This is a national survey that will only take **10 minutes** of your time and aims to capture and understand the destinations of graduates following their time in higher education.

We're proud to say that Graduate Outcomes is the biggest annual social survey in the UK! Since its launch in December 2018, over **XX,XXX** of your fellow graduates have completed the survey and we'd like you to join them. This survey gives current and future students the information they need to make informed choices and it helps [provider name] to evaluate and promote their courses.

As a recent graduate of [provider name], you will have completed [a Postgraduate / an Undergraduate] course (or a sufficient component) around 15 months ago. This makes you eligible to complete this vital piece of research and we need to hear from you when we open the survey.
