	HESA HE-BCI 2015-16 Part B Table 5 - Social, community and cultural Engagement- public events v1
	HESA HE-BCI 2014-15 Part B Table 1 - Research related activities v1
	HESA HE-BCI 2014-15 Part B Table 2 - Business and community services v1
	HESA HE-BCI 2014-15 Part B Table 3 - Regeneration and development programmes v1
	HESA HE-BCI 2014-15 Part B Table 4 - Intellectual property (IP) v1
HESA HE-BCI 2014-15 Part B Table 5 - Social, community and cultural Engagement- public events v1	
Project Location:	4. Silver data sources
User access:	Silver and Gold Users
Academic years:	2014/15 - 2016/17
Data source version history:	2014/15 released 07/04/2016, 2015/16 released 07/04/2017, 2016/17 released 16/04/2018

Dimensions (ordered as dimensions appear in data source):

Dimension	Folder	Data type	Notes
Former 1994 Group filter	Provider Groups	Abc	Can be used to filter results by member providers or non member providers
Guild HE filter	Provider Groups	Abc	Can be used to filter results by member providers or non member providers
Million Plus filter	Provider Groups	Abc	Can be used to filter results by member providers or non member providers
Post 92 filter	Provider Groups	Abc	Can be used to filter results by member providers or non member providers
Pre 92 filter	Provider Groups	Abc	Can be used to filter results by member providers or non member providers
Russell Group filter	Provider Groups	Abc	Can be used to filter results by member providers or non member providers
UKADIA filter	Provider Groups	Abc	Can be used to filter results by member providers or non member providers
University Alliance filter	Provider Groups	Abc	Can be used to filter results by member providers or non member providers
Provider alpha6	Provider	Abc	Can be used in combination with Provider name to sort Providers into traditional sort order
Provider country	Provider	Abc	
Provider name	Provider	Abc	
Provider region	Provider	Abc	
Provider short name	Provider	Abc	
Provider UKPRN	Provider	Abc	
"Year" or "Columns"		Abc	This dimension will be named differently within each data source, and represents the columns within the HE-BCI template (see link at bottom of sheet). This dimension should always be used in conjunction with a measure
<i>Measure Names</i>		Abc	System generated - if more than one measure is added to the authoring pane these will be grouped until the 'Measure Names' dimension

Measures (ordered as measures appear in data source):

Measure	Folder	Data type	Notes
Measures appear in folders that replicate the format of the HE-BCI table sections. Measures are numbered to reflect the numbering within the HE-BCI template (see bottom of template), and represent a single row within the HE-BCI template. A measure should be used alongside the "Years" or "Columns" dimension, in addition to a dimension from the provider folder.			
Provider latitude	Mapping	#	May be used in combination with Provider name to plot providers on a map (double click provider latitude, Provider longitude, then drag Provider name to 'Detail' on the marks card)
Provider longitude	Mapping	#	May be used in combination with Provider name to plot providers on a map (double click provider latitude, Provider longitude, then drag Provider name to 'Detail' on the marks card)
<i>Number of Records</i>		#	System generated count - will return a count of the number of rows of data within the underlying data source
<i>Measure Values</i>		#	System generated - when double clicked will add all measures to the authoring pane

The HE-BCI Templates are available here, under 'Downloadable files':
