

GRADUATE OUTCOMES SURVEY (ALL QUESTIONS)

WELCOME

Thank you for your interest in taking part in the Graduate Outcomes survey, where we explore what graduates are doing 15 months after leaving higher education.

Your contribution to this research will help current and future students gain an insight into career destinations and development. We are interested in finding out about the wide range of stages and various different career paths, circumstances and activities of graduates at this stage.

A core objective of the Graduate Outcomes Survey is to take a census of all the activities that graduates from the UK Higher Education sector are now engaged in. By activities we mean working, not working, studying, travelling or caring for someone.

For this survey we are going to focus on what you were doing in [census week], which is around 15 months after you graduated from [Provider name].
