Take the Graduate Outcomes survey

Dear graduate,

The Graduate Outcomes survey explores what international graduates like you are doing 15 months after you completed your course. As the biggest UK annual social survey, your response will build the collective voice of international graduates today so take the survey and be part of the picture.

Let's get started >>

As a recent graduate of [PROVIDER], you will have completed a postgraduate course (or a sufficient component) around 15 months ago. This makes you eligible to complete this vital piece of research and we need to hear from you.

[PROVIDER] is interested in finding out about the wide range of stages and different career paths, circumstances and activities of graduates. Your contribution will help current and future students gain an insight into career destinations and development.
