VALID ENTRIES

A 13 digit numeric code.

DESCRIPTION The Student identifier (HUSID) is unique to each student. It is intended that the identifier will be transferred with the student to each institution of higher education s/he may attend. Use of this number will facilitate accurate tracking of students throughout any HE experience within the sector for which HESA collects data.

NOTES For an individual student the Student identifier used in this record must be the reference number returned for that student in the appropriate Student Record.

REASON REQUIRED To provide linkage between the Student Record and the Destinations of Leavers from Higher Education record.

- 3 Telephone survey: graduate
- 4 Telephone survey: third party
- 5 Electronic reply (email/web)
- 6 Own institutions student record
- 7 Other
- 8 Deceased
- 9 Reply received explicitly refusing to provide information

DESCRIPTION This field describes the method of survey used.

NOTES

If an institution chooses to do only one mailing, responses to this mailing should be code '1'.

Code '6' should only be used once an attempt has been made to contact the leaver in both the initial and follow-up contact periods.

It is important that the respondent, be it the leaver themselves, a third party or the institution's own record, is able to answer all of the survey questions with respect to the leaver's activity in both study and employment on the census date. Further details on the use of other informed sources can be viewed in the methodology document available on the collection page.

Where a response is gained through a third party or other informed source, including the institution's own student record, the leaver must be excluded from the longitudinal follow-up.

Code '8' should be used when the institution is informed that the leaver has died.

Code '9' should be used only when the institution has received explicit indication (verbally or in writing) from the leaver that they are not prepared to provide information for the survey.

The use of code 8 'Deceased' and 9 'Reply received explicitly refusing to provide information' results in all fields following this one needing to be returned with default values.

REASON REQUIRED To assess the response to different methods of data collection.

Question asked:

Q1. Which of the following statements best describes your employment circumstances on 18 April 2011/09 January 2012?

NOTES

Core field for all leavers.

If the leaver ticks more than one box, code the one nearest the top of the list as ordered on the questionnaire.

If the leaver does not answer this question, but Q2. is answered 'Yes - full-time' then return code '13'.

Default code 'XX' must be used when Field 4, METHOD = '8' or '9'.

Default code 'XX' must NOT be used when Field 4, METHOD = '1 - 7'.

Code '13' - 'Not employed but not looking for employment, further study or training' should be used for graduates in full-time study.

If the leaver ticks box 3 and any other combination then return code '3'.

Default code 'X' must be used when field 4, METHOD = '8' or '9'.

Field Nr.	Field Description	Field Abbrev'n	Field Length
7	Nature of employer's business	MAKEDO	60

STATUS Compulsory.

VALID ENTRIES

Up to 60 textual characters or XXXX (default code).

DESCRIPTION This field collects a description of the nature of the employer's business.

Question asked:

Q9. What does the organisation you were working for mainly do? (e.g. Manufactures shoes or sells shoes)

NOTES Core field for employed leavers.

Field 65, SIC and field 11, SOCDLHE in the record are core fields (it is the fields that are core really, not the questions) and must be completed for all employed leavers. Each of these fields has two questions on the questionnaire linked to it (questions 7 and 9 and questions 3 and 4 respectively), either or both of which might provide the information necessary to code field 65, SIC and field 11, SOCDLHE. If the leaver answers only one of a pair of questions, but provides sufficient information to allow the institution to code the corresponding field then it is a valid return. On the telephone script one question from each pair has been highlighted as core the one that will allow institutions to also complete field 7, MAKEDO and field 10, JOBTITLE respectively. If when completing the telephone script the caller does not think that the answer provided to question 9 (highlighted as core) gives enough information to code field 65 they should go on and ask question 7. Similarly with questions 3 and 4 to complete field 11, SOCDLHE.

In an attempt to ease the burden of DLHE on institutions, and with agreement of the statutory users, the return of text information in Fields 7, MAKEDO and 10, JOBTITLE has again this year been made voluntary. If institutions intend to key the text of job titles and/or employers business for their own purposes then they are asked to return the information to HESA, but they are not required to key it only for HESA's benefit if they have no need for it internally. If your institution does not choose to return the text information in one or both of fields 7, MAKEDO and 10, JOBTITLE then default codes 'XXXX' should be used in the fields.

Institutions should note that coding practice of individual

institutions who do not return the text could be investigated as part of any audit process.

Default code 'XXXX' must be used when field 4, METHOD = '8' or '9' or field 5, EMPCIR = '10' to '14' and '16' to '17'.

REASON REQUIRED To aid in the coding of Standard Industrial Classification.

DESCRIPTION

This field describes the location of the HE leaver's place of work. The preferred coding for UK destinations is the full postcode, or if this is not available the outward part of the postcode, i.e. the characters to the left of the space. The second preference is the country code for England, Scotland, Northern Ireland or Wales. This field should therefore contain an alphanumeric code of up to 8 characters, which is a valid UK full or outward postcode, a country code or XXXXXXXX (default code).

Question asked:

Q10. Where was your place of work and, if in the UK, what is its postcode?

NOTES

Core field for employed leavers.

Postcodes:

Postcodes should be returned in upper case alphanumeric characters. The inclusion of lower case characters will cause the postcode to be considered invalid.

In the event that the full postcode is not known, institutions can return just the first part of the postcode (outward part). If the outward part of the postcode is returned this must be left justified.

HESA has published a list of default postcodes to be used in field 9, LOCEMP in cases where the town/city is known, but the postcode is not. Copies of the list are available from the HESA website at <http://www.hesa.ac.uk/manuals/C10018>.

Country codes:

This coding frame is determined by the National Statistics Country Classification 2006 (NSCC), which is based on ISO 3166-1 Codes for the Representation of Names of Countries and their Subdivisions, and the United Nations' Standard Country or Area Codes for Statistical Use. In a small number of cases, the NSCC usage differs from the usage in ISO 3166 on which the NSCC is based. Where that happens, the ISO 3166 usage is given in brackets after the preferred UK usage, to facilitate cross-reference to the international standard. For example for code KR the description is Korea (South). The text in brackets, [Korea, Republic of], is the ISO 3166 description. Information in braces is provided by HESA to clarify usage, and is not derived either from NSCC or ISO 3166 lists of short country names, for example Spain !!Missing '!!.

The two-character ISO country code must be left justified.

Default code 'XXXXXXXX' must be used when field 4, METHOD = '8' or '9' or field 5, EMPCIR = '10' to '14' and '16' to '17'.

Default code 'XXXXXXXX' must NOT be used when field 5, EMPCIR = '01' to '03' and '15'.

EXAMPLE

A typical postcode such as GL50 3DA would be coded with a blank in the fifth character position. A postcode such as B1 6SR would have blanks in positions 3, 7 and 8. The part of the postcode before the first space is known as the outward part of the postcode and can be of variable length of 2, 3 or 4 characters. Whereas the part of the postcode after the space is known as the

inward part of the postcode and is a fixed length of 3 characters. The space between the outward and inward parts of the postcode must always be shown as part of the postcode.

REASON REQUIRED To allow analysis of the movement/mobility of HE leavers.

DESCRIPTION This field collects a description of the leaver's job title.

Question asked:

Q3. What was your job title?

NOTES Core field for employed leavers.

Field 65, SIC and field 11, SOCDLHE in the record are core fields (it is the fields that are core really, not the questions) and must be completed for all employed leavers. Each of these fields has two questions on the questionnaire linked to it (questions 7 and 9 and questions 3 and 4 respectively), either or both of which might provide the information necessary to code field 65, SIC and field 11, SOCDLHE. If the leaver answers only one of a pair of questions, but provides sufficient information to allow the institution to code the corresponding field then it is a valid return. On the telephone script one question from each pair has been highlighted as core the one that will allow institutions to also complete field 7, MAKEDO and field 10, JOBTITLE respectively. If when completing the telephone script the caller does not think that the answer provided to question 9 (highlighted as core) gives enough information to code field 65 they should go on and ask question 7. Similarly with questions 3 and 4 to complete field 11, SOCDLHE.

In an attempt to ease the burden of DLHE on institutions, and with agreement of the statutory users, the return of text information in Fields 7, MAKEDO and 10, JOBTITLE has again this year been made voluntary. If institutions intend to key the text of job titles and/or employers business for their own purposes then they are asked to return the information to HESA, but they are not required to key it only for HESA's benefit if they have no need for it internally. If your institution does not choose to return the text information in one or both of fields 7, MAKEDO and 10, JOBTITLE then default codes 'XXXX' should be used in the fields.

Institutions should note that coding practice of individual institutions who do not return the text could be investigated as part of any audit process.

Default code 'XXXX' must be used when field 4, METHOD = '8' or '9' or field 5, EMPCIR = '10' to '14' and '16' to '17'.

DESCRIPTION

This field uses the Standard Occupational Classification to describe the types of job of those HE leavers who were employed on 18 April 2011/09 January 2012. It should contain a valid code from the Standard Occupational Classification for the DLHE (SOC (DLHE)) or XXXXX (default code). A description of SOC (DLHE) is in valid entries.

Questions asked:

Q3. What was your job title?

Q4. Briefly describe your duties e.g. maintaining and updating company intranet

NOTES

Core field for employed leavers.

Field 65, SIC and field 11, SOCDLHE in the record are core fields (it is the fields that are core really, not the questions) and must be completed for all employed leavers. Each of these fields has two questions on the questionnaire linked to it (questions 7 and 9 and questions 3 and 4 respectively), either or both of which might provide the information necessary to code field 65, SIC and field

11, SOCDLHE. If the leaver answers only one of a pair of questions, but provides sufficient information to allow the institution to code the corresponding field then it is a valid return. On the telephone script one question from each pair has been highlighted as core the one that will allow institutions to also complete field 7, MAKEDO and field 10, JOBTITLE respectively. If when completing the telephone script the caller does not think that the answer provided to question 9 (highlighted as core) gives enough information to code field 65 they should go on and ask question 7. Similarly with questions 3 and 4 to complete field 11, SOCDLHE.

Default code 'XXXXX' must be used when field 4, METHOD = '8' or '9' or field 5, EMPCIR = '10' to '14' and '16' to '17'.

Default code 'XXXXX' must NOT be used when field 5, EMPCIR = '01' to '03' and '15'.

REASON REQUIRED To determine the nature of employment of HE leavers.

DESCRIPTION

A valid code or XXXX (default code).

This field uses the Standard Industrial Classification to describe the employing organisations of those HE leavers who were employed on 18 April 2011/09 January 2012.

Users of the CASCOT tool must ensure that coding in the SIC2007 frame is used (selecting the option SIC2007-4Digit-Untuned).

Questions asked:

Q7. What is the name of the organisation you will be working for?

Q9. What does the organisation you will be working for mainly do?

NOTES

Core field for employed leavers.

Field 65, SIC and field 11, SOCDLHE in the record are core fields (it is the fields that are core really, not the questions) and must be completed for all employed leavers. Each of these fields has two questions on the questionnaire linked to it (questions 7 and 9 and questions 3 and 4 respectively), either or both of which might provide the information necessary to code field 65, SIC and field 11, SOCDLHE. If the leaver answers only one of a pair of questions, but provides sufficient information to allow the institution to code the corresponding field then it is a valid return. On the telephone script one question from each pair has been highlighted as core the one that will allow institutions to also complete field 7, MAKEDO and field 10, JOBTITLE respectively. If when completing the telephone script the caller does not think that the answer provided to question 9 (highlighted as core) gives enough information to code field 65 they should go on and ask question 7. Similarly with questions 3 and 4 to complete field 11, SOCDLHE.

Default code 'XXXX' must be used when field 4, METHOD = '8' or '9' or field 5, EMPCIR = '10' to '14' and '16' to '17'.

Default code 'XXXX' must NOT be used when field 5, EMPCIR = '01' to '03' and '15'.

REASON REQUIRED To determine the types of industry that HE leavers enter.
