- * An active user is a user that has logged into heidi at least once
- ** One download may contain multiple charts
- Following the release of heidi 4 it is now possible to view and download reports and charts without saving them first. Reports that are viewed and not saved are excluded from these figures from 7 March 2011 onwards
- **** There was an issue with the recording of chart downloads to PowerPoint between late January and mid-August 2013
- An API call is classed as a request to return data from the heidi API. Calls by the same organisation on the same date with the same data request have only been counted once in the figures above

3. Performance against Service Standards

The heidi Service level agreement contains a number of performance standards. This section reports on progress against these standards for the rolling year 1 September 2014 to 31 August 2015, with the previous year's performance provided for comparison purposes;

3.1 System availability

3.2 User support

Note: 'Other' includes queries relating to free trials, subscriptions, contact amendments etc.

4. Training

Seminars

Heidi seminars were removed from the outset of the 2014/15 training programme as a result of the planned move to the new BI platform. It was felt inappropriate to continue to offer dedicated heidi user seminars due to the longevity of the system.

Further details of the new training offering for Heidi Plus were presented earlier in the meeting.

Appendix A

Numbers of heidi active users (i.e. logged in at least once in period) by HEP 2012, 2013 and 2014 (this will be updated annually for the March Stakeholder Group)
