACS2. Further details are given below.

**Primary ITT Programmes** (<u>Course.ITTPHSC</u> = 15, 16, 17, 18, 19, 51, 52, 53, 61, 62, 63, 64, 65, 71, 72, 73, 74, 75, 76, 77)

Revised Standards for Qualified Teacher Status and revised Requirements for Initial Teacher Training took effect from September 2007 The new standards can be viewed on the TDA web site at

http://www.tda.gov.uk/partners/ittstandards.aspx?keywords=ITT+requirements

The Training and Development Agency for Schools has published a handbook of guidance and support which is available on the TDA web site at <a href="http://www.tda.gov.uk/about/publicationslisting/TDA0061.aspx?keywords=handbook+guidance">http://www.tda.gov.uk/about/publicationslisting/TDA0061.aspx?keywords=handbook+guidance</a>

The requirement on primary programmes to train students in at least one specialism is no longer compulsory.

Students commencing programmes of study after 1 September 2002 who choose not to study a primary specialism should use code X120 in this field.

Where trainees continue to study a primary specialism, a valid JACS2 code should be used in this field as follows:

Subject JACS2 code:

Art W900
Creative and Media P390
Design and technology W200
English Q300
Geography L700
German R200

History V100

Information and communications
G500

technology

Citizenship

Italian R300

Mathematics G100

Music W300

Physical education C600

Religious education V600

Science (Biology, Chemistry,

Physics) C100, F100, F300

Spanish R400 French R100

Portuguese R500

Welsh Q560

Advanced study of early years X900

Drama W400
Dance W500

PHSE L390

No primary specialism X120 (code available for students where <u>Instance.COMDATE</u> is after 1 September 2002 only).

L230

Where the specialism is not restricted to a subject (e.g. humanities) JACS2 code Y000 may be used in this field.

Where a primary specialism is being studied institutions must enter the code of the main specialism in this field and indicate 'S' in <a href="CourseSubject.ITTSUBJECT">CourseSubject.ITTSUBJECT</a>. If a second specialism is offered, institutions should also record this.

Institutions should ensure that codes relating to the subject the student is funded for are returned. Any institution wishing to enter a code not included in the current subject list should contact the TDA or HEFCW directly.

Secondary ITT Programmes and ITT Programmes Covering the 7-14 Age Range (Course.ITTPHSC = 24, 25, 26, 54, 55, 56, 57, 78, 79, 80, 81 or 82)

All programmes must train students in at least one specialism. It is essential that this specialism corresponds to the target from which the TDA has allocated numbers. Some programmes will train students to teach additional specialisms.

For the specialisms: The table below sets out the list of subjects appropriate to secondary ITT programmes with corresponding JACS2 codes.

Subject JACS2 code:

| PHSE                                   | L390 |

If a second, or third, specialism is offered institutions should also record it in a repeating occurrence of this field.

HESA will introduce validation checks to ensure that only those codes listed above can be recorded.

Institutions should ensure that codes relating to the subject the student is funded for are returned. Any institution wishing to enter a code not included in the current subject list should contact the TDA or HEFCW directly.

### 14-19 Diploma (i.e. Student.ITTPHSC 83)

This is available only to students with <u>Instance.COMDATE</u> after 31 July 2009, and must be used for students using <u>Instance.ITTPHSC</u> 83.

The table below sets out the list of subjects appropriate to 14-19 Diploma ITT programmes with corresponding JACS codes.

| Version                 | 1.5   |  |  |
| Date modified           | 2010-08-30  |  |  |
| Change management notes | Business rule 5 and 14 updated to add 'or Course.TTCID = E'. Business rule 19 updated to include codes C000, C600, C800, D600, F000, L230, L390, L700, L900, N100, P300, P390, Q300, Q800, V100, W210, W400, W500 and W900. Additional codes added to Student Associate Scheme (SAS) listing. |  |  |
| Business rules          | 1 Error The second character of CourseSubject.SBJCA cannot be 0 where any Instance.RCSTDNT = 01 - 09. 2 Error CourseSubject.SBJCA must be coded C100, C600, F100, F300, G100, G500, L230, L390, L700, P390, Q300, Q560, R100, R200, R300, R400,   |  |  |

|                          | 1            |   |
|--------------------------|--------------|---|
|                          |              | R500, V100, V600, W200, W300, W400, W500, W900, X900, X120, X121 or Y000 where Course.TTCID = 1 or 8 and Instance.ITTPHSC = 15 - 19, 51 - 53, 61 - 65 or 71 - 77.   |
|                          | 3 Error      | CourseSubject.SBJCA cannot be coded X120 where Course.TTCID = 1 or 8 and (Instance.ITTPHSC = 15 - 19, 51 - 53, 61 - 65, or 71 - 77 and  |

# Subject of module

| Short Name          | MODSBJ   |  |  |  |
|---------------------|--|--|--|--|
| Туре                | field  |  |  |  |
| Description         | This field records the subject descriptors for the module, and is a four character JACS2 code.   |  |  |  |
| Applicable to       | England NI Scotland Wal  | es   |  |  |
| Coverage            | All module subject record  | Is   |  |  |
| Base Data Type      | MODSBJCodeType   |  |  |  |
| Field Length        | 4  |  |  |  |
| Part Of             | Module subject   |  |  |  |
| Minimum Occurrences | 1  |  |  |  |
| Maximum Occurrences | 1  |  |  |  |
| Related Fields      | MODSBJP  |  |  |  |
| Reason Required     | To calculate the student load split out across the academic cost centres, and split across JACS2 codes.  |  |  |  |
| Notes               | The Joint Academic Coding System (JACS2) provides for all subjects to be coded according to a common, truly hierarchical, four-character subject code. JACS2 will be used substantially in subject representation across the sector, including for provision of quality assurance information.  The funding councils' advice is to consider the most detailed coding that can be used without unduly raising the burden, since there is an increasing interest in niche provision which often cannot be captured at the JACS2 principal subject level. For example, a progressively more detailed coding of 'microbiology' could be:   |  |  |  |
|                     | C500 Microbiology  The scientific study of micro-organisms encompassing major components of genetics and molecular biology. Includes bacteriology, virology, cell structure and function, and may include some immunology.   |  |  |  |
|                     | C520 Medical and veterinary microbiology   | The study of the interactions between micro-organisms and their hosts.       |  |  |
|                     | C521 Medical<br>microbiology   | The study of the interactions between micro-organisms and their human hosts. |  |  |
|                     | C522 Veterinary microbiology  The study of the interactions between micro-organiant their animal hosts.  |  |  |  |
|                     | From 2009/10 institutions are required to make appropriate use of the full 4 coding in all subject areas. This is needed to future-proof work on strategic and vulnerable subjects, so that as the landscape changes, it will be possible the past performance of newly important subjects. This requirement applies Courses and Modules. There will be some courses and modules where it reappropriate to code at principal subject level, but others where a more detay should be used. So for example, a general Biology course would continue as C100, but a specific course/module in Biodiversity would be coded C18 generic Religious Studies course would be V600, but as specific Islamic St would be V622. |  |  |  |

|                   | The generic codes that consist of a subject group and three zeroes (including Y000) cannot be used in this field.  Code G900 is not a valid entry for this field. |  |  |

# Subject percentage

| Short Name          | SBJPCNT  |  |  |
|---------------------|--|--|--|
| Туре                | field  |  |  |
| Description         | This field indicates the proportion of time allocated for each subject studied on a course It should contain an integer between 1 and 100.   |  |  |
| Applicable to       | England NI Scotland Wales  |  |  |
| Coverage            | All course subject records   |  |  |
| Base Data Type      | SBJPCNTType  |  |  |
| Field Length        | 3  |  |  |
| Part Of             | Course subject   |  |  |
| Minimum Occurrences | 1  |  |  |
| Maximum Occurrences | 1  |  |  |
| Related Fields      | SBJCA  |  |  |
| Reason Required     | To allow analysis and monitoring of the student population by subject of study.  |  |  |
| Notes               | This field allows institutions to assign their own percentages for joint honours courses. It is not expected that these percentages will be derived from a detailed analysis of the contributions of subjects to individual students' programmes of study but will instead be based on a broad assessment of the relative contributions of each subject. It is therefore expected that most institutions will apply the same percentages to all courses and only vary this where there is a substantially different expectation.  For institutions in England, Northern Ireland and Wales the listed standard percentages are recommended. Where broad assessment of the subject contributions markedly differs from these standard percentages alternative values can be returned.  For institutions in Scotland the listed standard percentages are obligatory.  Balanced 50 for each of the two subjects  Major - Minor 67 and 33  Triple 34, 33 and 33  For each Course entity the sum of SBJPCNT must equal 100.  The length of this field is 3 characters, however the move to XML enables data to be returned with or without leading zeros, e.g. 003 or 3. |  |  |
| Owner               | HESA   |  |  |
| Version             | 1.0  |  |  |
| Business rules      | 1 Error For each Course entity the sum of CourseSubject.SBJPCNT must equal 100. 2 Error All CourseSubject.SBJPCNT must be coded '50' where any CourseSubject.SBJCA = F000 or C000 and Course.TTCID = 1 or 8 and any Instance.ITTPHSC = 24 -26, 51 - 57, or 78 - 82.  |  |  |

| 3 Error | CourseSubject.SBJPCNT must contain '33, 34, 50, 67 or 100 for institutions in Scotland. |
|---------|---|

# **Suspension of active studies**

| Short Name          | NOTACT  |
|---------------------|---|
| Туре                | field   |
| Description         | This field indicates whether a student has suspended study and is no longer actively studying on this student instance. In these cases <a href="Instance.RSNEND">Instance.RSNEND</a> and <a href="Instance.ENDDATE">Instance.ENDDATE</a> would not be completed.  |
| Applicable to       | England NI Scotland Wales   |
| Coverage            | Compulsory where the student has suspended studies on this student instance and fields <a href="Instance.RSNEND">Instance.RSNEND</a> and <a href="Instance.ENDDATE">Instance.RSNEND</a> and <a href="Instance.ENDDATE">Instance.ENDDATE</a> are not completed   |
| Base Data Type      | NOTACTCodeType  |
| Field Length        | 1   |
| Part Of             | Instance  |
| Minimum Occurrences | 0   |
| Maximum Occurrences | 1   |
| Reason Required     | To allow institutions to temporarily complete a record where Reason for leaving and Date left are not completed.  |
|                     | For progression monitoring and linkage, and for supporting population definitions.  |
| Notes               | This field is used to indicate a student was active during the reporting period but has now suspended studies. A student who was not active at any time during the reporting year should be returned as code 63 or 64 'dormant' in <a href="Instance.MODE">Instance.MODE</a> .  |
|                     | An entry in this field is not required if the student has completed/left the student instance ( <a href="Instance.RSNEND">Instance.RSNEND</a> and <a href="Instance.ENDDATE">Instance.ENDDATE</a> completed). Similarly an entry in this field is not required if the student has been dormant for the whole year ( <a href="Instance.MODE">Instance.MODE</a> codes 63 or 64). However, students with <a href="Instance.MODE">Instance.MODE</a> of 73 and 74 should be coded 1 Student has suspended studies. |
|                     | Once a record has been returned with an entry in this field, a record with the same HIN will not be required in subsequent years unless the student returns to resume the instance or a record is being returned to end the instance (by completing ( <a href="Instance.RSNEND">Instance.RSNEND</a> , <a href="Instance.ENDDATE">Instance.ENDDATE</a> and <a href="QualificationsAwarded.QUAL">QualificationsAwarded.QUAL</a> (where relevant)).  |
|                     | Code 2 DH/NHS student temporarily stepping-off HIN  |
|                     | The reasons for stepping-on and off are many and varied. The DH core definition of such stepping-off points would be: 'a student who takes a break in study, at an agreed appropriate time, and who plans to return to join a later cohort from the one with which they originally started'.  |
|                     | This provides individuals with the ability to enter or leave a programme of education at a given point, providing maximum flexibility, thereby enabling an individual to consider alternative options of employment and education.  |

|                          | For example, the new nursing programme allows for stepping-off points at the end of Year 1 (following successful completion of the Common Foundation Programme) and throughout the course. |  |  |

## **Teacher Reference Number**

| Short Name          | TREFNO  |
|---------------------|---|
| Туре                | field   |
| Description         | This field holds the reference number allocated to each student prior to course completion for the training of teachers.  |
| Applicable to       | England Scotland Wales  |
| Coverage            | Compulsory for instances at institutions in England, Wales or Scotland where <u>Course.TTCID</u> = 1 or 8 and <u>QualificationsAwarded.OUTCOME</u> = 1 and <u>QualificationsAwarded.QUAL</u> = H11 or I11 and <u>Instance.REDUCEDI</u> = 00 or 04   |
| Base Data Type      | xs:string   |
| Field Length        | 9   |
| Part Of             | Instance  |
| Minimum Occurrences | 0   |
| Maximum Occurrences | 1   |
| Related Fields      | TTCID<br>OUTCOME  |
| Reason Required     | To link with teaching career information; used by the TDA, and GTCW in Wales.   |
| Notes               | This number will stay with the teacher throughout their career within the teaching profession.  |
|                     | For institutions in Scotland, the reference number required is the six digit number allocated to each student prior to course completion of pre-service courses for the training of teachers. The first 2 digits denote the expected year of qualification (the last 2 digits of the year).   |
|                     | For institutions in England and Wales the reference number required is the Teacher Reference Number (formerly known as a DfES number). The number is allocated by the GTCE when details of a trainee are entered onto their system and the trainee's record created. The number allocated is a seven digit number.  |
|                     | Overseas students not allocated a teacher reference number should be coded 999999999.   |
|                     | A relevant qualification in <u>QualificationsAwarded.QUAL</u> would be code H11 'First degree with honours leading to QTS/registration with a GTC', I11 'Ordinary (non-honours) first degree leading to QTS/registration with a GTC', M71 'Post-Graduate Certificate in Education or Professional Graduate Diploma in Education' or H71 'Professional Graduate Certificate in Education'. |
|                     | A code H11 or I11 in <u>QualificationsAwarded.QUAL</u> would generate an error if <u>Instance.TREFNO</u> is blank; codes M71 or H71 in <u>QualificationsAwarded.QUAL</u> would generate a warning if <u>Instance.TREFNO</u> is blank.   |
| Owner               | The Teaching Councils   |

| Version        | 1.0   |
|----------------|---|
| Business rules | 1 Error Instance.TREFNO must exist for institutions in England or Wales where the corresponding (QualificationsAwarded.OUTCOME = 1 and QualificationsAwarded.QUAL = H11 or I11) and Course.TTCID = 1 or 8 and Instance.REDUCEDI = 00 or 04.  2 Error Instance.TREFNO must not exist for institutions in Northern Ireland.  3 Warning Instance.TREFNO should exist for institutions in England or Wales where the corresponding (QualificationsAwarded.OUTCOME = 1 and QualificationsAwarded.QUAL = M71 or H71) and Course.TTCID = 1 or 8 and Instance.REDUCEDI = 00 or 04.  4 Error Instance.TREFNO must exist for institutions in Scotland where |
|                | QualificationsAwarded.QUAL = H11 or I11 and Course.TTCID = 1 or 8 and Instance.REDUCEDI = 00 or 04.  5 Warning Instance.TREFNO should exist for institutions in Scotland where QualificationsAwarded.QUAL = M71 or H71 and Course.TTCID = 1 or 8 and Instance.REDUCEDI = 00 or 04.  |

# **Teacher training course**

| Short Name          | TTCID   |
|---------------------|---|
| Туре                | field   |
| Description         | This field is a one character field completed for students on courses that lead to teacher qualifications. The selection will determine the type of the teacher training.   |
| Applicable to       | England NI Scotland Wales   |
| Coverage            | All courses where <u>Course.REDUCEDC</u> = 00, 01, 04, 06 or 07 unless institution in Wales and <u>Course.COURSEAIM</u> begins with P, Q, R, S or X   |
| Base Data Type      | TTCIDCodeType   |
| Field Length        | 1   |
| Part Of             | Course  |
| Minimum Occurrences | 0   |
| Maximum Occurrences | 1   |
| Related Fields      | QTS<br>ITTPHSC  |
| Reason Required     | To identify and discriminate between teacher training students.   |
| Notes               | Institutions in Wales can only use codes 0, 1, 2 and 5.   |
|                     | Students funded by DELNI on courses leading to eligibility to teach in Northern Ireland should be coded 1 in this field.  |
|                     | Code 1 includes PGCE, BEd, first degree with Qualified Teacher Status and courses leading concurrently to a degree and to a diploma in Education.   |
|                     | Code 2 includes courses leading to Further Education Teacher Qualification and to Nursing and Midwifery Teacher Qualification. FE courses will be specifically identified in <a href="Course.ITTPHSC">Course.ITTPHSC</a> code 31 'Further education'.   |
|                     | Code 5: TDA and HEFCE have given a working definition of an INSET course as follows:  |
|                     | An INSET/In-service course is one for which the primary (but not necessarily the only) purpose is to improve the effectiveness of teachers, lecturers or trainers. In considering whether this is the purpose of particular course, institutions may wish to consider the content of the course and course literature, including prospectuses and any other marketing material. |
|                     | Institutions are not expected to return a record to HESA for students on employment-based routes (e.g. GTP, OTT and RTP). The TDA collects this data via the Employment Based Routes Data Management System (EBRDMS).   |
|                     | Codes E (Student Associates Scheme) and F (Subject Knowledge Enhancement) instances will not be included in HESA standard populations. Codes E and F must only  |

|                          | be used for   | TDA-funded provision.   |  |
|--------------------------|---|---|--|
|                          | Masters in Teaching and Learning (MTL) students must be coded 9 'Other TDA funded provision not elsewhere specified' in this field. MTL students must be identified as such using the M02 code in Course.COURSEAIM field. |   |  |
| Owner                    | HESA  |   |  |

# **Term-time postcode**

| Short Name          | TTPCODE   |  |  |
|---------------------|---|--|--|
| Туре                | field   |  |  |
| Description         | This field records a postcode for the student's term-time address at some point during the reporting year   |  |  |
| Applicable to       | England NI Scotland Wales   |  |  |
| Coverage            | All students where any ( <u>Instance.LOCSDY</u> does not equal 6, 9, D, F or S and <u>Instance.REDUCEDI</u> = 00, 06 or 07) unless institution in Wales and <u>Course.COURSEAIM</u> begins with P, Q, R, S or X.  |  |  |
| Base Data Type      | PostCodeWithNullStructure   |  |  |
| Field Length        | 8   |  |  |
| Part Of             | Student   |  |  |
| Minimum Occurrences | 0   |  |  |
| Maximum Occurrences | 1   |  |  |
| Related Fields      | TTACCOM   |  |  |
| Reason Required     | To allow estimates to be made of local student populations.   |  |  |
| Examples            | A typical postcode such as GL50 3DA would be coded with a blank in the fifth character position. A postcode such as B1 6SR would have a blank in position 3. The part of the postcode before the space is known as the outward part of the postcode and can be 2, 3 or 4 characters long. The part of the postcode after the space is known as the inward part of the postcode and is a fixed length of 3 characters. The space between the outward and inward parts of the postcode must always be shown as part of the postcode.  There is further guidance on valid postcode formats at:  http://www.govtalk.gov.uk/gdsc/html/frames/PostCode-2-1-Release.htm. The business rule structure validation is slightly less strict than that described in UK Government Data Standards Catalogue, as not all parsers will support the full GDSC definition. All postcodes are validated against valid postcodes at exception. |  |  |
| Notes               | This field is required for all students except those studying by distance learning and those on placements.  This can be a postcode from any point during term-time, but should not be a correspondence or summer contact address. It is expected that in many cases the postcode will change between years. Where students spend all or part of the year in a hall of residence the institution will be able to insert a generic postcode for that that hall into all of the relevant records.   |  |  |
|                     | Although completion of the field will be compulsory for all students, 'Unknown' values will be acceptable. If no valid postcode (full or outward only) can be ascertained an empty element should be returned with the ReasonForNull attribute set to 1 (not known), i.e:   |  |  |
|                     | <ttpcode reasonfornull="1"></ttpcode>   |  |  |

|                         | T   |  |  |  |
|-------------------------|---|--|--|--|
|                         | It will be possible to provide only the outward part of the postcode if this is all that is known, although that is not expected to arise commonly.   |  |  |  |
|                         | Postcodes returned must pass schema validation of format. Individual postcodes will be validated against the Royal Mail list but only a warning rather than an error will be generated if validation fails. This is intended to assist institutions that attach importance to the accuracy of their contact information but who may not be in a position to validate postcodes themselves.  |  |  |  |
|                         | British Forces Post Office (BFPO) postcodes   |  |  |  |
|                         | Where BFPO codes relate to UK locations, institutions will need to locate the Royal Mail equivalent postcode for the base. If this is not known, then an empty element must be returned with the ReasonForNull attribute set to 1 (not known), i.e:   |  |  |  |
|                         | <postcode reasonfornull="1"></postcode>   |  |  |  |
|                         | There is further guidance on valid postcode formats at: <a href="http://www.govtalk.gov.uk/gdsc/html/frames/PostCode-2-1-Release.htm">http://www.govtalk.gov.uk/gdsc/html/frames/PostCode-2-1-Release.htm</a> . The business rule structure validation will be slightly less strict than that described in UK Government Data Standards Catalogue, as not all parsers will support the full GDSC definition. All postcodes are validated against valid postcodes at exception.  |  |  |  |

| Change management notes | Business rule 1updated to exclude Instance.LOCSDY = S from and add Instance.REDUCEDI = 06 or 07 the coverage of the field   |  |  |  |
| Business rules          | 1 Error Student.TTPCODE must exist where any Instance.LOCSDY does not equal 6, 9, D, F or S and the corresponding Instance.REDUCEDI = 00, 06 or 07 unless institution in Wales and Course.COURSEAIM begins with P, Q, R, S or X.  2 Error Where exists Student.TTPCODE must not equal EntryProfile.POSTCODE where Student.TTACCOM = 1 or 9.  3 Error Student.TTPCODE must not be null except when ReasonForNull = 1.  4 Error Student.TTPCODE must be null when ReasonForNull = 1.  5 Error Where exists Student.TTPCODE must contain: a valid full postcode structure or a valid outward postcode structure.  6 Error Student.TTPCODE must not be null when Student.TTACCOM = 1.  7 Warning Student.TTPCODE should not be null when Student.TTACCOM = 9.  8 Warning Where exists Student.TTPCODE should not equal EntryProfile.POSTCODE where Student.TTACCOM = 8. |  |  |  |

# Type of instance year

| Short Name          | TYPEYR   |   |         |  |
|---------------------|--|---|---------|--|
| Туре                | field  |   |         |  |
| Description         | This field identifies which of the basic types academic year is applicable to the instance.  |   |         |  |
| Applicable to       | England NI Scotlar   | nd Wales  |         |  |
| Coverage            | All instances where  | All instances where <u>Instance.REDUCEDI</u> = 00 or 01 |         |  |
| Base Data Type      | TYPEYRCodeType   | е   |         |  |
| Field Length        | 1  |   |         |  |
| Part Of             | Instance   |   |         |  |
| Minimum Occurrences | 0  |   |         |  |
| Maximum Occurrences | 1  |   |         |  |
| Related Fields      | STULOAD  |   |         |  |
| Reason Required     | To show the relationship between the instance academic year and the HESA reporting year, to support population definitions and to ensure single-counting.                                    |   |         |  |
| Examples            | A student completes a foundation degree in June 2008 and then undertakes a bridgin course from July to September and then joins the final year of a degree which they complete in June 2009. |   |         |  |
|                     | Field  | 2007/08   | 2008/09 |  |
|                     | COURSEAIM  | J10   | H100    |  |
|                     | STULOAD  | 100.0   | 130.0   |  |
|                     | TYPEYR   | 1   | 1       |  |
|                     | BRIDGE   | 0   | 1       |  |
| Notes               | The HESA reporting year runs from the 1 August - 31 July.  |   |         |  |
|                     | Instance academic years that are contained within the HESA reporting year should be coded 1.   |   |         |  |
|                     | Instance academic years which overlap HESA reporting years should be sequentially coded 3, (4), 5 in consecutive HESA returns, or may be coded 2.  |   |         |  |
|                     | Postgraduate research students would usually be coded as being on non-standard years.  |   |         |  |
|                     | Institutions in Scotland and Wales can only use codes 1 or 2.  |   |         |  |
|                     | Code 3 implies commencing an instance without having done another year of instance in the same HESA reporting period.  |   |         |  |

Code 5 implies finishing one instance academic year and not starting a further year of the instance in the same HESA reporting year. Information is required at instance level. It is not expected that adjustments should be made for individual students whose pattern may be slightly different e.g. a student who starts a course late. Where a student's studies include, within the same instance, a foundation degree to degree bridging course this bridging course element will be shown by code 1 'Foundation degree to degree bridging course' in Instance.BRIDGE and an increased FTE in Instance.STULOAD. Where the bridging course spans HESA reporting years the FTE should all be returned in the second HESA reporting year, this may differ from the method used for other non-standard instance academic years. Institutions should also indicate in Instance.BRIDGE that the student has studied a foundation degree to degree bridging course only in the year in which the FTE is increased. It may be that the inclusion of a foundation degree to degree bridging course means that the year of instance becomes non-standard ie. no longer contained within the HESA reporting year. However, where the year would otherwise have been recorded as a standard academic year the year should still be recorded as such in this field. Large numbers of students have Instance. TYPEYR recorded incorrectly, or are changing from non-standard to standard academic years between HESA reporting periods. Institutions are reminded that any student on a full-year course will be on a non-standard academic year, and therefore it is expected that most masters and doctoral students will be returned with a Instance. TYPEYR other than 1. In general, students should not change between non-standard and standard academic years; the only exception being where the course includes a partial year that starts and completes within one HESA reporting period. An example of such a case would be a student on an 18 month masters programme starting in October, that would be recorded as Instance.TYPEYR=2 in the first HESA return and Instance.TYPEYR=1 in the second. **HESA** Owner Version 1.1 Date modified 2010-02-15 Change management New final paragraph added to clarify correct coding of this field notes **Business rules** 1 Error Instance.TYPEYR must exist where Instance.REDUCEDI = 00 or 01 unless institution in Wales and Course.COURSEAIM begins with P, Q, R, S or X. 2 Error Instance.TYPEYR must be coded 1 or 2 by institutions in Scotland or Wales. 3 Warning Instance.TYPEYR should not be coded 1 where Instance.FUNDCOMP = 3. 4 Error Instance.TYPEYR must be coded 1 where Instance.COMDATE is greater than or equal to 1 August of the reporting period and Instance.ENDDATE (if not null) is less than or equal to 31 July of the reporting period and Instance.FUNDCOMP =1. 5 Error Instance.TYPEYR must be coded 1 where Instance.COMDATE in range 01 August - 31 December (regardless of year) and Instance. ENDDATE in range 01 January - 31 July (regardless of year) and Instance.RSNEND is coded 01 or 98. 6 Warning Instance.TYPEYR should not be coded 1 where Instance.FUNDLEV = 11, 21 or 31 and anniversary of Instance.COMDATE in academic year > 20 September and Instance.MODE = 01. Warning Instance.TYPEYR should not be coded 1 where Course.COURSEAIM begins D or L. Valid Entries and Course academic year contained within the HESA reporting year 1 August

# **UCAS Application Number**

| Short Name          | UCASAPPID   |  |  |
|---------------------|---|--|--|
| Туре                | field   |  |  |
| Description         | This field is the UCAS application code/number, which is a four or nine character code issued by UCAS   |  |  |
| Applicable to       | England NI Scotland Wales   |  |  |
| Coverage            | All entrants who entered this Instance via a UCAS scheme  |  |  |
| Base Data Type      | UCASAPPIDType   |  |  |
| Field Length        | 9   |  |  |
| Part Of             | Entry profile   |  |  |
| Minimum Occurrences | 0   |  |  |
| Maximum Occurrences | 1   |  |  |
| Related Fields      | UCASPERID   |  |  |
| Reason Required     | To identify students who entered their current instance via a UCAS application system and to facilitate linking between UCAS and HESA records.  |  |  |
| Notes               | The UCAS Application Code/Number together with the UCAS Personal identifier (Student.UCASPERID) forms the UCAS Application Identifier. The application code/number will normally be a four character code (two alpha and two numeric) or the old style UCAS Application Number of nine numeric characters.  This field is used by HESA to identify and validate students who entered an HEI through   |  |  |
|                     | a UCAS scheme.  |  |  |
| Owner               | UCAS  |  |  |
| Version             | 1.0   |  |  |
| Business rules      | 2 Error EntryProfile.UCASAPPID must pass the checksum test as applied to Student.HUSID where it is nine characters long and (digits 1-8 are not in ranges 06000999 to 06009996 inclusive or 06690999 to 06692257 inclusive).  3 Error Where EntryProfile.UCASAPPID digits 1-8 are in ranges (06000999 to 06009996 inclusive or 06690999 to 06692257 inclusive), this field must pass either the checksum test as applied to Student.HUSID or the 'incorrectly calculated checksum' test, details of which are in the student circular: http://www.hesa.ac.uk/circulars/student/2006/06_04.html.  4 Error Where EntryProfile.UCASAPPID exists it must be nine characters long where Student.UCASPERID does not exist.  5 Error EntryProfile.UCASAPPID must not contain all zeros.  6 Warning EntryProfile.UCASAPPID should be four characters long where Student.UCASPERID exists. |  |  |

### **UCAS Personal Identifier**

| Short Name          | UCASPERID   |  |
|---------------------|---|--|
| Туре                | field   |  |
| Description         | This field records the 10-character code issued by UCAS.  |  |
| Applicable to       | England NI Scotland Wales   |  |
| Coverage            | All students who entered any of their current instances from 2007 onwards via a UCAS scheme and who have been issued a UCAS Personal Identifier   |  |
| Base Data Type      | UCASPERIDType   |  |
| Field Length        | 10  |  |
| Part Of             | Student   |  |
| Minimum Occurrences | 0   |  |
| Maximum Occurrences | 1   |  |
| Related Fields      | UCASAPPID   |  |
| Reason Required     | To identify students who entered a current instance via a UCAS application system and to facilitate linking between UCAS and HESA records.  |  |
| Notes               | The UCAS Personal Identifier together with the UCAS application number (EntryProfile.UCASAPPID) forms the UCAS Application Identifier. The UCAS Personal Identifier is sometimes presented using hyphens between characters 3 and 4 and between characters 6 and 7. These hyphens are not to be included in this field in the Student Record.  This information will be available from UCAS via the *J transaction. |  |
| Owner               | UCAS  |  |
| Version             | 1.0   |  |
| Business rules      | 2 Error Student.UCASPERID must exist where any EntryProfile.UCASAPPID exists and is a 4 character code.   |  |

### **UK Provider Reference Number**

| Short Name          | UKPRN   |  |
|---------------------|---|--|
| Туре                | field   |  |
| Description         | This field records the UK Provider Reference Number which is the unique identifier allocated to institutions by the <u>UK Register of Learning Providers (UKRLP)</u> .  |  |
| Applicable to       | England NI Scotland Wales   |  |
| Coverage            | All institutions  |  |
| Base Data Type      | UKPRNType   |  |
| Field Length        | 8   |  |
| Part Of             | Institution   |  |
| Minimum Occurrences | 1   |  |
| Maximum Occurrences | 1   |  |
| Reason Required     | To identify source of record; used by HESA and all Statutory Customers to identify institution of student.  |  |
| Notes               | A single register of learning providers is being developed, and the specification of this field falls within the scope of the Aligned Data Definitions and follows the <a href="DataStandards">DataStandards in the HESA student record</a> . In the long-term it is anticipated that the UKPRN will replace the plethora of institution identifiers used by different organisations in the education sector. |  |
|                     | A software developers toolkit - to support the development of UKRLP web services - can be found by following the Software Development Kit link from <a href="http://schemas.lsc.gov.uk/">http://schemas.lsc.gov.uk/</a> .   |  |
| Owner               | UK Register of Learning Providers   |  |
| Version             | 1.0   |  |

# **Unique Learner Number**

| Short Name          | ULN   |  |  |
|---------------------|---|--|--|
| Туре                | field   |  |  |
| Description         | This field records a 10-digit numeric identifier.   |  |  |
| Applicable to       | England NI Scotland Wales   |  |  |
| Coverage            | Compulsory for those students who have been issued with a ULN   |  |  |
| Base Data Type      | UniqueLearnerNumberType   |  |  |
| Field Length        | 10  |  |  |
| Part Of             | Student   |  |  |
| Minimum Occurrences | 0   |  |  |
| Maximum Occurrences | 1   |  |  |
| Reason Required     | To facilitate linking between years of HESA data and between the Student Record and other data sources.   |  |  |
| Notes               | The Unique Learner Number (ULN) is being developed, and the specification of this field falls within the scope of the Aligned Data Definitions and follows the <a href="Data">Data</a> <a href="Standards">Standards in the HESA student record</a> . In the long-term it is anticipated that the ULN will replace the plethora of personal identifiers used by different organisations in the education sector.  The UN is a ten digit purple a with a per page appears in the first position and a check. |  |  |
|                     | The ULN is a ten-digit number with a non-zero number in the first position and a check digit in the final position. Further information regarding the ULN from the MIAP web site can be found <a href="https://example.com/here">here</a> . Since the ULN is issued by the Learner Registration Service, an institutions' only obligation will be to check the validity of the number by performing the checksum validation test below.   |  |  |
|                     | The ULN checksum follows the same basic principles as the NHS number, but has been designed to ensure that there is no replication of ULN and NHS number. The checksum validation process is as follows:  |  |  |
|                     | <ul> <li>Check that the first digit is nonzero</li> <li>Sum the product of the digits multiplied by the weights 10, 9, 8, 7, 6, 5, 4, 3, 2, 1</li> <li>Divide this number by 11</li> </ul>  |  |  |
|                     | The remainder should be 10.   |  |  |
|                     | (e.g. ULN 9276308686. (9*10)+(2*9)+(7*8)+(6*7)+(3*6)+(0*5)+(8*4)+(6*3) +(8*2)+(6*1) = 296. 296/11=26, remainder 10)   |  |  |
|                     | For additional information, an Excel spreadsheet showing how the final check digit (and leading digit for Scottish Candidate Number (SCN) based ULNs) is calculated can be downloaded <a href="https://example.com/here/here/">here</a> .   |  |  |
| Owner               | Information Standards Board - Aligned Data Definitions  |  |  |
| Version             | 1.0   |  |  |

| Business rules | 1 Error | Student.ULN must pass the checksum test. |
|----------------|---------|--|
|----------------|---------|--|

## Unit of assessment percentage

| Short Name          | UOAPCNT  |  |  |
|---------------------|--|--|--|
| Туре                | field  |  |  |
| Description         | This field collects the proportion where a student is supervised by more than one member of staff and these supervisors are returned in more than one Unit of Assessment (UOA); the student may be returned split either according to the agreed division of responsibility, or in proportion to the number of supervisors. Research students should be returned to the UOA in which their supervisor is returned.  This field can contain a value between 0 and 100 and can be recorded to one decimal place. |  |  |
| Applicable to       | England NI Scotland Wales  |  |  |
| Coverage            | All RAEData records  |  |  |
| Base Data Type      | PercentType  |  |  |
| Field Length        | 5  |  |  |
| Part Of             | RAE Data   |  |  |
| Minimum Occurrences | 1  |  |  |
| Maximum Occurrences | 1  |  |  |
| Related Fields      | UOA2008  |  |  |
| Reason Required     | Collection of this information will allow better monitoring of funding allocations by UOA.   |  |  |
| Notes               | This field occurs as a pair with <a href="RAEData.UOA2008">RAEData.UOA2008</a> with a maximum of 3 pairs permitted.  The sum of RAEData.UOAPCNT must equal 100 for each instance in which it occurs.   |  |  |
| 0                   | LUEGA  |  |  |
| Owner               | HESA   |  |  |
| Version             | 1.0  |  |  |
| Business rules      | 1 Error For each Instance in which it occurs the sum of RAEData.UOAPCNT must equal 100.  |  |  |

# Units of length

| Short Name                  | UNITLGTH  |  |
|-----------------------------|---|--|
| Туре                        | field   |  |
| Description                 | This field denotes the units of length associated with Instance.SPLENGTH.   |  |
| Applicable to               | England NI Scotland Wales   |  |
| Coverage                    | All instances where <u>Instance.REDUCEDI</u> = 00, 01 or 02   |  |
| Base Data Type              | UNITLGTHCodeType  |  |
| Field Length                | 1   |  |
| Part Of                     | Instance  |  |
| Minimum Occurrences         | 0   |  |
| Maximum Occurrences         | 1   |  |
| Related Fields              | SPLENGTH  |  |
| Reason Required             | To monitor patterns of study.   |  |
| Notes                       | Only in cases where <u>Instance.SPLENGTH</u> is null, unknown length, may this field be coded 9.  |  |
|                             | Semesters, trimesters and terms are not of uniform length throughout the sector and should be converted into years/months/weeks.  |  |
|                             | The lowest appropriate value of UNITLGTH should be used e.g. length should be expressed in terms of years, if appropriate, rather than months.  |  |
|                             | Foundation and sandwich years   |  |
|                             | It is not expected that the length of study be adjusted for individual students. However, where there are different options that students can take, for example, foundation years and sandwich placements, it is expected that the length reflects the options taken. For example, where a student undertakes an integrated foundation year it is normally expected that the length be recorded as one year longer than if the student had just taken a stand-alone degree. |  |
| Owner                       | HESA  |  |
| Version                     | 1.0   |  |
| Business rules              | 1 Error Instance.UNITLGTH must exist where Instance.REDUCEDI = 00, 01 or 02. 2 Error Instance.UNITLGTH cannot be coded 5 by institutions in England where Instance.FESTUMK = 1 or 3.  |  |
|                             | 3 Error Instance.UNITLGTH code 9 must have Instance.SPLENGTH  |  |
|                             | ReasonForNull = 9 4 Error Instance.UNITLGTH must be coded 9 where Instance.SPLENGTH ReasonForNull = 9   |  |

# **Welsh Baccalaureate Advanced Diploma**

| Short Name              | WELBACC   |  |  |
|-------------------------|---|--|--|
| Туре                    | field   |  |  |
| Description             | This field identifies those students who undertook a Welsh Baccalaureate Advanced Diploma course and also distinguishes those students who were awarded the qualification from those students who were not awarded the qualification  |  |  |
| Applicable to           | England NI Scotland Wales   |  |  |
| Coverage                | All Welsh domiciled entrants at institutions in Wales (and optional for all Welsh domiciled entrants at institutions in England, NI or Scotland) where <a href="Course.COURSEAIM">Course.COURSEAIM</a> begins H, I, J or C and where <a href="Instance.REDUCEDI">Instance.REDUCEDI</a> = 00 or 04   |  |  |
| Base Data Type          | WELBACCCodeType   |  |  |
| Field Length            | 1   |  |  |
| Part Of                 | Entry profile   |  |  |
| Minimum Occurrences     | 0   |  |  |
| Maximum Occurrences     | 1   |  |  |
| Reason Required         | This field is a requirement of the Welsh Assembly Government (WAG) following the introduction of the new Welsh Baccalaureate qualification programme in September 2003. The Welsh Assembly Government has set the target that 25% of students in Wales will be following the Welsh Baccalaureate by 2010.  Monitoring and analysis of the numbers of students entering HE with the Welsh Baccalaureate Advanced Diploma.            |  |  |
| Notes                   | Optional for Welsh domiciled students at institutions in England, Northern Ireland and Scotland.  The Welsh Baccalaureate Advanced Diploma is comprised of two parts: Core and  |  |  |
|                         | Options. Core consisting of four components, i.e. Key Skills, Wales, Europe and the World, Work-related Education and Personal and Social Education. Options courses/programmes currently offered, e.g. GCSE, VGCSE, AS/A levels, VCE (Vocational A levels), GNVQ, NVQ, BTEC. Together, the Core and Options make up the Welsh Baccalaureate Advanced Diploma, a qualification at Level 3 of the National Qualifications Framework. |  |  |
|                         | For clarification, any students undertaking a course leading to the Welsh Baccalaureate Intermediate Diploma, a qualification at Level 2 of the National Qualifications Framework, should be coded 3 'Student did not undertake the Welsh Baccalaureate Advanced Diploma course' in this field.   |  |  |

| Valid Entries and<br>Labels | 1 Fluent Welsh speaker 2 Welsh speaker not fluent 3 Not Welsh speaker 9 Not known   |  |  |

### Year left last institution

| Short Name          | YRLLINST  |  |  |
|---------------------|---|--|--|
| Туре                | field   |  |  |
| Description         | This field is a four digit number linked to <a href="EntryProfile.PREVINST">EntryProfile.PREVINST</a> , denoting the year in which the student left the previous institution.   |  |  |
| Applicable to       | Scotland  |  |  |
| Coverage            | All entrants to institutions in Scotland where <u>EntryProfile.ARTICLN</u> = 1, 2, 3 or 4   |  |  |
| Base Data Type      | YearWithUnknownType   |  |  |
| Field Length        | 4   |  |  |
| Part Of             | Entry profile   |  |  |
| Minimum Occurrences | 0   |  |  |
| Maximum Occurrences | 1   |  |  |
| Related Fields      | PREVINST  |  |  |
| Reason Required     | This information is used by the Scottish Executive (Scottish Government) in projections and planning for the sector and analysis of trends in the take-up of higher education. Knowing the year left last institution helps with the matching of students to their previous study details at another institution. |  |  |
|                     | Information about articulating students is required by the Scottish Executive (Scottish Government) who wish to compare educational outcomes for those students moving without a gap into a course at an HEI and those who have left a gap of a year or more  |  |  |
| Notes               | Code 9999 should be used for 'Not known'.   |  |  |
| Owner               | HESA  |  |  |
| Version             | 1.0   |  |  |
| Business rules      | 1 Error EntryProfile.YRLLINST must exist for institutions in Scotland where EntryProfile.ARTICLN = 1, 2, 3 or 4. 2 Error EntryProfile.YRLLINST must not exist for institutions in England, Northern Ireland or Wales.   |  |  |

### Year of course

| Short Name          | YEARPRG   |         |         |  |  |
|---------------------|---|---------|---------|--|--|
| Туре                | field   |         |         |  |  |
| Description         | This field indicates the year number of the course that the student is currently studying. This could be different from the year of student if the student has changed course or re-taken a year.   |         |         |  |  |
| Applicable to       | England NI Scotland Wales   |         |         |  |  |
| Coverage            | All instances where <u>Instance.REDUCEDI</u> = 00 or 01 unless institution in Wales and <u>Course.COURSEAIM</u> begins with P, Q, R, S or X.  |         |         |  |  |
| Base Data Type      | xs:nonNegativeInteger   |         |         |  |  |
| Field Length        | 2   |         |         |  |  |
| Part Of             | Instance  |         |         |  |  |
| Minimum Occurrences | 0   |         |         |  |  |
| Maximum Occurrences | 1   |         |         |  |  |
| Related Fields      | YEARSTU   |         |         |  |  |
| Reason Required     | To track student progression; used in conjunction with YEARSTU, for example, for the identification of direct entrants to later years of programmes, and to identify courses with a foundation year, to support entry qualification calculations, and to identify students for inclusion in the National Students Survey.   |         |         |  |  |
| Notes               | Courses of less than one year should be coded 1 in this field.  |         |         |  |  |
|                     | Institutions may return code 99 if the course structure does not enable Year of course to be derived.   |         |         |  |  |
|                     | In cases where foundation years are integral to degree programmes, the foundation year should be shown as Year 0 in this field and 'degree' in <a href="Course.COURSEAIM">Course.COURSEAIM</a> . This will allow a clear distinction to be made between stand-alone Foundation courses and those which are integral to degree programmes. The relationship between this field and <a href="Instance.YEARSTU">Instance.YEARSTU</a> in these circumstances is shown in the table below. |         |         |  |  |
|                     | Year  | YEARSTU | YEARPRG |  |  |
|                     | Foundation year   | 1       | 0       |  |  |
|                     | First year  | 2       | 1       |  |  |
|                     | Second year   | 3       | 2       |  |  |
|                     | Third year  | 4       | 3       |  |  |
|                     | This field should not increment for students who are writing-up, but <a href="Instance.YEARSTU">Instance.YEARSTU</a> would increment on the anniversary of their starting date.   |         |         |  |  |
|                     | This field should be incremented for each year of a course a student studies. Therefore, where students do not repeat any studies, year of course will increment each reporting year. In particular, where students study full-time courses on a part-time basis the year of course should still increment every year. For example, if a student is studying a degree normally taken full-time over 3 years, over 6 years part-time, the year of course                               |         |         |  |  |

|                | should start at 1 and increase each reporting year to 6.  The length of this field is 2 characters, however the move to XML enables data to be returned with or without leading zeros, e.g. 03 or 3.   |  |  |
|----------------|--|--|--|
| Owner          | HESA   |  |  |
| Version        | 1.0  |  |  |
| Business rules | 1 Error Instance.YEARPRG must exist where Instance.REDUCEDI = 00 or 01 unless institution in Wales and Course.COURSEAIM begins with P, Q, R, S or X.  2 Warning Instance.YEARPRG code 0 should have Course.COURSEAIM beginning with H or I.  3 Warning Instance.YEARPRG should be less than or equal to Instance.SPLENGTH where Instance.UNITLGTH = 1 and Instance.MODE < 40 and Instance.YEARPRG is not coded 99. |  |  |

### Year of student on this instance

| Short Name          | YEARSTU  |  |  |
|---------------------|--|--|--|
| Туре                | field  |  |  |
| Description         | This field indicates the year number that the student is in since enrolling for a course leading to the student's qualification aim (whether or not the intended subject or class has changed) i.e. number of years on this student instance. This could be different from the year of course if the student has changed course or retaken a year. |  |  |
| Applicable to       | England NI Scotland Wales  |  |  |
| Coverage            | All instances where <u>Instance.REDUCEDI</u> = 00 unless institution in Wales and <u>Course.COURSEAIM</u> begins with P, Q, R, S or X.   |  |  |
| Base Data Type      | YEARSTUType  |  |  |
| Field Length        | 2  |  |  |
| Part Of             | Instance   |  |  |
| Minimum Occurrences | 0  |  |  |
| Maximum Occurrences | 1  |  |  |
| Related Fields      | YEARPRG  |  |  |
| Reason Required     | To track student progression; used in conjunction with instance.YEARPRG.   |  |  |
| Examples            | Examples of the way in which this updated over time can be found in the HIN guidance document.   |  |  |
| Notes               | The year of postgraduate research students should increment on the anniversary of their starting date.   |  |  |
|                     | Students whose first term is waived should be deemed to have started when that first term would have started.  |  |  |
|                     | This field should not be incremented for periods of dormancy, i.e. codes 63 or 64 in <a href="instance.MODE">instance.MODE</a> . For example, if a student becomes dormant after their first year of study, and remains out of the system for one year, on resuming their studies this field would be returned as 02.                              |  |  |
|                     | This field should be incremented for a sandwich placement year and both compulsory and optional years out.   |  |  |
|                     | In cases where a student has to repeat a year, this field should be incremented.   |  |  |
|                     | It is not expected that there would be many students where this field is greater than 10 years.  |  |  |
|                     | Further guidance on the role of this field in HIN linking can be found in the HIN guidance document.   |  |  |

|                | For further details of the inter-relationship between YEARPRG and YEARSTU please see notes in <a href="Instance.YEARPRG">Instance.YEARPRG</a> .  |  |  |
|----------------|--|--|--|
|                | The length of this field is 2 characters, however the move to XML enables data to be returned with or without leading zeros, e.g. 03 or 3.   |  |  |
