

Field Description	Field Abbreviation	Field Length	Field Type	Field Version
Staff contract session poulation	XPSESC01	1	Char	3.1.2

VALID ENTRIES

0	Contract not counted within session population
1	Contract counted within session population

ADDITIONAL INFORMATION

To enable analysis of contracts that are active during the reporting period. Atypical staff contracts are counted in this population.

The HESA staff contract session population is an indicator of those contracts that are active during the reporting period.

The HESA staff contract session population is only used in analyses of staff cost centre activity, or when summing full-time equivalents (CONFTE) from the contract table.

DEPENDENT FIELDS
