VALID ENTRIES A 13 digit numeric code.

DESCRIPTION The Student identifier (HUSID) is unique to each student. It is intended that the identifier will be transferred with the student to each institution of higher education s/he may attend. Use of this number will facilitate accurate tracking of students throughout any HE experience within the sector for which HESA collects data.

NOTES For an individual student the Student identifier used in this record must be the reference number returned for that student in the appropriate Student Record.

REASON REQUIRED To provide linkage between the Student Record and the Destinations of Leavers from Higher Education record.

Code '8' should be used when the institution is informed that the leaver has died.

Code '9' should be used only when the institution has received explicit indication (verbally or in writing) from the leaver that they are not prepared to provide information for the survey.

The use of code 9 'Reply received explicitly refusing to provide information' results in all fields following this one needing to be returned with default values.

Question asked:

Q1. Which of the following statements best describes your employment circumstances on 15 April 2004/14 January 2005?

NOTES Core field for all leavers.

The difference between voluntary work and unpaid work is that voluntary work tends to be associated with charity/caring work and unpaid work is sometimes undertaken by the leaver to gain experience and skills for their cv - e.g. in the media.

If the leaver ticks more than one box, code the one nearest the top of the list.

If the leaver does not answer this question, but Q2. is answered 'Studying Full-time' then return code '13'.

Default code 'XX' must be used when Field 4, METHOD = '9'.

Default code 'XX' must NOT be used when Field 4, METHOD = '1 - 7'.

REASON REQUIRED To record the employment circumstances of HE leavers on completion of their courses.

NOTES Core field for all leavers.

If the leaver ticks box 3 and any other combination then return code '3'.

Default code 'X' must be used when field 4, METHOD = '9'.

REASON REQUIRED To record how many HE leavers continued to study after completion of their courses.

Field Nr.	Field Description	Field Abbrev'n	Field Length
7	Nature of employer's business	MAKEDO	60

STATUS Compulsory

VALID ENTRIES Up to 60 textual characters or XXXX (default code).

DESCRIPTION This field collects a description of the nature of the employer's business.

Question asked:

Q3. What does the organisation you will be working for mainly do?

NOTES Core field for employed leavers.

Field 8, SIC and field 11, SOCDLHE in the record are core fields (it is the fields that are core really, not the questions) and must be completed for all employed leavers. Each of these fields has two questions on the questionnaire linked to it (questions 3 and 4 and questions 7 and 8 respectively), either or both of which might provide the information necessary to code field 8, SIC and field 11, SOCDLHE. If the leaver answers only one of a pair of questions, but provides sufficient information to allow the institution to code the corresponding field then it is a valid return. On the telephone script one question from each pair has been highlighted as core the one that will allow institutions to also complete field 7, MAKEDO and field 10, JOBTITLE respectively. If when completing the telephone script the caller does not think that the answer provided to question 3 (highlighted as core) gives enough information to code field 8 they should go on and ask question 4. Similarly with questions 6 and 7 to complete field 11, SOCDLHE.

In an attempt to ease the burden of DLHE on institutions, and with agreement of the statutory users, the return of text information in Fields 7, MAKEDO and 10, JOBTITLE has been made voluntary, at least for this year. If institutions intend to key the text of job titles and/or employers business for their own purposes then they are asked to return it to HESA, but they are not required to key it only for HESA's benefit if they have no need for it internally. It is understood that the majority of institutions do key job titles but not employers business (preferring, if anything, to key the employers name). Since it is in relation to SOC that HESA is currently working to develop coding assistance, we are confident

that there should still be sufficient data returned to allow sector-wide coding practice to be examined and data fed into the development process. If your institution does not choose to return the text information in one or both of fields 7, MAKEDO and 10, JOBTITLE then default codes 'XXXX' should be used in the fields.

Institutions should note that coding practice of individual institutions who do not return the text could be investigated as part of any audit process.

Default code 'XXXX' must be used when field 4, METHOD = '9' or field 5, EMPCIR = '06' to '14'.

EXAMPLE

STATUS Compulsory.

VALID ENTRIES A valid code from the Standard Industrial Classification for the DLHE (SIC (DLHE)) or XXXX (default code).

A list of valid entries for this field may be found in Appendix 2.

DESCRIPTION This field uses the Standard Industrial Classification to describe the employing organisations of those HE leavers who were employed on 15 April 2004/14 January 2005.

Questions asked:

Q3. What does the organisation you will be working for mainly do?

Q4. What is the name of the organisation you will be working for?

NOTES Core field for employed leavers.

Field 8, SIC and field 11, SOCDLHE in the record are core fields (it is the fields that are core really, not the questions) and must be completed for all employed leavers. Each of these fields has two questions on the questionnaire linked to it (questions 3 and 4 and questions 7 and 8 respectively), either or both of which might provide the information necessary to code field 8, SIC and field 11, SOCDLHE. Similarly with questions 6 and 7 to complete field 11, SOCDLHE.

Default code 'XXXX' must be used when field 4, METHOD = '9' or field 5, EMPCIR = '06' to '14'.

Default code 'XXXX' must NOT be used when field 5,

EMPCIR = '01' to '05'.

REASON REQUIRED To determine the types of industry that HE leavers enter.

Field Nr.	Field Description	Field Abbrev'n	Field Length
9	Location of employment	LOCEMP	8

STATUS Compulsory.

VALID ENTRIES An alphanumeric code of up to 8 characters, which is a valid UK postcode or country code, or XXXXXXXX (default code).

For country codes:.

A list of valid entries for this field may be found in Appendix 3.

DESCRIPTION This field describes the location of the HE leaver's place of work. The preferred coding for UK destinations is the full postcode, or if this is not available the outward part of the postcode, i.e. the characters to the left of the space. The second preference is the country code for England, Scotland, Northern Ireland or Wales. This field should therefore contain an alphanumeric code of up to 8 characters, which is a valid UK full or outward postcode, a country code or XXXXXXXX (default code).

Question asked:

Q5. Where will your place of work be and, if in the UK, what is its postcode?

NOTES Core field for employed leavers.

Postcodes:

Alpha characters within a postcode must be returned as capitals.

In the event that the full postcode is not known, institutions can return just the first part of the postcode (outward part). If the outward part of the postcode is returned this must be left justified.

HESA has published a list of default postcodes to be used in field 9, LOCEMP in cases where the town/city is known, but the postcode is not. Copies of the list are available from the HESA WWW site at (<http://www.hesa.ac.uk/manuals/03018/dlhe.htm>).

Country codes:

The four-digit country code must be left justified.

Default code 'XXXXXXXX' must be used when field 4, METHOD = '9' or field 5, EMPCIR = '06' to '14'.

Default code 'XXXXXXXX' must NOT be used when field 5, EMPCIR = '01' to '05'.

EXAMPLE

A typical postcode such as GL50 3DA would be coded with a blank in the fifth character position. A postcode such as B1 6SR would have blanks in positions 3, 7 and 8. The part of the postcode before the first space is known as the outward part of the postcode and can be of variable length of 2, 3 or 4 characters. Whereas the part of the postcode after the space is known as the inward part of the postcode and is a fixed length of 3 characters. The space between the outward and inward parts of the postcode must always be shown as part of the postcode.

REASON REQUIRED

To allow analysis of the movement/mobility of HE leavers.

Field Nr.	Field Description	Field Abbrev'n	Field Length
