

Field Description	Field Abbreviation	Field Length	Field Type	Field Version
Priority SOC activity - person	XHSOCP01	1	Char	2.1.2

## VALID ENTRIES

W	Person record with academic health related activity
X	Person record with academic (excluding health related) activity
Y	Person record with SOC activity code 1, 2B, 3A, 3B or 3C
Z	Person record with SOC activity code 4A, 4B, 5, 6, 7, 8 or 9
0	Person not active in reporting period
1	Person record with SOC activity code not known

## ADDITIONAL INFORMATION

On the contract record, the priority SOC activity code allocates each contract record to a priority SOC group. Each contract record is allocated a single value, so if a contract record has more than one activity code (i.e. ACT2 and/or ACT3 have also been used) the contract will be assigned the value in CON.XHSOCC01 relevant to the priority SOC code used in those fields.

Linking the person record to all related active (CONFTE <> 000.0) contract records the priority CON.XHSOCC01 is allocated to XHSOCP01 to determine the 'highest' level of SOC activity being undertaken by the person.

Atypical staff use the default '99991231' for start and end contract dates.

### DEFINITION

Y1 means 2003 and Y1+1 means 2004 for the 2003/04 reporting period.

## DEPENDENT FIELDS

none

## TECHNICAL SPECIFICATION

### (Work from the top down)

If all the contract records relating to a person has CON.XHSOCC01 = 0 then XHSOCP01 = 0

**else**

if any of the contract records has CON.XHSOCC01=W then XHSOCP01=W

**else**

if any of the contract records has CON.XHSOCC01=X then XHSOCP01=X

**else**

if any of the contract records has CON.XHSOCC01=Y then XHSOCP01=Y

**else**

if any of the contract records has CON.XHSOCC01=Z then XHSOCP01=Z

**else**

if any of the contract records has CON.XHSOCC01=1 then XHSOCP01=1
