94021: Record type indicator

Field Information

Number: 001
Name: Record type indicator
Abbreviation: RECID
Length: 2
Status: Compulsory.

Description: The Record type indicator is for HESA's internal use to identify the type of record being sent. All returns for the individual staff record should be coded 21.

Notes:
Reason Required: For HESA's operational purposes.

Valid Entries

11 Combined student/course record.
12 Student record.
13 Module record.
14 Aggregate record of non-credit-bearing courses.
15 Collaborative arrangements record.
16 First Destination supplement
19 HE in FE Colleges.
21 Staff individualised record.
22 Staff aggregate record.
23 Staff load record.
24 Research output record.
31 Finance statistics return.
32 Estates record.
33 HEPPI record.
94021: Institution identifier

Field Information

Number: 002
Name: Institution identifier
Abbreviation: INSTID
Length: 4
Status: Compulsory.

Description:
The Institution identifier is split into two fields, the first, field 2, Institution identifier, being a four digit number relating to an institution and field 3, Campus identifier, an alphabetic character. The campus identifier character ‘A’ will be used for the whole institution if remote campuses are being defined; other characters will be allocated if remote campuses are being identified by the institution. It will be for institutions to decide whether subsidiary campuses should be designated in this way, to enable the location where a person works to be identified. Institutions which decide to identify remote campuses are asked to inform Tim Hatcher at HESA.

Notes:
It is recognised that because of the flexibility of teaching patterns adopted by some institutions, it will be impossible to say categorically that some staff members are assigned to a particular remote campus. However, where it is possible to indicate that a staff member is teaching at a single remote site, HESA strongly encourages the use of a remote site designator, so that a more accurate picture can be derived of the geographical patterns of teaching in higher education. As a general rule of thumb, we suggest that a site should not be designated as ‘remote’ if it falls within the same county or L.E.A. boundary.

The Funding Councils do not require that the different campuses of an institution be separated in the statistical returns. It is for each institution to decide whether it wishes to use the “campus identifier”.

Reason Required:
To provide separate figures for each institution.

94021: Campus identifier

Field Information

Number: 003

Name: Campus identifier

Abbreviation: CAMPID

Length: 1

Status: Compulsory.

Description: The Campus identifier is the second part of the institution identifier; please see the description of field 2, Institution identifier, for the full definition of this field.

Notes: Although this field is compulsory, in the majority of cases it will default to ‘A’. Only in cases where an institution has agreed with HESA identifiable valid codes for separate campuses, and where a staff member can be assigned to a single site, can this field, if the institution requires, be coded with one of the agreed valid campus codes for the institution.

Reason Required: To provide separate figures for each identifiable campus.

Valid Entries

A 1 character alphanumeric code.
94021: Staff identifier

Field Information

Number: 004

Name: Staff identifier

Abbreviation: STAFFID

Length: 13

Status: Compulsory.

Description: The Staff identifier is a unique number allocated to a staff member when they are first entered onto the staff return and stays with them for the whole of their academic career.

This identifier is the key to the whole return as it enables record linking and tracking.

The structure of the HESA staff identifier is as follows:

First 2 digits:
Year of entry into institution (last 2 digits of calendar year).

Next 4 digits:
Institution identifier from HESA record (as in field 2, Institution identifier), PLUS 1000. (e.g. if the institution identifier is 0134, the digits in the staff identifier are 1134).

Next 6 digits:
6 digit reference number internally allocated by institution.

Notes: Last digit:
Check digit.

If a member of staff has already been allocated a HESA Staff identifier by a previous institution, then the whole of the number should be returned instead of allocating a new number. It is recognised that, in order to accomplish this linkage, institutions will need to obtain from the previous academic employer the HESA Staff identifier.

HESA does not require staff names. Institutions, however, must keep a record of these to cross-reference to the unique HESA staff identifiers.

Staff with the old 9 digit USR staff number should retain this number, preceding it with 4 zeros.
If a member of staff has already been allocated a HESA Staff Identifier by a previous institution, then the whole of that number should be returned instead of allocating a new number (and, ideally, where a member of staff is employed by two institutions concurrently, then the same staff identifier should be used by both institutions. It is recognised that this may not always be practicable). In order to accomplish this linkage, institutions will need to obtain from previous academic employer the HESA staff identifier. As the staff record is anonymous, HESA will not be in a position to offer a central look-up service. However, in order to help inter-institution liaison, HESA will circulate staff data stream liaison contact details among all staff stream liaison contacts.

**Calculation of Check Digit**

The check digit is calculated using the first 12 digits, providing a means of detecting errors of transcription. To calculate the check digit, each of the first 12 digits is multiplied by a "weight" which depends on its position in the number, and the resulting products added. The check digit is then obtained by subtracting the final digit of the resulting sum from ten.

The weights used are:

<table>
<thead>
<tr>
<th>Digit number</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 2 3 4 5 6</td>
<td>1 3 7 9 1 3</td>
</tr>
<tr>
<td>7 8 9 10 11 12</td>
<td>7 9 1 3 7 9</td>
</tr>
</tbody>
</table>

Note: The check digit calculation method is similar to the USR method, the difference being the extension of the weighting. Due to the fact that the USR number will be returned padded with 0's at the beginning, the check digit however will remain the same in both the HESA and USR systems.

A lecturer at Royal Holloway, University of London starting in calendar year 1994 is allocated the internal number 123456. The check digit calculation for their reference number, 941141123456, would be calculated as:

```
Number 9 4 1 1 4 1
Weight 1 3 7 9 1 3
Product 9 12 7 9 4 3
```

```
Number 1 2 3 4 5 6
Weight 7 9 1 3 7 9
Product 7 18 3 12 35 54
```

The sum of the products is 173, the final digit being 3, so the check digit is 10 - 3, or 7. The full identifier is therefore 9411411234567.
Note: If the final digit of the sum of the products is 0 the check digit would be the final digit after the subtraction i.e. 10 - 0 = 10, check digit is 0.

Reason: To facilitate tracking and the analysis of mobility in the academic workforce.

Knowledge Base

If a member of staff has already been allocated a HESA Staff identifier by a previous institution, then the whole of that number should be returned instead of allocating a new number (and, ideally, where a member of staff is employed by two institutions concurrently, then the same staff identifier should be used by both institutions. It is recognised that this may not always be practicable). In order to accomplish this linkage, institutions will need to obtain from the previous academic employer the HESA staff identifier. This will become increasingly important for future returns. As the staff record is anonymous, HESA will not be in a position to offer a central look-up service. However, in order to help inter-institutional liaison, HESA proposes that the list of names and addresses for HESA staff data stream liaison contacts is circulated amongst all staff data stream liaison contacts.

(Guidance in Circular 95/02)

Valid Entries

A 13 digit field.
94021: Date of birth

**Field Information**

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Number: 005</td>
<td></td>
</tr>
<tr>
<td>Name: Date of birth</td>
<td></td>
</tr>
<tr>
<td>Abbreviation: BIRTHDTE</td>
<td></td>
</tr>
<tr>
<td>Length: 10</td>
<td></td>
</tr>
<tr>
<td>Status: Compulsory.</td>
<td></td>
</tr>
</tbody>
</table>

**Description:** This field records the date of birth of the staff member.

**Notes:**
Where the date of birth is not known, please approximate the year of birth and return 1 January of that year in one of the above formats.
In the event that the data is not held for "casual" academic staff, the default code 99/99/9999 may be returned in 1994-95 only.

Age profile analysis of staff in HE.

**Reason Required:**
- Retirement information.
- For purposes of record linkage.

**Valid Entries**

If the return is in a database format such as FoxPro, the 'date' type will be acceptable. If returned in ASCII, comma delimited format valid entry patterns are: DD/MM/YYYY, DD-MM-YYYY or YYYYMMDD.
94021: Gender

Field Information

Number: 006

Name: Gender

Abbreviation: GENDER

Length: 1

Status: Compulsory.

Description:

Notes: The default code Z may be returned, in 1994-95 only, for casual members of staff for whom this information is not currently collected.

Reason Required: For analysis on the numbers of staff by gender.

Valid Entries

F Female.
M Male.
Z Not collected
94021: Terms of employment

Field Information

Number: 007
Name: Terms of employment
Abbreviation: TERMS
Length: 1
Status: Compulsory.

Description: The Terms of employment field describes the type of appointment of staff.

Rolling fixed term contracts should be coded as 2, fixed term contract.

Standard open-ended permanent contracts should be coded 1, permanent.

The fact that a member of staff is on probation is not in itself a reason for coding as temporary rather than permanent.

Notes: Holders of "multiple contracts", one of which is permanent should be coded as permanent.

It is not currently envisaged that code 9 "Other" will be used, but the code is being retained in case it is required.

Reason Required: To monitor the employment terms and conditions of staff.

Knowledge Base

Self-Funding contracts, whereby the contract has no end date on it, but the last paragraph will state that the employee will have employment as long as the department continues to raise enough money to pay them.

Can you please confirm which code should use for field 7 for these people?

Code these staff members 9 'Other'.

(Advice given to enquirers, not formally released)

Term time only staff Term time only staff should be coded as permanent in field 7, 'Terms of employment', full-time in field 8, 'Mode of employment', but FTE in field 11 would be 30/52ths
or other appropriate fraction.

(Guidance in Circular 95/02)

**Valid Entries**

1. Permanent
2. Fixed term contract
3. Hourly paid/casual staff
9. Other
94021: Mode of employment

Field Information

Number: 008

Name: Mode of employment

Abbreviation: MOE

Length: 1

Status: Compulsory.

Description: This field describes the mode by which the member of staff is employed.

This field should indicate the normal mode of employment of the member of staff. If a member of staff has held posts involving different modes of employment in the past year, he/she should be given the code applicable at the end of the year. Staff who are absent on leave at 31 July, should be assigned their normal mode of employment.

Notes:

If institutions are unable to assign casual staff to either the full-time or the part-time category, they should be coded 3. For purposes of analysis, staff coded 3 will be assumed to be part-time.

It is not currently envisaged that code 9 "Other" will be used, but the code is being retained in case it is required.

This field should show the mode of employment at the return date or date of leaving if earlier. Part-time is anything less than full-time. Full-time for part-year should be coded as 1 'Full time'. (Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

Reason Required: For calculation of staff numbers by mode of employment.

To allow analysis of trends in employment practice.

Knowledge Base

Term time only staff Term time only staff should be coded as permanent in field 7, 'Terms of employment', full-time in field 8, 'Mode of employment', but FTE in field 11 would be 30/52ths or other appropriate fraction.

(Guidance in Circular 95/02)

Hourly paid/casual staff A member of staff can be coded 2 'Part time' in this field even if they are coded 3 'Hourly paid/casual staff' in field 7.
(Informal guidance)

**Valid Entries**

1. Full time
2. Part time
3. Hourly paid/casual staff
9. Other
**94021: Primary employment function**

**Field Information**

- **Number:** 009
- **Name:** Primary employment function
- **Abbreviation:** PEMPFUN
- **Length:** 1
- **Status:** Compulsory.

**Description:**
Indicates the role/categorisation of the staff member within the institution.

Code 1 applies only to staff whose contracts state that they are teaching only.

Managers not contracted to carry out either teaching or research should not be included in the record.

**Notes:**
Codes 2 and 3 do not carry any implications in terms of inclusion in the Research Assessment Exercises.

*This field should show the primary employment function at the return date or date of leaving if earlier. Primary employment function relates to the contract of employment and not the actual work undertaken.* (Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

**Reason Required:**
For HESA classification purposes.

**Knowledge Base**

Code 2 should be used for those staff whose primary employment function is research, even though they may do a limited number of hours teaching (up to 6 hours per week or pro-rata for part-time staff).

(Guidance in Circular 95/02)

**Valid Entries**

1  Teaching only.
2  Research only.
3  Teaching and research.
94021: Percentage time academic

Field Information

Number: 010

Name: Percentage time academic

Abbreviation: PERACA

Length: 5

Status: Compulsory.

Description: The Percentage time academic indicates the amount of time, expressed as the % time that the member of staff spends participating in an academic role, i.e. teaching or research including the normal administrative duties undertaken by a teacher or researcher, but excluding time devoted to management or other activities which would not normally form part of the role of a teacher or researcher.

Notes: This is to be a nominal breakdown and should normally be rounded to the nearest 10% (010.0).

Example: A lecturer who is appointed as a Pro-Vice-Chancellor and who devotes 40% of his/her time to management activity and the remainder to teaching or research, should have 60% (060.0) returned for this field.

Reason Required: For analysis of academic roles.

Knowledge Base

Would HESA expect this field to be reduced for clinical qualified staff? This field will be 100% in most cases and will only be reduced for staff members with senior post holders management responsibilities, such as Heads of Department.

(Admin-HESA May 1995)

‘Percentage time academic’ It is assumed that ‘Percentage time academic’ will be 100% in most cases. A reduction is expected only for staff members with senior management responsibilities at Head of Department level and above.

(Guidance in Circular 95/02)
Valid Entries

A percentage in the range 0.25 to 1.00. Please see the 'Notes of Guidance' for a description of the format.
Field Information

Number: 011

Name: Proportion of year

Abbreviation: FTE

Length: 5

Status: Compulsory.

Description: The Proportion of year indicates the percentage of a full time equivalent year being undertaken by this staff member in the course of the full academic/financial year 1 August to 31 July.

This field relates to the total employment of the individual by the institution, not only the amount of time spent on academic duties.

The determination of a full-time equivalent year is at the discretion of the institution since it needs to have regard to different teaching modes and structures.

This field title should now read 'Proportion of year' rather than the published title 'Proportion of FTE year'. This field should show the proportion of the HESA return year worked by a staff member. For example, both part-time staff working half-time for the whole year and full-time staff working for six months only would be shown as 050.0 in this field.

Notes: In any one return year, the information shown in field 11 may result in an academic FTE of less than 25% even though the staff member is eligible for inclusion in the record. Examples are:

1. Field 11 may reflect that only a small part of a fixed length contract of less than 12 months in duration and eligible for inclusion in the record fell within the return year.

2. Field 11 may reflect that a member of staff eligible for inclusion in the record only recently took up appointment.

3. Field 11 may be 000.0 to reflect temporary arrangements such as honorary temporary appointments, secondments or maternity leave for a member of staff still eligible for inclusion in the record according to their contract of employment. (Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

Reason Required: To estimate the total size of the academic workforce.
**Knowledge Base**

FTE This field should show the proportion of FTE for the year according to the contract of employment. This does not need to be reduced to take account of temporary arrangements such as honorary temporary appointments, secondments or maternity leave for a member of staff still eligible for inclusion in the record according to their contract of employment. (This has been agreed as a result of requests from institutions and replaces the guidance given for field 11, point 3, in the November 1994 Supplement.) This field should be reduced, however, to take account of partial years worked by members of staff joining or leaving the record during the reporting period.

(Guidance in Circular 95/02)

Term time only staff Term time only staff should be coded as permanent in field 7, `Terms of employment', full-time in field 8, `Mode of employment', but FTE in field 11 would be 30/52ths or other appropriate fraction.

(Guidance in Circular 95/02)

**Valid Entries**

A percentage in the range 000.0 to 100.0. Please see the 'Notes of Guidance' for a description of the format.
94021: Primary cost centre

Field Information

Number: 012

Name: Primary cost centre

Abbreviation: CCENTRE

Length: 2

Status: Compulsory.

Description: The Primary cost centre field indicates the primary cost centre under which the member of staff will be included in aggregating staff pay for financial purposes and is taken from the classification of cost centres for all members of staff.

It is possible for academic staff to be assigned to non-academic cost centres (51 to 57).

Notes: It is recognised that a few members of staff are appointed to more than 1 cost centre. In such cases, it will not be possible to show the subsidiary cost centre(s) or the proportion of effort allocated to them.

Reason Required: For analysis of the deployment of academic staff.

Knowledge Base

Non-academic Cost Centre 54 Non-academic Cost Centre 54 "Central Administration and Services" should be used for staff not assigned to an academic cost centre and allocated as "Other income generating activity" in the Allocation of Departments to Cost Centres exercise.

94021: Nationality

Field Information

Number: 013

Name: Nationality

Abbreviation: NATION

Length: 4

Status: Compulsory.

Description: The Nationality field defines the country of legal nationality coded using the country codes listed. This is not necessarily the domicile.

*The coding frame is the same as is used for domicile in other records. However, the codes for England, Wales Scotland and Northern Ireland must not be used for nationality, where United Kingdom should be used instead. Citizens of the Channel Islands and the Isle of Man may continue to use their codes for nationality.*

Notes: Where a member of staff has dual nationality and one of the nationalities is UK, code as UK. Where neither of the nationalities is UK, preference should be given to nationalities within the European Union. (Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

Reason Required: To provide information about net inflows of academic staff of other nationalities.

94021: Ethnicity

Field Information

Number: 014

Name: Ethnicity

Abbreviation: ETHNIC

Length: 2

Status: Compulsory.

Description: The Ethnicity field identifies the ethnic origins of staff.

The codes listed are those used in the 1991 Census of Population and allow comparative statistics to be calculated.

Notes: Institutions at present not collecting this data are required to complete this field in 1994-95 (using code 99). A full return will be required for 1995-96 and later, and institutions should make every effort to collect reliable information on this field.

Reason Required: For monitoring levels and trends by particular groups of people.

Knowledge Base

How to code Arab The recommended coding for 'Arab' is 80 'Other'.

(Informal advice, following consultation with OPCS)

Valid Entries

10 White.
21 Black Caribbean.
22 Black African.
29 Black Other.
31 Indian.
32 Pakistani.
33 Bangladeshi.
34 Chinese.
39 Asian Other.
80 Other.
98  Information refused.
99  Not known
94021: Disabled

Field Information

Number: 015
Name: Disabled
Abbreviation: DISABLE
Length: 1
Status: Compulsory.

Description: The Disabled field indicates if the staff member is disabled.

Notes: Institutions at present not collecting this data are required to complete this field in 1994-95 (using code 9). A full return will be required for 1995-96 and later, and institutions should make every effort to collect reliable information on this field.

Code 1 will be analysed as 'Not known to be disabled.' (Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

Reason Required: For monitoring levels and trends in employment in HE by particular groups of people.

Valid Entries

1 Not known to be disabled.
2 Disabled but not registered.
3 Registered disabled.
8 Information not provided
9 Information not yet sought
94021: Date entered current service in current HEI

Field Information

Number: 016

Name: Date entered current service in current HEI

Abbreviation: DATEHEI

Length: 10

Status: Compulsory.

Description:
The Date entered current service in current HEI records the date at which the member of staff first entered the service of the current HEI in an academic role. For the purposes of this field, the current HEI includes all its predecessor institutions.

For the purposes of this field, "predecessor institutions" include all former colleges which have merged to form the current institution, in circumstances in which the staff were automatically transferred from the former employer.

Service in the current HEI implies continuous service, irrespective of the number of sequential contracts which may have been issued.

"Academic role" implies a primary employment function of 'teaching' or 'research' or 'teaching and research'. No distinction is made as to whether this was above or below the record inclusion threshold of 25% FTE year.

Notes:
The requirement of this field remains as the date the member of staff entered the current institution in an academic capacity. For members of staff on a number of sequential appointments within a return year, the date of commencement of the earliest appointment should be returned and where the member of staff appeared in the previous record then, for the purposes of the return, this should not be counted as a break in continuous service and so would not require this field to be updated.

The reference to 'predecessor institutions' relates to changes within the reporting institution, for example, former polytechnics and colleges that have gained university status; institutions that have amalgamated. (Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

Reason Required: To track career histories of staff for employment research and profiling.

Knowledge Base
Does this date refer to the continuous service date in the institution that the individual is presently in. Yes, it is the date the staff member started with the current institution and not the date the staff member started their academic career.

(Advice given to enquirers, not formally released)

Valid Entries

If the return is in a database format such as FoxPro, the 'date' type will be acceptable. If returned in ASCII, comma delimited format valid entry patterns are : DD/MM/YYYY, DD-MM-YYYY or YYYYMMDD.
94021: Highest academic qualification

Field Information

Number: 017

Name: Highest academic qualification

Abbreviation: QUALHELD

Length: 2

Status: Compulsory.

Description: The Highest academic qualification is used to indicate the higher academic qualification earned by the member of staff.

If a member of staff has more than one of the above academic qualifications, please return the appropriate code closest to 11.

Honorary degrees and post-doctorate degrees are to be excluded.

Notes: It is recognised that for some staff, a professional qualification, if held, may be more important, up-to-date or relevant than their academic qualification. Field 19 will record if a member of staff holds a professional qualification.

Reason Required: To provide data about the qualifications of the HE workforce.

Knowledge Base

If code 60, 'No formal HE academic qualification' or code 99', Not known' are returned in field 17, then a blank should be returned in field 18.

(Guidance in Circular 95/02)
Overseas qualifications Valid entries are in rank order but for overseas qualifications if the institution feels that code 56 'Overseas HE qualification' is the more appropriate one to use they may use their initiative to code as such.

(Admin HESA April 1995)
Code 60 Code 60 should be used where the member of staff has no formal academic qualifications.

(Informal Guidance)

94021: Academic discipline

Field Information

Number: 018
Name: Academic discipline
Abbreviation: ACCDIS
Length: 6
Status: Compulsory, unless codes 60 or 99 are returned in Field 17

Description: The Academic discipline records the discipline of the highest academic qualification of the member of staff, indicated by field 17, Highest academic qualification earned.

The code registered here is the academic discipline relating to that staff member's academic qualification, not necessarily the academic subject in which that staff member is currently teaching or researching.

Notes: Although the field allows for up to 6 characters, institutions may in 1994-95 return the academic discipline at 2 character level only.

This field should be alphanumeric and if the field length is below six characters it should be left justified. (Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

Knowledge Base

Staff with no HE qualification. If code 60, 'No formal HE academic qualification' or code 99, 'Not known' are returned in field 17, then a blank should be returned in field 18.

Field 18, 'Academic discipline' is alphanumeric. If the field content is below six characters it should be left justified.

(Guidance in Circular 95/02)

Valid Entries

Please refer to the HESACODE classification of academic subjects
94021: Professional qualification held

Field Information

Number: 019
Name: Professional qualification held
Abbreviation: PROFQHLD
Length: 1
Status: Compulsory.

Description: The Professional qualification held indicates if the member of staff holds any professional qualifications.

It is inevitable that the term 'professional qualification' will be open-ended - no organisation has yet managed to compile a complete compendium of such qualifications.

It is recognised that for some staff, a professional qualification, if held, may be more important, up-to-date or relevant than their academic qualification.

Notes: Institutions are asked to decide for themselves whether the qualifications of a staff member are "professional". Note that 'membership' of some professional institutions or bodies does not necessarily constitute a professional qualification, but this does not imply that institutions should exclude professional qualifications awarded by peer assessment rather than examination. This field is supplementary to field 17, Highest academic qualification.

At this stage, HESA is not in a position to collect the "academic" discipline of the professional qualification(s) held by a staff member.

Reason Required: To provide data about the qualifications of the HE academic workforce.

Knowledge Base

Should PGCE or BA with QTS count as a Professional Qualification? PGCE and BA with QTS can be counted as a professional qualifications in Field 19.

Field 19 does not link into Field 17, anyone can have a professional qualification and can be coded as such in Field 19.

(Advice given to enquirers, not formally released)

94021: Active in 1992 Research Assessment Exercise

Field Information

Number: 020
Name: Active in 1992 Research Assessment Exercise
Abbreviation: RESACT
Length: 1
Status: Compulsory.
Description: Active in 1992 Research Assessment Exercise indicates the state of the staff member's research activities in the most recent Research Assessment Exercise (RAE) which took place in 1992.

Institutions do NOT need to seek information from previous employers about the involvement of a member of staff in the most recent RAE.

This field will require updating (or possibly changing or duplicating) after the next RAE.

Notes: Code 1 includes both staff who were named directly in the RAE, and staff who were active but not at the time individually named in the RAE (for example, research assistants who were quantified in the RAE, but not individually named).

Codes 1, 2 and 3 relate to the current and previous institutions that an active researcher is/was employed in.

Reason Required: To monitor the change in research staff and their research activities.

Knowledge Base

Note: the Individualised Staff Record will not form the database for the Research Assessment Exercise 1996. The RAE is to be run jointly by the Funding Councils and DENI for the whole of the UK sector as a separate data collection exercise. Staff should be included in the RAE according to the RAE coverage instructions and not by reference to inclusion or otherwise in the HESA Individualised Staff Record. Enquiries concerning the RAE should be addressed to the Funding Councils and not to HESA.

Code 4 should be used for those members of staff who were not employed in higher education at the time of the 1992 RAE.

(Guidance in Circular 95/02)
Valid Entries

1. Research active (and returned by the reporting institution) in most recent RAE.
2. Employed by the reporting institution and not active in most recent RAE.
3. Not employed by the reporting institution at time of the most recent RAE, but known to have been returned as an 'active researcher' then.
4. Not employed by the reporting institution at the time of the most recent RAE, but known NOT to have been returned as an 'active researcher' then.
   Not employed by the reporting institution at the time of the most recent RAE, and not known whether or not this member of staff was returned as an 'active researcher' then.
5. Not known.
94021: Ability to teach through the medium of Welsh

Field Information

Number: 021

Name: Ability to teach through the medium of Welsh

Abbreviation: ABLWELSH

Length: 1

Status: Compulsory for all institutions funded by HEFCW.

Description: The Ability to teach through the medium of Welsh field will be used to indicate the proportion of staff that are able to teach through the medium of Welsh.

Notes: This field should be left blank for all institutions not funded by HEFCW. Institutions should refer to the HEFCW for any guidance about the completion of this field.

Welsh institutions at present not collecting this data are required to complete this field in 1994-95 (using code 9). A full return will be required for 1995-96 and later.

Reason Required: To monitor the level of potential provision available through the medium of Welsh.

Knowledge Base

This field should be left blank for institutions in England, Scotland or Northern Ireland.

(Guidance in Circular 95/02)

Valid Entries

1 Able to teach through the medium of Welsh.
2 Not able to teach through the medium of Welsh.
9 Information not yet sought.
94021: Teaching through the medium of Welsh

Field Information

Number: 022

Name: Teaching through the medium of Welsh

Abbreviation: TCHWLH

Length: 1

Status: Compulsory for all institutions funded by HEFCW.

Description: The Teaching through the medium of Welsh field will be used to indicate the proportion of staff that are teaching through the medium of Welsh.

Notes: This field should be left blank for all institutions not funded by HEFCW. Institutions should refer to the HEFCW for any guidance about the completion of this field.

Welsh institutions at present not collecting this data are required to complete this field in 1994-95 (using code 9). A full return will be required for 1995-96 and later.

Reason Required: To monitor the level of provision available in the medium of Welsh.

Knowledge Base

This field should be left blank for institutions in England, Scotland or Northern Ireland.

(Guidance in Circular 95/02)

Valid Entries

1 Teaching through the medium of Welsh.
2 Not teaching through the medium of Welsh.
9 Information not yet sought.
94021: Clinical status

Field Information

Number: 023
Name: Clinical status
Abbreviation: CLINSTAT
Length: 1
Status: Compulsory.

Description: The Clinical status field indicates the clinical/non-clinical status of the member of staff.

Further definition of this field may be required, and may be communicated in a supplement to this manual.

Notes: The term medically qualified relates only to doctors and dentists and not to qualified nurses.
‘Clinical rates’ do not include pre-clinical rates. (Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)
For the development of curriculum and joint working plans for delivery of undergraduate medical/dental education with health authorities and trusts.

Reason Required:
For assisting with staff loadings in HEIs with Medical/Dental schools.
For linking with the finance record.

Knowledge Base

What is the definition of medically qualified? The definition of medically qualified is that the staff member is a qualified Doctor or Dentist, it does not include qualified nurses.

Valid Entries

1 Staff not on clinical rates (and not medically qualified).
2 Staff not on clinical rates (although medically qualified).
3 Staff on clinical rates not holding honorary contracts with the NHS.
4 Staff on clinical rates holding honorary contracts with the NHS.
94021: NHS joint appointments

Field Information

Number: 024

Name: NHS joint appointments

Abbreviation: NHSJOINT

Length: 1

Status: Compulsory.

Description: The NHS joint appointments field indicates if a staff member is appointed under the A + B arrangements.

Notes: It should be noted that arrangements with schools of nursing should be excluded.

Further definition of this field may be required and may be communicated in a supplement to this manual.

Reason Required:

For the development of curriculum and joint working plans for delivery of undergraduate medical/dental education with health authorities and trusts.

For linking with the finance record.

Knowledge Base

Institutional/NHS joint appointments, usually referred to by the term A+B appointments, are where the member of staff holds two contracts of employment: one as a part-time senior lecturer with the HE institution, and one as a part-time consultant with an NHS authority. If one contract ends, the other automatically fails. The two appointments together usually constitute full-time employment. Code 2 'NHS joint appointment (A + B appointment)' is limited, therefore, to members of staff holding two such contracts. The main point for the Staff Return is that such staff are part-time employees. NHS consultant appointments do not fall within the scope of the return and institutions should show only the part-time institutional appointment.

Code 1, 'Not an NHS joint appointment', should be used for all other staff. This will include those members of the institution's staff holding honorary consultant contracts. The fact that some of these appointments may be financed wholly or partly from NHS funds does not make them 'joint appointments'.

(Guidance in Circular 95/02)

Valid Entries
1. Not an NHS joint appointment.
2. NHS joint appointment (A + B appointment)
94021: Grade structure

Field Information

Number: 025
Name: Grade structure
Abbreviation: GRADE
Length: 2
Status: Compulsory.

Description: The Grade structure indicates the staff member's grade for their present employment.

Notes: This field should show the grade structure at the return date or date of leaving if earlier. If a member is on related PCEF, UAP or CSCFC grade structures but not on a specified salary point or grade, e.g. members of staff on off-scale points, they should be returned as codes 29, 59 or 65. (Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

Reason Required: For profiling staff levels and career patterns.
For publications of statistics.

Knowledge Base

Code 34, 'Professor (UAP scale)' - it is recognised that there is not a scale for UAP Professors. This code should be used for all professors paid upwards from the UAP professorial minimum and awarded UAP nationally agreed settlements.

(Guidance in Circular 95/02)

Valid Entries

01 Lecturer (PCEF scale).
02 Senior lecturer (PCEF scale).
03 Principal lecturer (PCEF scale).
04 Head of department (PCEF scale).
05 Researcher A (PCEF scale).
06 Researcher B (PCEF scale).
29 Other PCEF.
31 Lecturer A (UAP scale).
32 Lecturer B (UAP scale).
33 Senior lecturer (UAP scale).
34 Professor (UAP minimum).
35 Research grade IB (UAP scale).
36 Research grade IA (UAP scale).
37 Research grade II (UAP scale).
38 Research grade III (UAP scale).
39 Research grade IV (UAP scale).
40 Clinical lecturer
41 Clinical senior lecturer
42 Clinical professor
59 Other UAP
61 Lecturer (CSCFC scale)
62 Senior lecturer (CSCFC scale)
63 Professor/Head of Department (CSCFC scale)
64 Researcher (CSCFC scale)
65 Other CSCFC
71 Locally determined scale - Professor
72 Locally determined scale - Senior/Principal Lecturer
73 Locally determined scale - Lecturer
74 Locally determined scale - Researcher
99 Other.
**94021: Principal source of \{i (basic)\} salary**

**Field Information**

- **Number:** 026
- **Name:** Principal source of \{i (basic)\} salary
- **Abbreviation:** PSOS
- **Length:** 2
- **Status:** Compulsory.

**Description:** The Principal source of \{i (basic)\} salary will be used to indicate staff having salaries wholly or in part from funds other than general funds.

This will be the principle source of salary for the appointment detailed in the record.

**Notes:**
- Code 02 should be used if there is a 50:50 split and one of the sources is 'financed by the institution.'
- Monies received from Local Authorities should be included in code 05.
- Continuing grants from SERC and ARFC should be included in code 19.
- Monies received from a UK branch of a multi-national company should be included in code 22.
- Code 26 is for European Commission only funded.
- Codes 31-35 'oversea' does include countries within the European Community. (Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

**Example:** A lecturer who is paid 70% through general institution funds and 30% through NHS funds would be coded 02 here, whereas code 03 would apply if paid 70% from NHS funds and 30% from general institution funds.

**Reason Required:** For linkage with the Finance statistics return.

**Knowledge Base**

How should salaries paid by Local Authorities be coded? Monies received from Local Authorities should be included in code 05.

(Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

How should SERC and AFRC grants be coded? Continuing grants from SERC and AFRC should be included in code 19.

(Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)
How should money from a multi-national company be coded? Monies from a UK branch of a multi-national company should be included in code 22 'UK private industry/commerce'.

(Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

What should be included in code 26 'EU Commission (EC) funded'? Code 26 is for European Commission only funded.

(Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

Does codes 31 - 35 include European Countries? Codes 31 -35, 'overseas' does include countries within the European Community.

(Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

It has been agreed that these fields should apply to basic salary only. This guidance replaces that given for field 27 in the Staff Record Coding Manual Supplement November 1994. The split of salary may be 30% institution and 70% 'income', for example with the use of Service Level Agreements with NHS Trusts. 'Income' may be regarded as 'wholly general institution financed', where the source of income is not identifiable to a particular individual. Treatment should be consistent with that within the Finance return.

(Guidance in Circular 95/02)

**Valid Entries**

01 Wholly general institution financed.
02 Partly (but principally) financed by the institution
03 Health departments and authorities including hospital trusts/Department of Health
04 Departments of Social Security.
05 Other HM government departments/Local Education Authorities/Regional development councils
06 British Council.
07 British Academy.
08 Royal Society.
11 Research Council - BBSRC.
12 Research Council - MRC.
13 Research Council - NERC.
14 Research Council - EPSRC.
15 Research Council - ESRC.
16 Research Council - PPARC.
19 Research Council - not specified.
21 UK public corporation/nationalised industry.
22 UK private industry/commerce.
23 UK charity (medical).
24 UK charity (other).
25 Uk foundation.
26 EU commission (EC) funded.

94021: Proportion of \(i\) (basic) salary charged against general income

Field Information

Number: 027
Name: Proportion of \(i\) (basic) salary charged against general income
Abbreviation: PSCAGI
Length: 5
Status: Compulsory.

Description: The Proportion of \(i\) (basic) salary charged against general income field gives the proportion of the salary paid in respect of institution duties which is chargeable to general income.

Staff whose salaries are not chargeable at all to general funds will be coded 0.

For all values except 100.0 there must be entries other than code 01, Wholly general institution financed for field 26, Principal source of \(i\) (basic) salary and a code other than 01 in field 28, Secondary source of \(i\) (basic) salary.

Notes: This should be the proportion of the basic salary, charged against general income. Charged against general income should be consistent with chargeable to general institution income as defined for the Finance return and is assumed to include all appointments not funded from sources 03-41 in fields 26 and 28. The proportion of salary charged against general income should be given regardless of whether this is the principle source of salary or not. Staff whose salaries are not chargeable at all to general funds should be coded 000.0. (Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

Reason Required: For linkage with the Finance statistics return.

Knowledge Base

It has been agreed that these fields should apply to basic salary only. This guidance replaces that given for field 27 in the Staff Record Coding Manual Supplement November 1994. The split of salary may be 30% institution and 70% 'income', for example with the use of Service Level Agreements with NHS Trusts. 'Income' may be regarded as 'wholly general institution financed', where the source of income is not identifiable to a particular individual. Treatment should be consistent with that within the Finance return.

(Guidance in Circular 95/02)
Valid Entries

A percentage in the range 000.0 to 100.0. Please see the 'Notes of Guidance' for a description of the format.
94021: Secondary source of \{i (basic)\} salary

Field Information

Number: 028

Name: Secondary source of \{i (basic)\} salary

Abbreviation: SSOS

Length: 2

Status: Compulsory.

Description: The Secondary source of \{i (basic)\} salary identifies if a staff member has their salary paid wholly or in part from 2 (or more) sources, and relates to the second highest proportion of the staff member's salary.

Notes:

Reason Required: For linkage with the Finance statistics return.

Knowledge Base

It has been agreed that these fields should apply to basic salary only. This guidance replaces that given for field 27 in the Staff Record Coding Manual Supplement November 1994. The split of salary may be 30% institution and 70% 'income', for example with the use of Service Level Agreements with NHS Trusts. 'Income' may be regarded as 'wholly general institution financed', where the source of income is not identifiable to a particular individual. Treatment should be consistent with that within the Finance return.

(Guidance in Circular 95/02)

Valid Entries

01 No secondary source.
02 Partly (not mainly) financed from general institution funds.
03 Health departments and authorities including hospital trusts/Department of Health.
04 Departments of Social Security.
05 Other HM government departments/Local Education Authorities/Regional development councils.
06 British Council.

32 Overseas private industry/commerce.
33 Overseas charity.
34 Overseas foundation.
35 Overseas government or educational body.
41 Other.
94021: Salary point

Field Information

Number: 029

Name: Salary point

Abbreviation: SALPOINT

Length: 2

Status: Compulsory in cases where a spinal structure exists.

Description: The Salary point is a numeric representation of the salary point within a national grading structure.

If the staff member is not employed on a grade structure, (code 99 in field 25), then this field should be returned as 00.

The salary point will be the one relating to the staff member as at the record date of 31 July. If the staff member is no longer a member of the academic staff, then the salary point should be given as at the date the academic staff member moves off the HESA record.

Notes: If a member of staff is on a national grade structure and their salary point is above the highest point for their grade, but relates to a spinal point of a higher grade within the spinal structure, then the corresponding higher point should be returned. If a member of staff is between two salary points on a national grade structure, then the USR practice of rounding down should be used. In all other cases, if the staff member is not employed on a recognised salary point of a national grade structure, then this field should be returned as 00. (Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

Reason Required: For staff profiling and tracking career histories.

Knowledge Base

If a member of staff is not employed on a recognised salary point of one of the national grade structures identified in field 25 (for example, those coded 29, 34, 59, 65, 71, 72, 73, 74 or 99 in field 25) then field 29 should be returned as '00'.

Where a part-time member of staff has a salary which is a fraction of a scale point, then that scale point should be returned. For example, a lecturer on 50% of point 10 on a lecturer scale would be recorded as '10' in field 29, 'Salary point'.

(Guidance in Circular 95/02)
Valid Entries

A 2 digit number relating to a current spinal point where these exist within the grade structure in field 25, [Grade structure](#).
94021: Current salary at reference date

Field Information

Number: 030

Name: Current salary at reference date

Abbreviation: SALARY

Length: 6

Status: Compulsory.

Description: The Current salary at reference date is to be shown in £s per annum, in six digits. Comma delimiters should be excluded.

The Current salary at reference date will be the monies received in respect of institutional duties actually being paid as at 31 July (or in the case of staff who have left the institution during the academic/financial year, the salary on leaving). This should include any payments for additional duties, responsibility allowances or honoraria, regardless of their source. Subsequent back-dated pay awards will be excluded.

Salaries returned to HESA should be correct to the nearest £1 for HESA's use. Leading zeros should be returned.

Notes: For the purposes of disseminating information required by third party statutory customers, information will only be released in bandings of no less than £5000 up to £50000 with one band for over £50000.

This field should show all salary, not just basic salary, paid in respect of institutional duties for the appointment detailed in the record. Consultative work undertaken outside of institutional duties should not be included. Merit payments made by the institution should be included but in cases where the institution acts solely as a payment agency to process payments from another body, these should be excluded.

In the case of a staff member who leaves half way through a year, the annual salary which they would have received had they stayed all year should be returned. (Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

Reason Required: To monitor the remuneration of the higher education academic workforce.

Knowledge Base

Institutions have asked for guidance on what additional payments to basic salary should be included in this field. The guidance from statutory customers is that all regular payments paid
to the member of staff should be included. This should include London Weightings and Performance Related Pay and regularly paid allowances for additional duties, regardless of their type or the source of the payment (for example, supervision fees, honorarium, discretionary awards built into normal pay, first aid allowances). One-off payments, for example a merit award or payment for consultancy work, are not included. Payments for consultancy work will therefore be included if they are built into regular pay, but will otherwise be excluded. The emphasis is on the total regular income of the member of staff.

Statutory Customers have agreed that in many cases an acceptable approximation for calculating this field would be to multiply the July salary by 12. Should the July salary be significantly distorted for any reason, for example by back payments, another method or month should be selected.

(Guidance in Circular 95/02)

Valid Entries

A six digit number.
94021: Employment in previous year

Field Information

Number: 031

Name: Employment in previous year

Abbreviation: EMPPREYR

Length: 2

Status: Compulsory.

Description: The Employment in previous year will be used to record the nature of employment of the member of staff within the previous year.

Staff who have transferred from an immediately previous post within another UK HE institution will be coded 02.

Where it appears that two codes are equally applicable, the nearest to 00 should be given.

HESA recognises that the distinction between code 00 and code 01 will not be meaningful until 1995-96 and in 1994-95 will merge the codes for the purpose of analysis.

Institutions may use code 09 'Other employment in UK' if codes 00-08 are not applicable for someone with previous employment within the UK.

Code 09 is a new valid entry. (Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

"EU" here should be taken to be members of the European Union excluding the UK.

Reason Required: To enable information to be provided about cross-fertilisation between HE and other areas of employment and the migration of academic staff to and from the UK.

Knowledge Base

For a member of staff employed by the institution prior to 01 August 1994, the commencement of the HESA reporting year, field 31, 'Employment in previous year' will be 'Current institution'. HESA recognises that the distinction between code 00 and code 01 will not be meaningful until 1995-96, and in 1994-95 will merge the codes for the purpose of analysis.

(Advice given over Admin-HESA July 1994 and Guidance in Circular 95/02)

94021: Date left reporting HEI

Field Information

Number: 032
Name: Date left reporting HEI
Abbreviation: DATELHEI
Length: 10
Status: Compulsory in respect of staff who have left the institution in the academic/financial year 1 August to 31 July.
Description: The Date left reporting HEI should be shown as the date in respect of which the last salary payment was made.
Notes: A staff member retiring prematurely and receiving a pension is regarded as a leaver and should be recorded as retiring, code 42 in field 33, unless they are immediately re-employed in academic institutional service at a level which justifies inclusion in the record.
Reason Required: To terminate an individual's inclusion in the HESA Staff Record.

Knowledge Base

In Field 32 'Date left,' should be completed for members of staff leaving the record (because they have left a HESA-returnable appointment. This will not necessarily mean that the member of staff has left the institution). For other members of staff this field should be left blank.

(Guidance in Circular 95/02)

Valid Entries

If the return is in a database format such as FoxPro, the 'date' type will be acceptable. If returned in ASCII, comma delimited format valid entry patterns are: DD/MM/YYYY, DD-MM-YYYY or YYYYMMDD.
94021: Destination on leaving

Field Information

Number: 033

Name: Destination on leaving

Abbreviation: DEST

Length: 2

Status: Compulsory.

Description: The Destination on leaving denotes the destination of the member of staff after leaving the employment of the institution.

A staff member retiring prematurely and receiving a pension is regarded as a leaver and should be recorded as retiring unless he/she is immediately re-employed in institutional service, at a level which justifies inclusion in the record.

Where it appears that two codes are equally applicable, the nearest to 00 should be given.

"EU" here should be taken to be members of the European Union excluding the UK.

Notes:

Code 00 indicates that the member of staff is still employed at the H.E.I. above the record inclusion threshold of 25% academic FTE year.

Code 01 indicates that the member of staff is still employed at the H.E.I. but has now fallen below the record inclusion threshold of 25% academic FTE year. (Only a small subset of the fields will be required in cases where this code is used). In these cases, the staff member will not then require an individualised record to be returned for subsequent academic/financial years, unless their academic input reverts to being above the inclusion threshold.

Fields 32 and 63 are required for members of staff who leave a HESA-returnable appointment. This will not necessarily mean that the member of staff has left the institution. (Guidance in Staff Record Individualised Return Coding Manual Supplement November 1994)

Reason Required: To enable information to be provided about cross-fertilisation between HE and other areas of employment and the migration of academic staff to and from the UK.

Knowledge Base
In Field 33 'Destination on leaving,' code 00, 'Current institution - included in the record,' is the default code to be used for all members of staff who have not left the record. Code 01, 'Current institution - new post not included in record,' is the code to be used in cases where the member of staff has left a HESA returnable appointment but is still employed by the institution in a non-HESA returnable capacity.

94021: Appointment identifier

Field Information

Number: 034

Name: Appointment identifier

Abbreviation: APPCONT

Length: 1

Status: Optional

Description:

For institutions returning multiple appointment records for the same member of staff, there is an option to return an appointment identifier as the last field of the record.

(Institutions not wishing to adopt this option do not need to change their record structure and length and should continue to conclude the record after field 33.) The appointment identifier should be unique for each appointment and be chosen from the range 1 - 9. The identifier will be used to distinguish between different appointments, but will not be taken as implying any ordering between the appointments.
