

74715 IMPACTS OF A DISCRETE COLLECTION: DEFINITIONS OF ENGAGEMENT AND STUDENT ENTITIES

DOCUMENT VERSION: 1.0

DATE OF PUBLICATION: 9 SEPTEMBER

Please note, this document is accurate at the time of writing, but may not include all future model changes being considered.

Background

With the move away from event driven data collection a student as a person engaging with all education at the provider becomes the details of the student for the current engagement in discrete collection.

Outcome

Therefore, it has been agreed that the relationship between Student and Engagement would become a one to many mandatory link. In other words, a Student cannot be returned without an Engagement.
